Intesa Sanpaolo S.p.A.

(incorporated as a joint stock company under the laws of the Republic of Italy)

Euro 20,000,000,000 Covered Bond (*Obbligazioni Bancarie Garantite*) Programme

unsecured and unconditionally and irrevocably guaranteed as to payments of interest and principal by

ISP CB Pubblico S.r.l.

(incorporated as a limited liability company under the laws of the Republic of Italy)

The Euro 20,000,000,000 Covered Bond (*Obbligazioni Bancarie Garantite*) Programme (the “**Programme**”) described in this base prospectus (the “**Base Prospectus**”) has been established by Intesa Sanpaolo S.p.A. (in its capacity as issuer of the Covered Bonds, as herein defined below, “**Intesa Sanpaolo**” or the “**Issuer**”) for the issuance of *obbligazioni bancarie garantite* (“**Covered Bonds**” which term includes, for avoidance of doubt the Registered Covered Bonds as defined below) guaranteed by ISP CB Pubblico S.r.l. pursuant to Article 7-bis of Law no. 130 of 30 April 1999 (as subsequently amended, the “**Law 130**”) and regulated by the Decree of the Ministry of Economy and Finance no. 310 of 14 December 2006 (the “**MEF Decree**”) and the supervisory instructions of the Bank of Italy relating to covered bonds under Part III, Chapter 3, of the circular no. 285 of 17 December 2013, containing the “*Disposizioni di vigilanza per le banche*” as further implemented and amended (the “**BoI OBG Regulations**”).

ISP CB Pubblico S.r.l. (the “**Covered Bonds Guarantor**”) issued a first demand (*a prima richiesta*), autonomous, unconditional and irrevocable (*irrevocabile*) guarantee (*garanzia autonoma*) securing the payment obligations of the Issuer under the Covered Bonds (the “**Covered Bonds Guarantee**”), in accordance with the provisions of Law 130 and of the MEF Decree. The obligation of payment under the Covered Bonds Guarantee shall be limited recourse to the Portfolio and the Available Funds (as defined herein).

This Base Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* (the **CSSF**) in its capacity as competent authority under the Luxembourg Act dated 10 July 2005 on prospectuses for securities, as amended, (the “**Prospectus Act 2005**”) to approve this document as a base prospectus. The CSSF assumes no responsibility for the economic and financial soundness of the transactions contemplated by this Base Prospectus or the quality or solvency of the Issuer in accordance with Article 7(7) of the Prospectus Act 2005.

This Base Prospectus constitutes a base prospectus for the purposes of Article 5.4 of Directive 2003/71/EC as amended (which includes the amendments made by Directive 2010/73/EC (the “**2010 Amending Directive**”) to the extent that such amendments have been implemented in a relevant Member State of the European Economic Area) (the “**Prospectus Directive**”).

Capitalised terms used in this Base Prospectus shall have the meaning ascribed to them in the “*Glossary*” included herein, unless otherwise defined in the single section of this Base Prospectus in which they are used.

Where Covered Bonds (other than Registered Covered Bonds) issued under the Programme are admitted to trading on a regulated market within the European Economic Area or offered to the public in a Member State of the European Economic Area in circumstances which require the publication of a prospectus under the Prospectus Directive, such Covered Bonds will not have a denomination of less than Euro

100,000 (or, where the Covered Bonds are issued in a currency other than euro, the equivalent amount in such other currency).

Under the Programme, the Issuer may issue Covered Bonds denominated in any currencies, including Euro, US Dollar, Japanese Yen, Swiss Franc and UK Sterling. Interest on the Covered Bonds shall accrue monthly, quarterly, semi-annually, annually or on such other basis as specified in the relevant Final Terms (as defined in the “*Terms and Conditions of the Covered Bonds*” below), in arrear at fixed or floating rate, increased or decreased by a margin. The Issuer may also issue Covered Bonds at a discounted price with no interest accruing and repayable at nominal value (zero-coupon Covered Bonds).

The terms of each Series will be set forth in the Final Terms relating to such Series prepared in accordance with the provisions of this Base Prospectus and, if listed, to be delivered to the CSSF and the Luxembourg Stock Exchange on or before the date of issue of such Series.

Application has been made for Covered Bonds (other than Registered Covered Bonds) to be admitted during the period of 12 months from the date of this Base Prospectus to listing on the official list and trading on the regulated market of the Luxembourg Stock Exchange, which is a regulated market for the purposes of Directive 2004/39/EC. In addition, the Issuer and each Relevant Dealer (as defined in the “*Terms and Conditions of the Covered Bonds*”) named under “*Subscription and Sale*” may agree to make an application to list a Series on any other stock exchange as specified in the relevant Final Terms. The Programme also permits Covered Bonds to be issued on an unlisted basis.

Covered bonds may be issued in dematerialised form or in registered form also as German governed registered covered bonds (*Gedekte Namensschuldverschreibung*) (the “**Registered Covered Bonds**”). The terms and conditions of the Registered Covered Bonds (the “**Registered Covered Bond Conditions**”), which will differ from the terms and conditions set out in the section headed “**Terms and Conditions of the Covered Bonds**”, will specify the minimum denomination for Registered Covered Bonds, which might not be listed. This Base Prospectus does not relate to the Registered Covered Bonds, which may be issued by the Issuer under the Programme pursuant to either separate documentation or the documents described in this Base Prospectus after having made the necessary amendments. **The approval of this Base Prospectus by the CSSF does not cover any Registered Covered Bonds which may be issued by the Issuer under the Programme.**

The Covered Bonds issued in dematerialised form to be issued on or after the date hereof will be held on behalf of their ultimate owners, until redemption or cancellation thereof, by Monte Titoli S.p.A. (“**Monte Titoli**”) for the account of the relevant Monte Titoli Account Holders. The expression “**Monte Titoli Account Holders**” means any authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli and includes any depositary banks appointed by Euroclear Bank S.A. / N.V. as operator of the Euroclear System (“**Euroclear**”) and Clearstream Banking, *société anonyme*, Luxembourg (“**Clearstream**”). Each Series of Covered Bonds issued in dematerialised form is and will be deposited with Monte Titoli on the relevant Issue Date (as defined in the “*Terms and Conditions of the Covered Bonds*” below). Monte Titoli shall act as depositary for Clearstream and Euroclear. The Covered Bonds will at all times be held in book entry form and title to the Covered Bonds will be evidenced by book entries in accordance with the provisions of Italian Legislative Decree no. 58 of 24 February 1998 (“**Financial Law**”) and implementing regulation and with the joint regulation of the *Commissione Nazionale per le Società e la Borsa* (“**CONSOB**”) and the Bank of Italy dated 22 February 2008 and published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) No. 54 of 4 March 2008, as subsequently amended and supplemented. No physical document of title is and will be issued in respect of the Covered Bonds.

Before the Maturity Date the Covered Bonds will be subject to mandatory and optional redemption in whole or in part in certain circumstances, as set out in Condition 8 (*Redemption and Purchase*).

Each Series may, upon the relevant issue, be assigned a rating as specified in the relevant Final Terms by Moody’s Investors Service Ltd. (“**Moody’s**” or the “**Rating Agency**”) and/or any other rating agency

which may be appointed from time to time by the Issuer in relation to any issuance of Covered Bonds or for the remaining duration of the Programme, to the extent that any of them at the relevant time provides ratings in respect of any series of Covered Bonds. Conditions precedent to the issuance of any Series include that the rating letter assigning the rating to such Series of Covered Bonds is issued by the Rating Agency. Whether or not each credit rating applied for in relation to relevant Series of Covered Bonds will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) no. 1060/2009, as amended by Regulation (EU) no. 513/2011 and Regulation (EU) no. 462/2013 (the "**CRA Regulation**") will be disclosed in the Final Terms. The credit ratings included or referred to in this Base Prospectus have been issued by the Rating Agency, which is established in the European Union and is registered under the CRA Regulation. As such Moody's is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs>, in accordance with such Regulation. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation.

A credit rating is not a recommendation to buy, sell or hold Covered Bonds and may be subject to revision or withdrawal by the Rating Agency.

For a discussion of certain risks and other factors that should be considered in connection with an investment in the Covered Bonds, see the section entitled "*Risk Factors*" of this Base Prospectus.

STRUCTURE OVERVIEW

RISK FACTORS

In purchasing Covered Bonds, investors assume the risk that the Issuer and the Covered Bonds Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Covered Bonds. There is a wide range of factors which individually or together could result in the Issuer and the Covered Bonds Guarantor becoming unable to make all payments due in respect of the Covered Bonds. It is not possible to identify all such factors or to determine which factors are most likely to occur, as they may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's and the Covered Bonds Guarantor's control. The Issuer and the Covered Bonds Guarantor have identified in this Base Prospectus a number of factors which could materially adversely affect their businesses and ability to make payments due under the Covered Bonds.

In addition, factors which are material for the purpose of assessing the market risks associated with the Covered Bonds issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision.

1. GENERAL INVESTMENT CONSIDERATIONS

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

Obligations to make payments when due on the Covered Bonds

The Issuer is liable to make payments when due on the Covered Bonds. The obligations of the Issuer under the Covered Bonds are direct, unsecured, unconditional and unsubordinated obligations, ranking *pari passu* without any preference amongst themselves and equally with its other direct, unsecured, unconditional and unsubordinated obligations. Consequently, any claim directly against the Issuer in respect of the Covered Bonds will not benefit from any security or other preferential arrangement granted by the Issuer. The Covered Bonds Guarantor has no obligation to pay the Guaranteed Amounts payable under the Covered Bonds Guarantee until the service on the Covered Bonds Guarantor of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay. Failure by the Covered Bonds Guarantor to pay amounts due under the Covered Bonds Guarantee in respect of any Series or Tranche would constitute a Covered Bonds Guarantor Event of Default which would entitle the Representative of the Covered Bondholders to serve a Covered Bonds Guarantor Acceleration Notice and accelerate the obligations of the Covered Bonds Guarantor under the Covered Bonds Guarantee and entitle the Representative of the Covered Bondholders to enforce the Covered Bonds Guarantee. The occurrence of an Issuer Event of Default does not constitute a Covered Bonds Guarantor Event of Default.

The Covered Bonds will not represent an obligation or be the responsibility of any of the Dealers, the Arranger, the Representative of the Covered Bondholders or any other party to the Transaction Documents, their officers, members, directors, employees, security holders or incorporators, other than the Issuer and, upon service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, the Covered Bonds Guarantor. The Issuer and the Covered Bonds Guarantor will be liable solely in their corporate capacity and, as to the Covered Bonds Guarantor, limited recourse to the Available Funds, for their obligations in respect of the Covered Bonds and such obligations will not be the obligations of their respective officers, members, directors, employees, security holders or incorporators.

The secondary market generally

Covered Bonds may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Covered Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Covered Bonds that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment requirements of limited categories of investors. These types of Covered Bonds generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Covered Bonds. In addition, Covered Bonds issued under the Programme might not be rated or listed on a stock exchange or regulated market and, in these circumstances, pricing information may be more difficult to obtain and the liquidity and market prices of such Covered Bonds may be adversely affected. In an illiquid market, an investor might not be able to sell his Covered Bonds at any time at fair market prices. The possibility to sell the Covered Bonds might additionally be restricted by country specific reasons.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Covered Bonds in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (i) the Investor's Currency-equivalent yield on the Covered Bonds, (ii) the Investor's Currency equivalent value of the principal payable on the Covered Bonds and (iii) the Investor's Currency equivalent market value of the Covered Bonds. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Covered Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Covered Bonds.

Rating of the Covered Bonds

The rating assigned to the Covered Bonds address, *inter alia*:

- the likelihood of full and timely payment to Covered Bondholders of all payments of interest on each CB Payment Date;
- the likelihood of timely payment of principal in relation to the Hard Bullet Covered Bonds on the Maturity Date; and
- the likelihood of ultimate payment of principal in relation to Covered Bonds on (a) the Maturity Date thereof, or (b) if the Covered Bonds are subject to an Extended Maturity Date in accordance with the applicable Final Terms, the Extended Maturity Date thereof.

Whether or not a rating in relation to any Series of Covered Bonds will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the relevant Final Terms. The credit ratings included or referred to in this Base Prospectus have

been issued by Moody's Investors Service Ltd. which is established in the European Union and is registered under the CRA Regulation. As such Moody's Investors Service Ltd. is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website <http://www.esma.europa.eu/page/List-registered-and-certified-CRAs> in accordance with such Regulation. In general, European regulated investors are restricted under the CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). Certain information with respect to the credit rating agencies and ratings will be disclosed in the Final Terms.

The expected rating of the Covered Bonds is set out in the relevant Final Terms for each Series of Covered Bonds. The Rating Agency may lower its ratings or withdraw its rating if, in its sole judgement, the credit quality of the Issuer or the Covered Bonds has declined or is in question, and the Issuer has not undertaken to maintain a rating. In addition, at any time the Rating Agency may revise its relevant rating methodology with the result that, amongst other things, any rating assigned to the Covered Bonds may be lowered. If any rating assigned to the Covered Bonds is lowered or withdrawn, the market value of the Covered Bonds may reduce.

A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency. The ratings may not reflect the potential impact of all risks related to structure, market, additional factors discussed above and other factors that may affect the value of the Covered Bonds.

The return on an investment in Covered Bonds will be affected by charges incurred by investors

An investor's total return on an investment in any Covered Bonds will be affected by the level of fees charged by the nominee service provider and/or clearing system used by the investor. Such a person or institution may charge fees for the opening and operation of one or more investment accounts, transfers of Covered Bonds, custody services and on payments of interest, principal and other amounts. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Covered Bonds. Certain information in that respect are available under the section headed "*General Information*".

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal and/or tax advisers to determine whether and to what extent (i) Covered Bonds are legal investments for it, (ii) Covered Bonds can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase or pledge of any Covered Bonds. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Covered Bonds under any applicable risk-based capital or similar rules.

Law 130

Law 130 was enacted in Italy in April 1999 and amended to allow for the issuance of covered bonds in 2005. Law 130 was further amended by Law Decree No. 145 of 23 December 2013 (*Decreto Destinazione Italia*) as converted with amendments into Law n. 9 of 21 February 2014 (the "**Destinazione Italia Decree**") and by Law Decree No. 91 of 24 June 2014 (*Decreto Competitività*) as converted with amendments into Law No. 116 of 11 August 2014 ("**Law Decree 91**"). As at the date of this Base Prospectus, no interpretation of the application of Law 130 as it relates to covered bonds has been issued by any Italian court or governmental or regulatory authority, except for (i) the MEF Decree setting out the technical requirements of the guarantee which may be given in respect of

covered bonds, (ii) the BoI OBG Regulations concerning guidelines on the valuation of assets, the procedure for purchasing integration assets and controls required to ensure compliance with the legislation, and (iii) the clarifications, provided for by the Bank of Italy, to certain queries concerning the OBG Regulations submitted to the such authority by Italian banks and the Italian Banking Association (*Associazione Bancaria Italiana*). Consequently, it is possible that such or different authorities may issue further regulations relating to Law 130 or the interpretation thereof, the impact of which cannot be predicted by the Issuer as at the date of this Base Prospectus.

Change of law

The structure of the Programme and, *inter alia*, the issue of the Covered Bonds and the rating assigned to the Covered Bonds are based on the relevant law, tax and administrative practice in effect at the date of this Base Prospectus, and having due regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given as to the impact of any possible change to the law (including any change in regulation which may occur without a change in primary legislation), tax or administrative practice or its interpretation will not change after the Issue Date of any Series or that such change will not adversely impact the structure of the Programme and the treatment of the Covered Bonds. This Base Prospectus will not be updated to reflect any such changes or events.

2. RISK FACTORS RELATING TO THE ISSUER

Risk management

The Intesa Sanpaolo Group is subject to risks that are an inherent part of its business activity. These risks include credit risk, country risk, market risk, liquidity risk and operational risk, as well as business risk and risks specific to our insurance business. The Intesa Sanpaolo Group's profitability depends on its ability to identify, measure and continuously monitor these risks. As described below, the Intesa Sanpaolo Group attaches great importance to risk management and control as conditions to ensure reliable and sustainable value creation in a context of controlled risk.

The risk management strategy aims to achieve a complete and consistent overview of risks, considering both the macroeconomic scenario and the Intesa Sanpaolo Group's risk profile, by applying a culture of risk-awareness and enhancing the transparent, accurate representation of the risk level of the Group's portfolios.

Risk-acceptance strategies are summarised in the Group's Risk Appetite Framework (RAF), approved by the Management Board and Supervisory Board. The RAF, introduced in 2011 to ensure that risk-acceptance activities remain in line with shareholders' expectations, is established by taking account of the Intesa Sanpaolo Group's risk position and the economic situation.

The general principles that govern the Group's risk-acceptance strategy may be summarised as follows:

- Intesa Sanpaolo is a banking group focused on a commercial business model in which domestic retail activity remains the Group's structural strength;
- the Group does not aim to eliminate risks, but rather attempts to understand and manage them so as to ensure an adequate return for the risks taken, while guaranteeing the Company's solidity and business continuity in the long term;
- Intesa Sanpaolo has a moderate risk profile in which capital adequacy, earnings stability, a sound liquidity position and a strong reputation are the key factors to protecting its current and prospective profitability;
- Intesa Sanpaolo aims for a capitalisation level in line with its main European peers (on average with ratings higher than those of the Italian government);

- Intesa Sanpaolo intends to maintain strong management of the main specific risks (not necessarily associated with macroeconomic shocks) to which the Group may be exposed;
- the Group attaches great importance to compliance and reputation risks: for compliance risk, the Group aims to formal and substantive compliance with rules in order to avoid penalties and maintain a solid relationship of trust with all of its stakeholders and customers. For reputation risk, the Intesa Sanpaolo Group strives to actively manage its image in the eyes of all stakeholders and aims to prevent and contain any negative effects on said image.

The definition of the Risk Appetite Framework and the resulting operating limits for the main specific risks, the use of risk measurement instruments in loan management processes and controlling operational risk and the use of capital at risk measures for management reporting and assessment of capital adequacy within the Intesa Sanpaolo Group, represent fundamental milestones in the operational application of the risk strategy defined by the Supervisory Board and the Management Board along the Intesa Sanpaolo Group's entire decision-making chain, down to the single operating units and to the single desk.

Risk-acceptance policies are defined by the Intesa Sanpaolo's Supervisory Board and Management Board. The Supervisory Board carries out its activity through specific internal Committees, among which mention should be made of the Internal Control Committee and Risk Committee. The Management Board relies on the action of managerial committees, among which mention should be made of the Intesa Sanpaolo Group Risk Governance Committee. Both corporate bodies receive support from the Chief Risk Officer, who is a member of the Management Board and reports directly to the Chief Executive Officer..

The Intesa Sanpaolo Group sets out these general principles in policies, limits and criteria applied to the various risk categories (described below) and business areas with specific risk tolerance sub-thresholds, in a comprehensive framework of governance, control limits and procedures.

Risk hedging, given the nature, frequency and potential impact of the risk, is based on a constant balance between mitigation/hedging action, control procedures/processes and capital protection measures, including in the form of stress test.

Particular attention is dedicated to managing the short-term and structural liquidity position by following specific policies and procedures to ensure full compliance with the limits set at Intesa Sanpaolo Group level and operating sub-areas, in accordance with international regulations and the risk appetite approved at Intesa Sanpaolo Group level.

The Intesa Sanpaolo Group also intends to maintain adequate levels of protection against reputational risk so as to minimise the risk of negative events that might jeopardise its image. To that end, it has initiated an *ex-ante* risk management process to identify the major reputational and compliance risks for the Intesa Sanpaolo Group, to define prevention and mitigation tools and measures in advance and to implement specific, dedicated reporting flows.

Assessments of each single type of risk are integrated in a summary amount - the economic capital - defined as the maximum "unexpected" loss the Intesa Sanpaolo Group might incur over a year. This is a key measure for determining the Intesa Sanpaolo Group's financial structure and risk tolerance and guiding operations, ensuring the balance between risks assumed and shareholder returns. It is estimated on the basis of the current situation and also as a forecast, based on the budget assumptions and projected economic scenario under ordinary and stress conditions. The assessment of capital is included in business reporting and is submitted quarterly to the Intesa Sanpaolo Group Risk Governance Committee, the Management Board and the Internal Control Committee, as part of the Intesa Sanpaolo Group's Risks *Tableau de Bord*

Intesa Sanpaolo is in charge of overall direction, management and control of risks. Intesa Sanpaolo

Group companies that generate credit and/or financial risks are assigned autonomy limits at Intesa Sanpaolo Group level and each has its own control structure. For the main Intesa Sanpaolo Group subsidiaries, these functions are performed, on the basis of an outsourcing contract, by the Parent Company's risk control functions, which periodically report to the Board of Directors and the Audit Committee of the subsidiary.

With effect from 1 January 2014, the reforms of the accord by the Basel Committee ("**Basel 3**") were implemented in the EU legal framework. In preparing to comply with the new rules envisaged by Basel 3, the Group has undertaken adequate project initiatives, expanding the objectives of the Basel 2 Project in order to improve the measurement systems and the related risk management systems.

With respect to credit risks, the Group received authorisation to use internal ratings-based approaches effective from the report as at 31 December 2008 on the Corporate portfolio for a scope extending to the Parent Company, network banks in the Banca dei Territori Division and the main Italian product companies.

The scope of application has since been gradually extended to include the Retail Mortgages and SME Retail portfolios, as well as other Italian and international Group companies.

The Intesa Sanpaolo Group is also proceeding with development of the IRB system for the other business segments and the extension of the scope of companies for their application in accordance with a plan presented to the Supervisory Authorities.

With reference to Intesa Sanpaolo and to Banca IMI, the Bank of Italy granted the authorisation to use the internal counterparty risk model for regulatory purposes, starting from the first quarter of 2014. Regarding operational risk, as of 31st December, 2009, the Intesa Sanpaolo Group was authorised by the Bank of Italy to use the advanced measurement approaches to determine capital requirements for operational risk with respect to an initial number of banks and companies. With effect from 31st December, 2010, 31st December, 2011 and 30th June, 2013, the Intesa Sanpaolo Group was authorised to extend the use of advanced approaches to respectively a second, third and fourth set of companies, while the remaining Intesa Sanpaolo Group companies that currently use the standardised approach, are expected to gradually migrate to the advanced measurement approaches based on the roll-out plan submitted to management and presented to the Bank of Italy. Moreover, as of 30th June, 2013 the Intesa Sanpaolo Group was authorised by the Bank of Italy to include the benefits of its internal model insurance mitigation component in the computation of its regulatory capital.

Credit Risk

Credit risk is the risk of losses due to the failure on the part of the Intesa Sanpaolo Group's counterparties (customers) to meet their payment obligations to the Intesa Sanpaolo Group. Credit risk refers to all claims against customers, mainly loans, but also liabilities in the form of other extended credits, guarantees, interest-bearing securities, approved and undrawn credits, as well as counter-party risk arising through derivatives and foreign exchange contracts. Credit risk also consists of concentration risk, country risk and residual risks, both from securitisations and uncertainty regarding credit recovery rates. Credit risk represents the chief risk category for the Intesa Sanpaolo Group. Intesa Sanpaolo has developed a set of instruments which ensures analytical control over the quality of the loans to customers and financial institutions, and loans subject to country risk.

Risk measurement uses rating models that are differentiated according to the borrower's segment (corporate, small business, mortgage loans, personal loans, sovereigns, Italian public sector entities, financial institutions). These models make it possible to summarise the credit quality of the counterparty in a measurement (the rating), which reflects the probability of default over a period of one year, adjusted on the basis of the average level of the economic cycle. In case of default, internal rating of loss given default ("**LGD**") model measures losses on each facility, including any downturn effect related to the economic cycle.

Ratings and mitigating credit factors (guarantees, technical forms and covenants) play a fundamental role in the entire loan granting and monitoring process: they are used to set credit strategies and loan granting and monitoring rules as well as to determine decision-making powers.

The main characteristics of the probability of default (“**PD**”) and LGD models for Corporate, SME Retail segment and Retail Mortgages segment, which are validated for Basel II advanced approaches, are the following:

- PD model
 - Corporate segment models are based on financial, behavioural and qualitative data of the customers. They are differentiated according to the market in question (domestic or international) and the size bracket of the company. Specific models are implemented for specialised lending (real estate development initiatives, project finance transactions, leveraged buy-out acquisition finance and asset finance transactions).
 - For the Small Business segment, since the end of 2008 a rating model by counterparty has been used for the Intesa Sanpaolo Group, following a scheme similar to that of the Corporate segment, meaning that it is extremely decentralised and its quantitative-objective elements are supplemented by qualitative-subjective elements; in 2011, the service model for the Small Business segment was redefined, by introducing in particular a sub-segmentation of "Micro" and "Core" customers according to criteria of size and simplicity and a partial automation of the granting process.
 - The Intesa Sanpaolo Group model for the Retail Mortgages segment, adopted in late 2008, processes information relating to both the customer and the contract. It differentiates between initial disbursement, where the application model is used, and the subsequent assessment during the lifetime of the mortgage (behavioural model), which takes into account behavioural information.
- LGD model
 - LGD model is determined according to differentiated models, specialised by operating segment and products (Corporate for Banking products, Corporate Factoring, Corporate Leasing, SME Retail, Retail Mortgages, Factoring, Leasing).
 - The LGD models, for which advanced internal rating base method has been approved, are: Retail Mortgages (effective from 30 June 2010), Corporate (these models are based on different types of financial assets: banking, effective from 31 December 2010; leasing and factoring, effective from 30 June 2012) and SME Retail (effective from 31 December 2012).
 - The LGD estimation is made up of the actual recoveries achieved during the management of disputes, taking into account the (direct and indirect) costs and the recovery period, as required by the regulation. All the models have been developed on the basis of a workout approach, analysing the losses suffered by the Intesa Sanpaolo Group on historical defaults.
 - For the Corporate segment, the following drivers were significant: geographical area, presence/absence of personal guarantee, presence/absence of real estate guarantee, facility type, and legal form. For the SME Retail segment, the following were significant: geographical area, facility type, presence/absence of personal guarantee, presence/absence of real estate guarantee, value to loan (amount of real estate coverage) and exposure level. For the Retail Mortgages segment, the geographical area and the value to loan were significant.

Country risk

Assessment of creditworthiness of countries is based on both an internal Sovereign Rating and Transfer risk Rating model.

Country risk for sovereign entities is assessed by a rating model that assigns creditworthiness ratings to over 260 countries. The model's structure includes a quantitative component for assessing country risk (which takes into account the structural rating assigned to a country by leading international rating agencies, implicit risk in market quotations of sovereign credit default swaps and bonds, and a macroeconomic model for more than 130 countries) and a qualitative component (which includes a qualitative opinion taking into consideration elements drawn from the broader scope of publicly available information concerning the political and economic structures of individual countries). Country risk for non-sovereign is measured through an internal model for transfer risk which takes into consideration both macroeconomic indicators and also the sovereign state's creditworthiness.

Market Risks

Market risk trading book

Market risk arises as a consequence of the Intesa Sanpaolo Group's trading and its open positions in the foreign exchange, interest rate and capital markets. The risk is derived from the fluctuation in the value of listed financial instruments whose value is linked to market variables. Market risk in the trading portfolio arises through trading activities in the interest rate, bonds, credit derivatives, commodities, foreign exchange and equity markets. Market risk in the banking portfolio arises from differences in fixed-rate periods.

The quantification of trading risks is based on daily value at risk ("**Var**") of the trading portfolios of Intesa Sanpaolo and the subsidiary Banca IMI S.p.A., which represent the main portion of the Intesa Sanpaolo Group's market risks, to adverse market movements of the following risk factors:

- interest rates;
- equity and market indexes;
- investment funds;
- foreign exchange rates;
- implied volatilities;
- spreads in credit default swaps ("**CDS**");
- spreads in bond issues;
- correlation instruments;
- dividend derivatives;
- asset-backed securities ("**ABS**");
- commodities.

A number of the other Intesa Sanpaolo Group's subsidiaries hold smaller trading portfolios with a marginal risk (around 2 per cent. of the Intesa Sanpaolo Group's overall risk). In particular, the risk factors of the international subsidiaries' trading books were interest rates and foreign exchange rates, both relating to linear pay-offs.

For some of the risk factors indicated above, the Bank of Italy has validated the internal models for the reporting of the capital absorptions of both Intesa Sanpaolo and Banca IMI S.p.A. In particular, the validated risk profiles for market risks are: (i) generic and specific risk on debt securities and on equities for Intesa Sanpaolo and Banca IMI S.p.A., (ii) position risk on quotas of funds underlying CPPI (Constant Proportion Portfolio Insurance) products for Banca IMI S.p.A., (iii) position risk on dividend derivatives and (iv) position risk on commodities for Banca IMI S.p.A., the only legal entity in the Intesa Sanpaolo Group authorised to hold open positions in commodities. As of 1 April 2014, Internal model coverage includes hedge funds positions in Intesa Sanpaolo (look-through approach).

Since VaR is a synthetic indicator which does not fully identify all types of potential loss, risk management has been enriched with other measures, in particular simulation measures for the quantification of risks from illiquid parameters (dividends, correlation, ABS, hedge funds). VaR estimates are calculated daily based on simulations of historical time-series, a 99 per cent. confidence level and 1-day holding period.

Market risk banking book

Market risk originated by the banking book arises primarily in Intesa Sanpaolo and in the main subsidiaries that carry out retail and corporate banking. The banking book also includes exposure to market risks deriving from the equity investments in listed companies not fully consolidated, mostly held by Intesa Sanpaolo and by the subsidiaries Equiter and IMI Investimenti.

The methods used to measure market risks of the Intesa Sanpaolo Group's banking book are (i) VaR, and (ii) sensitivity analysis. VaR is calculated as the maximum potential loss in the portfolio's market value that could be recorded over a ten day holding period with a statistical 99 per cent. confidence level (parametric VaR). Besides measuring the equity portfolio, VaR is also used to consolidate exposure to financial risks of the various Intesa Sanpaolo Group's companies which perform banking book activities, thereby taking into account diversification benefits.

Shift sensitivity analysis quantifies the change in value of a financial portfolio resulting from adverse movements in the main risk factors (interest rate, foreign exchange, equity). For interest rate risk, an adverse movement is defined as a parallel and uniform shift of ± 100 basis points of the interest rate curve. The measurements include an estimate of the prepayment effect and of the risk originated by customer sight loans and deposits, whose features of stability and of partial and delayed reaction to interest rate fluctuations have been studied by analysing a large collection of historical data, obtaining a maturity representation model through equivalent deposits. Equity risk sensitivity is measured as the impact of a price shock of ± 10 per cent.

Furthermore, the sensitivity of the interest margin is measured by quantifying the impact on net interest income of a parallel and instantaneous shock in the interest rate curve of 100 basis points, over a period of 12 months. Hedging activity of interest rate risk is aimed (i) at protecting the banking book from variations in the fair value of loans and deposits due to movements in the interest rate curve or (ii) at reducing the volatility of future cash flows related to a particular asset/liability.

The main types of derivative contracts used are interest rate swaps ("IRS"), overnight index swaps ("OIS"), cross currency swaps ("CCS") and options on interest rates stipulated by Intesa Sanpaolo with third parties or with other Intesa Sanpaolo Group companies (e.g. Banca IMI S.p.A.), which, in turn, cover the risk in the market so that the hedging transactions meet the criteria to qualify as IAS compliant for consolidated annual financial statements. Hedging activities performed by the Intesa Sanpaolo Group are recorded using various hedge accounting methods. A first method refers to the fair value hedge of specifically identified assets and liabilities (microhedging), mainly consisting of bonds issued or acquired by the Intesa Sanpaolo Group companies and loans to customers. Moreover, macro-hedging is carried out on the stable portion of on demand deposits in order to hedge against fair value changes intrinsic to the instalments under accrual generated by floating rate operations. Intesa Sanpaolo is exposed to this risk in the period from the date on which the rate is set and the interest payment date. Another hedging method used is the cash flow hedge which has the purpose of stabilising interest flow on both variable rate funding to the extent that the latter finances fixed-rate investments and on variable rate investments to cover fixed-rate funding (macro cash flow hedge).

The risk management department is in charge of measuring the effectiveness of interest rate risk hedges for the purpose of hedge accounting, in compliance with international accounting standards.

Foreign exchange risk

Currency risk positions are taken in both trading and non-trading books. As with market risk, the currency risk in the trading books is controlled using VaR limits (see the methodological approach described above), while the structural currency risk in the non-trading books is mitigated by the practice of raising funds in the same currency as the assets.

Issuer and counterparty risk

Issuer risk in the trading portfolio is analysed in terms of mark to market, by aggregating exposures in rating classes and is monitored using a system of operating limits based on both rating classes and concentration indices. A limit at legal entity level (for Intesa Sanpaolo and Banca IMI S.p.A.) is also defined and monitored in terms of Incremental Risk Charge (Credit VaR calculated over a one year time horizon at a confidence level of 99.9 per cent. on bonds, single name CDS and index CDS relating to the issuer trading book portfolio of each bank). Counterparty risk, measured in terms of potential future exposure, is monitored both in terms of individual and aggregate exposures by the credit department. In order for risk to be managed effectively within Intesa Sanpaolo, the risk measurement system is integrated into decision-making processes and the management of company operations. Starting from end of March 2014, Bank of Italy authorised the use of the internal model for counterparty risk (EPE – Expected Positive Exposure) for regulatory purposes, with reference to the parent company Intesa Sanpaolo and Banca IMI.

Specifically, the following measures were defined and implemented:

- PFE (potential future exposure): evolution over time of the credit exposure (i.e. positive mark-to-market) with a 95% confidence level; this is a prudent measure used for credit monitoring purposes. PFE calculated for each counterparty is calculated every day by a risk management calculation engine and sent to credit monitoring engine.
- EPE (expected positive exposure): weighted average for the expected time of the credit exposure, where the weightings are the portions that each time step represents of the entire time period. This is a regulatory measure.
- CVA capital charge: sum of spread VaR calculated in current and stressed market conditions, of a CDS equivalent portfolios of sold protection with notional equal to the expected exposure of every counterparty. This is a regulatory measure.

Liquidity risk

Liquidity risk is defined as the risk that the Intesa Sanpaolo Group may not be able to meet its payment obligations due to the inability to procure funds on the market (funding liquidity risk) or liquidate its assets (market liquidity risk). These guidelines, annually updated, incorporate international best practices and regulatory developments in order to reflect Basel III liquidity requirements, as implemented by the CRR and the Liquidity Coverage Ratio Delegated Act adopted by the Commission in October 2014 and published in the Official Journal of the European Union in January 2015.

Specific rules, metrics, processes, limits, roles and responsibilities are defined in the Liquidity Risk Management Guidelines in order to ensure a prudent control of liquidity risk and guarantee an adequate, balanced level of liquidity for the whole Intesa Sanpaolo Group.

Intesa Sanpaolo directly manages its own liquidity, coordinates liquidity management at Intesa Sanpaolo Group level, verifies the adoption of adequate control techniques and procedures, and provides complete and accurate information to the Operational Committees (Group Risk Governance Committee and Group Financial Risks Committee) and the relevant statutory bodies.

The internal short-term Liquidity Policy is aimed at ensuring an adequate, balanced level of cash inflows and outflows, in order to respond to periods of tension on the various funding sourcing markets, also by establishing adequate liquidity reserves in the form of assets eligible for refinancing with Central Banks or liquid securities on private markets. The internal structural Liquidity Policy incorporates the set of measures and limits designed to control and manage the risks deriving from the mismatch of medium to long-term maturities of the assets and liabilities, essential for the strategic

planning of liquidity management.

The Intesa Sanpaolo Group Guidelines also call for the periodic estimation of liquidity risk position in acute combined stress scenarios (both stress specific and market-related ones) and the introduction of a target threshold aimed at establishing an overall level of reserves suitable to meet greater cash outflows to restore the Intesa Sanpaolo Group to balanced conditions.

Together with these policies, Group Guidelines provide management methods to be used in a liquidity crisis scenario, defined as a situation wherein our Group has difficulty or is unable to meet its cash obligations falling due, without implementing procedures and/or employing instruments that, due to their intensity or manner of use, do not qualify as ordinary administration.

Finally, the Intesa Sanpaolo Group has a contingency liquidity plan in place, which has the objective of safeguarding the Intesa Sanpaolo Group's asset value and enabling the continuity of operations under conditions of a liquidity constriction, or even in the absence of liquidity in the market. The plan ensures the identification of the early warning signals and their ongoing monitoring, the definition of procedures to be implemented in situations of liquidity stress, the immediate lines of action, and the intervention measures for the resolution of emergencies.

Operational risk

Operational risk is defined as the risk of suffering losses due to inadequacy or failures of processes, human resources and internal systems, or as a result of external events. Operational risk includes legal risk, which is the risk of losses deriving from breaches of laws or regulations, contractual, out-of-contract responsibilities or other disputes, ICT (Information and Communication Technology) risk and model risk. Strategic and reputational risks are not included.

The Intesa Sanpaolo Group has long defined the overall operational risk management framework by setting up a policy and organisational process for measuring, managing and controlling operational risk.

The control of operational risk was attributed to the management board, which identifies risk management policies, and to the supervisory board, which is in charge of their approval and verification, as well as of the guarantee of the functionality, efficiency and effectiveness of the risk management and control system.

The tasks with which the Intesa Sanpaolo Group Internal Control Coordination and Operational Risk Committee is charged include periodically reviewing the Intesa Sanpaolo Group's overall operational risk profile, authorising any corrective measures, coordinating and monitoring the effectiveness of the main mitigation activities and approving operational risk transfer strategies.

The Intesa Sanpaolo Group has a centralised function within the risk management department for the management of the Intesa Sanpaolo Group's operational risk. This function is responsible for the definition, implementation, and monitoring of the methodological and organisational framework, as well as for the measurement of the risk profile, the verification of mitigation effectiveness and reporting to top management.

In compliance with current requirements, the individual organisational units are responsible for identifying, assessing, managing and mitigating their own operational risks. Specific officers and departments have been identified within these business units to be responsible for operational risk management (structured collection of information relative to operational events, scenario analysis and business environment and internal control factors evaluation).

The integrated self-assessment process, which has been conducted on an annual basis, has allowed the Intesa Sanpaolo Group to:

- identify, measure, monitor and mitigate operational risk through identification of the main operational problem issues and definition of the most appropriate mitigation actions; and
- create significant synergies with the specialised functions of the organisation and security

department that supervise the planning of operational processes and business continuity issues and with the internal control functions (in particular compliance, administrative and financial governance and internal auditing) that supervise specific regulations and issues (such as Legislative Decree No. 231 of 2001 and Law No. 262 of 2005) or conduct tests of the effectiveness of controls of company processes.

The self-assessment process identified a good overall level of control of operational risks and contributed to enhancing the diffusion of a business culture focused on the ongoing control of these risks.

The process of collecting data on operational events (in particular operational losses, obtained from both internal and external sources) provides significant information on the exposure. It also contributes to building knowledge and understanding of the exposure to operational risk, on the one hand, and assessing the effectiveness or potential weaknesses of the internal control system, on the other hand.

The internal model for calculating capital absorption is conceived in such a way as to combine all the main sources of quantitative and qualitative information (self-assessment).

The quantitative component is based on an analysis of historical data concerning internal events (recorded by organisational units, appropriately verified by the central function and managed by a dedicated IT system) and external events (the *Operational Riskdata eXchange Association - ORX*).

The qualitative component (scenario analysis) focuses on the forward-looking assessment of the risk exposure of each unit and is based on the structured, organised collection of subjective estimates expressed directly by management (subsidiaries, Intesa Sanpaolo's business areas, the corporate centre) with the objective of assessing the potential economic impact of particularly severe operational events. Capital-at-risk is therefore identified as the minimum amount at the Intesa Sanpaolo Group level required to bear the maximum potential loss (worst case); capital-at-risk is estimated using a "Loss Distribution Approach" model (actuarial statistical model to calculate the VaR of operational losses), applied on quantitative data and the results of the scenario analysis assuming a one-year estimation period, with a confidence level of 99.90 per cent; the methodology also applies a corrective factor, which derives from the qualitative analyses of the risk of the evaluation of the business environment, to take account of the effectiveness of internal controls in the various organisational units.

Operational risks are monitored by an integrated reporting system, which provides Management with support information for the management and/or mitigation of the operational risk.

In order to support the operational risk management process on a continuous basis, a structured training programme has been fully implemented for employees actively involved in the process of managing and mitigating operational risk.

The Intesa Sanpaolo Group activated a traditional operational risk transfer policy (to protect against offences such as employee disloyalty, theft and theft damage, cash and valuables in transit losses, computer fraud, forgery, earthquake and fire, and third-party liability), which contributes to mitigating exposure to operational risk. Moreover, in order to allow optimum use of the available operational risk transfer tools and to take advantage of the capital benefits pursuant to applicable regulations, the Intesa Sanpaolo Group stipulated an insurance coverage policy named "**Operational Risk Insurance Programme**", which offers additional coverage to traditional policies, significantly increasing the limit of liability, transferring the risk of significant operational losses to the insurance market. The internal model's insurance mitigation component was approved by the Bank of Italy in June 2013 with immediate effect of its benefits on operations and on the capital requirements.

Strategic Risk

Strategic risk is defined as the risk associated with a potential decrease in profits or capital due to changes in the operating environment of the Intesa Sanpaolo Group, misguided Intesa Sanpaolo Group's decisions, inadequate implementation of decisions, or an inability to sufficiently react to competitive forces. The Intesa Sanpaolo Group is able to mitigate strategic risk by following the implemented policies and procedures that place strategic decision making responsibility with the

supervisory board and management board, who are supported by the Intesa Sanpaolo Group's departments and committees.

Reputational Risk

Reputational risk is defined as the current and prospective risk of a decrease in profits or capital due to a negative perception of Intesa Sanpaolo's image by customers, counterparties, shareholders, investors and supervisory authorities. The Intesa Sanpaolo Group actively manages its image in the eyes of all stakeholders and aims to prevent and contain any negative effects on its image, including through robust, sustainable growth capable of creating value for the Bank and all of its stakeholders, while also minimising possible adverse events through rigorous, stringent governance, control and guidance of the activity performed at the various service and function levels.

Reputational risk is managed and mitigated by:

- organizational units with specific tasks on reputational risk management in a systematical and autonomous way;
- across organizational units, through the Reputational Risk Management process, coordinated by the Risk Management Division in cooperation with organizational units with specific tasks in reputational risk management.

The “**systematic**” protection system requires:

- identified organizational units that, under their area of responsibility, safeguard the Group reputation and manage the relationship with the various stakeholders;
- an integrated system for the management and control of primary risks;
- the respect of ethic and conduct standard requirements; and
- the definition and management of client's risk tolerance, by determining the risk tolerance profiles depending on the subjective and objective client characteristics.

The “**across**” protection system is based on the annual Reputational Risk Management (RRM) process, aimed at the integration and consolidation of the main results provided by the organizational units with specific tasks in reputational risk management; the goal of the RRM process is to identify and mitigate the more relevant reputational risk scenarios the Group may face and is based on the following steps:

- the Risk Management Division identifies the main scenarios the Group may face with the cooperation of the other involved organizational units;
- the Top Management assesses the selected scenarios; and
- the definition and monitoring of adequate communication strategies and specific mitigation actions are set.

The Intesa Sanpaolo Group adopts a Code of Ethics that sets out the basic values to which it intends to commit itself and enunciates the voluntary principles of conduct for dealings with all stakeholders (customers, employees, suppliers, shareholders, the environment and, more generally, the community) with broader objectives than those required by mere compliance with the law. The Intesa Sanpaolo Group has also issued voluntary conduct policies (environmental policy and arms industry policy) and adopted international principles (UN Global Compact, UNEP FI, Equator Principles) aimed at pursuing respect for the environment and human rights.

The Intesa Sanpaolo Group aims to achieve constant improvement of reputational risk governance also through an integrated compliance risk management system, as it considers compliance with the regulations and fairness in business to be fundamental to the conduct of banking operations, which by nature is founded on trust.

Risk on owned real-estate assets

The risk on owned real-estate assets may be defined as a risk associated with the possibility of suffering financial losses due to an unfavourable change in the value of such assets.

Risks specific to Intesa Sanpaolo Group's insurance business

Life business

The typical risks of life insurance portfolios (managed by Intesa Sanpaolo Vita, Intesa Sanpaolo Life and Fideuram Vita) may be divided into three main categories: premium risks, actuarial and demographic risks and reserve risks.

Premium risks are protected initially during the establishment of the technical features of the product and its pricing, and over the life of the instrument by means of periodic checks on the sustainability and profitability (both at product level and at portfolio level, including all liabilities). When preparing a product for market, profit testing is used to measure profitability and identify any weaknesses beforehand.

Actuarial and demographic risks arise when an unfavourable trend is recorded in the actual loss ratio compared with the trend estimated when the rate was calculated, and these risks are reflected in the level of "reserves". This loss ratio refers not only to actuarial loss, but also to financial loss (guaranteed interest rate risk). Intesa Sanpaolo manages these risks by performing systematic statistical analysis of the evolution of liabilities in its own contract portfolio divided by risk type and through simulations of expected profitability of the assets hedging technical reserves.

Intesa Sanpaolo manages reserve risk through the calculation of mathematical reserves, with a series of checks as well as overall verifications performed by comparing results with the estimates produced on a monthly basis. Intesa Sanpaolo Group places an emphasis on using the correct assumption for contracts by checking the relative portfolio against the movements during the period and the consistency of the amounts settled compared with the reserves' movements. The mathematical reserves are calculated in respect of the portfolio on a contract-by-contract basis taking all future commitments into account.

Non-life business

The typical risks of the non-life insurance portfolio (managed through Intesa Sanpaolo Assicura) are essentially premium and reserve risk. Premium risks are protected initially while the product's technical features and pricing are established, and over the life of the instrument by means of periodic checks on the sustainability and profitability (both at product level and at portfolio level, including all liabilities). Reserve risk is managed through the exact calculation of technical reserves. In particular, technical reserves may be divided into a premium reserve, a damage fund, a reserve for profits and reversals, other technical reserves and a reserve for equalisation.

Financial risks

In line with the growing focus in the insurance sector on the issues of value, risk and capital in recent years, a series of initiatives have been launched to strengthen risk governance and manage and control risk-based capital. With regard to both investment portfolios for the coverage of obligations with the insured and free capital, an internal regulation was adopted in order to define the investment policy. The aim of the investment policy is the control and monitoring of market and credit risks. The policy defines the goals and operating limits to distinguish the investments in terms of eligible assets and asset allocation, breakdown by rating classes and credit risk, concentration risk by issuer and sector, and market risks (in turn measured in terms of sensitivity to variations in risk factors and VaR). Investment decisions, portfolio growth and compliance with operating limits are reviewed on a monthly basis by specific investment committees.

Investment portfolios

The investments of the insurance subsidiaries of Intesa Sanpaolo Group are aimed at covering free capital and obligations with customers, namely life policies with profit participation clauses, index linked and unit-linked policies, pension funds and casualty policies. Life policies with profit participation clauses offer the insured the ability to receive a share of the profit from the fund management (the segregated fund) and a minimum guaranteed level, and therefore generate proprietary market and credit risks for the insurance company. Index linked and unit-linked policies, which usually do not present direct risks, are monitored with regard to reputational risks.

Competition

In recent years the Italian banking sector has been characterised by ever increasing competition which, together with the level of interest rates, has caused a sharp reduction in the difference between lending and borrowing interest rates and subsequent difficulties in maintaining a positive growth trend in interest rate margin.

In particular, such competition has had two main effects:

- a progressive reduction in the differential between lending and borrowing interest rate, which may result in Intesa Sanpaolo facing difficulties in maintaining its actual rate of growth in interest rate margins; and
- a progressive reduction in commissions and fees, particularly from dealing on behalf of third parties and orders collection, due to competition on prices.

Both of the above factors may adversely affect Intesa Sanpaolo's financial condition and result of operations.

In addition, downturns in the Italian economy could add to the competitive pressure through, for example, increased price pressure and lower business volumes for which to compete.

Legal risks

The Intesa Sanpaolo Group is involved in various legal proceedings. Management believes that such proceedings have been properly analysed by the Intesa Sanpaolo Group and its subsidiaries in order to decide upon, if necessary or opportune, any increase in provisions for litigation to an adequate extent according to the circumstances and, with respect to some specific issues, to refer to it in the Covered Bonds to the consolidated annual financial statements in accordance with the applicable accounting standards. For more detailed information, see paragraph headed "*Legal Risks*", from page 100 to 112.

Changes in regulatory framework

The Intesa Sanpaolo Group is subject to extensive regulation and supervision by the Bank of Italy, the Italian Securities and Exchange Commission (**CONSOB**), the European Central Bank and the European System of Central Banks. The banking laws to which the Intesa Sanpaolo Group is subject govern the activities in which banks may engage and are designed to maintain the safety and soundness of banks, and limit their exposure to risk. In addition, the Intesa Sanpaolo Group must comply with financial services laws that govern its marketing and selling practices. The regulatory framework governing international financial markets is currently being amended in response to the credit crisis, and new legislation and regulations are being introduced in Italy and the European Union that will affect the Intesa Sanpaolo Group, including proposed regulatory initiatives that could significantly alter the Intesa Sanpaolo Group's capital requirements.

The rules applicable to banks and other entities in banking groups include implementation of measures consistent with the regulatory framework set out by the Basel Committee on Banking Supervision (the "**Basel Committee**" or "**BCBS**") which aim to preserve stability and solidity and limit risk exposure of such entities. The Intesa Sanpaolo Group is also subject to regulations applicable to financial services that govern, among other things, the sale, placement and marketing of financial instruments as well as to those applicable to its bank-assurance activities. In particular, the Group is subject to the

supervision of CONSOB and the Institute for the Supervision of Private Insurance. The Issuer is also subject to the rules applicable to it as an issuer of shares listed on the Milan Stock Exchange.

In accordance with the regulatory frameworks defined by the supervisory authorities mentioned above and consistent with the regulatory framework being implemented at the European Union level, the Intesa Sanpaolo Group has in place specific procedures and internal policies to monitor, among other things, liquidity levels and capital adequacy, the prevention and detection of money laundering, privacy protection, ensuring transparency and fairness in customer relations and registration and reporting obligations. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the Intesa Sanpaolo Group's results of operations, business and financial condition. In addition, as at the date of this Base Prospectus, certain laws and regulations have only been recently approved and the relevant implementation procedures are still in the process of being developed.

In particular, in the wake of the global financial crisis that began in 2008, the Basel Committee (as defined below) approved, in the fourth quarter of 2010, revised global regulatory standards (**Basel III**) on bank capital adequacy and liquidity, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods of stress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards. The Basel III framework adopts a gradual approach, with the requirements to be implemented over time, with full enforcement in 2019.

Basel III and CRD IV

In December 2009, the Basel Committee proposed strengthening the global capital framework, and in December 2010, January 2011 and July 2011, the Basel Committee issued its final guidance on the proposed changes to capital adequacy and liquidity requirements (**Basel III**), which envisaged a substantial strengthening of capital rules existing at the time, including by, among other things, raising the quality and quantity of the Common Equity Tier 1 base in a harmonised manner (including through changes to the items which give rise to adjustments to that capital base), introducing requirements for Additional Tier 1 and Tier 2 capital instruments to have a mechanism that requires them to be written off or converted into ordinary shares at the point of a bank's non-viability, strengthening the risk coverage of the capital framework, promoting the build-up of capital buffers and introducing a new leverage ratio and global minimum liquidity standards for the banking sector.

In January 2013 the BCBS revised its original proposal in respect of the liquidity requirements in light of concerns raised by the banking industry, providing for a gradual phasing-in of the Liquidity Coverage Ratio with a full implementation in 2019 as well as expanding the definition of high quality liquid assets to include lower quality corporate securities, equities and residential mortgage backed securities. Regarding the other liquidity requirement, the Net Stable Funding Ratio (the "NSFR"), the BCBS published the final rules in October 2014 which will take effect from 1 January 2018.

The Basel III framework has been implemented in the EU through Directive 2013/36/EU of the European Parliament and of the Council of 26 June 2013 on access to the activity of credit institutions and the prudential supervision of credit institutions and investment firms (the "CRD IV") and Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013¹ on prudential requirements for credit institutions and investment firms (the "CRR and together with the CRD IV, the "CRD IV Package").

The implementation began on 1 January 2014, with particular elements being phased in over a period of time (the requirements will be largely fully effective by 2019 and some minor transitional provisions provide for phase-in until 2024) but it is possible that in practice implementation under national laws be delayed. Additionally, it is possible that Member States may introduce certain

¹ Final Corrigendum published on 30 November 2013

provisions at an earlier date than that set out in the CRD IV Package.

In Italy the Government has approved the Legislative Decree no. 72 of 12 May 2015, implementing the CRD IV. Such decree entered into force on 27 June 2015. The new regulation impacts, *inter alia*, on:

- (i). proposed acquirers of credit institutions' holdings, shareholders and Members of the management body requirements (Articles 22, 23 and 91 CRD IV);
- (ii). competent authorities' powers to intervene in cases of crisis management (Articles 64, 65, 102 and 104 CRD IV);
- (iii). reporting of potential or actual breaches of national provisions (so called whistleblowing, (Article 71 CRD IV); and
- (iv). administrative penalties and measures (Article 65 CRD IV).

Moreover, the Bank of Italy published new supervisory regulations on banks in December 2013 (Circular of the Bank of Italy No. 285 of 17 December 2013 (the "**Circular No. 285**")) which came into force on 1 January 2014, implementing the CRD IV Package and setting out additional local prudential rules concerning matters not harmonised at EU level.

Between 1 January 2014 and 31 December 2014, Italian banks were required to comply with (i) a minimum CET1 Capital ratio of 4.5%², (ii) a minimum Tier I Capital ratio of 5.5%³ and (iii) a Total Capital Ratio of 8%. Upon expiry of this transitional period Italian banks shall at all times satisfy the following own funds requirements: (i) a CET 1 capital ratio of 4,5%; (ii) a Tier 1 Capital ratio of 6%; and (iii) a Total Capital Ratio of 8 %. These minimum ratios are complemented by the following capital buffers to be met with CET1 Capital:

- *Capital conservation buffer*: set at 2.5% of risk weighted assets and applies to Intesa Sanpaolo from 1 January 2014 (pursuant to Article 129 of the CRD IV and Title II, Chapter I, Section II of Circular No. 285);
- *Counter-cyclical capital buffer*: set by the relevant competent authority between 0% - 2.5% (but may be set higher than 2.5% where the competent authority considers that the conditions in the member state justify this), with gradual introduction from 1 January 2016 and applying temporarily in the periods when the relevant national authorities judge the credit growth excessive (pursuant to Article 130 of the CRD IV and Title II, Chapter I, Section III of Circular No. 285);
- *Capital buffers for globally systemically important banks ("G-SIBs")*: set as an "additional loss absorbency" buffer ranging from 1.0% to 3.5% determined according to specific indicators (size, interconnectedness, lack of substitutes for the services provided, global activity and complexity); to be phased in from 1 January 2016 (pursuant to Article 131 of the CRD IV and Title II, Chapter I, Section IV of Circular No. 285) becoming fully effective on 1 January 2019; and
- *Capital buffers for other systemically important banks at a domestic level*: up to 2.0% as set by the relevant competent authority (reviewed at least annually from 1 January 2016), to compensate for the higher risk that such banks represent to the financial system). (pursuant to Article 131 of the CRD IV and Title II, Chapter 1, Section IV of Circular No. 285).

In addition to the above listed capital buffers, under Article 133 of the CRD IV each Member State may introduce a Systemic Risk Buffer of Common Equity Tier 1 Capital for the financial sector or one or more subsets of the sector, in order to prevent and mitigate long term non-cyclical systemic or macro-prudential risks not covered by CRR, in the meaning of a risk of disruption in the financial system with the potential to have serious negative consequences to the financial system and the real

economy in a specific Member State. The Member States setting the buffer will have to notify the Commission, the EBA, and the ESRB and the competent and designated authorities of the Member States concerned. For buffer rates between 3% and 5%, the Commission will provide an opinion on the measure decided and if this opinion is negative, the Member States will have to "comply or explain". Buffer rates above 5% will need to be authorized by the Commission through an implementing act, taking into account the opinions provided by the ESRB and by the EBA.

Failure to comply with such combined buffer requirements triggers restrictions on distributions and the need for the bank to adopt a capital conservation plan on necessary remedial actions (Articles 140 and 141 of the CRD IV). At this stage no provision is included on the systemic risk buffer under Article 133 of the CRD IV as the Italian level-1 rules for the CRD IV implementation on this point have not yet been enacted.

As part of the CRD IV Package transitional arrangements, as implemented by Circular No. 285, regulatory capital recognition of outstanding instruments which qualified as Tier I and Tier II capital instruments under the framework which the CRD IV Package has replaced (CRD III) that no longer meet the minimum criteria under the CRD IV Package will be gradually phased out. Fixing the base at the nominal amount of such instruments outstanding on 1 January 2013, their recognition is capped at 80% in 2014, with this cap decreasing by 10% in each subsequent year (see, in particular, Part Two, Chapter 14, Section 2 of Circular No. 285).

The new liquidity requirements introduced under the CRD IV Package are the Liquidity Coverage Ratio and the NSFR. The Liquidity Coverage Ratio Delegated Act was adopted in October 2014 and published in the Official Journal of the European Union in January 2015. It shall be applicable from 1 October 2015, under a phase-in approach before it becomes fully applicable from 1 January 2018. On the NSFR, in the light of the reports to be prepared by the EBA by 31 December 2015, the Commission will prepare, if appropriate, a legislative proposal by the end of 2016, with aims to comply with NSFR implementation in 2018, as per the Basel rules approved in October 2014. In any case, Member States may maintain or introduce national provisions in the area of stable funding requirements before binding minimum standards for net stable funding requirements are specified and introduced in the European Union.

The CRD IV Package also introduces a new leverage ratio with the aim of restricting the level of leverage that an institution can take on to ensure that an institution's assets are in line with its capital. The Leverage Ratio Delegated Act was published in the Official Journal of the European Union in January 2015. Institutions have been required to disclose their leverage ratio from 1 January 2015. Full implementation and European harmonisation, however, is not expected until 1 January 2018, following the European Commission's review in 2016 of whether or not the ratio should be introduced as a binding measure.

As a result of the changes described above, there is uncertainty as to regulatory requirements that the Issuer will be required to comply with. Furthermore, should the Issuer not be able to implement the approach to capital requirements it considers optimal in order to meet the capital requirements imposed by the CRD IV Package, it may be required to maintain levels of capital which could potentially impact its credit ratings, funding conditions and limit the Issuer's growth opportunities.

The CRD IV Package contains specific mandates for the EBA to develop draft regulatory or implementing technical standards as well as guidelines and reports related to liquidity coverage ratio and leverage ratio in order to enhance regulatory harmonisation in Europe through the EBA Supervisory Handbook (as defined below). As regards liquidity, the CRD IV Package tasks the EBA with advising on appropriate uniform definitions of liquid assets for the Liquidity Coverage Ratio. In addition, the CRD IV Package states that the EBA shall report to the Commission on the operational requirements for the holdings of liquid assets. Furthermore the CRD IV Package also tasks the EBA with advising on the impact of the liquidity coverage requirement, on the business and risk profile of institutions established in the European Union, on the stability of financial markets, on the economy and on the stability of the supply of bank lending. The EBA has submitted a number of technical standards and guidelines on the subject to the European Commission and the Commission adopted its

delegated act to implement the Liquidity Coverage Ratio (LCR) in the EU, on 10 October 2014 and published in the Official Journal of the European Union in January 2015.

In addition to the substantial changes in capital and liquidity requirements introduced by Basel III and the CRD IV Package, there are several other initiatives, in various stages of finalisation, which represent additional regulatory pressure over the medium term and will impact the EU's future regulatory direction. These initiatives include, amongst others, a revised Markets in Financial Instruments EU Directive and Markets in Financial Instruments EU Regulation, which entered into force on 2 July 2014 with implementation required at Member States level as from January 2017 subject to certain transitional arrangements, and the Bank Recovery and Resolution EU Directive which is required to be implemented by Member States by 1 January 2015 (with the bail-in provisions becoming applicable as of 1 January 2016). The Basel Committee has also published certain proposed changes to the current securitisation framework which may be accepted and implemented in due course.

One of the main proposed changes to the global regulatory framework is for G-SIBs to be required to have a minimum Total Loss Absorbing Capacity ("TLAC"). In November 2014, the Financial Stability Board (the "FSB") published a consultation document setting out its proposals for TLAC, which were endorsed at the Group of Twenty's (G20) Brisbane conference in November 2014. The FSB is aiming for the G20 to adopt a final standard by November 2015, with full application as of 2019 at the earliest.

The FSB's proposals would, if implemented, require all G-SIBs to meet a minimum pillar 1 TLAC in the order of 16% - 20% of their Risk Weighted Assets (the "RWA") and at least twice their Basel III leverage ratio requirement. Liabilities that are eligible for TLAC shall be capital instruments and instruments that are contractually, statutorily or structurally subordinated to certain "excluded liabilities" (including insured deposits and liabilities that cannot be effectively written down or converted into equity by relevant authorities) in a manner that does not give rise to a material risk of compensation claims or successful legal challenges. The impact on G-SIBs may well come ahead of 2019, as markets may force earlier compliance and as banks will need to adapt their funding structure in advance.

Moreover, it is worth mentioning the Basel Committee has embarked on a very significant RWA variability review. This includes the "*Fundamental Review of the Trading Book*", revised standardised approaches (credit, market, operational risk) and a consultation paper on a capital floor. The regulator's primary aim is to eliminate unwarranted levels of RWA variance. The finalization of the new framework is likely to be expected by 2015 year end for all the relevant workstreams. The new setup will have a revolutionary impact on risk modelling: directly on the exposures assessed via standardized approach, but also indirectly on internal ratings based approach ("IRB") RWA, due to the introduction of capital floors that, according to the new framework, will be calculated basing on the revised standardized approach.

In addition, as mentioned above, the European Commission intends to develop the net stable funding ratio with the aim of introducing it from 1 January 2018.

Such changes in the regulatory framework and how they are implemented may have a material effect on all the European banks and on the the Intesa Sanpaolo Group's business and operations. As the new framework of banking laws and regulations affecting the Intesa Sanpaolo Group is currently being implemented, the manner in which those laws and related regulations will be applied to the operations of financial institutions is still evolving. No assurance can be given that laws and regulations will be adopted, enforced or interpreted in a manner that will not have an adverse effect on the business, financial condition, cash flows and results of operations of the Intesa Sanpaolo Group. Prospective investors in the Covered Bonds should consult their own advisers as to the consequences for them of the application of the above regulations as implemented by each Member State.

ECB Single Supervisory Mechanism

On 15 October 2013, the Council of the European Union adopted Council Regulation (EU) No. 1024/2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the “**SSM Regulation**”) for the establishment of a single supervisory mechanism (the **Single Supervisory Mechanism** or **SSM**). From 4 November 2014 the SSM Regulation has given the ECB, in conjunction with the national regulatory authorities of the eurozone and participating Member States, direct supervisory responsibility over “banks of systemic importance” in the eurozone. In this respect, “banks of systemic importance” include any Eurozone bank that (i) has assets greater than €30 billion or – unless the total value of its assets is below €5 billion – greater than 20% of national gross domestic product; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism; (iv) is considered by the ECB to be of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities.

Notwithstanding the fulfilment of these criteria, the ECB, on its own initiative after consulting with national competent authorities or upon request by a national competent authority, may declare an institution significant to ensure the consistent application of high-quality supervisory standards. Intesa Sanpaolo S.p.A. and the Intesa Sanpaolo Group have been classified, respectively, as a significant supervised entity and a significant supervised group within the meaning of Regulation (EU) No. 468/2014 of the European Central Bank of 16 April 2014 establishing the framework for co-operation within the Single Supervisory Mechanism between the European Central Bank and national competent authorities and with national designated authorities (the “**SSM Framework Regulation**”) and, as such, are subject to direct prudential supervision by the ECB in respect of the functions conferred on the ECB by the SSM Regulation and the SSM Framework Regulation. The relevant national competent authorities for the purposes of the SSM Regulation and the SSM Framework Regulation continue to be responsible, in respect of Intesa Sanpaolo and its subsidiaries, for supervisory functions not conferred on the ECB, such as consumer protection, money laundering, payment services, and supervision over branches of third country banks. The ECB, on the other hand, is exclusively responsible for key tasks concerning the prudential supervision of credit institutions, which includes, inter alia, the power to: (i) authorise and withdraw the authorisation of all credit institutions in the Eurozone and in the Member States participating to the SSM; (ii) assess acquisition and disposal of holdings in other banks; (iii) ensure compliance with all prudential requirements laid down in general EU banking rules; (iv) set, where necessary, higher prudential requirements for certain banks to protect financial stability under the conditions provided by EU law; (v) ensure compliance with robust corporate governance practices and internal capital adequacy assessment controls; and (vi) intervene at the early stages when risks to the viability of a bank exist, in coordination with the relevant resolution authorities.

In order to foster consistency and efficiency of supervisory practices across the eurozone, the EBA is developing a single supervisory handbook applicable to EU Member States (the “**EBA Supervisory Handbook**”).

The Intesa Sanpaolo Group will be subject to the provisions of the EU Recovery and Resolution Directive, once finalised and implemented, in the future

On 2 July 2014, the directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU) (the “**Banks Recovery and Resolution Directive**” or “**BRRD**”) entered into force.

The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution’s critical financial and economic functions, while minimising the impact of an institution’s failure on the economy and financial system.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b)

there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the firm to a “bridge institution” (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation - which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in - which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims to equity (the “**general bail-in tool**”), which equity could also be subject to any future application of the general bail-in tool.

The BRRD also provides for a Member State as a last resort, after having assessed and exhausted the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts or other liabilities as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down or convert into equity capital instruments at the point of non-viability and before any other resolution action is taken (“**non-viability loss absorption**”). Any shares issued upon any such conversion into equity may also be subject to any application of the general bail-in tool.

For the purposes of the application of any non-viability loss absorption measure, the point of non-viability under the BRRD is the point at which the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or that the institution will no longer be viable unless the relevant capital instruments are written-down or converted or extraordinary public support is to be provided and without such support the appropriate authority determines that the institution would no longer be viable.

The BRRD provides that Member States should apply the new “crisis management” measures from 1 January 2015, except for the general bail-in tool which is to be applied by 1 January 2016. On 2 July 2015, the Italian Parliament has approved the “European Delegation Law 2014” – whose publication in the Italian Official Gazette is still pending – containing, *inter alia*, principles and criteria for the implementation by the Government of the BRRD in Italy.

As of 2016 (or, if earlier, the date of national implementation of the BRRD), European banks will also have to comply with a Minimum Requirement for Eligible Liabilities (the “**MREL**”). The BRRD does not foresee an absolute minimum, but attributes the competence to set a minimum amount for each bank to national resolution authorities (for banks not being part of the Banking Union) or to the Single Resolution Board (the “**SRB**”) for banks being part of the Banking Union. Differently to the current discussions on TLAC (see more above under “*Changes in Regulatory Framework*”) MREL includes senior unsecured debt without ex-ante limitations. On 3 July 2015 the European Banking Authority (EBA) has adopted and submitted to the Commission its Regulatory Technical Standards (the “**RTS**”) which further define the way in which resolution authorities or the SRB shall determine the MREL. In the introductory remarks to the RTS, it is stated that the EBA expects the RTS to be “broadly compatible with the proposed FSB term sheet for TLAC for G-SIBs”, adding that “while there are differences resulting from the nature of the EBA’s mandate under the BRRD, as well as the fact that

the BRRD MREL requirement applies to banks which are not G-SIBs, these differences do not prevent resolution authorities from implementing the MREL for G-SIBs consistently with the international framework.”

The BRRD is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing. The implementation of the directive or the taking of any action under it could materially affect the value of any Covered Bond.

As of 2016 the Intesa Sanpaolo Group will be subject to the provisions of the Regulation establishing the Single Resolution Mechanism

On 19 August 2014, the Regulation (EU) No. 806/2014 establishing a Single Resolution Mechanism (the “**SRM Regulation**”) entered into force.

The SRM is expected to be operational by 1 January 2016. There are, however, certain provisions including those concerning the preparation of resolution plans and provisions relating to the cooperation of the Single Resolution Board (the “**Board**”) with national resolution authorities, which entered into force on 1 January 2015.

The SRM Regulation, which will complement the SSM (as defined above), will apply to all banks supervised by the SSM. It will mainly consist of the Board and a Single Resolution Fund (the “**Fund**”).

A centralised decision-making process will be built around the Board and will involve the European Commission and the Council of the European Union – which will have the possibility to object to Board decisions – as well as the ECB and the national resolution authorities.

The Fund, which will back the SRM Regulation decisions mainly taken by the Board, will be divided into national compartments during an eight years transitional period, as set out by an intergovernmental agreement. Banks will start to pay contributions in 2015 to national resolution funds that will be transferred gradually into the Fund starting from 2016 (and will be additional to the contributions to the national deposit guarantee schemes).

This framework should be able to ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Board – which will take all relevant decisions for the resolution of banks being supervised by the SSM and part of the Banking Union.

There are other benefits that will derive from the Banking Union. Such benefits are aimed at: (a) breaking the negative feed loop between banks and their sovereigns; (b) providing a solution to home-host conflicts in resolution; and (c) a competitive advantage that Banking Union banks will have *vis-à-vis* non-Banking Union ones, due to the availability of a larger resolution fund.

The Intesa Sanpaolo Group may be subject to a proposed EU regulation on mandatory separation of certain banking activities

On 29 January 2014, the European Commission adopted a proposal for a new regulation on structural reform of the European banking sector following the recommendations released on 31 October 2012 by the High Level Expert Group (the **Liikanen Group**) on the mandatory separation of certain banking activities. The proposed regulation contains new rules which would prohibit the biggest and most complex banks from engaging in the activity of proprietary trading and introduce powers for supervisors to separate certain trading activities from the relevant bank’s deposit-taking business if the pursuit of such activities compromises financial stability. Alongside this proposal, the Commission has adopted accompanying measures aimed at increasing transparency of certain transactions in the shadow banking sector.

The proposed regulation would apply to European banks that will eventually be designated as G-SIBs or that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal to or exceed €70 billion or 10 per cent. of

their total assets. The banks that meet either one of the aforementioned conditions would be automatically banned from engaging in “proprietary trading” defined narrowly as activities using a bank’s own capital or borrowed money to take positions in any type of transaction to purchase, sell or otherwise acquire or dispose of any financial instrument or commodities for the sole purpose of making a profit for own account, and without connection to actual or anticipated client activity or for the purpose of hedging the entity’s risk as a result of actual or anticipated client activity. In addition, such banks would be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities – including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – might be subject to separation, subject to the discretion of the bank’s competent authority, however they might be subject to separation if such activities are deemed to pose a threat to financial stability or if they are found to exceed certain thresholds, to be further specified in secondary legislation. A general derogation from the rules is provided for UK banks, which will be subject to rules on ring-fencing of retail activities under the UK banking reform.

The proprietary trading ban would apply as of 1 January 2017 and the effective separation of other trading activities would apply as of 1 July 2018.

The Commission’s proposal is currently being considered and is likely to be amended by the European Parliament and the Council in their function of co-legislators. The Council of the European Union has reached a “general approach” (informal agreement) on the text, while the Parliament has still not found an agreement on the draft report to the proposal. Therefore, there is still no final legislative text.

Should a mandatory separation be imposed, additional costs at Intesa Sanpaolo Group level are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits. Due to relatively limited trading activity, Italian banks could be penalized and put at a relative disadvantage in comparison with their main global and European competitors. As a result, the proposal could lead to the creation of an oligopoly where only the biggest players would be able to support the separation of the trading activities and the costs that will be incurred. An additional layer of complexity, leading to uncertainty, is the high risk of diverging approaches throughout Europe on this issue.

The Intesa Sanpaolo Group may be affected by a proposed EU Financial Transactions Tax

On 14 February 2013 the European Commission published a legislative proposal on a new Financial Transactions Tax (the “FTT”). The proposal followed the Council’s authorisation to proceed with the adoption of the FTT through enhanced cooperation, i.e. adoption limited to 11 countries - among which Italy, France, Germany and Austria. Although implementation was originally envisaged for 1 January 2014, the process has been repeatedly delayed. Finance Ministers of the EU11 Member States are currently aiming to reach an agreement before the end of 2015, which means that entry into force of the tax, if agreed, could slip to 2017.

If adopted, the impact on the ‘real economy’ of the FTT as currently envisaged – especially for corporations – could be severe as many financial transactions are made on behalf of businesses that would bear the additional costs of the tax. For example, a transaction tax would raise the cost of the sale and purchase of corporate bonds in a time where it is widely acknowledged that access to capital markets by corporate issuers has to be incentivised.

Moreover, it is a matter of concern for the Intesa Sanpaolo Group that the proposal does not exempt the transfers of financial instruments within a group. Thus, if a financial instrument is not purchased for a client but only moved within a banking group, each transaction would be subject to taxation. Also, the inclusion of derivatives and repos/lending transactions in the taxation scope clashes with the efficiency of financial markets.

The Intesa Sanpaolo Group may be affected by new accounting standards

Following the entry into force and subsequent application of new accounting standards, regulatory

rules and/or the amendment of existing standards and rules (including the ECB's comprehensive assessment of European banks), the Intesa Sanpaolo Group may have to revise the accounting and regulatory treatment of certain transactions and the related income and expense.

In this regard, it should be pointed out that a relevant change is expected in future periods from the finalisation of IFRS 9. In particular, IFRS 9 which has been issued on 24 July 2014, will introduce significant changes with regard to classification, measurement, impairment and hedge accounting of financial instruments, replacing IAS 39. IASB decided that the mandatory effective date of IFRS 9 will be 1 January 2018. Application of this Standard to European Union entities will be subject to European Commission endorsement.

At a national level the Italian competent authorities approved new regulations that could adversely affect the business and the profitability of the Intesa Sanpaolo Group.

The Intesa Sanpaolo Group's business is focused primarily on the Italian domestic market and therefore adverse economic conditions in Italy or a delayed recovery in the Italian market may have particularly negative effects on the Intesa Sanpaolo Group's financial condition and results of operations

Although the Intesa Sanpaolo Group operates in many countries, Italy is its primary market. Its business is therefore particularly sensitive to adverse macroeconomic conditions in Italy.

The persistence of adverse economic conditions in Italy, or a slower recovery in Italy compared to other OECD nations, could have a material adverse effect on the Intesa Sanpaolo Group's business, results of operations or financial condition.

In addition, any downgrade of the Italian sovereign credit rating, or the perception that such a downgrade may occur, may destabilise the markets and have a material adverse effect on the Intesa Sanpaolo Group's operating results, liquidity position, financial condition and prospects as well as on the marketability of the Covered Bonds.

Governmental and central banks' actions intended to support liquidity may be insufficient or discontinued

In response to the financial markets crisis, the reduced liquidity available to market operators in the industry, the increase of risk premiums and the capital requirements demanded by investors, intervention with respect to the level of capitalisation of banking institutions has had to be further increased. In many countries, this has been achieved through support measures for the financial system and direct intervention by governments in the share capital of the banks in different forms. In order to technically permit such government support, financial institutions were required to pledge securities deemed appropriate by different central financial institutions as collateral.

The unavailability of liquidity through such measures, or the decrease or discontinuation of such measures by governments and central authorities could result in increased difficulties in procuring liquidity in the market and/or result in higher costs for the procurement of such liquidity, thereby adversely affecting the Intesa Sanpaolo Group's business, financial condition and results of operations.

3. RISK FACTORS RELATING TO THE COVERED BONDS

The Covered Bonds may not be a suitable investment for all investors

Each potential investor in the Covered Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Covered Bonds, the merits and risks of investing in the Covered Bonds and the information contained or

incorporated by reference in this Base Prospectus or any applicable supplement;

- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Covered Bonds and the impact the Covered Bonds will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Covered Bonds, including Covered Bonds where the currency for principal or interest payments is different from the potential investor's currency;
- (iv) understand thoroughly the terms of the Covered Bonds and be familiar with the behaviour of any relevant indices and financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Covered Bonds are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Covered Bonds which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Covered Bonds will perform under changing conditions, the resulting effects on the value of the Covered Bonds and the impact this investment will have on the potential investor's overall investment portfolio.

Risks related to the structure of a particular issue of Covered Bonds

Covered Bonds issued under the Programme will either be fungible with an existing Series (in which case they will form part of such Series) or have different terms to an existing Series (in which case they will constitute a new Series). All Covered Bonds issued from time to time will rank *pari passu* with each other in all respects and will share equally in the security granted by the Covered Bonds Guarantor under the Covered Bonds Guarantee. If an Issuer Event of Default and/or a Covered Bonds Guarantor Event of Default occurs and results in acceleration, all Covered Bonds of all Series will accelerate at the same time.

A wide range of Covered Bonds may be issued under the Programme. A number of these Covered Bonds may have features which contain particular risks for potential investors. Under no circumstances shall the interest payments for the Covered Bondholder be less than zero. Set out below is a description of the most common of such features:

Covered Bonds subject to optional redemption by the Issuer

An optional redemption feature of Covered Bonds is likely to limit their market value. During any period when the Issuer may elect to redeem Covered Bonds, the market value of those Covered Bonds generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Covered Bonds when its cost of borrowing is lower than the interest rate on the Covered Bonds. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Covered Bonds being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

Zero Coupon Covered Bonds

The Issuer may issue Covered Bonds which do not pay current interest but are issued at a discount from their nominal value or premium from their principal amount. Such Covered Bonds are characterised by the circumstance that the relevant covered bondholders, instead of benefitting from periodical interest payments, shall be granted an interest income consisting in the difference between the redemption price and the issue price, which difference shall reflect the market interest rate. A holder of a zero coupon covered bond is exposed to the risk that the price of such covered bond falls as

a result of changes in the market interest rate. Prices of zero coupon Covered Bonds are more volatile than prices of fixed rate Covered Bonds and are likely to respond to a greater degree to market interest rate changes than interest bearing Covered Bonds with a similar maturity. Generally, the longer the remaining terms of such Covered Bonds, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Fixed/Floating Rate Covered Bonds

Fixed/Floating Rate Covered Bonds may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Covered Bonds since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Covered Bonds may be less favourable than then prevailing spreads on comparable Floating Rate Covered Bonds tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Covered Bonds. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Covered Bonds.

Covered Bonds issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks related to Covered Bonds generally

Set out below is a brief description of certain risks relating to the Covered Bonds generally.

Certain decisions of Representative of the Covered Bondholders taken without the consent or sanction of any of the Covered Bondholders

Pursuant to the Rules of the Organisation of the Covered Bondholders, the Representative of the Covered Bondholders may, without the consent or sanction of any of the Covered Bondholders concur with the Issuer and/or the Covered Bonds Guarantor and any other relevant parties in making or sanctioning any modifications to the Rules of the Organisation of the Covered Bondholders, the Conditions and/or the other Transaction Documents:

- (i) provided that in the opinion of the Representative of the Covered Bondholders such modification is not materially prejudicial to the interests of any of the Covered Bondholders of any Series; or
- (ii) which in the opinion of the Representative of the Covered Bondholders are made to correct a manifest error or an error established as such to the satisfaction of the Representative of the Covered Bondholders or of a formal, minor or technical nature, or are made to comply with mandatory provisions of law.

In establishing whether an error is established as such, the Representative of the Covered Bondholders may have regard to any evidence on which the Representative of the Covered Bondholders considers reasonable to rely on, and may, but shall not be obliged to, have regard to all or any of the following:

- (i) a certificate from a Relevant Dealer, stating the intention of the parties to the relevant Transaction Document, confirming nothing has been said to, or by, the investors or any other parties which is in any way inconsistent with such stated intention and stating the modification to the relevant Transaction Document that is required to reflect such intention;
- (ii) confirmation from the Rating Agency that, after giving effect to such modification, the Covered Bonds shall continue to have the same credit ratings as those assigned to them immediately prior to the modification.

Covered Bondholders are bound by Extraordinary Resolutions and Programme Resolutions

A meeting of Covered Bondholders may be called to consider matters which affect the rights and

interests of Covered Bondholders. These include (but are not limited to): (i) instructing the Representative of the Covered Bondholders to take enforcement action against the Issuer and/or the Covered Bonds Guarantor; (ii) reduction or cancellation of the amount payable or, where applicable, modification of the method of calculating the amount payable or modification of the date of payment or, where applicable, modification of the method of calculating the date of payment in respect of any principal or interest in respect of the Covered Bonds; (iii) alteration of the currency in which payments under the Covered Bonds are to be made; (iv) alteration of the majority required to pass an Extraordinary Resolution; and (v) any amendments to the Covered Bonds Guarantee or the Deed of Pledge (except in a manner determined by the Representative of the Covered Bondholders not to be materially prejudicial to the interests of the Covered Bondholders of any Series).

Certain decisions of Covered Bondholders shall be taken at a Programme level by means of Programme Resolution. A Programme Resolution will bind all Covered Bondholders, irrespective of whether they attended the meeting or voted in favour of the Programme Resolution. No Resolution, other than a Programme Resolution, passed by the holders of one Series of Covered Bonds will be effective in respect of another Series unless it is sanctioned by an Ordinary Resolution or an Extraordinary Resolution, as the case may require, of the holders of that other Series. Any Resolution passed at a meeting of the Covered Bondholders of a Series shall bind all other holders of that Series, irrespective of whether they attended the meeting and whether they voted in favour of the relevant Resolution.

It should also be noted that after the delivery of a Notice to Pay, the protection and exercise of the Covered Bondholders' rights against the Issuer will be exercised by the Covered Bonds Guarantor (or the Representative of the Bondholders on its behalf). The rights and powers of the Covered Bondholders may only be exercised in accordance with the Rules of the Organisation of the Covered Bondholders. In addition, after the delivery of a Covered Bonds Guarantor Acceleration Notice, the protection and exercise of the Covered Bondholders' rights against the Covered Bonds Guarantor and the security under the Covered Bonds Guarantee is one of the duties of the Representative of the Covered Bondholders. The Conditions limit the ability of each individual Covered Bondholder to commence proceedings against the Covered Bonds Guarantor by conferring on the meeting of the Covered Bondholders the power to determine in accordance with the Rules of the Organisation of the Covered Bondholders, whether any Covered Bondholder may commence any such individual actions.

Controls over the transaction

The BoI OBG Regulations require that certain controls be performed by the Issuer (see paragraph headed "Controls over the transaction" under the section headed "*Selected aspects of Italian law*"), aimed, *inter alia*, at mitigating the risk that any obligation of the Issuer or the Covered Bonds Guarantor under the Covered Bonds is not complied with. Whilst the Issuer believes that it has implemented the appropriate policies and controls in compliance with the relevant requirements, investors should note that there is no assurance that such compliance ensures that the aforesaid controls are actually performed and that any failure to properly implement the relevant policies and controls could have an adverse effect on the Issuer's or the Covered Bonds Guarantor's ability to perform their obligations under the Covered Bonds.

Limits to the integration

Under the BoI OBG Regulations, any integration, whether through Public Assets or Integration Assets, shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations (see paragraph headed "*Tests set out in the MEF Decree*" under the section headed "*Selected aspects of Italian law*").

More specifically, under the BoI OBG Regulations, integration is allowed exclusively for the purpose of (i) complying with the tests provided for under the MEF Decree; (ii) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements or (iii) complying with the Integration Assets Limit.

Investors should note that the integration is not allowed in circumstances other than as set out in the BoI OBG Regulations and specified above.

EU Savings Directive

Under EC Council Directive 2003/48/EC on the taxation of savings income (the “**EU Savings Directive**”), each Member State is required, from 1 July 2005, to provide to the tax authorities of another Member State details of payments of interest or other similar income (within the meaning of the EU Savings Directive) paid by a paying agent within its jurisdiction to, or collected by such a paying agent for, an individual resident or certain limited types of entity established in that other Member State; however, for a transitional period, Austria may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35%. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non EU countries to the exchange of information relating to such payments.

Also a number of non EU countries, and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent within its jurisdiction to, or collected by such paying agent for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a paying agent in a Member State to, or collected by such a paying agent for, an individual resident or certain limited types of entity established in one of those territories.

On 24 March 2014, the European Council adopted an EU Council Directive formally adopted a Council Directive amending the EU Savings Tax Directive (the “**Amending Directive**”). The Amending Directive broadens the scope of the requirements described above. In particular, the changes expand the range of payments covered by the EU Savings Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the EU Savings Directive, to include certain other types of entity and legal arrangement. Member States are required to implement national legislation giving effect to these changes by 1 January 2016 (which national legislation must apply from 1 January 2017).

However, the European Commission has proposed the repeal of the Savings Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The proposal also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Directive.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent (as defined in the Conditions of the Notes) nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the Directive.

Implementation in Italy of the EU Savings Directive

Italy has implemented the EU Savings Directive through Legislative Decree No. 84 of 18 April, 2005 (**Decree 84**). Under Decree 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall not apply the withholding tax and shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian Tax Authorities to the competent foreign tax authorities of the State of residence of the beneficial owner.

Base Prospectus to be read together with applicable Final Terms

The terms and conditions of the Covered Bonds (other than the Registered Covered Bonds) included in this Base Prospectus apply to the different types of Covered Bonds which may be issued under the Programme. The terms and conditions applicable to each Series of Covered Bonds (other than the Registered Covered Bonds) can be reviewed by reading the Conditions as set out in this Base Prospectus, which constitute the basis of all Covered Bonds (other than the Registered Covered Bonds) to be offered under the Programme, together with the applicable Final Terms which complete the Conditions of the Programme in the manner required to reflect the particular terms and conditions applicable to the relevant Series of Covered Bonds. The full terms and conditions applicable to each Series of Registered Covered Bonds can be reviewed by reading the relevant Registered Covered Bonds certificate, the relevant Registered Covered Bond Conditions and any schedule or ancillary agreement attached or relating thereto. For the avoidance of doubt, Registered Covered Bonds are not and will not be subject to the generally applicable terms and conditions of the Covered Bonds (contained in the section headed “Terms and Conditions of the Covered Bonds”). No Final Terms will be issued in respect of Registered Covered Bonds.

Representative of the Covered Bondholders' powers may affect the interests of the Covered Bondholders

In the exercise of its powers, trusts, authorities and discretions the Representative of the Covered Bondholders shall only have regard to the interests of the Covered Bondholders and the other Secured Creditors but if, in the opinion of the Representative of the Covered Bondholders, there is a conflict between these interests, the Representative of the Covered Bondholders shall have regard solely to the interests of the Covered Bondholders.

If, in connection with the exercise of its powers, trusts, authorities or discretions, the Representative of the Covered Bondholders is of the opinion that the interests of the Covered Bondholders of any one or more Series would be materially prejudiced thereby, the Representative of the Covered Bondholders shall not exercise such power, trust, authority or discretion without the approval of such Covered Bondholders by Extraordinary Resolution or by a direction in writing of such Covered Bondholders of at least 75 per cent. of the Outstanding Principal Balance of the Covered Bonds of the relevant Series.

4. RISK FACTORS RELATING TO THE COVERED BONDS GUARANTOR AND THE COVERED BONDS GUARANTEE

Covered Bonds Guarantor only obliged to pay the Guaranteed Amounts on the Due for Payment Date

The Covered Bonds Guarantor has no obligation to pay the Guaranteed Amounts payable under the Covered Bonds Guarantee until service by the Representative of the Covered Bondholders:

- (i) on the Covered Bonds Guarantor, following the occurrence of an Article 74 Event or an Issuer Event of Default, respectively, of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay; and
- (ii) following the occurrence of a Covered Bonds Guarantor Event of Default, on the Covered Bonds Guarantor of a Covered Bonds Guarantor Acceleration Notice.

An Article 74 Notice to Pay can only be served if an Article 74 Event occurs and results in service by the Representative of the Covered Bondholders of an Article 74 Notice to Pay on the Issuer and the Covered Bonds Guarantor. A Notice to Pay can only be served if an Issuer Event of Default occurs and results in service by the Representative of the Covered Bondholders of a Notice to Pay on the Issuer and the Covered Bonds Guarantor. A Covered Bonds Guarantor Acceleration Notice can only be served if a Covered Bonds Guarantor Events of Default occurs.

Following service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay on the Covered Bonds Guarantor (provided that (a) an Article 74 Event or an Issuer Event of Default has occurred and (b) no Covered Bonds Guarantor Acceleration Notice has been served) under the terms of the Covered Bonds Guarantee, the Covered Bonds Guarantor will be obliged to pay the Guaranteed Amounts as on the Due for Payment Date. Such payments will be subject to and will be

made in accordance with the Post-Issuer Default Priority of Payments. In these circumstances, other than the Guaranteed Amounts, the Covered Bonds Guarantor will not be obliged to pay any amount, for example in respect of broken funding indemnities, penalties, premiums, default interest or interest on interest which may accrue on or in respect of the Covered Bonds.

Pursuant to the Covered Bonds Guarantee, following the occurrence of an Article 74 Event or an Issuer Event of Default and service, respectively, of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, but prior to the occurrence of any Covered Bonds Guarantor Event of Default, the Covered Bonds Guarantor shall substitute the Issuer in every and all obligations of the Issuer towards the Covered Bondholders, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bonds Guarantor on the Scheduled Due for Payment Date. In consideration of the substitution of the Covered Bonds Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bonds Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the right of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

Furthermore, please note that the above restrictions are provided for by either the MEF Decree or contractual agreements between the parties of the Covered Bonds Guarantee, and there is no case-law or other official interpretation on this issue. Therefore, we cannot exclude that a court might uphold a Covered Bondholder's right to act directly against the Issuer.

Extendable obligations under the Covered Bonds Guarantee

With respect to the Series of Covered Bonds in respect of which the Extendable Maturity is specified in the relevant Final Terms, if the Covered Bonds Guarantor is obliged under the Covered Bonds Guarantee to pay a Guaranteed Amount and has insufficient funds available under the relevant Priority of Payments to pay such amount on the Maturity Date, then the obligation of the Covered Bonds Guarantor to pay such Guaranteed Amounts shall automatically be deferred to the relevant Extended Maturity Date. However, to the extent the Covered Bonds Guarantor has sufficient moneys available to pay in part the Guaranteed Amount in respect of the relevant Series of Covered Bonds, the Covered Bonds Guarantor shall make such partial payment in accordance with the relevant Priorities of Payments, as described in Condition 8 (*Redemption and Purchase*) on the relevant Maturity Date and any subsequent CB Payment Date falling prior to the relevant Extended Maturity Date. Payment of the unpaid amount shall be deferred automatically until the applicable Extended Maturity Date. Interest will continue to accrue and be payable on the unpaid Guaranteed Amount on the basis set out in the applicable Final Terms or, if not set out therein, in Condition 8 (*Redemption and Purchase*), *mutatis mutandis*. In these circumstances, except where the Covered Bonds Guarantor has failed to apply money in accordance with the relevant Priorities of Payments in accordance with Condition 8 (*Redemption and Purchase*), failure by the Covered Bonds Guarantor to pay the relevant Guaranteed Amount on the Maturity Date or any subsequent CB Payment Date falling prior to the Extended Maturity Date (or the relevant later date following any applicable grace period) shall not constitute a Covered Bonds Guarantor Events of Default. However, failure by the Covered Bonds Guarantor to pay any guaranteed amount or the balance thereof, as the case may be, on the relevant Extended Maturity Date and/or pay any other amount due under the Covered Bonds Guarantee will (subject to any applicable grace period) constitute a Covered Bonds Guarantor Events of Default.

No Gross-up for Taxes by the Covered Bonds Guarantor

Notwithstanding anything to the contrary in this Base Prospectus, if withholding of, or deduction of any present or future taxes, duties, assessments or charges of whatever nature is imposed by or on behalf of Italy, any authority therein or thereof having power to tax, the Covered Bonds Guarantor will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Covered Bondholders, as the case may be, and shall not be obliged to pay any additional amounts to the Covered Bondholders.

Limited resources available to the Covered Bonds Guarantor

The Covered Bonds Guarantor's ability to meet its obligations under the Covered Bonds Guarantee will depend on the realisable value of the Portfolio, the amount of principal and revenue proceeds generated by the Portfolio and/or the Eligible Investments and Authorised Investments and the timing thereof and amounts received from the Hedging Counterparties, the Receivables Collection Account Bank and the Account Bank. The Covered Bonds Guarantor will not have any other source of funds available to meet its obligations under the Covered Bonds Guarantee.

If a Covered Bonds Guarantor Event of Default occurs, the proceeds of the Portfolio, the Eligible Investments and Authorised Investments and the amounts received from the Hedging Counterparties, the Receivables Collection Account Bank and the Account Bank, may not be sufficient to meet the claims of all the Secured Creditors, including the Covered Bondholders. If the Secured Creditors have not received the full amount due to them pursuant to the terms of the Transaction Documents, then they may still have an unsecured claim against the Issuer for the shortfall. There is no guarantee that the Issuer will have sufficient funds to pay that shortfall.

Covered Bondholders should note that the Asset Coverage Test and the Amortisation Test have been structured to ensure that the outstanding nominal amount of the assets included in the Portfolio shall be greater than or equal to the Outstanding Principal Balance of the Covered Bonds. In addition the MEF Decree and the BoI OBG Regulations provide for certain further tests aimed at ensuring that (a) the net present value of the Eligible Portfolio (net of certain costs) shall be greater than or equal to the net present value of the Covered Bonds; and (b) the amount of interest and other revenues generated by the assets included in the Portfolio (net of certain costs) shall be equal to, or greater than, the interest and costs due by the Issuer under the Covered Bonds (for a full description of the Tests see Section "*Credit Structure*").

However there is no assurance that there will not be a shortfall in the amounts available to the Covered Bonds Guarantor to meet its obligations under the Covered Bonds Guarantee.

Reliance of the Covered Bonds Guarantor on third parties

The Covered Bonds Guarantor has entered into agreements with a number of third parties, which have agreed to perform services for the Covered Bonds Guarantor. In particular, but without limitation, the Servicer has been (and Successor Servicer may be) appointed to service, in accordance with the terms of the Servicing Agreement, Public Assets and Integration Assets included in the Portfolio and the Asset Monitor has been appointed to monitor compliance with the Tests.

In the event that any of those parties fails to perform its obligations under the relevant agreement to which it is a party, the realisable value of the Portfolio or any part thereof may be affected, or, pending such realisation (if the Portfolio or any part thereof cannot be sold), the ability of the Covered Bonds Guarantor to make payments under the Covered Bonds Guarantee may be affected. For instance, if the Servicer has failed to adequately administer the Portfolio, this may lead to higher incidences of non-payment or default by Debtors. The Covered Bonds Guarantor is also reliant on the Hedging Counterparties to provide it with the funds matching its obligations under the Covered Bonds Guarantee.

If an event of default occurs in relation to the Servicer pursuant to the terms of the Servicing Agreement, then the Covered Bonds Guarantor with the prior notice to the Representative of the Covered Bondholders will be entitled to terminate the appointment of the Servicer and with the prior consent of the Representative of the Covered Bondholders and prior notice to the Rating Agency will be entitled to appoint a Successor Servicer in its place. There can be no assurance that a successor with sufficient experience in carrying out the activities of the Servicer would be found and would be willing and able to carry out the relevant activities on the terms of the Servicing Agreement. The ability of a Successor Servicer to perform fully the required services would depend, among other things, on the information, software and records available at the time of the appointment. Any delay or inability to appoint a Successor Servicer may affect the realisable value of the Portfolio or any part thereof, and/or the ability of the Covered Bonds Guarantor to make payments under the Covered Bonds Guarantee.

The Representative of the Covered Bondholders is not obliged in any circumstances to act as a Servicer or to monitor the performance by the Servicer of its obligations.

Reliance on Hedging Counterparties

To provide a hedge against interest rate risks and/or currency risk in respect of each Series of the Covered Bonds issued under the Programme, the Covered Bonds Guarantor may enter into CB Swaps with the CB Hedging Counterparties. Additionally, to provide a hedge against interest rate risk and/or currency risk on the Portfolio, the Covered Bonds Guarantor will enter into TBG Swaps in respect of each assigned portfolio (together the TBG Swaps and the CB Swaps, the “**Swap Agreements**”) with the TBG Hedging Counterparties (together the TBG Hedging Counterparties and the CB Hedging Counterparties, the “**Hedging Counterparties**”).

If the Covered Bonds Guarantor fails to make timely payments of amounts due under any Swap Agreement, then it will (unless otherwise stated in the relevant Swap Agreement) have defaulted under that Swap Agreement. A Hedging Counterparty is (unless otherwise stated in the relevant Master Agreement) only obliged to make payments to the Covered Bonds Guarantor as long as the Covered Bonds Guarantor complies with its payment obligations under the relevant Swap Agreement. In circumstances where non-payment by the Covered Bonds Guarantor under a Swap Agreement does not result in a default under that Swap Agreement, the Hedging Counterparty may be obliged to make payments to the Covered Bonds Guarantor pursuant to the Master Agreements as if payment had been made by the Covered Bonds Guarantor. Any amounts not paid by the Covered Bonds Guarantor to a Hedging Counterparty may in such circumstances incur additional amounts of interest by the Covered Bonds Guarantor, which would rank senior to amounts due on the Covered Bonds. If the Hedging Counterparty is not obliged to make payments or if it defaults in its obligations to make payments of amounts in the relevant currency equal to the full amount to be paid to the Covered Bonds Guarantor on the payment date under the Master Agreements, the Covered Bonds Guarantor will be exposed to changes in the relevant currency exchange rates to Euro and to any changes in the relevant rates of interest.

If a Swap Agreement terminates, then the Covered Bonds Guarantor may be obliged to make a termination payment to the relevant Hedging Counterparty. There can be no assurance that the Covered Bonds Guarantor will have sufficient funds available to make a termination payment under the relevant Swap Agreement, nor can there be any assurance that the Covered Bonds Guarantor will be able to enter into a replacement swap agreement, or if one is entered into, that the credit rating of the replacement hedging counterparty will be sufficiently high to prevent a downgrade of the then current ratings of the Covered Bonds by the Rating Agency. In addition, the Master Agreements may provide that notwithstanding any relevant Hedging Counterparty ceasing to be assigned the requisite ratings and it failing to take the remedial action set out in the relevant Master Agreement, the Covered Bonds Guarantor may not terminate the Master Agreement until a replacement hedging counterparty has been found. There can be no assurance that the Covered Bonds Guarantor will be able to enter into a replacement swap agreement with a replacement hedging counterparty with the requisite ratings and at the same terms and conditions subsequent swap agreement.

If the Covered Bonds Guarantor is obliged to pay a termination payment under any Master Agreement, such termination payment may rank ahead of amounts due on the Covered Bonds and with amounts due under the Covered Bonds Guarantee. Accordingly, the obligation to pay a termination payment may adversely affect the ability of the Covered Bonds Guarantor to meet its obligations under the Covered Bonds Guarantee.

Limited description of the Portfolio

Covered Bondholders may not receive detailed statistics or information in relation to the Public Assets and Integration Assets included in the Portfolio, because it is expected that the constitution of the Portfolio will frequently change due to, for instance:

- (i) the Seller selling further Public Assets and Integration Assets,
- (ii) the Seller repurchasing certain Public Assets and Integration Assets in accordance with the Master Transfer Agreement; and
- (iii) the Seller (as long as it is the Servicer in the context of the Programme) being granted by the Covered Bonds Guarantor with a wide power to renegotiate the terms and conditions of Public

Assets and Integration Assets included in the Portfolio.

However, each Receivable and Security being, from time to time, part of the Portfolio, will be required to meet the Criteria and/or the characteristics (as applicable) set out in the Master Transfer Agreement and to conform to the representations and warranties granted by the Seller under the Warranty and Indemnity Agreement (see paragraph headed “Warranty and Indemnity Agreement” under the section headed “*Description of the Transaction Documents*”). In addition, the Tests are intended to ensure, *inter alia*, that the ratio of the Covered Bonds Guarantor’s assets to the Covered Bonds is maintained at a certain minimum level and the Asset Cover Report to be provided by the Calculation Agent on each Calculation Date will set out, *inter alia*, certain information in relation to the Tests.

In accordance with the Portfolio Administration Agreement, any Additional Seller may sell to the Covered Bonds Guarantor, and the latter shall purchase, Public Assets and Integration Assets, subject to, *inter alia*: (i) the execution of a master transfer agreement substantially in the form of the Master Transfer Agreement, and (ii) the granting of a subordinated loan by such Additional Seller for the purpose of financing the purchase of Public Assets or Integration Assets from it, in accordance with the provision of a subordinated loan agreement to be executed substantially in the form of the Subordinated Loan Agreement.

Sale of Selected Assets and/or Integration Assets following the occurrence of an Article 74 Event or an Issuer Event of Default

Following the service of an Article 74 Notice to Pay (which has not been withdrawn) or of a Notice to Pay and prior to the occurrence of a Covered Bonds Guarantor Event of Default, if necessary in order to effect timely payments under the Covered Bonds, as determined by the Calculation Agent in consultation with the Portfolio Manager, then the Covered Bonds Guarantor, shall direct the Servicer to sell Selected Assets (selected on a random basis) and/ or Integration Assets, provided that no representations and warranties will be given by the Covered Bonds Guarantor in respect of the Selected Assets sold (see “*Description of the Transaction Documents — Portfolio Administration Agreement*”).

There is no guarantee that a buyer will be found to acquire Selected Assets and/or Integration Assets at the times required and there can be no guarantee or assurance as to the price which may be able to be obtained for such Selected Assets and/or Integration Assets, which may affect payments under the Covered Bonds Guarantee. However, the Selected Assets and/or Integration Assets may not be sold by the Covered Bonds Guarantor (through the Servicer) for an amount lower than the Adjusted Required Redemption Amount for the relevant Series of Covered Bonds until 6 (six) months prior to the Maturity Date in respect of such Covered Bonds or (if the same is specified as applicable in the relevant Final Terms) the Extended Maturity Date in respect of such Covered Bonds. If, *inter alia*, Selected Assets and/or Integration Assets have not been sold (in whole or in part) in an amount equal to the Adjusted Required Redemption Amount by the date which is 6 (six) months prior to the Maturity Date or Extended Maturity Date of a Series of Covered Bonds which are not Long Dated Covered Bonds, the Covered Bonds Guarantor (through the Servicer), is obliged to sell the Selected Assets and/or Integration Assets for the best price reasonably available notwithstanding that such price may be less than the Adjusted Required Redemption Amount (see paragraph headed “*Portfolio Administration Agreement*” under the section headed “*Description of the Transaction Documents*”).

Realisation of assets following the occurrence of a Covered Bonds Guarantor Event of Default

If a Covered Bonds Guarantor Events of Default occurs and a Covered Bonds Guarantor Acceleration Notice is served on the Covered Bonds Guarantor, then the Representative of the Covered Bondholders shall, in the name and on behalf of the Covered Bonds Guarantor, direct the Servicer to sell the Selected Assets and/or the Integration Assets as quickly as reasonably practicable taking into account the market conditions at that time (see paragraph headed “*Portfolio Administration Agreement*” under the section headed “*Description of the Transaction Documents*”).

There is no guarantee that the proceeds of realisation of the Portfolio will be in an amount sufficient to repay all amounts due to creditors (including the Covered Bondholders) under the Covered Bonds and the Transaction Documents. If a Covered Bonds Guarantor Acceleration Notice is served on the

Covered Bonds Guarantor then the Covered Bonds may be repaid sooner or later than expected or not at all.

Factors that may affect the realisable value of the Portfolio or the ability of the Covered Bonds Guarantor to make payments under the Covered Bonds Guarantee

Following the occurrence of an Issuer Event of Default, the service of a Notice to Pay on the Issuer and on the Covered Bonds Guarantor, the realisable value of the assets included in the Portfolio may be reduced (which may affect the ability of the Covered Bonds Guarantor to make payments under the Covered Bonds Guarantee) by, *inter alia*:

- (i) default by the Debtors on amounts due in respect of Public Assets and Integration Assets;
- (ii) set-off risks in relation to some types of Public Assets and Integration Assets included in the Portfolio;
- (iii) limited recourse to the Covered Bonds Guarantor;
- (iv) possible regulatory changes by the Bank of Italy, CONSOB and other regulatory authorities;
- (v) adverse movement of the interest rate;
- (vi) unwinding cost related to the hedging structure; and
- (vii) regulations in Italy that could lead to some terms of the Public Assets and Integration Assets being unenforceable.

Each of these factors is considered in more detail below. However, it should be noted that the Amortisation Test is intended to ensure that there will be an adequate amount of Public Assets and Integration Assets in the Portfolio and monies standing to the credit of the Accounts to enable the Covered Bonds Guarantor to repay the Covered Bonds following an Issuer Event of Default, service of a Notice to Pay on the Issuer and on the Covered Bonds Guarantor and accordingly it is expected (although there is no assurance) that Selected Assets and/or Integration Assets could be realised for sufficient values to enable the Covered Bonds Guarantor to meet its obligations under the Covered Bonds Guarantee.

Default by Debtors in paying amounts due on Receivables or Securities

Debtors may default on their obligations due under the Receivables or the Securities for a variety of reasons. The Public Assets and Integration Assets are affected by credit, liquidity and interest rate risks. Various factors influence delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies. Certain factors may lead to an increase in default by the Debtors, and could ultimately have an adverse impact on the ability of the Debtors to repay the Receivables or the Securities.

Changes to the lending criteria of the Seller

Each of the Loans originated by the Seller will have been originated in accordance with its lending criteria at the time of origination. Each of the Loans sold to the Covered Bonds Guarantor by the Seller, but originated by a person other than the Seller (an “**Originator**”), will have been originated in accordance with the lending criteria of such Originator at the time of origination. It is expected that the Seller’s or the relevant Originator’s, as the case may be, lending criteria will generally consider term of loan, indemnity guarantee policies, status of applicants and credit history. In the event of the sale or transfer of any Loans to the Covered Bonds Guarantor, the Seller will warrant that (a) such Loans as were originated by it were originated in accordance with the Seller’s lending criteria applicable at the time of origination and (b) such Loans as were originated by an Originator, were originated in accordance with the relevant Originator’s lending criteria applicable at the time of origination. The Seller retains the right to revise its lending criteria from time to time subject to the terms of the Master Transfer Agreement. An Originator may additionally revise its lending criteria at any time. However, if such lending criteria change in a manner that affects the creditworthiness of the Loans, that may lead

to increased defaults by Debtors and may affect the realisable value of the Portfolio and the ability of the Covered Bonds Guarantor to make payments under the Covered Bonds Guarantee. However, Defaulted Assets in the Portfolio will be given a zero weighting for the purposes of the calculation of the Tests.

Risks relating to the Loans

The ability of the Covered Bonds Guarantor to recover payments of interest and principal from the Loans is subject to a number of risks. These include the risks set out below.

Commingling risk

The Covered Bonds Guarantor is subject to the risk that, in the event of insolvency of the Servicer, the Collections held at the time the insolvency occurs might be treated by the Servicer's bankruptcy estate as an unsecured claim of the Issuer. The Servicing Agreement includes provisions in relation to the transfer of Collections intended to reduce the amount of the monies from time to time subject to the commingling risk. In particular, pursuant to the Servicing Agreement, the Servicer has undertaken to pay all Collections into accounts of the Covered Bonds Guarantor by no later than the third Business Day following the reconciliation of such amounts and with value on account corresponding to the collection date by the Servicer. The Servicer shall carry out the reconciliation of the amounts received within 20 (twenty) days from the receipt of such amount by the Debtors.

Law Decree 91 introduced, *inter alia*, certain amendments to article 3 of Law 130, aimed at safeguarding collections generated in the context of a securitisation or covered bonds transaction.

In particular, pursuant to article 3, paragraph 2-*bis* of Law 130, as amended by Law Decree 91, no actions by persons other than the holders of the relevant securities can be brought on the accounts opened in the name of the special purpose vehicle with the account bank or the servicer, where the amounts paid by the debtors and any other sums paid or pertaining to the special purpose vehicle under the transactions ancillary to the transaction or otherwise under the transaction documents are credited. Such amounts may be applied by the special purpose vehicle exclusively in payment of (i) amounts due by special purpose vehicle to the holder of the relevant securities; (ii) amounts due by the special purpose vehicle to any counterparty of any derivative transaction entered into by the special purpose vehicle in connection with the transaction for the purposes of hedging risks relating to the receivables and securities assigned; and (iii) the other creditors of the special purpose vehicle with respect to other costs incurred by the special purpose vehicle in connection with the transaction. In case of any proceedings pursuant to Title IV of the Banking Law, or any bankruptcy proceedings (*procedura concorsuale*), the sums credited to such accounts (whether before or during the relevant insolvency proceeding) shall not be subject to suspension of payments and shall be immediately and fully repaid to the special purpose vehicle, without the need to file any petition (*domanda di ammissione al passivo o di rivendica*) and wait for the distributions (*riparti*) and the restitutions of sums (*restituzioni di somme*).

Furthermore, pursuant to article 3, paragraph 2-*ter*, of Law 130, no actions by the creditors of the servicer can be brought on the sums credited to the accounts opened by the servicer with third party depository banks, save for any amount which exceeds the sums collected by the servicer and due from time to time to the special purpose vehicle. In case of any insolvency proceeding (*procedura concorsuale*) in respect of the servicer, the sums credited to such accounts (whether before or during the relevant insolvency proceeding), up to the amounts collected by the servicer and due to the special purpose vehicle, shall be immediately and fully repaid to the special purpose vehicle, without the need to file any petition (*domanda di ammissione al passivo o di rivendica*) and wait for the distributions (*riparti*) and the restitutions of sums (*restituzioni di somme*).

Set-off risks

The assignment of receivables under Law 130 is governed by Article 58, paragraph 2, 3 and 4, of the Banking Law. According to the prevailing interpretation of such provision, such assignment becomes

enforceable against the relevant Debtors as of the later of: (i) the date of the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), and (ii) the date of registration of the notice of assignment in the Companies' Register of the place where the Covered Bonds Guarantor has its registered office. Consequently, the rights of the Covered Bonds Guarantor may be subject to the direct rights of the Debtors against the Seller, including rights of set-off on claims existing prior to publication in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) and registration in the Companies' Register of the place where the Covered Bonds Guarantor has its registered office. Some of the Loans in the Portfolio may have increased risks of set-off, because the Seller is required to make payments under them to the Debtors. In addition, the exercise of set-off rights by Debtors may adversely affect any sale proceeds of the Portfolio and, ultimately, the ability of the Covered Bonds Guarantor to make payments under the Covered Bonds Guarantee.

In addition some of the Loans in the Portfolio have been disbursed under certain framework agreements, Multi-tranche Agreements (as defined herein) or plafond agreements (the “**Master Loan Agreements**” and, each of them, a “**Master Loan Agreement**”). Pursuant to each Master Loan Agreement, notwithstanding the relevant Loan is fully disbursed in favor of the relevant Debtor and assigned to the Covered Bonds Guarantor, the Seller maintains a contractual relationship with the relevant Debtor and may be obliged to disburse further loans in favour of the same. In light of the above, should the Seller breach its obligations under any of the Master Loan Agreements, the relevant Debtors, might raise an exception pursuant to Article 1460 of the Italian Civil Code (*eccezione di inadempimento*), and this could possibly result in a temporary suspension of payments due under the relevant Receivables assigned to the Covered Bonds Guarantor until the Seller fulfills its own, provided that the respective obligations of the Seller and the Debtor are deemed to be interdependent. The length of the suspension is uncertain, and might depend, inter alia, on the length of a judicial proceeding that would likely be initiated by the Covered Bonds Guarantor or the Debtor.

Notwithstanding the above, the Debtors in raising such exception should always act in bona fide and any delay or refusal to pay should be only temporary and proportional to the breach of the Seller. Moreover, in principle, the relevant Debtor could not: (i) exercise set-off rights *vis-à-vis* the Covered Bonds Guarantor with reference to the payments to be received by the Seller for obligations that arose after the transfer is effective *vis-à-vis* the Debtors; (ii) require the Covered Bonds Guarantor to fulfill the Seller's obligations; (iii) require the Covered Bonds Guarantor to refund any damages incurred by the Debtor further to the failure by the Seller to fulfill its own obligations.

Furthermore, Law Decree No. 145 of 23 December 2013 (*Decreto Destinazione Italia*) as converted with amendments into Law No. 9 of 21 February 2014 (the “**Destinazione Italia Decree**”) introduced, *inter alia*, certain amendments to article 4 of Law 130. As a consequence of such amendments, it is now expressly provided by Law 130 that the Debtors cannot exercise rights of set-off against the Covered Bonds Guarantor on claims arising *vis-à-vis* the Seller after the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*).

Usury Law

Pursuant to the Usury Law lenders are prevented from applying interest rates higher than those deemed to be usurious (the “**Usury Rates**”). Usury Rates are set on a quarterly basis by a Decree issued by the Italian Treasury. With a view to limiting the impact of the application of the Usury Law to Italian loans executed prior to the entering into force of the Usury Law, Italian Law no. 24 of 28 February 2001 (“**Law 24/2001**”) provides (by means of interpreting the provisions of the Usury Law) that an interest rate is usurious if it is higher than the relevant limit in force at the time at which such interest rate is promised or agreed, regardless of the time at which interest is repaid by the borrower. A few commentators and debatable lower court decisions have held that, irrespective of the principle set out in Law 24/2001, if interest originally agreed at a rate falling below the then applicable usury limit (and thus, not usurious) were, at a later date, to exceed the usury limit from time to time in force, such interest should nonetheless be reduced to the then applicable usury limit. Recently, the Italian Supreme Court (*Corte di Cassazione*), under decision no. 350/2013 has clarified, for the first time, that the

default interest are relevant for the purposes of determining if an interest rate is usurious. That interpretation is in contradiction with the current methodology for determining the Usury Rates, considering that the relevant surveys aimed at calculating the applicable average rate never took into account the default interest rates. In addition, the Italian Supreme Court (Corte di Cassazione), under decision no. 602/2013, has held that, with regard to loans granted before the entry into force of Usury Law, an automatic reduction of the applicable interest rate to the Usury Rates applicable from time to time shall apply.

Compounding of interest

Pursuant to article 1283 of the Italian Civil Code, in respect of a monetary claim or receivable, accrued interest may be capitalised after a period of not less than six months or from the date when any legal proceedings are commenced in respect of that monetary claim or receivable. Article 1283 of the Italian Civil Code allows derogation from this provision in the event that there are recognised customary practices to the contrary. Banks and other financial institutions in the Republic of Italy have traditionally capitalised accrued interest on a quarterly basis on the grounds that such practice could be characterised as a customary practice. However, a number of recent judgements from Italian courts (including judgements from the Italian Supreme Court (*Corte di Cassazione*) have held that such practices may not be defined as customary practices. Consequently if Debtors were to challenge this practice, it is possible that such interpretation of the Italian Civil Code would be upheld before other courts in the Republic of Italy and that the returns generated from the relevant Mortgage Loans may be prejudiced.

In this respect, it should be noted that Article 25, paragraph 3, of Legislative Decree No. 342 of 4 August 1999 (“**Decree No. 342**”), enacted by the Italian Government under a delegation granted pursuant to law No. 142 of 19 February 1992, has considered the capitalisation of accrued interest (*anatocismo*) made by banks prior to the date on which it came into force (19 October 1999) to be valid. After such date, the capitalisation of accrued interest is no longer possible upon the terms established by a resolution of the CICR issued on 22 February 2000. Law No. 342 has been challenged and decision No. 425 of 17 October 2000 of the Italian Constitutional Court has declared as unconstitutional under the provisions of Law No. 342 regarding the validity of the capitalisation of accrued interest made by banks prior to the date on which Law No. 342 came into force.

Recently, article 1, paragraph 629 of law No. 147 of 27 December 2013 (so called, “*Legge di Stabilità 2014*”) amended article 120, paragraph 2, of the Banking Law, providing that interests shall not accrue on capitalised interests. However, given the novelty of this new legislation and the absence of any jurisprudential interpretation, the impact of such new legislation may not be predicted as at the date of this Base Prospectus.

Furthermore there have been two rulings of Italian Courts that have held that the calculations applicable to the instalments under certain mortgage loan agreements that were based upon the amortisation method known as “French amortisation” (i.e. mortgage loans with fixed instalments, made up of an amount of principal (that progressively increases) and an amount of interest (that decreases as repayments are made) calculated with specific formula), triggered a violation of the Italian law provisions on the limitations on the compounding of interest (*divieto di anatocismo*). However, it should be pointed out that these were isolated judgements, still under appeal, and more recently various court rulings on the same matter have declared that the “French amortisation” method does not entail an illegal compounding element. However the Issuer is not able to exclude the risk that in the future other judgments may follow the two isolated decisions described above.

Loans disbursed by lenders in pool (ATI and Convenzioni in Pool)

The Portfolio includes certain Loans disbursed by lenders in pool both by means of ATI (as defined in this Base Prospectus) or Convenzioni in Pool (as defined in this Base Prospectus).

Pursuant to Italian law, should a pool of banks participate in a public auction for the granting of a loan towards a public entity, such banks are requested to form an ATI, such a temporary association of

enterprises, and give an irrevocable mandate (an *in rem propriam* mandate) to one of them acting as agent bank. The agent bank is entitled, *inter alia*, to enter into the loan agreement and perform all the recovery and collection activity towards the Debtor. In particular, the agent bank is, among the lenders, the only entity entitled to exercise the enforcement, recovery and collection activities towards the Debtor, provided that the agent bank shall, in accordance with an intercreditor agreement, distribute to each of the lender the relevant reimbursement amount. The lenders constituting the pool are therefore subject to the timing of payment by the agent bank and to the due fulfillment of its obligation under the intercreditor agreement.

Certain Loans included in the Portfolio are loans disbursed by lenders in the pool both by means of ATI or Convenzioni in Pool and, in respect to some of such loans, Intesa Sanpaolo (former Banca Infrastrutture Innovazione e Sviluppo S.p.A.) acts as agent bank otherwise Intesa Sanpaolo acts as principal.

Where Intesa Sanpaolo acts as agent bank in an ATI, Intesa Sanpaolo may, in accordance with the provisions regulating the ATI, assign its rights against the Debtor, but nevertheless will remain the only recognised counterparty for the public entity Debtor and, accordingly, the only entitled to perform, also in the interest of the Covered Bonds Guarantor, the enforcement and recovery procedures *vis-à-vis* such Debtor.

In the event that Intesa Sanpaolo is not the agent bank, but acts solely in its capacity as a lender in the pool, Intesa Sanpaolo would, following the assignment of the Loan and the Portfolio, not be able to supervise the enforcement, recovery and collection activities, which are performed by the relevant agent bank.

For the avoidance of doubt, the Covered Bonds Guarantor shall only be able to rely on the relevant agent bank fulfilling its obligations in a timely and orderly fashion.

The Transaction Documents contain certain provisions aimed at mitigating the risks mentioned above. In particular, in accordance with the Servicing Agreement and the Portfolio Administration Agreement, upon the occurrence of an ATI Agent Trigger Event, the Issuer and the Servicer are required to implement certain ATI Agent Remedy Actions. (For a complete description see “Credit Structure”).”

Other risks

Insolvency proceedings and subordination provisions

There is uncertainty as to the validity and/or enforceability of a provision which (based on contractual and/or trust principles) subordinates certain payment rights of a creditor to the payment rights of other creditors of its counterparty upon the occurrence of insolvency proceedings relating to that creditor.

Recent cases in English and US Courts have focused on provisions involving the subordination of a hedging counterparty's payment rights in respect of certain termination payments upon the occurrence of insolvency proceedings or other default on the part of such counterparty. Such provisions are similar in effect to the terms which will be included in the Transaction Documents relating to the subordination of certain payments to be made by the Covered Bonds Guarantor to the Hedging Counterparties.

The English Supreme Court has held that a flip clause as described above is valid under English law. Contrary to this, the US Bankruptcy Court has held that such a subordination provision is unenforceable under US bankruptcy law and that any action to enforce such provision would violate the automatic stay which applies under such law in the case of a US bankruptcy of the counterparty. The implications of this conflicting judgment are not yet known, particularly as the US Bankruptcy Court approved, in December 2010, the settlement of the case to which the judgment relates and subsequently the appeal was dismissed.

If a creditor of the Covered Bonds Guarantor or a related entity becomes subject to insolvency proceedings in any jurisdiction outside England and Wales, and it is owed a payment by the Covered Bonds Guarantor, a question arises as to whether the insolvent creditor or any insolvency official appointed in respect of that creditor could successfully challenge the validity and/or enforceability of

subordination provisions included in the Transaction Documents. In particular, based on the decision of the US Bankruptcy Court referred to above, there is a risk that such subordination provisions would not be upheld under US bankruptcy law.

While, as of the date hereof, Intesa Sanpaolo shall act as TBG 1 Hedging Counterparty, TBG 2 Hedging Counterparty and CB Hedging Counterparty, it cannot be excluded that different entities (including those having their registered office in the US) may enter into a CB Swap, TBG 1 Swap and/or an TBG 2 Swap during the life of the Programme.

If a subordination provision included in the Transaction Documents was successfully challenged under the insolvency laws of any relevant jurisdiction and any relevant foreign judgment or order was recognised by the Italian courts, there can be no assurance that such actions would not adversely affect the rights of the Covered Bondholders, the market value of the Covered Bonds and/or the ability of the Covered Bonds Guarantor to satisfy its obligations under the Covered Bonds Guarantee.

Lastly, given the general relevance of the issues under discussion in the judgments referred to above and that the Transaction Documents will include terms providing for the subordination of certain payments to be made to the Hedging Counterparties, there is a risk that the final outcome of the dispute in such judgments may result in negative rating pressure in respect of the Covered Bonds. If any rating assigned to the Covered Bonds is lowered, the market value of the Covered Bonds may reduce.

U.S. Foreign Account Tax Compliance Withholding

The Issuer and other non-U.S. financial institutions through which payments on the Covered Bonds are made may be required to withhold U.S. tax at a rate of 30 per cent. on all, or a portion of, payments made after 31st December, 2016 in respect of (i) any Covered Bonds issued or materially modified on or after the date that is six months after the date on which the final regulations applicable to “foreign passthru payments” are filed in the Federal Register, (ii) any Covered bonds that are treated as equity for U.S. federal income tax purposes whenever issued, pursuant to Sections 1471 through 1474 of the Code, U.S. Treasury regulations or agreements thereunder, official interpretations thereof, or any law implementing an intergovernmental approach thereto (“**FATCA**”).

This withholding tax may be triggered if (i) the Issuer is a foreign financial institution (“**FFI**”) (as defined by FATCA), which enters into and complies with an agreement with the U.S. Internal Revenue Service (“**IRS**”) to provide certain information on its account holders (making the issuer a “**participating FFI**”) (ii) the Issuer has a positive “passthrough percentage” (as defined by FATCA), and (iii)(a) an investor does not provide sufficient information for the participating FFI (or the Covered Bond Guarantor, if payment is required under the Covered Bond Guarantee) to determine whether the investor is a U.S. person or should otherwise be treated as holding a “United States account” of the Issuer, or (b) any FFI through which payment on such Covered Bonds is made is not a participating FFI.

In order to improve international tax compliance and to implement FATCA, Italy has entered into an intergovernmental agreement with the United States on 10 January 2014, ratified with Law 18 June 2015, no. 95, published in Official Gazette – general series on 7 July 2015, no. 155. The Issuer is now required to report certain information on its U.S. account holders to the Italian Tax Authorities in order (i) to obtain an exemption from FATCA withholding on payments it receives and/or (ii) to comply with any applicable Italian law. However, it is not yet certain how the United States and Italy will address withholding on “foreign passthru payments” (which may include payments on the Covered Bonds) or if such withholding will be required at all. If an amount in respect of U.S. withholding tax were to be deducted or withheld from interest, principal or other payments on the Covered Bonds as a result of a holder’s failure to comply with these rules or as a result of the presence in the payment chain of a non-participating FFI, none of the Issuer, the Covered Bond Guarantor, any paying agent or any other person would, pursuant to the Conditions of the Covered Bonds, be required to pay additional amounts as a result of the deduction or withholding of such tax. As a result, investors may receive less interest or principal than expected. Covered Bondholders should consult their own tax

advisors on how these rules may apply to payments they receive under the Covered Bonds.

The Issuer believes that the risks described above are the main risks inherent in the holding of Covered Bonds of any Series issued under the Programme but the inability of the Issuer to pay interest or repay principal on the Covered Bonds of any Series may occur for other reasons and the Issuer does not represent that the above statements of the risks of holding Covered Bonds are exhaustive. While the various structural elements described in this Base Prospectus are intended to lessen some of the risks for holders of Covered Bonds of any Series, there can be no assurance that these measures will be sufficient or effective to ensure payment to the holders of Covered Bonds of any Series of interest or principal on such Covered Bonds on a timely basis or at all.

Types of Covered Bonds

In accordance with the Conditions, the Covered Bonds may be Fixed Rate Covered Bonds, Floating Rate Covered Bonds, Zero Coupon Covered Bonds or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms. The Covered Bonds may be repayable in one or more instalments or a combination of any of the foregoing, depending on the Redemption/Payment Basis shown in the applicable Final Terms. Each Series shall be comprised of Fixed Rate Covered Bonds only or Floating Rate Covered Bonds only or Zero Coupon Covered Bonds only or such other Covered Bonds accruing interest on such other basis and at such other rate as may be so specified in the relevant Final Terms only.

Fixed Rate Covered Bonds: fixed interest on the Covered Bonds will be payable in accordance with the relevant Final Terms, on such date as may be agreed between the Issuer and the Relevant Dealers (as defined below) and on redemption, and will be calculated on the basis of such Day Count Fraction provided for in the Conditions and the relevant Final Terms.

Floating Rate Covered Bonds: Floating Rate Covered Bonds will bear interest at a rate determined in accordance with the Conditions and the relevant Final Terms.

The margin (if any) relating to such floating rate will be agreed between the Issuer and the Relevant Dealers for each Series of Floating Rate Covered Bonds.

Other provisions in relation to Floating Rate Covered Bonds: Floating Rate Covered Bonds may also have a maximum interest rate, a minimum interest rate or both.

Interest on Floating Rate Covered Bonds in respect of each CB Interest Period, as agreed prior to issue by the Issuer and the Relevant Dealer, will be payable on such CB Payment Dates, and will be calculated on the basis of such Day Count Fraction provided for in the Conditions and the relevant

Final Terms.

Rating of the Covered Bonds

The issue of any Series of Covered Bonds (including, for the avoidance of doubt, Zero Coupon Covered Bonds) in each case as specified in the applicable Final Terms may be rated by the Rating Agency and/or any other rating agency which may be appointed from time to time by the Issuer in relation to any issuance of Covered Bonds or for the remaining duration of the Programme, to the extent that any of them at the relevant time provides ratings in respect of any series of Covered Bonds.

Issuance in Series

Covered Bonds will be issued in Series, but on different terms from each other, subject to the terms set out in the relevant Final Terms in respect of such Series. Covered Bonds of different Series will not be fungible among themselves. Each Series may be issued in more than one Tranche (as defined under the Conditions) (excluding any Series of Registered Covered Bonds, which may be issued in single Series only) which are identical in all respects, but having different issue dates, interest commencement dates, issue prices, and dates for first interest payments and may be issued in different currencies (provided that Tranches issued in different currencies will not be fungible among themselves). The Issuer will issue Covered Bonds without the prior consent of the holders of any outstanding Covered Bonds but subject to certain conditions (see “*Conditions Precedent to the Issuance of a new series of Covered Bonds*” below). Notwithstanding the foregoing, the term “Series” shall mean in the case of Registered Covered Bonds, each Registered Covered Bonds made out in the name of a specific Registered Covered Bondholder.

Final Terms

Specific final terms will be issued and published in accordance with the generally applicable terms and conditions of the Covered Bonds (the “**Conditions**”) prior to the issue of each Series detailing certain relevant terms thereof which, for the purposes of that Series only, completes the Conditions and the Base Prospectus and must be read in conjunction with the Base Prospectus (such specific final terms, the “**Final Terms**”). The terms and conditions applicable to any particular Series are the Conditions as completed by the relevant Final Terms.

In the case of Registered Covered Bonds, each other reference to Final Terms in the Prospectus shall be construed and read as a reference to such Registered Covered Bond (*Gedekte Namensschuldverschreibung*), the Registered Covered Bond Conditions and any other related agreements.

Interest on the Covered Bonds

Except for the Zero Coupon Covered Bonds and unless otherwise specified in the Conditions and the relevant Final Terms, the Covered Bonds will be interest-bearing and interest will be calculated on the Outstanding Principal Balance of the relevant Covered Bonds. Interest will be calculated on the basis of such Day Count Fraction in accordance with the Conditions and in the relevant Final Terms. Interest may accrue on the Covered Bonds at a fixed rate or a floating rate or on such other basis and at such rate as may be so specified in the relevant Final Terms and the method of calculating

interest may vary between the Issue Date and the Maturity Date of the relevant Series.

Margin Step-up

Final Terms may specify, with respect to a Series of Covered Bonds which are Floating Rate Covered Bonds, that, in the event such Covered Bonds are not redeemed in full on the Maturity Date (as defined under the relevant terms and conditions), the margin payable on such Covered Bonds increases in accordance with the terms specified in the relevant Final Terms.

Interest Rate Conversion

The relevant Final Terms may specify, with respect to a Series of Covered Bonds which are Fixed Rate Covered Bonds, that, in the event such Covered Bonds are not redeemed in full on the Maturity Date, the interest rate payable on such Covered Bonds converts to a floating rate index plus a conversion margin in accordance with the terms specified in the relevant Final Terms.

Redemption of the Covered Bonds

The applicable Final Terms will indicate either (a) that the Covered Bonds cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or in other specified cases, e.g. taxation reasons, or Covered Bonds Guarantor Events of Default), or (b) that such Covered Bonds will be redeemable at the option of the Issuer upon giving notice to the Representative of the Covered Bondholders on behalf of the holders of the Covered Bonds (the “**Covered Bondholders**”), or at the option of the Covered Bondholders upon deposit of a notice by the Representative of the Covered Bondholders on behalf of the Covered Bondholders with the Paying Agent, and in accordance with the provisions of Condition 8 (*Redemption and Purchase*) and of the relevant Final Terms, on a date or dates specified prior to such maturity and at a price or prices and on such other terms as may be agreed between the Issuer and the Relevant Dealers as set out in the applicable Final Terms, provided that the Final Redemption Amount in respect of any Series of Covered Bonds will be equal to the principal amount of such Series.

Covered Bonds may be redeemable in accordance with the provisions of Condition 8 (*Redemption and Purchase*) and the relevant Final Terms but in any case the redemption amount shall be at least equal to par value. Covered Bonds may also be redeemable in two or more instalments on such dates and in such manner as may be specified in the relevant Final Terms.

Tax Gross Up and Redemption for taxation reasons

Payments in respect of the Covered Bonds to be made by the Issuer will be made without deduction for or on account of withholding taxes imposed by Italy, subject as provided in Condition 10 (*Taxation*).

All payments in respect of the Covered Bonds will be made subject to any withholding or deduction required pursuant to FATCA.

In the event that any such withholding or deduction is to be made, the Issuer will be required to pay additional amounts to cover the amounts so deducted. In such circumstances and provided that such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Covered Bonds will be redeemable (in whole, but not in part) at the option of the Issuer. See Condition 8(c) (*Redemption for tax reasons*).

The Covered Bonds Guarantor will not be liable to pay any additional amount due to taxation reasons following an Issuer Event of Default (as defined below).

Maturity Date

The Maturity Date for each Series will be specified in the relevant Final Terms, subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant central bank (or equivalent body) or any laws or regulations applicable to the Issuer or the currency of the Covered Bonds. Unless previously redeemed as provided in Condition 8 (*Redemption and Purchase*), the Covered Bonds of each Series will be redeemed at their Outstanding Principal Balance on the relevant Maturity Date.

Extendable Maturity

The applicable Final Terms may also provide that the obligations of the Covered Bonds Guarantor to pay all or (as applicable) part of the Final Redemption Amount payable on the Maturity Date may be deferred to a later date pursuant to Condition 8(b) (*Extension of maturity*) (the “**Extended Maturity Date**”). Such deferral may occur, if so stated in the relevant Final Terms, automatically if:

- (a) an Article 74 Event or an Issuer Event of Default has occurred; and
- (b) the Covered Bonds Guarantor has, on the Extension Determination Date, insufficient Available Funds (in accordance with the Post-Issuer Default Priority of Payments) to pay in full any amount representing the Guaranteed Amounts corresponding to the Final Redemption Amount on the Maturity Date (the “**Extendable Maturity**”).

In these circumstances, to the extent that the Covered Bonds Guarantor has sufficient Available Funds (as defined below) to pay in part the Final Redemption Amount in respect of the relevant Series of Covered Bonds, the Covered Bonds Guarantor shall make partial payment of the relevant Final Redemption Amount, in accordance with the Post-Issuer Default Priority of Payments (as defined below), without any preference among the Covered Bonds outstanding, except in respect of maturities of each Series.

Payment of all unpaid amounts shall be deferred automatically until the applicable Extended Maturity Date, provided that, any amount representing the Final Redemption Amount due and remaining unpaid on the Maturity Date may be paid by the Covered Bonds Guarantor on any CB Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. Interest will continue to accrue and be payable on any unpaid amount up to the Extended Maturity Date in accordance with Condition 8(b) (*Extension of maturity*).

Notwithstanding the above, if the Covered Bonds are extended as a consequence of the occurrence of an Article 74 Event, upon termination of the suspension period and withdrawal of the Article 74 Notice to Pay, the Issuer shall resume responsibility for meeting the payment obligations under any Series of Covered Bonds in respect of which an Extendable Maturity has occurred, and any Final Redemption Amount shall be due for payment on the last Business Day of the month in which the Article 74 Notice to Pay has been withdrawn.

Long Dated Covered Bonds

If the Extended Maturity Date is set at the Long Date Due for Payment Date in the relevant Final Terms, the relevant Covered Bonds will be considered “**Long Dated Covered Bonds**”.

Hard Bullet Covered Bonds

If no Extended Maturity Date is specified in the relevant Final Terms, the Final Redemption Amount in respect to a Series of Covered Bonds (the “**Hard Bullet Covered Bonds**”) will be due for payment on the Maturity Date and the Pre-Maturity Liquidity Test shall apply.

Ranking of the Covered Bonds

The Covered Bonds will constitute direct, unconditional, unsubordinated obligations of the Issuer – guaranteed by the Covered Bonds Guarantor by means of the Covered Bonds Guarantee (as defined below) – and will rank *pari passu* without any preference among themselves, except in respect of maturities of each Series, and (save for any applicable statutory provisions) at least equally with all other present and future unsecured, unsubordinated obligations of the Issuer having the same maturity of each Series of the Covered Bonds, from time to time outstanding.

Recourse

In accordance with the legal framework established by Law 130 and the MEF Decree (as defined below) and with the terms and conditions of the relevant Transaction Documents (as defined below), the Covered Bondholders will benefit from full recourse to the Issuer and limited recourse to the Covered Bonds Guarantor (see Section *Credit Structure*). The obligation of the Covered Bonds Guarantor under the Covered Bonds Guarantee shall be limited recourse to the Portfolio.

Substitution of the Issuer

The Representative of the Covered Bondholders may (and in the case of an Approved Reorganisation – as defined under the Conditions – shall) agree with the Issuer (or any previous substitute) and the Covered Bonds Guarantor at any time without the consent of the Covered Bondholders:

- (iii) the Substitute Obligor or the Resulting Entity agrees, in form and

manner satisfactory to the Representative of the Covered Bondholders, to be bound by the terms and conditions of the Covered Bonds and all the Transaction Documents in respect to any Series of Covered Bonds still outstanding, by means of executing agreements and documents substantially in the same form and substance of the Transaction Documents; and

- (iv) the Representative of the Covered Bondholders is satisfied that (a) the Resulting Entity or Substituted Obligor has obtained all governmental and regulatory approvals and consents necessary for its assumption of liability as principal debtor in respect of the Covered Bonds in place of the Issuer (or such previous substitute as aforesaid), and (b) such approvals and consents are, at the time of substitution, Approved Reorganisation or consolidation, merger, amalgamation other than by means of an Approved Reorganisation, as the case may be, in full force and effect.

Upon the assumption of the obligations of the Issuer by a Substitute Obligor or a Resulting Entity (as defined under the Conditions) a successor company, Intesa Sanpaolo shall have no further liabilities under or in respect of the Covered Bonds.

Provisions of Transaction Documents

The Covered Bondholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all provisions of the Transaction Documents applicable to them. In particular, each Covered Bondholder, by reason of holding Covered Bonds, recognises the Representative of the Covered Bondholders as its representative and accepts to be bound by the terms of each of the Transaction Documents signed by the Representative of the Covered Bondholders as if such Covered Bondholder was a signatory thereto.

- (i) issuance of a rating letter by the Rating Agency with respect to such further issue of Covered Bonds; and
- (ii) satisfaction of the Tests; and

Upon the termination of the suspension period, the Issuer shall resume responsibility for meeting the payment obligations under the Covered Bonds (and for the avoidance of doubt, the Covered Bonds then outstanding will not be deemed to have been accelerated against the Issuer).

Following to an Article 74 Event the Representative of the Covered Bondholders will serve a notice (the “**Article 74 Notice to Pay**”) on the Covered Bonds Guarantor that an Article 74 Event has occurred. Unless and until such Article 74 Notice to Pay has been withdrawn:

For this purpose, upon request of the Covered Bond Guarantor, the Representative of the Covered Bondholders on behalf of the Covered Bondholders shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

not otherwise contain a cross default provision and will thus not cross accelerate against the Covered Bonds Guarantor in case of an Issuer Event of Default.

Pre-Maturity Liquidity Test

The Pre-Maturity Liquidity Test is intended to provide liquidity for Hard Bullet Covered Bonds when the Issuer's long-term credit ratings fall below the Pre-Maturity Liquidity Required Ratings.

On any Business Day (each the "**Pre-Maturity Liquidity Test Date**") falling during the Pre-Maturity Rating Period prior to the occurrence of an Issuer Event of Default, the Calculation Agent will determine if the Pre-Maturity Liquidity Test has been breached, and if so, it shall immediately notify the Issuer, the Seller, the Hedging Counterparties and the Representative of the Covered Bondholders.

For the purpose of this paragraph the "**Pre-Maturity Liquidity Test**" is complied with on any Pre-Maturity Liquidity Test Date if, during the Pre-Maturity Rating Period, all of the Issuer's credit ratings are equal to, or greater than, the Pre-Maturity Liquidity Required Ratings. If the Pre-Maturity Liquidity Test in respect of any Series of Covered Bonds is breached and the Issuer or the Covered Bonds Guarantor has not taken the required actions (as described above) following the breach by the earlier to occur of:

- (a) 20 Business Days from the date on which the Issuer is notified of the breach of the Pre-Maturity Liquidity Test, and
- (b) the Maturity Date of that Series of Covered Bonds,

an Issuer Event of Default shall occur and the Representative of the Covered Bondholders will serve a Notice to Pay to the Covered Bonds Guarantor.

DESCRIPTION OF THE ISSUER

History and organisation of the Intesa Sanpaolo Group

Intesa Sanpaolo Origins

Intesa Sanpaolo is the result of the merger by incorporation of Sanpaolo IMI S.p.A. with and into Banca Intesa S.p.A. (effective 1 January 2007).

Banca Intesa S.p.A.

Banca Intesa S.p.A. was originally established in 1925 under the name of La Centrale and invested in the business of the production and distribution of electricity. After the nationalisation of companies in this sector in the early 1960s the company changed its name to La Centrale Finanziaria Generale, acquiring equity investments in various companies in the banking, insurance and publishing sector. The company merged by incorporation with Nuovo Banco Ambrosiano in 1985 and assumed its name and constitutional objects. Following the acquisition of Cassa di Risparmio delle Provincie Lombarde S.p.A. (**Cariplo**) in January 1998, the Intesa Sanpaolo Group's name was changed to Gruppo Banca Intesa. Then, in 2001, Banca Commerciale Italiana S.p.A. was merged into the Gruppo Banca Intesa and the group's name was changed to "Banca Intesa Banca Commerciale Italiana S.p.A." On 1 January 2003 the corporate name was changed to "Banca Intesa S.p.A."

Sanpaolo IMI S.p.A.

Sanpaolo IMI S.p.A. (**Sanpaolo IMI**) was formed in 1998 through the merger of Istituto Mobiliare Italiano S.p.A. (**IMI**) with and into Istituto Bancario San Paolo di Torino S.p.A. (**Sanpaolo**).

Sanpaolo originated from the "Compagnia di San Paolo" brotherhood, which was set up in 1563 to help the needy. The "Compagnia di San Paolo" began undertaking credit activities and progressively developed into a banking institution during the nineteenth century, becoming a public law credit institution (Istituto di Credito di Diritto Pubblico) in 1932. Between 1960 and 1990, Sanpaolo expanded its network nationwide through a number of acquisitions of local banks and medium-sized regional banks, ultimately reaching the level of a multifunctional group of national importance in 1991 after its acquisition of Crediop. On 31 December 1991, Sanpaolo became a stock corporation (società per azioni) with the name Istituto Bancario San Paolo di Torino Società per Azioni.

IMI was established as a public law entity in 1931 and during the 1980s it developed its specialist credit and investment banking services and, with Banca Fideuram, its professional asset management and financial consultancy services. IMI became a stock corporation (società per azioni) in 1991.

The merger between Banca Intesa and Sanpaolo IMI and the creation of Intesa Sanpaolo S.p.A.

The boards of directors of Banca Intesa and Sanpaolo IMI unanimously approved the merger of Sanpaolo IMI into Banca Intesa on 12 October 2006 and the merger became effective on 1 January 2007. The surviving entity changed its name to Intesa Sanpaolo S.p.A., the parent company of the Intesa Sanpaolo Group.

A subsequent agreement of 8 October 2013 extended the deadline from 16 September to 31 October 2013.

At the end of this second round, the proposal had been accepted by a further 201 persons.

The cost of the exit incentive and of supporting the early retirement of these employees was approximately 66 million euro (before discounting and before taxes), which were charged to the income statement for 2013.

At the beginning of July, Intesa Sanpaolo launched a bid to purchase its senior notes. The transaction allowed optimisation of the Bank's liabilities profile, reducing excess amounts and modifying the related timing distribution. With an offer of 2,247 million euro, the final total of notes delivered was 1,493 million euro, corresponding to a total purchase amount of 1,510 million euro. As a consequence of the buyback finalisation, the Intesa Sanpaolo Group registered a positive contribution in the year, including the positive impact of the unwinding of interest rate derivatives, of approximately 106 million euro gross (71 million euro net of the tax effect).

In August, Intesa Sanpaolo carried out an exchange of existing subordinated notes (exchange offer) with newly issued Tier 2 subordinated notes in euro, with maturity on 13 September 2023. The transaction was finalised on 13 September. At the end of the offer, the aggregate nominal value of the notes offered by the holders and accepted for the exchange was 1,428 million euro. Consequently, as at the settlement date, Intesa Sanpaolo issued an aggregate nominal value of new notes amounting to 1,446 million euro. As a consequence of finalisation of the exchange, the Intesa Sanpaolo Group registered a positive contribution of 87 million euro to its pre-tax income and of 58 million euro to its net income in the third quarter of 2013.

On 24 September 2013, Telco's shareholders entered into an agreement amending the shareholders' agreement relating to Telco for the purposes of recapitalising and refinancing the company. The overall impact of the investment in Telco in the 2013 consolidated income statement of Intesa Sanpaolo was thus negative in the amount of 80 million euro.

On 15 October, the Management Board of Intesa Sanpaolo adopted the following detailed action plan in favour of Alitalia: first, to subscribe to the increase in the share capital of the Company for an amount of 26 million euro (proportionate to Intesa Sanpaolo's stake in Alitalia); second, to guarantee the underwriting of up to 50 million euro of any unsubscribed shares subject to certain conditions, which later occurred; third, to grant an advance of up to 50 million euro under the aforementioned underwriting commitment.

In the 2013 financial statements of the Intesa Sanpaolo Group, in the light of the current complex situation of the sector, marked by a high degree of uncertainty, it was deemed appropriate to value the stake with a prudential approach, pending developments in the current negotiations. Consequently, impairment of about 61 million euro was recognised, as well as losses of 35 million euro, both certain and estimated on the basis of the available data.

The increase in the share capital was completed in December 2013, and totalled 300 million euro, with the entry of new shareholders (Poste Italiane, Unicredit, Percassi Group). Intesa Sanpaolo's commitment to the capital increase was 76 million euro. Furthermore, in February 2013, Intesa Sanpaolo had subscribed for a portion (approximately 16 million euro) in the subordinated convertible bond loan approved by the Shareholders' Meeting of Alitalia for a maximum amount of 150 million euro and subscribed by the shareholders as to 95 million euro. As at 31 December 2013, the first expiry date for exercising the conversion option, Intesa Sanpaolo decided not to exercise this right. Following the subscription to the capital increase and conversion of the bond loan (not converted by Intesa Sanpaolo), the interest held by Intesa Sanpaolo comes to 20.59% (19.21% directly and 1.38% through Ottobre 2008). As part of the same financing transaction, on 3 December 2013 the Management Board approved the extension of short-term credit facilities, commitments and

derivatives commitments of approximately 250 million euro through 30 June 2015, whereas on 28 January 2014 it then approved a loan of 70 million euro as part of a pool transaction of a total of 165 million euro. This financing transaction, including equity and debt, was aimed at allowing a new industrial investor to be identified. Since last spring, Intesa Sanpaolo has been engaged in negotiations in view of a partnership and merger agreement between Alitalia and Etihad Airways. To that end, subject to the successful completion of the ongoing negotiations, Intesa Sanpaolo has indicated its willingness to support the transaction by granting new lines of credit and guaranteeing its participation, to the extent of its involvement, with an equity commitment of a maximum of 300 million euro.

Based on a prudent assessment of the current situation of Alitalia and of the commitments undertaken, Intesa Sanpaolo has, in the Half-yearly Report: (i) fully written down the residual carrying amount of the investment (38 million euro); (ii) established provisions for risks and charges of 30 million euro for losses that the company is suffering; (iii) adjusted cash loans, currently equal to approximately 160 million euro, for an amount of 119 million euro. The impact on the half-yearly income statement amounted to 188 million euro, before tax.

On 11 November, Intesa Sanpaolo completed the sale of approximately 21 million ordinary shares in Assicurazioni Generali, corresponding to approximately 1.3% of this company's share capital, at a price of 16.60 euro per share in an accelerated bookbuilt offering. The total consideration was approximately 348 million euro, yielding for Intesa Sanpaolo a positive contribution to its consolidated net income of approximately 63 million euro. By completing this transaction, Intesa Sanpaolo sold its entire stake in Assicurazioni Generali, reporting for the fourth quarter a positive contribution to consolidated net income of approximately 82 million euro. The total contribution of this stake to net income for 2013, which takes into account the impairment of 58 million euro recognised in the half-yearly report as at 30 June, was about 24 million euro.

On 2 December 2013, Intesa Sanpaolo (jointly with other shareholders) executed with Fondo Strategico Italiano, F2i SGR and Orizzonte SGR sale-and-purchase agreements concerning the sale of 59.3% of the share capital of SIA (28.9% of which is held by the Intesa Sanpaolo Group). The price was determined on the basis of a valuation of 100% of the SIA capital equal to 765 million euro; the transaction was completed on 28 May 2014. The Intesa Sanpaolo Group's consolidated net income has recorded a positive contribution of approximately €170 million from the transaction.

Again in December, the third amending agreement was signed in respect of the existing agreements between the company Carlo Tassara S.p.A. and the lending banks as part of a restructuring plan to enable the company to better enhance the assets under disposal, the proceeds of which will be used to repay its financial debt. With regard to the overall gross exposure towards Carlo Tassara, Intesa Sanpaolo recognised a 497 million euro adjustment (including 67 million euro recognised in the 2013 financial statements), considered suitable to cover the Bank's total exposure.

Finally, on 16 May 2013 EBA recommended supervisory authorities to conduct asset quality reviews on major EU banks, the objective being to review the banks' classifications and valuations of their assets so to help dispel concerns over the deterioration of asset quality due to macroeconomic conditions in Europe. On 23 October 2013, the ECB announced that, together with the national competent authorities responsible for conducting bank supervision, it would carry out a comprehensive assessment of the banking system, pursuant to the regulations on the Single Supervisory Mechanism (EU Council Regulation no. 1024/2013 of 15 October 2013) that became effective on 3 November 2013. This activity will take place during 2014 and will involve the major European banks, including the Intesa Sanpaolo Group.

As to important events after the close of the year 2013, we report that on 23 January 2014 Intesa Sanpaolo signed an agreement concerning the sale of 100% of the capital of its Ukrainian subsidiary Pravex-Bank to CentraGas Holding GmbH for a consideration of 74 million euro. Finalisation of the transaction is subject to regulatory approval being obtained and is expected to take place within the next few months. As a result, the consolidated income statement will record a negative contribution of 38 million euro after tax (calculated on the basis of the subsidiary's shareholders' equity as at 31 December 2013), plus, at the time of finalising the transaction, the effect of the release of foreign

exchange differences from the related valuation reserve, which will be negative in the amount of 60 million euro. The evidence of a transaction price lower than the carrying amount, which constitutes an impairment indicator, led to recognition of the loss already in the 2013 financial statements, with the exception of the effect linked to the exchange rate reserve, for which IAS 21 requires recognition in the income statement only at the time of disposal.

Furthermore, the Intesa Sanpaolo Group has signed a binding memorandum of understanding concerning the sale of the stake held by subsidiary Intesa Sanpaolo Vita in the Chinese insurance company Union Life (representing 19.9% of the latter's capital) for a consideration of 146 million euro. This transaction will generate a positive contribution of approximately 30 million euro after tax to the consolidated income statement. It is subject to prior authorisation being obtained from local supervisory bodies.

On 6 March, Intesa Sanpaolo completed the sale of approximately 7 million ordinary shares held in Pirelli & C., corresponding to approximately 1.5% of the Company's voting share capital and representing the entire stake held. The sale was made at a price of 12.48 euro per share in an accelerated bookbuilt offering.

The total value was 89.3 million euro, representing a positive contribution to consolidated net income for Intesa Sanpaolo of approximately 55 million euro recognised in the income statement of the first quarter of 2014.

On 30 June, following the approval obtained at the shareholders' meeting of NH Hotel Group S.A. (formerly NH Hoteles S.A., hereinafter "NH") on June 26th 2014 regarding the capital increase reserved for Intesa Sanpaolo through the issue of 42,000,000 new ordinary shares of NH at a price of 4.70 euro per share, Intesa Sanpaolo executed the capital increase by contributing its entire shareholding owned in NH Italia S.p.A., representing 44.5% of the latter's share capital, to NH. Intesa Sanpaolo's consolidated net income has recorded a positive contribution of 47 million euro from the transaction.

On 16 June 2014, Assicurazioni Generali, Intesa Sanpaolo and Mediobanca exercised the right to request the demerger of Telco, under the terms of its shareholders' agreement. On 26 June 2014, the Board of Directors of Telco and, subsequently, on 9 July, the shareholders' meeting of Telco approved the proposed partial non-pro rata demerger of the company. Telco will continue to exist with a minimal share capital and with no Telecom Italia shares held, in order to deal with the remaining assets and liabilities on the balance sheet. The company will then be placed in liquidation once this phase is complete. In this context, also in occasion of the 2014 Half-yearly Report, the investment was valued by considering the Telecom shares at their market price as at 30 June 2014, equal to 0.925 euro. This valuation resulted in a recovery on the investment of 25 million euro, which net of the pro rata amount of losses recorded by the company, equal to 3 million, brings the new carrying amount of the investment to 22 million euro.

On 10 July, Nuove Partecipazioni S.p.A. ("NP"), Intesa Sanpaolo S.p.A. ("ISP"), UniCredit S.p.A. ("UC"), Clessidra SGR S.p.A., on behalf of Fondo Clessidra Capital Partner II ("Clessidra"), and Long-Term Investments Luxembourg S.A., a company designated by Rosneft Oil Company, as investor in Camfin S.p.A. (the "Strategic Investor") finalised a transaction concerning Camfin S.p.A. by which the Strategic Investor purchased for a total consideration of 552.7 million euro: i) from Clessidra, the entire share capital of Lauro 54 and, therefore, the indirect stake representing 24.06% of Lauro 61/Camfin share capital; ii) from each of ISP and UC, a stake representing 12.97% of Lauro 61/Camfin share capital. Intesa Sanpaolo's consolidated net income has recorded a positive contribution of 44 million euro from the transaction.

On 21 July 2014, Intesa Sanpaolo announced that its Hungarian subsidiary CIB Bank and the Group are impacted by a law approved in Hungary on 4 July 2014 and published on 18 July 2014, which regards the local banking sector. The enactment of this law entails a negative impact on the Intesa Sanpaolo Group's consolidated net income for the second quarter of 2014 of approximately €65 million, resulting from customer reimbursement in relation to the abolition, and the consequent retroactive correction, of the bid/offer spreads applied to retail foreign-currency loans.

Recent Event

On 25 February 2015, Intesa Sanpaolo provided the following information, as requested by Consob:
- the Bank has today received notification of the ECB's final decision concerning the specific capital requirements that the Bank has to meet on a consolidated basis;

- the Bank's Directors do not see any difficulty regarding the current and future ability of Intesa Sanpaolo to meet these requirements, which establish an overall capital ratio equal to:

- 9% in terms of Common Equity Tier 1 ratio and
- 11.5% in terms of Total Capital ratio;

- Intesa Sanpaolo's capital ratios as at December 31st 2014 on a consolidated basis - net of 1.2 billion euro of proposed dividends for the financial year 2014 - were as follows:

- 13.6% in terms of Common Equity Tier 1 ratio ⁽⁴⁾ and
- 17.2% in terms of Total Capital ratio ⁽⁵⁾,

calculated by applying Basel 3 transitional arrangements for 2014, and

- 13.3% in terms of pro-forma Common Equity Tier 1 ratio and
- 16% in terms of pro-forma Total Capital ratio,

calculated on a fully loaded basis ⁽⁶⁾.

On 17 April 2015, Intesa Sanpaolo - upon CONSOB's request dated as of April 14th 2015, with regards to the press release dated as of April 22nd 2014 which announced that Intesa Sanpaolo S.p.A. ("Intesa Sanpaolo") and UniCredit S.p.A. ("UniCredit") signed a memorandum of understanding with Alvarez & Marsal and KKR concerning the management of a "selected portfolio of receivables under restructuring", as well as with regards to recent news leaks concerning the status of the project - provided the following information.

1. Following the signing of the memorandum of understanding, the parties have analyzed the issues concerning the project's corporate and contractual structure. Intesa Sanpaolo Management Board, upon its meeting held on March 17th 2015, and UniCredit Board of Directors, upon its meeting held on April 9th 2015, approved the participation to the project with KKR and Alvarez & Marsal, granting the respective competent managerial bodies the responsibility for the final definition of the structure, the economics and contractual documentation as well as the selection of the portfolios involved which, as previously mentioned, are currently under negotiations among the parties.

2. In the ongoing negotiation phase, the main corporate features of the initial structure under which the project should be implemented consist of a securitization vehicle (the "130 Vehicle") and of a joint-stock company (the "SPA"), that will control the 130 Vehicle and whose controlling shareholder will be KKR. Banks will not control (not even jointly) the abovementioned companies, nor will the Banks exercise any form of notable influence, although a participating relationship is not excluded.

At the moment it is assumed that to the above structure be transferred certain portfolios of receivables - basically arising from medium and long-term loans (which will be acquired by the 130 Vehicle) - as well as of equity instruments - such as shares or participating instruments (which will be acquired by

⁴ Includes the net income for 2014 after the deduction of accrued dividends; excluding it, the Common Equity Tier 1 ratio is equal to 13.5%.

⁵ Includes the net income for 2014 after the deduction of accrued dividends; excluding it, the Total Capital ratio is still equal to 17.2%.

⁶ Estimated by applying the parameters set out under fully loaded Basel 3 to the financial statements as at December 31st 2014, considering the total absorption of deferred tax assets (DTAs) related to the goodwill realignment, the expected absorption of DTAs on losses carried forward, and the effect of the Danish compromise (under which insurance investments are risk weighted instead of being deducted from capital, with a benefit of nine basis points for the Common Equity Tier 1 ratio and five basis points for the Total Capital ratio).

SPA) - towards certain non-listed borrowers which might appreciate following financial and industrial restructuring; it is currently foreseen that the global nominal amount of such portfolios be around Euro 1,000,000,000. As consideration for such transfer, the Banks will receive Notes of diversified seniority issued by the 130 Vehicle and – where applicable – participating instruments issued by SPA.

3. The operating management of the companies involved in this structure, controlled by KKR which will also provide the resources needed for adequate new finance injections, will be the responsibility of an independent management, with significant experience in the areas of restructuring and turnaround that will have the possibility to rely upon the skilled support of Alvarez & Marsal which will act as Preferred Asset Manager Advisor. The responsibilities for the management of the portfolios to be transferred will belong exclusively to such companies, controlled by KKR, which will independently make all decisions concerning the management, with a view to optimize the appreciation and disposal of such assets.

4. The possible consequences upon the Banks' balance sheets of the effects of the deployment of the project as well as of the development of the restructuring processes, together with prudential regulation issues, are currently under analysis and discussion with the competent authorities.

5. The project is aimed at allowing that management of the restructuring portfolios occur in the framework of turnaround and re-launching of medium-large companies, benefitting from industrial restructuring expertise and new money injection as well as leveraging on primary managerial skills and new governance. Indeed the possibility to manage globally the portfolios involved in each restructuring process and the immediate availability of new finance are crucial to enhance the promptness and effectiveness of the actions taken in such restructuring processes.

On 27 April 2015, Intesa Sanpaolo provided the following information: at the Ordinary Shareholders' Meeting of Intesa Sanpaolo, held today, the resolutions detailed below were passed.

1. Item 1 on the agenda, proposal for allocation of net income for the year. For 2014, shareholders adopted a resolution to distribute a dividend of 7 euro cents in respect of each of the 15,846,089,783 ordinary shares outstanding and a dividend of 8.1 euro cents in respect of each of the 932,490,561 savings shares outstanding, before tax, for a total dividend disbursement of 1,184,758,020.25 euro. Dividends not distributed in respect of any own shares the Bank should hold at record date will be allocated to the extraordinary reserve. Dividends will be made payable as of May 20th 2015 (with detachment of the coupon on May 18th and record date on May 19th). The dividend yield is 2.2% per ordinary share and 2.8% per savings share based on today's stock price.

2. Item 2 on the agenda, remunerations and own shares.

a) Report on Remuneration: resolution pursuant to art. 123-ter, paragraph 6, of Legislative Decree no. 58/1998. Shareholders approved the Intesa Sanpaolo Report on Remuneration, with specific reference to the following paragraphs of Section I: 1 - "Procedures for adoption and implementation of the remuneration policies", and 5 - "Remuneration policy for employees and other staff not bound by an employment agreement", regarding only General Managers and Key Managers.

b) Proposal for the approval of the Incentive Plan based on financial instruments and authorisation for the purchase and disposal of own shares. Shareholders approved the share-based Incentive System for 2014 covering the so-called "risk takers". This system provides for the free assignment of Intesa Sanpaolo ordinary shares to be purchased on the market. Shareholders also authorised the purchase and disposal of own shares to ensure implementation of the system:

- for this purpose, Intesa Sanpaolo ordinary shares with a nominal value of 0.52 euro each will be purchased, also in several tranches, up to a maximum number of ordinary shares and a maximum percentage of Intesa Sanpaolo share capital calculated by dividing the comprehensive amount of approximately 14,000,000 euro by the official price recorded today by the share. Being 3.11006 euro the official price recorded today for an Intesa Sanpaolo ordinary share, the maximum number of shares to be purchased on the market to meet the total requirement of the Incentive System for the whole Intesa Sanpaolo Group amounts to 4,501,521 equal to around 0.03% of the ordinary share capital and

of the total share capital (comprising ordinary shares and savings shares);

- the purchase of shares will be carried out in compliance with provisions included in articles 2357 and following of the Italian Civil Code, within the limits of distributable income and available reserves as reported in the financial statements most recently approved. Pursuant to art. 132 of Legislative Decree no. 58 of February 24th 1998 and art. 144-bis of CONSOB Regulation no. 11971/99 and subsequent amendments, purchases will be carried out on the regulated markets in accordance with trading methods laid down in market rules, in full accordance with the regulatory requirements as to equality of treatment among shareholders, the measures preventing market abuse, as well as the market practices permitted by CONSOB; by the date the group-level programme of purchases begins, which will be disclosed to the market as required by regulation, the subsidiaries will have activated the procedure for seeking equivalent authorisation at their shareholders' meetings, or from the bodies with jurisdiction over such matters within their structures;

- following shareholders' authorisation at today's Meeting, effective for a maximum period of 18 months, the purchase will be made at a price identified on a case-by-case basis, net of accessory charges, in the range of a minimum and maximum price determined using the following criteria: the minimum purchase price will not be lower than the reference price of the share in the trading session prior to that of the particular purchase transaction, less 10 per cent; the maximum purchase price will not be higher than the reference price of the share in the trading session prior to that of the particular purchase transaction, plus 10 per cent. At any rate, the purchase price will not be higher than the higher of the price of the last independent trade and the highest current independent bid on the market;

- furthermore, pursuant to article 2357-ter of the Italian Civil Code, the Shareholders' Meeting authorised the disposal on the regulated market of own ordinary shares exceeding the Incentive System's requirements under the same conditions as applied to the purchases and at a price no lower than the reference price of the share in the trading session prior to that of the particular transaction, less 10 per cent. Alternatively, these shares may be retained to service possible future incentive plans.

c) Proposal for the approval of the criteria for the determination of the compensation to be granted in the event of early termination of the employment agreement or early termination of office. Shareholders passed a resolution approving the criteria for the determination of the compensation to be granted in the event of early termination of the employment agreement or early termination of office, including the limits established for said compensation in terms of fixed annual remuneration and the maximum amount arising from the application of such limits. Shareholders approved as the maximum limit of the "golden parachute" compensation, comprising the indemnity for failed notice as provided in the national collective bargaining agreement, 24 months of fixed remuneration. The adoption of this maximum limit may imply a maximum payment equal to 3.3 million euro.

d) Proposal for the approval of an increase in the cap on variable-to-fixed remuneration for specific and limited professional categories and business segments. Shareholders approved, for 2015 only, the proposed increase in the cap on variable-to-fixed remuneration cap from 1:1 to 2:1, only for Asset Management, Private and Investment Banking professional categories.

On 28 May 2015, Intesa Sanpaolo communicated that the same day the Bank has terminated the agreement concerning the sale of 100% of the capital of its Ukrainian subsidiary Pravex-Bank to CentraGas Holding GmbH. The agreement, which was signed on January 23rd 2014, has been terminated as the Bank, to date, has not yet obtained the regulatory approval needed to finalise the transaction. The termination of the agreement has no material impact on the Group's income statement and balance sheet other than the continued inclusion of the subsidiary in the scope of consolidation.

On 5 June 2015, Intesa Sanpaolo communicated that the sale of the stake held by the Bank's subsidiary Intesa Sanpaolo Vita in Chinese life insurance company Union Life (19.9% of the latter's capital) has been finalised for a consideration of approximately 165 million euro. This transaction represents a positive contribution of around 50 million euro after tax to the consolidated income statement. Intesa Sanpaolo Vita has been assisted by Chiomenti Studio Legale as legal advisor.

On 30 June 2015, Intesa Sanpaolo communicated that the same day the Bank sold its equity stake in Telecom Italia resulting from the demerger of Telco and consisting of 220 million shares which had

been hedged against price changes. The sale was made on the market at an average price of 0.8710 euro per share for a total amount of around 191 million euro, in line with the carrying value.

Administrative, Management and Supervisory bodies conflicts of interests

As at the date of this Base Prospectus and to the Intesa Sanpaolo's knowledge - also upon the examinations provided under article 36 of Law Decree No. 201 of 6 December 2011, as converted into Law No. 214 of 22 December 2011) - no member of the Supervisory Board, the Management Board or the general management of Intesa Sanpaolo is subject to potential conflicts of interest between their obligations arising out of their office or employment with the Issuer or the Intesa Sanpaolo Group and any personal or other interests, except for those that may concern transactions put before the competent bodies of Intesa Sanpaolo and or/entities belonging to the Intesa Sanpaolo Group, such transactions having been undertaken in strict compliance with the relevant regulations in force. The members of the administrative, management and control corporate bodies of Intesa Sanpaolo are required to implement the following provisions aimed at regulating instances where there exists a specific interest concerning the implementation of a transaction:

- Article 53 (*Supervisory regulations*) of the Banking Law and the relevant implementing regulations issued by the Bank of Italy, with particular reference to the supervisory regulations relating to transactions with related parties;
- Article 136 (*Duties of banking officers*) of the Banking Law which requires the adoption of a particular authorisation procedure in case an officer, directly or indirectly, assumes obligations towards the bank in which such officer has an administrative, management or controlling role;

Legal Risks

Legal risks are thoroughly and individually analysed by the Intesa Sanpaolo and the Intesa Sanpaolo Group companies. Provisions are made to the Allowances for risks and charges when there are legal obligations for which it is probable that funds will be disbursed to meet such obligations and where the amount of the disbursement may be reliably estimated.

As at 31 December 2014 a total of 19,415 disputes were pending, with total remedy sought of 10,352 million euro and allowances of 838 million euro. Among the main types of lawsuits, bankruptcy revocatory actions had remedy sought of 662 million euro and allowances of 105 million euro; lawsuits concerning financial services had remedy sought of 507 million euro and allowances of 107 million euro; lawsuits concerning terms applied to customers had remedy sought of 1,073 million euro and allowances of 141 million euro; lawsuits for operational errors had remedy sought of 311 million euro and allowances of 82 million euro and labour lawsuits had remedy sought of 151 million euro and allowances of 112 million euro.

The most complex and/or potentially costly legal procedures are described in the paragraphs below.

Dispute relating to anatocism - In 1999, the Italian Court of Cassation reversed its stance and found the quarterly capitalisation of interim interest payable on current accounts to be unlawful, assuming that the relevant clauses in bank contracts do not integrate the contract with a "regulatory" standard practice, but rather with a "commercial" practice, and therefore, such clauses are not adequate to derogate from the prohibition of anatocism pursuant to Art. 1283 of the Italian Civil Code.

The subsequent Legislative Decree 342 of 1999 confirmed the legitimacy of interim capitalisation of interest on current accounts, as long as interest is calculated with the same frequency on deposits and loans. From April 2000 (the date on which this regulation came into effect), quarterly capitalisation of both interest income and expense was applied to all current accounts.

Therefore the dispute on this issue concerns only those contracts which were stipulated before the indicated date.

In the judgment no. 24418 handed down by its Joint Sections on 2 December 2010, the Court of Cassation ruled that the ten-year statute of limitations applicable to account-holders' entitlement to reimbursement of capitalised interest debited on the current account begins to toll on the date the account is closed, if the account had an overdraft facility and the facility's limit was respected, or on the date on which deposits were made to cover part or all of previous interest debits if the account was drawn beyond such limits or did not have an overdraft facility.

These principles have not always been uniformly applied by courts in the first and second instances. However, though with varying effectiveness based on the specific cases, they contribute to a general

decrease in the claims for restitution put forward by account holders, especially when the claims relate to transactions far back in time.

In addition to this aspect, it must be noted that, though the overall number of lawsuits increased due to the current economic situation, it remains at an insignificant level in absolute terms and is the subject of constant monitoring. The risks related to these disputes are covered by specific, adequate provisions to the Allowances for risks and charges.

Dispute relating to investment services - Disputes relating to investment services show a diversified trend based on the type of financial instrument concerned by the dispute.

Disputes relating to Parmalat and Cirio bonds can now be considered as coming to an end.

Disputes concerning Argentina bonds are steadily declining, with a decrease of approximately 20% on the outstanding lawsuits in 2013 and 60% on 2012.

The disputes concerning bonds issued by companies belonging to the Lehman Brothers Group decreased slightly, both in the number of disputes and the values of the economic claims compared to the previous year, without prejudice to the fact that these disputes remained at insignificant levels in absolute terms. The judgments to this point in relation to Intesa Sanpaolo – with the exception of a few isolated cases subject to appeal – have all been favourable to the Bank. As part of a system-wide initiative, the Intesa Sanpaolo Group oversaw and secured the establishment of proof of debt in the insolvency procedures pending in various foreign countries for its customers who hold the aforementioned bonds, at no cost to its customers.

There were no significant changes in disputes concerning derivative products compared to previous years. They remain at insignificant levels (both in number and value).

All risks related to this category of disputes are constantly monitored and covered by accurate allowances that reflect the specific characteristics of the individual cases.

Disputes regarding the Cirio Group default

In November 2002, the Cirio Group defaulted on the repayment of a loan issued on the Euromarket. This event led to a cross default on all its existing issues. In April 2007, ten companies of the Cirio Group in Extraordinary Administration notified Intesa Sanpaolo and Banca Caboto (now Banca IMI), as well as five other banks, considered to be severally liable, of the filing of a claim for the reimbursement of alleged damages deriving from:

- the worsening of the default of the Cirio Group, from the end of 1999 to 2003, favoured also by the issue in the 2000-2002 period of 6 bond issues; the damages thereof were quantified with the main criteria in 2,082 million euro and, with the control criteria, in 1,055 million euro or 421 million euro;
- the impossibility by the Extraordinary Administration procedures of undertaking bankruptcy repeal, for undetermined amounts, in the event that the default of Cirio Group companies was not postponed in time;
- the payment of fees of 9.8 million euro for the placement of the various bond issues.

In a judgment filed on 3 November 2009, the Court of Rome found the Cirio Group's claims to be unfounded on the merits and therefore rejected said claims on the grounds of a lack of a causal relationship between the actions of the banks named defendants in the suit and the claimed damage event.

The claimants appealed against this judgment, proposing in that venue a stay of enforcement of the judgment to pay legal fees, firstly, and said petition was accepted by the Rome Court of Appeal. The lawsuit has been postponed to 27 January 2016 for an evidentiary hearing.

Disputes regarding tax-collection companies sold

As part of the government's re-internalisation of tax collection operations, Intesa Sanpaolo sold to Equitalia S.p.A. (a company owned by Agenzia delle Entrate - Italian Revenue Agency - and INPS)

the entire share capital of Gest Line and ETR/ESATRI, companies which managed tax-collection activities in the respective areas of the former Sanpaolo Imi Group (Gest Line) and the former Intesa Group (ETR/ESATRI), undertaking to indemnify the buyer against any out-of-period expenses associated with the collection activity carried out up to the moment of sale of the investment. The most significant portion of those out-of-period expenses consist in costs incurred for operations prior to the sale, such as charges resulting from negative outcomes of litigation with taxpayers, tax authorities or employees, tax collection expenses not recovered due to events attributable to the former concessionaires (mainly expenses for unsuccessful administrative detentions). The above commitments were triggered not only by contractual guarantees, but also by a statute, which entered into force in 2005, that directly transfers to the seller any payment obligation concerning tax collection activities conducted by the company sold prior to the sale thereof. In October 2012 a board of experts was set up for dialogue with Equitalia, to assess both the grounds for and the amount of the requests for compensation submitted pertaining to said guarantee. The board also examines asset captions for the seller, to be reconciled with those that are the subject of the requests for compensation.

Specifically regarding the litigation, as things stand, only one main dispute should be noted. This is the ruling promoted before the Campania Regional Section of the Court of Auditors by the bankruptcy proceedings of SERIT S.p.A., which was already the collection agent for section "B" of the Province of Caserta. The bankruptcy appellant is claiming that the defendants (in addition to our Bank, Ministry for Economy and Finance and the Italian Revenue Agency) are liable for breach of contract with the resulting request for compensation for the damages suffered, as a result of the failure to refund the taxes paid in advance by SERIT under the "contingent payment obligation" system (note that in 1994 SERIT'S concession was revoked and then assigned to Banco Napoli as Government Commission Agent). The claim for damages is quantified as 129 million euro, unless more accurately specified through an expert's report to be drawn up during the proceedings.

The Bank's position is founded on valid defence arguments, both in pre-trial phase and on the merits, which lead us to consider the dispute as free from risks.

Intesa Sanpaolo (formerly Banca OPI, then Banca Infrastrutture Innovazione e Sviluppo) and Municipality of Taranto litigation

Banca Infrastrutture Innovazione e Sviluppo (BIIS), as the successor to Banca OPI, was involved in a case pending before the Court of Taranto brought by the Municipality of Taranto, in relation to the subscription in 2004 by Banca OPI of a 250 million euro bond issued by the Municipality.

In its judgement of 27 April 2009, the Court declared the invalidity of the operation, ordering the Bank to reimburse, with interest, the partial repayments of the loan made by the Municipality of Taranto. The latter was ordered to reimburse, with interest, the loan granted. The Court also ordered compensation for damages in favour of the Municipality, to be calculated by separate proceedings. The Municipality and the Bank jointly agreed not to enforce the judgement.

On 20 April 2012 the Court of Appeal, without prejudice to the findings of the separate proceedings regarding the alleged damages, partially reformulated the first instance ruling by ordering that:

- BIIS reimburse the sums paid by the Municipality of Taranto, plus legal interest;
- the Municipality of Taranto reimburse BIIS for the sums disbursed in execution of the bond loan, less amounts already paid, plus legal interest and currency appreciation;
- BIIS reimburse the Municipality for first instance legal costs, compensated against those for the appeal.

Intesa Sanpaolo, which succeeded BIIS in the proceedings following the well-known corporate operations, filed an appeal against this judgement before the Court of Cassation. The date of the hearing has not been set.

In the meantime, the insolvency procedure entity for the Municipality of Taranto informed BIIS that the Municipality's debt to the Bank for the repayment of the 250 million euro bond had been added to "the insolvency procedures' list of debts". The Bank nonetheless appealed the judgment before the Regional Administrative Court of Puglia, which found the appeal inadmissible, ruling that the dispute

fell within the jurisdiction of the civil courts and – albeit on an incidental basis – the appealed judgment was devoid of dispositional content and was thus incapable of undermining the Banks' credit claims.

The Bank and the Municipality have met repeatedly to assess the possibility of an amicable settlement to the pending litigation, however, such settlement could not be reached due to the intervention of the insolvency procedure entity, which claimed its own jurisdiction over managing the debt in question. In order to ascertain the illegitimacy of including the Bank's receivable in the insolvency procedures' list of debts and the lack of jurisdiction of the Extraordinary Liquidator, BIIS thus filed an extraordinary appeal to the President of the Republic, which is still pending.

The Bank has also initiated additional civil proceedings before the Court of Rome, for a ruling on its lack of liability for damages to the Municipality of Taranto. By way of non-final ruling, the Court of Rome, accepting the plaintiff's requests, rejected the claims of lack of interest to sue, demurrer and estoppel, and ordered the continuation of the proceedings for the purpose of drawing up a court-appointed expert's report, not only on amount but also on the cause of the alleged damages. Moreover, the court-appointed expert's report must be limited to the documents already filed in the records, as all the preclusions pertaining to the preliminary investigation have been applied, and should be confirmed by the Bank's stance that the Municipality of Taranto suffered no damages as a result of the loan from BIIS. The lawsuit was suspended pending the outcome of the judgment from the Court of Cassation.

These events are also connected to criminal proceedings before the Court of Taranto, against several Executives of Banca OPI and Sanpaolo IMI, among others, in which the preliminary hearing judge has ruled that the Municipality of Taranto may file an appearance as civil claimant in the criminal proceedings. The defendants are charged with indirect abuse of office, a crime which is not significant for the purposes of Legislative Decree 231/2001. In these proceedings, BIIS (now Intesa Sanpaolo) has been charged with civil liability for an amount of no less than 1 billion euro. In its ruling of 6 October 2014, the Court sentenced two Banca OPI Executives, while acquitting all of Bank's other defendants, in addition to jointly and severally ordering the Bank and the two aforementioned Executives, to pay compensation for damages in favour of the Municipality, to be settled in separate proceedings, as well as to pay an immediately enforceable provisional award of 26,167,175 euro, almost entirely represented by the interest portion of the repayments made by the Municipality - i.e. 25,167,175 euro - previously the subject of sentences from the First Instance Court and the Court of Appeal. Both the former employees found to be liable and the Bank will appeal this judgment, applying for a stay of the provisional enforcement of the civil remedies. It is noted that for the provisional award the Bank will not have to incur any outlays, as it can offset the amount in question with the higher credit claimed from the Municipality, as recognised by the Court of Appeal in the civil proceedings.

The assessment of the compensation risk indicated that there was no need to recognise a specific provision as at 31 December 2014.

Altroconsumo class action

In 2010, Altroconsumo, representing three account holders, brought a class-action suit seeking a finding of the unlawfulness of overdraft charges and the fee for overdrawing accounts without credit facilities, the latter of which had been adopted in 2009 as part of adjustments of contracts to the new rules imposed by lawmakers regarding bank fees. The suit also sought a finding that the "threshold rate" set out in the law on usury had been exceeded. By order of 28 April 2010, the Court of Turin declared the suit inadmissible. Following the complaint filed by the plaintiffs, the Torino Court of Appeal, by order of 16 September 2011, overturned the previous order, restricting the scope of the suit solely to account overdraft charges applied effective 16 August 2009. A total of 104 applications to join the suit were then filed within the terms set by the Court. The suit was resolved by the judgment filed on 10 April 2014, in which 101 of the 104 applications were found to be inadmissible due to formal irregularities of presentation or failure to meet consumer requirements by some of the applicants. On the merits, having rejected the claims regarding usury, the judgment finds that the account overdraft charge is void on the basis of the principle according to which, in the absence of a formal credit facility, an overdraft would not justify the application of additional costs to the account

holder, given that no banking service requiring compensation has been provided in such cases. The decision was appealed because it is founded upon an untenable interpretation of the statute concerned. Altroconsumo and three parties promoting the class action appeared in court in the second instance proceedings, proposing an incidental appeal, specifically regarding the decision ruling that most of the participants in the class action were inadmissible. In economic terms, the ruling is irrelevant both in terms of the claims made by the three current account holders admitted and in terms of those referring to current account holders currently excluded. It bears clarifying that the contested fee was replaced, effective October 2012, by the expedited approval fee introduced by the Monti administration's Save Italy Decree.

Angelo Rizzoli lawsuit

In September 2009, Angelo Rizzoli filed suit against Intesa Sanpaolo (as the successor of the former Banco Ambrosiano) and four other parties seeking a finding of nullity for the transactions undertaken between 1977 and 1984 alleged to have resulted in a detrimental loss of the control that he would have exercised over Rizzoli Editore S.p.A. and claiming compensation in an amount ranging from 650 to 724 million euro according to entirely subjective damage quantification criteria.

Rizzoli's claims, in addition to being without foundation on the merits due to the lack of a breach of the provision that prohibits preferential collateral rights argued to have occurred in the transactions whereby Rizzoli Editore S.p.A. was transferred, are also inadmissible at a preliminary procedural level, as held by the Bank in its motion of appearance, on the grounds that the Milan Court of Appeal had already decided the matter in its judgment of 1996, which has become *res judicata*, as well as that Rizzoli lacked an interest to sue due to prescription of claims for compensation or restitution and usucaption by third parties.

In a judgment filed on 11 January 2012, the Court of Milan granted the preliminary objections of prescription and change into *res judicata* of the subject of the dispute and rejected the claims brought by Angelo Rizzoli, sentencing him to compensate Intesa Sanpaolo for expenses and frivolous litigation.

In February 2012 the plaintiff filed an appeal and, in relation to his request for suspension of the enforceability of the first instance ruling, the Court of Appeal granted the suspension of solely the frivolous litigation conviction. The lawsuit, postponed to 21 October 2014 for an evidentiary hearing, was declared interrupted due to the death of Angelo Rizzoli. Considering the favourable outcome of the first instance proceedings, no provisions were allocated.

Allegra Finanz AG litigation

On 31 January 2011, Allegra Finanz AG and other international institutional investors sued Intesa Sanpaolo and Eurizon Capital SGR, along with six other major international financial institutions, before the Court of Milan. The claimants are seeking compensation of approximately 129 million euro due to the losses they sustained as a result of various investments in bonds and shares issued by Parmalat Group companies.

According to the claimants, those investments were allegedly undertaken under the assumption that the issuers were solvent, an assumption deliberately fabricated by the banks named as defendants in the suit, which are alleged to have acted in various capacities and ways to permit the Parmalat Group to survive, despite an awareness of its state of insolvency.

Intesa Sanpaolo's involvement is claimed to derive from a private placement of 300 million euro by Parmalat Finance Corporation BV, fully underwritten by Morgan Stanley and placed with Nextra in June 2003, a transaction that subsequently gave rise to disputes with the Administration procedure to which the Parmalat Group companies were subject and a settlement between the Administration procedure and Intesa Sanpaolo (which succeeded Nextra due to the subsequent corporate events affecting the latter).

Intesa Sanpaolo raised a number of objections at a preliminary level (including the termination of the statute of limitations on the right to claim compensation brought against it) and on the merits (including the lack of a causal relationship between the actions attributed to Nextra and the loss

claimed by the claimants, considering their capacity as professional operators and the speculative nature of the investments undertaken).

On conclusion of the preliminary investigation phase, in which the Court resolved various pre-trial issues raised by the defendants and rejected all preliminary motions brought by the plaintiffs, the lawsuit was postponed to the hearing of 16 September 2014 for a ruling. With the ruling of 26 January 2015 the Court rejected all claims brought by the plaintiffs, declaring the termination of the claim for compensation brought against Intesa Sanpaolo due to statute of limitations.

Relations with the Giacomini Group

Starting from May 2012, certain media outlets published news of criminal investigations of members of the Giacomini family (which controls the industrial group of the same name) and other individuals in connection with possible illegal exportation of capital and other related offences.

In further detail, it was brought to light that the Public Prosecutor's Offices of Verbania and Novara have initiated investigations of possible tax offences committed by the Giacomini family and their advisors, and the Public Prosecutor's Office of Milan is investigating possible complicity in money-laundering by certain of the Giacominis' financial advisors and the former CEO of the Luxembourg subsidiary, Société Européenne de Banque - SEB, and the head of Corporate Division relations of Intesa Sanpaolo, as well as SEB and ISP for administrative liability pursuant to Legislative Decree no. 231/01.

In regard to this matter, the Bank has conducted internal inspection reviews to reconstruct the facts, including in reference to a loan disbursed by SEB in December 2008 in the amount of 129 million euro to Alberto Giacomini's family in the context of a family buy-out transaction. No significant irregularities have emerged so far in relation to this.

To date, the records of the investigating authorities of which Group companies have been made aware do not permit an evaluation of the existence of liability, and thus of risks and charges (in addition to the appropriate writedowns of receivables already performed by SEB).

Dispute relating to the acquisition of Bank of Alexandria

In 2006 Sanpaolo IMI acquired from the Egyptian government an 80% investment in Bank of Alexandria, as part of the government privatisation programme launched in the 1990's. In 2011, two proceedings were initiated before the Administrative Court of Cairo, by two private entities against several members of the previous government, aimed at the cancellation of the administrative measure for privatisation and the resulting deed of purchase and sale, based on alleged irregularities in the administrative process and the alleged unfairness of the share transfer price. Bank of Alexandria has intervened in both proceedings to fight the lawsuits, claiming the lack of jurisdiction of the administrative judge in the pre-trial proceedings and the groundlessness of the opponents' claims on the merits. Concerning the latter aspect, it has been inferred, with the support of suitable documentation, that the privatisation procedure was conducted correctly and - contrary to the opponents' allegations - in the form of public auction in which numerous international banks participated, as a result of which Sanpaolo IMI was judged as the best bidder. The two proceedings, which are going forward at the same time and have been subject to numerous postponements and slowdowns, are currently in the preliminary investigation phase. As things stand, and in consideration of the current phase of the proceedings, there are no critical issues in view with regard to the problems which are the focus of the disputes. Law 32/2014 was enacted on 24 April 2014. The statute clarifies the subjective requirements for appealing previous privatisations by limiting standing to sue to the original contracting parties only. The counsel to the defence believe that the statute is also applicable to the ongoing proceedings to which Bank of Alexandria is a party. Moreover, the statute was reviewed by Egypt's Constitutional Court due to contentions of unconstitutionality that arose in other proceedings to which Bank of Alexandria is not a party. Both lawsuits are constantly monitored by the Parent Company, also in terms of possible developments of the scenario.

Judicial and administrative proceedings involving the New York branch

During 2012 the criminal investigation instigated by the New York District Attorney's Office and the

Department of Justice aimed at verifying the methods used for clearing through the United States of payments in dollars to/from countries embargoed by the US government in the years from 2001 to 2008, an update on which has been provided each year, was concluded in the Bank's favour in 2012.

As regards the transactions (the handling of bank transfers in dollars through the SWIFT interbank payments service, cleared through US banks), the Bank was also subject to assessments by the OFAC (Office of Foreign Assets Control), the authority of the United States Department of the Treasury responsible for foreign exchange control. As a result of these assessments, the Bank paid a fine of 2.9 million dollars due to the acknowledgement of the commission of a small number of administrative errors during the period 2004-2007.

The transactions in question remain subject to the scrutiny of the FED and the New York State Department for Financial Services. The related proceedings are still pending and, at present, it is not possible to forecast its outcome or assess the risk of penalties.

Alberto Tambelli Lawsuit

In January 2013 – before the Milan Court of Appeal – Alberto Tambelli summarised a judgment of the Court of Cassation, claiming compensation for damages in terms of lost earnings for a total of approximately 110 million euro. The proceedings originate from futures transactions performed in 1994 with the Milan branch of the former Banca Popolare dell'Adriatico (now Banca dell'Adriatico) resulting in a capital loss for Mr. Tambelli. On termination of both levels of proceedings brought against the Bank, Mr. Tambelli obtained reimbursement of the damages suffered but both the Ordinary Court and the Milan Court of Appeal denied compensation for other damages associated with loss of earnings which, in Mr. Tambelli's opinion, could have been achieved in the period in which he was deprived of availability of the sums lost in the aforementioned financial transactions. The Court of Appeal judgment was challenged by both parties before the Court of Cassation, which by decision dated 1 October 2012 rejected the Bank's appeal, thereby finalising the order to compensate damages resulting from the loss of capital invested (which had in any event already been paid to Mr. Tambelli in 2004) and, vice versa, accepted Mr. Tambelli's claim, considering that – unlike the decision of the Milan Court of Appeal – the further claims for compensation for loss of earnings were not time-barred and their merits could therefore be assessed in new proceedings before a different bench by the Milan court.

As a result of the corporate affairs affecting Banca Popolare dell'Adriatico, the new proceedings were brought against Intesa Sanpaolo, as universal successor to the merged company Banca Popolare dell'Adriatico, and also against Banca dell'Adriatico as specific successor of the former bank.

At the hearing of 23 April 2013, the judge, without considering Mr. Tambelli's preliminary claims, ordered the case to be decided by the Bench and set the date for the evidentiary hearing as 9 February 2016.

As the lawsuit is deemed lacking in grounds no provisions have been made.

Interporto Sud Europa (ISE) lawsuit against Banco di Napoli - By writ of summons served on 28 December 2013, Interporto Sud Europa (ISE) summoned Banco di Napoli and another bank before the Court of Santa Maria Capua Vetere, calling for them to be jointly ordered to compensate for damages, quantified at 186 million euro.

In further detail, the plaintiff claimed that it decided to assume the debt arising from the first tranche of a pool loan disbursed to Comes S.r.l. (a total of 70 million euro for the construction of the shopping centre in Marcianise) on the understanding that the two banks concerned would then have disbursed an additional loan of 35 million euro for which ISE had applied directly (while reducing the original loan from 70 million to 35 million euro).

However, that loan was not in fact disbursed, and this situation allegedly resulted in a serious lack of liquidity for ISE, which, among other effects, purportedly prevented it from selling said shopping centre to third parties at a price regarded as expedient.

However, during the internal assessment process, various factual elements were brought to light, justifying the two banks' decision not to provide the loan.

The judge set the first hearing for 13 April 2015, granting the parties the terms in which to submit briefs setting out their claims and pre-trial requests which, however, the counterparty failed to file.

Dispute initiated by Acotel Group S.p.A

In its document initiating arbitration proceedings served on 4 November 2013, Acotel Group seeks an award ordering ISP to provide compensation for damages, quantified at a total of 150 million euro, caused by alleged breach of a complex cooperation agreement, which took the concrete form of various contracts aimed at developing and selling an innovative telephone SIM card known as “SIM Noverca” to bank customers. Acotel assumes that the failure of the commercial initiative and the resulting damages were the result solely of breach of contract by ISP due to the lack of interest shown in the promotion and distribution of the product amongst its customers, which culminated in the cancellation and termination of the commercial agreements. The Bank conducted its defence by raising a number of exceptions of a procedural nature. On the merits, it argued that the reasons for the transaction’s lack of success may be found to lie in the technological inadequacy of the SIM card, which was rapidly rendered obsolete by the development of other, more attractive propositions on the market and the low level of competitiveness of the rate scheme, both of which were problems that Noverca was unable to overcome. Due to the lack of interest in proceeding with the arbitration shown by Acotel (which reserved the right to take action in the ordinary courts) and its consequent inactivity, the Chamber of Arbitration of Milan declared the proceedings closed by decision of 10 June 2014. By writ of summons served on 2 October 2014, Acotel Group S.p.A. and Noverca Italia S.r.l. resubmitted the same arguments to the Court of Turin, presenting, in the case of Acotel Group, a compensation claim of similar amount to that previously entered in the arbitration proceedings and, in the case of Noverca, a request for damages of the lesser amount of approximately 11.5 million euro by way of contractual penalties.

In light of the defence arguments which can be objected to, the lawsuit is considered free from risks. The preliminary investigation phase is currently underway.

Compensation claim of G & C Holding S.r.l.

With summons served on 5 December 2014, G. & C. Holding S.r.l. brought a legal action before the Court of Milan against the former CEO and the Head of ISP Corporate Division, as well as the Bank, as jointly liable with the two defendants.

Said writ also summoned Roberto Colaninno (Chairman of CAI), Rocco Sabelli (CEO of CAI) and Alitalia – Compagnia Aerea Italiana S.p.A., as jointly liable with the two defendants.

In substance, G.& C. Holding claims that it incurred, from the end of 2008 to the beginning of 2009, an investment in Alitalia – CAI of approximately 40 million euro, for the purpose of revitalising the Italian national airline, from the point of view outlined in the ‘Fenice’ project.

Intesa Sanpaolo, as the “director” of the project, is charged with misrepresenting the actual outlook for the investment, thereby inducing the company into taking on the initiative in a transaction which ended in bankruptcy.

The request for compensation, against all defendants, has been quantified at 65 million euro, in addition to interest and revaluation.

The first hearing was postponed automatically to 7 July 2015.

The preliminary pre-trial assessments are underway and, pending developments, the possibility of lawsuit risk will be assessed.

Lawsuit brought by Alis Holding S.r.l. in liquidation

By writ of summons served on 10 December 2014, Alis Holding S.r.l. in liquidation brought a compensation claim before the Court of Milan, requesting that Intesa Sanpaolo be sentenced to pay 127.6 million euro as a result of the failure to achieve the positive results expected in relation to the value that its investment Cargoitalia was expected to reach.

The plaintiff claims that in developing a project launched in 2008 to enhance the potential for business

in the air cargo sector in Italy, it purchased, along with Intesa Sanpaolo as its financial partner, investments – in the amount of two-thirds (66.67%) and one-third (33.33%) – in the share capital of Cargoitalia, based on investment and shareholders' agreements through which the Bank reserved a series of prerogatives on significant issues for itself.

In 2011, as a result of an adverse economic situation and the presence of a fierce competitor, Cargoitalia suffered a situation of financial tension which made it necessary to draw up a three-year recovery plan (2011-2014) to protect the business as a going concern.

The recovery plan included obtaining 8 million euro in resources through debt financing, which Intesa Sanpaolo was to disburse in a pool with another Bank. Alis Holding claims that Intesa Sanpaolo allegedly refused, without reason, to honour that financing commitment, causing the winding up of Cargoitalia due to the impossibility of pursuing the corporate purpose and its resulting implementation of arrangement with creditors. Alis Holding thus claims liability of the Bank due to breach of a shareholders' loan agreement which was assumed to be entered into on a de facto basis or, alternatively, due to the de facto exercise of management and coordination of Cargoitalia which was allegedly carried out in breach of the principles of sound company management.

The defence arguments are currently being drawn up in view of appearance in court for the hearing of 16 June 2015.

Lawsuit brought by Novembre RSA S.r.l. impresa sociale, Segno Unico S.r.l. and Novembre SGI S.r.l.

By writ of summons served on 5 August 2014 (first hearing set for May 2015) Novembre RSA S.r.l. impresa sociale, Segno Unico S.r.l. and Novembre SGI S.r.l., which have common owners, brought a compensation claim before the Court of Turin in which they seek a finding of joint and several liability against Intesa Sanpaolo and Mediocredito Italiano for the payment of compensation for damages of approximately 63 million euro, for which both banks are claimed to be liable for having failed to disburse a loan intended to finance a home for the elderly. The banks' liability depends on their alleged conduct in bad faith, which allegedly generated in the plaintiffs a good faith reliance that the loan would be disbursed.

The lawsuit joins the other disputes concerning misappropriation of accounts of said three companies, disputes which, though the related claims are unclear, have economic content significantly lower than that stated in the claim for damages.

The lawsuit in question is deemed to be unfounded in that the grounds of the failure to approve the loan are to be sought in multiple factors attributable to objective situations to which the defendant banks are completely extraneous. For these reasons, the lawsuit is deemed to be free of risks.

Lawsuit brought by Fondazione Monte Paschi di Siena – By writ served on 11 July 2014, Fondazione MPS brought a lawsuit before the Court of Siena against former members of the Foundation's administrative body, as well as all of the banks, including Intesa Sanpaolo and Banca IMI, that had participated in 2011 in a pool loan to the Foundation intended to provide the Foundation with the resources required to subscribe for a capital increase undertaken by its subsidiary, Banca Monte Paschi di Siena.

In support of its compensation claim of approximately 286 million euro, the Foundation argued that the former directors and advisor bore contractual liability for having breached the limit on the debt-to-equity ratio imposed by the articles of association, as well as that the lending banks bore tortious liability for having knowingly been complicit in the alleged breach by the directors. Even though, as regards internal dealings between the defendants, alleged liability for compensation may be allocated proportionally, the Foundation sought a finding of joint and several liability of all the defendants in the proceedings.

The compensation claim, as presented, against the banks summoned is believed to be unfounded on a variety of grounds that relate not only, in general, to the possibility of attributing tortious liability to the banks, but also to an incorrect technical valuation of the financial statement captions which form the basis of the alleged breach of said financial parameter, the inexistence of a causal relationship

between the objectionable conduct and the harmful event as well as the determination of the amount of the items of the damages into which the compensation claim is divided. The first hearing has been scheduled for 14 May 2015.

POTROŠAČ litigation against and PBZ relating to loans denominated in CHF

In the context of historically low interest rates on assets denominated in Swiss francs (CHF), in 2004 numerous Croatian banks began to disburse retail loans in Swiss francs. This practice was immediately appreciated by customers. Therefore, in order to avoid erosion of market share, PBZ also began to offer similar products in February 2005.

Though it was following market trends, PBZ implemented procedures significantly different than those of other banks. In particular, in informing its customers of exchange rate risk, PBZ included specific clauses in its loan contracts which notified customers of the possibility that the amount of their instalments could change due to the volatility of exchange rates.

In addition to foreign currency, a fundamental characteristic of this loan portfolio is the presence of so-called "administered interest rate", which means that interest rates could be changed at the discretion of the Bank, without a clearly identified underlying index. This type of interest rate was the most common type in the Croatian banking sector along with fixed interest rates. Only with the introduction of the new law on consumer credit were administered interest rates banned for all new loans starting from January 2013. PBZ correctly complied with these law provisions by introducing index-linked interest rates.

By writ of summons served on 23 April 2012, PBZ was sued, along with seven major Croatian banks (subsidiaries of non-Croatian groups) by a consumer association (Potrošač). Extremely in brief, the association called for the banks to be sentenced for:

- not having appropriately informed customers of the risks of an exposure in a foreign currency such as the Swiss franc;
- not having clearly set out in the contracts the rules for determining the interest rate, which the bank could unilaterally change.

On 4 July 2013, in the first instance, the Commercial Court of Zagreb had substantially accepted the requests of the consumers association, ordering the banks to transform their receivables into Kuna at the exchange rate at the disbursement date and to a fixed interest rate equal to the interest rate applicable to loan contracts on the date of their subscription.

The execution of the first instance ruling had been suspended pending the judgment on the appeal.

On 16 July 2014, the High Commercial Court of the Republic of Croatia rendered its second instance ruling. The resulting situation appears more favourable than the first instance ruling. In particular:

- the part of the first instance ruling which established that the banks were to denominate in HRK the principal originally lent to the borrowers of loans granted in Swiss francs, was overturned.
- the first instance ruling was also overturned in the part referring to the loans granted in Swiss francs to be converted, establishing that the banks were to apply a fixed interest rate equal to that applicable to the loan agreement when granted.
- on the other hand, the court upheld the unlawful nature of the unilateral changes to interest rates on the loans by the banks. In 2013 PBZ provisioned adequate amounts which, according to the appeal ruling, may be regarded as extremely prudential.

In relation to the foregoing, it is necessary to consider that, in order to secure recognition of their right to reimbursement of the unduly paid sums, individual customers will be required to take action against their banks separately. This should be a benefit for PBZ, since it has adopted policies focusing on customer relations, for example by offering the possibility to convert principal from CHF into HRK given the strong appreciation of the Swiss currency in recent years. Moreover, PBZ discontinued the offering of loans in CHF in 2008.

The banks appealed to the Croatian Supreme Court, in order to obtain the review of the part of the appeal ruling in which they are found liable. The appeal to the Supreme Court does not provide a stay

of the enforcement of the appeal ruling.

From August 2014 to 31 December 2014, PBZ received 1,458 reimbursement applications, of which only 12 have resulted in litigation before the competent authorities to date.

The risks relating to the ruling, concerning the unilateral changes in interest rates, are covered by suitable provisions.

Labour litigation

There were no significant cases of labour litigation from either a qualitative or quantitative standpoint as at 31 December 2014. In general, all labour litigation is covered by specific provisions adequate to meet any outlays.

Tax Litigation

Overall tax litigation risks of the Group are covered by adequate provisions to allowances for risks and charges.

The Parent Company is a party to 306 litigation proceedings, in which a total of 952 million euro is at issue, including proceedings in both administrative and judicial venues at various instances. The actual risks associated with these proceedings were quantified at 75 million euro at 31 December 2014.

The Group's other Italian companies within the scope of consolidation are parties to tax litigation proceedings in which a total of 370 million euro is at stake at that date, reflected by specific allowances of 29 million euro.

Pending international charges, totalling 9 million euro, are not material in amount when compared to the size of the business conducted by the Group. Specific provisions of adequate amount have been recognised to account for the risks associated with such charges.

In general, the checks conducted by the financial authorities in 2014 featured the mere reiteration of issues concerning interpretations which had arisen in previous years and have not been unequivocally defined.

With regard to Intesa Sanpaolo, it is important to note the issue of the assessment report for 2009 of the charges concerning a series of transactions implemented for the purpose of capital strengthening by issuing preference shares through international subsidiaries (in the form of LLCs) resident in Delaware (USA). The claim is based on the assumption that the subordinated deposits in place between the international subsidiaries and the Parent Company can be reclassified as loans, subject to 12.50% final withholding tax pursuant to the last paragraph of art. 26 of Italian Presidential Decree no. 600/1973. The claim related to said year, totalling 38 million euro in withholding taxes, penalties and interest, was, obviously, appealed before the court.

Moreover, the dispute for the year 2008, amounting to 74 million euro, is pending in the first instance. Conversely, the dispute relating to the year 2007, which amounted to 63 million euro, had a negative outcome in the first instance, in line with the adverse approach taken on the specific matter in the proceedings on the merits relating to equivalent charges against other banks. In spite of the approach of case law, due to the absolute debatable tax authority's argument, no provisions were made.

With regard to other Group companies, assessment notices were issued by the Agenzia delle Entrate against Intesa Sanpaolo Group Service Scpa as a result of the audit of the year 2009, containing a claim for IRES tax, IRAP tax and VAT, penalties and interests totalling 25 million euro. This claim is based on (i) the alleged breach of the accruals principle in relation to the division over time of costs relating to contributions to said Investee by the Parent Company in 2009, (ii) the rejection of the pertinence of the amortisation charge for the period prior to the contribution of the assets included in the business units contributed, (iii) the applicability of VAT to the recoveries relating to said costs, assuming that the exemptions for consortia do not apply to these and, rather, the ordinary tax regime applies with a rate of 20%. In relation to the expected outcome of the disputes initiated based on said position, the pre-existing precautionary allocation of 7 million euro was increased by 1 million euro, mainly due to the update of the interest caption.

In terms of the main outcomes of proceedings during the reporting period, the following is worth

mentioning:

- for the Parent Company, the positive judgement in all proceedings on the merits, in the first and second instance, in relation to the reclassifications by Agenzia delle Entrate of contributions of business lines and the subsequent sale of shares deriving from contributions as a step transaction, equivalent to the transfer of a business line; Moreover, with regard to the contributions of bank branches to CariParma and FriulAdria in 2007, the State Attorney's Office submitted an appeal to the Court of Cassation on behalf of the Agenzia delle Entrate;
- for the merged company Centro Leasing Banca, the favourable ruling of the Court of Cassation, though with a structure that implies the confirmation of the second instance ruling, regarding the issue of real estate lease-back transactions performed by the Company, which, in the tax audit of the years 2003 to 2007 were claimed to be a misuse of a right, concluded with the forecast of a total claim of 56 million euro for additional IRES tax, IRAP tax and VAT, in addition to penalties and interest. The tax claims under said ruling concerning the years 2004 and 2005 amounted to 16 million euro.

Using dispute settlement mechanisms, at the end of December 2014 Banca IMI settled the dispute concerning "misuse of a right" involving the sales of futures on listed Italian shares carried out as part of market maker operations in 2009, which the financial authorities reclassified as repurchase agreements based on their affirmed circular nature. Also in relation to this position, as previously done, the decision to settle that litigation was taken, though fully convinced of the groundlessness of the claim, in consideration of the inappropriateness of nurturing litigations that are time-consuming and costly, with a sharp degree of randomness in the specific matter. In the case in point, the tax claim, amounting to 157 million euro (for taxes, withholding taxes and penalties) was settled with a payment of 4 million euro.

After the close of the year, on 10 February 2015 the Tax Police squad in Milan served Eurizon Capital S.A. – Luxembourg with a report on findings which, in relation to the tax years 2004 to 2013, claimed the failure to declare, for IRES purposes, income totalling approximately 731 million euro, based on the company's alleged tax residence in Italy due to the alleged presence in the country of the administrative headquarters and its main purpose. In particular, the auditors formulated said claim based on the documentation acquired during an audit which is still underway of Eurizon Capital SGR. In this regard, the claim is deemed to be absolutely unfounded. This consideration is due to the correctness of the conduct of the subsidiary - which has operated in Luxembourg since 1988 with a structure comprising over 50 highly qualified employees mainly dedicated to the management, marketing and administration of Luxembourg mutual funds and subject to supervision by the Luxembourg regulatory authorities – always focused on full compliance with national tax laws and the double taxation treaty between Italy and Luxembourg.

Out of the total cases of tax litigation pending as at 31 December 2014, at Group level 236 million euro is posted to the balance sheet among assets, 200 million euro of which refers to the Parent Company, representing the total amount paid by way of provisional tax collection where assessments are conducted.

For said cases of litigation, provisions for risks and charges amount to 49 million euro at Group level, of which 35 million euro for the Parent Company.

In this regard, it is important to note that the provisional payments were made in compliance with specific legal provisions, which mandate such payments based on an automatic mechanism completely unrelated to whether the related tax claims are actually founded and, thus, irrespective of the higher or lower level of risk of a negative outcome in the related proceedings. Thus, these payments were made solely based on the administrative deeds that set forth the related tax claim, which does not lose its effectiveness even when appealed, has no suspensive effect and does not add to the assessments of the actual risk of a negative outcome, which must be measured using the criteria set forth in IAS 37 for liabilities.

Potential assets

As far as potential assets are concerned, it is noted that judgment of the Court of Appeal of Rome on 7 March 2013, which has become final, ordered the revocation, due to judicial misconduct, of the judgment issued by said Court of Appeal of Rome on 26 November 1990, which had ordered IMI to pay the heir of entrepreneur Nino Rovelli (who passed away in the meantime) the amount of around 980 billion lira (amount paid to the heir on 13 January 1994: 678 billion lira, net of inheritance taxes and withholding on default interest settled at the time of the judgment).

As a result of the revocation of the judgment, Intesa Sanpaolo - assignee of the rights of Mr. Rovelli's heir - submitted an application for refund from the financial authorities of the taxes paid at the time for various reasons following the first judgment, which was cancelled as a result of the revocation. Based on the applicable accounting standards, as there is a reasonable certainty that said assets may be realised at least partially, the 2013 financial statements posted assets totalling 128.1 million euro. On 8 August 2014 the financial authorities settled the entire amount of inheritance tax paid at the time by the heir, amounting to approximately 111 million euro.

As regards the other two taxes, i.e. registration tax applied to the revoked judgment and the tax withholdings applied to the interest on the late payment due by IMI to the heir, all amounting to approximately 43 million euro, the measures of the administration are currently pending as a result of the process initiated by way of the applications for refund.

DESCRIPTION OF THE PORTFOLIO

Introduction

The Initial Portfolio and each New Portfolio acquired by the Covered Bonds Guarantor, consists of receivables originated by the Seller (or which have been transferred to the Seller by way, for example, of the transfer of going concern to the Seller, or in case of Securities or Public Securities, purchased by the Seller) and the Additional Seller, if any, sold to the Covered Bonds Guarantor in accordance with the terms of the Master Transfer Agreement, as more fully described under Section “*Description of the Transaction Documents – Master Transfer Agreement*”.

The above mentioned characteristics might be subsequently amended on the basis of the amendments or integration of the BoI OBG Regulations.

COLLECTION AND RECOVERY PROCEDURES

1. Collection procedures

Through its own collection procedure, ISP carries out all the transactions aimed at the collection of the amounts due in respect of the loans granted.

Such activity is currently carried out through Intesa Sanpaolo Group Services (“ISGS”) which centralizes all the activities of Middle and Back Office of the Intesa Sanpaolo Group.

The following collection and invoicing procedures are applied by ISP.

For loans, liquidity line agreements (short / medium-long term) and revolving, at any payment date, a payment notice is sent to the borrower (or to the different entity responsible for the payment) with respect to the relevant instalment, and, in the case of pool lending, a notice to the other lenders providing for the indication of the relevant quota. For floating rate transactions, prior to the aforesaid payment notice a communication of the applicable interest rate is sent.

Two different procedures for the arrangement and delivery of the payment notice shall be applied, depending on the entity in charge of the payment:

- (i) **Public Administration:** the payment notice is arranged and sent manually (by means of registered letter) because of the particular nature of the underlying loan transaction. The payment notice shall contain a detailed description of the instalment calculation and the administrative unit exclusively responsible for the relevant payment. For loans for which a pre-defined public budget for the repayment of the instalment is provided, the payment notice shall contain an indication of the debt still outstanding and of the residual budget.

The delivery of the payment notice is carried out between 90 and 60 days prior to the relevant payment date, in accordance with contractual provisions or the preferences of the entities responsible for the payment.

- (ii) **Other entities:** the payment notice is automatically sent through the electronic mail transmission service (Systema), about 60 to 45 days prior to the payment date. Contracts which provide for specific provisions regarding the timing for the delivery of the payment notice, similar to those applied to the Public Administration, are not subject to the procedure described above.

Failure in delivery or receipt of the payment notice will not relieve the borrower of the payment obligation vis-à-vis ISP.

The collections shall pass through the TARGET 2 system and, if the case may be, on transitory accounts to be designated by ISGS whether the information necessary for the identification of the relevant loan/client are expressed in the payment documents, the reconciliation is automatic (fully automatic if the amount to be collected is referred to the instalment due in connection with only one transaction; partially automatic, if the amount to be collected relates to different instalments due in the context of several transactions), except for payment of a considerable amount, to be paid by Ministries through the Bank of Italy, or in cases of breach of the instructions provided for the payment to the client, in which case the reconciliation is manual.

At the end of the process, any delay in payment is to be pointed out and, where necessary, the relevant recovery procedures will commence.

2. Collections and Transfer Procedures in respect of instalments referred to Loans transferred to the Covered Bonds Guarantor

The instalments relating to Loans transferred to the Covered Bonds Guarantor are collected by ISP which, in accordance with the Servicing Agreement, credits the collected sums on the Collection Accounts (one for principal amounts and one for interest amounts), in the name of the Covered Bonds Guarantor. ISP, in accordance with the Servicing Agreement, will provide segregation (even accounting) of the Collections and of any other sums received in respect of the Receivables from any

other amounts collected.

In particular, at the end of each business day, for all Collections verified through GRMA procedure, related to the Receivables transferred to the Covered Bonds Guarantor:

- an accounting record in respect of ISP and the Covered Bonds Guarantor shall automatically be prepared;
- the Collections be transferred from ISP to the Covered Bonds Guarantor through the “cash pooling” procedure, which would on a daily basis liquidate the cash flows on these accounts and replicate them on the Investment Account opened in the name of the Covered Bonds Guarantor with Intesa Sanpaolo.

In addition, there are other non standard but frequent types of collections:

- instalment collection with multiple descriptions (*contabile multipla*);
- collection exceeding the amount of the relevant instalment.

The former relates to the simultaneous collection of a number of instalments related to several relations which ISP may have with the respective transferor. In such cases, ISP shall adopt the ordinary management accounting criteria and the first accounting notes will be the same as above mentioned.

For the latter it will be necessary to evaluate, even on the basis of the provisions set forth under the Master Transfer Agreement and the Servicing Agreement, whether to credit the exceeding amount to the Covered Bonds Guarantor or to hold such amount in favour of ISP that will record a debt towards the client.

In addition, in case of delay by ISP in crediting the Collections, the Covered Bonds Guarantor would record penalty interests towards ISP, within the limits and the modalities provided for by the Master Transfer Agreement.

3. Loans Renegotiations

The process of renegotiation of loans towards the Public Administration is applicable to transactions arising out of the restructuring pursuant to article 41 of Law no. 448 of 2001, by way of:

- renegotiating the terms of the respective loan; or
- redeeming such loan in advance simultaneously with the granting of a new loan or the issuance of certain bonds.

4. Management of loans in arrears or likely to become in arrears

Constant monitoring of the quality of the loan portfolio is pursued through specific operating activities for all the phases of loan management, using both IT procedures and activities aimed at the systematic analysis of loans, in order to promptly detect any symptoms of anomaly and promote corrective actions aimed at preventing situations of possible deterioration of credit risk.

Symptoms of the possible deterioration of loans are captured through several indicators (level of risk of any debtor and level of risk of the economic group, rating of the relevant borrower, *overdrafts*, ratio of instalments in arrears, etc.).

On the basis of the monitoring activity mentioned above, the Bank identifies within its portfolio loans which, while not yet showing features falling within the definition of “non-performing loans”, require special management approaches. These loans still considered as “performing” fall in the categories of “*Proactive Management*” and “*In risanamento*”.

The Proactive Management Unit has been established for the management of those customers who

present potential problems, with the aim of addressing the anomalies in a correct and timely manner from the very first signs of deterioration, with the involvement of the commercial unit as from the very first phases of the process. Proactive Management process is carried out through specialised structures both at a central and at a peripheral level.

Each month the interaction between processes and procedures allows to make automatic and timely assessments on the reason of the insurgence of any anomaly. An indicator is assigned expressing a brief but significant assessment of the counterparty risk, considering the behaviour of the counterparty with the Bank. The tool is essential for the assignment of a " risk level" that, in connection with the counterparty economic sector, is expressed as a score between "-10" (maximum risk) and "+10" (minimum risk).

High risk positions are taken care by the Proactive Management Unit and the relationship manager must prepare an action plan within 30 days.

The Proactive Management Unit supports the loan manager in order to analyse the loan, validates the action plans and monitors that such plans are followed.

When risks are perceived as particularly high, the loan may be classified as *Non performing*.

Another status, "*In Risanamento*", defines positions with overall exposure higher than € 1 million (at group level) and with at least one of the following conditions:

- prospect of an interbank table for any restructuring plan;
- request for a moratorium/standstill in sight/presence of an inter-bank table for any restructuring plan/reorganization or restructuring / reorganization under the Bankruptcy Law (art. 67 letter. d, art. 182 / bis);
- possible restructuring / reorganization under the Bankruptcy Law (art. 67 letter. d, art. 182 / bis or of similar models of foreign law).

Non performing loans (Credito Deteriorato)

In 2014 the European Banking Authority (EBA) published the final version of the "Draft Implementing Technical On Supervisory reporting on forbearance and non-performing exposures under article 99(4) of Regulation (EU) No 575/2013". Consequently on January 2015 the Bank of Italy issued an updated regulations providing for the amendment of the subdivision of non-performing financial assets into risk-categories, thus harmonizing its regulations to the new European Union law.

According to new Bank of Italy's regulations, "Non performing loans" consist in:

- Past due exposures ("*Sconfino*");
- Unlikely to pay ("*Inadempienze probabili*");
- Doubtful ("*Sofferenze*").

All such exposures are subject to specific valuations for accounting purposes.

Furthermore, it has also been identified a new array of exposures covering all loans being renegotiated because of financial difficulties (existing or likely to exist) of the counterparty. Such range of loans can be classified as follows:

- Forbearance Non Performing: non performing exposures with forbearance measures
- Forbearance Performing: performing exposures with forbearance measures.

Past due exposures (Sconfino)

Exposures other than those classified as Doubtful or Unlikely to Pay that, as at reporting date, are past due for over 90 days on a continuous basis and exceeding a materiality threshold.

Unlikely to pay (Inadempienze Probabili)

Some specific and minimum criteria are taken into consideration for the classification of an exposure as Unlikely to pay. It's the result of the assessment as to the improbability that the borrower will thoroughly fulfil its credit obligations (by way of repayment of principal and/or interest) without recourse to actions such as the enforcement of guarantees/ collateral. Such assessment should be carried out irrespectively of any past due and/or unpaid amounts (or instalments).

5. Management of the Defaulted Assets classified as “in sofferenza”

The Servicer shall manage the recovery activities of the Defaulted Loan classified as “in sofferenza” through delegated structure – currently ISGS which- once the Defaulted Assets has been classified as “in sofferenza” - shall immediately implement through its specialized units (*Strutture di recupero crediti*) the most suitable recovery actions.

When resolving upon the course of action for the recovery of the claims, both legal proceedings and out-of-court settlements shall carefully be considered, in terms of costs-benefits, in view of, among other things, the financial implication of estimated recovery times.

A judicial action will be carried out as follows:

- directly by the Servicer (also through ISGS) to the extent possible, for actions to be taken by the parties (*atti di parte*) (e.g. filing claims with insolvency proceedings, etc.) or for judicial acts carried out with the assistance of in-house counsels; and
- by appointing external counsel for judicial initiatives (e.g. injunction decree -“*decreto ingiuntivo*” and real estate enforcement proceedings, etc), whose activity will be closely supervised.

As for the recovery activity of positions having a significant value, an initial assessment will be carried out and all the urgent and necessary actions will be implemented to maximise the chance of recovery of the claim.

6 Securities Management

6.1 Collections and further payments

On the basis of the payment instructions originally given to the Debtors, all principal redemption amounts, interest payments and any other amounts due for any reason in relation to the Securities will be credited by Monte Titoli or Clearstream (as the case may be) to the custodian bank in favour of the securities account opened and maintained in the name of the Covered Bonds Guarantor, through the specific segregated liquidator account, properly opened with Monte Titoli or Clearstream. The custodian bank automatically and promptly pays the amounts collected as follows:

- any principal amount to the Principal Securities Collection Account; and
- any interest amount to the Interest Securities Collection Account

(jointly, the “**Securities Collection Account**”)

in accordance with the Cash, Management and Agency Agreement.

In the case in which, for any reason, the Servicer – also through appointed entities, such as ISGS - receives any collections, the Servicer shall carry out the reconciliation of the amounts received within 20 (twenty) days from the receipt of such amount by the Debtors and credit to the relevant Collection Account, in respect of principal and interest, such sums received and reconciled within 3 (three) Business Days following the reconciliation of such amounts and with value on account corresponding to the collection date by the Servicer.

6.2 Collection payment verification and report of the Securities Collection Account flows

Further to any payment date of each Security, as set forth under the relevant Security documents, the Servicer - also through appointed entities, such as ISGS -will verify that the amounts due as principal, interest or for any other reason due in relation to each Security have been credited on the relevant Security Collection Account, in respect of principal and interest, with value on account corresponding to the relevant payment date of each Securities, as set forth under the relevant Security documents.

The Servicer undertakes to promptly – also through appointed entities, such as ISGS deliver upon request to the Covered Bonds Guarantor, the Representative of the Covered Bondholders and the Calculation Agent, the Account Bank Report complete, exact and precise of all flows with reference to the Securities Collection Accounts and the Interest Securities Collection Account as of the immediately preceding calendar month and, broadly, the documents concerning the collections, as well as to give evidence of the transfer of such amount on the relevant Collection Account, in accordance with the procedures previously agreed with the Covered Bonds Guarantor.

The Servicer shall monitor on a continuing basis the financial performance of the Securities and the fulfillments of the Debtors' obligations in respect of the Securities, and shall apply to the Securities the same procedures, where applicable, set forth for the receivables.

CREDIT STRUCTURE

The Covered Bonds will be direct, unsecured, unconditional obligations of the Issuer guaranteed by the Covered Bonds Guarantor. The Covered Bonds Guarantor has no obligation to pay the Guaranteed Amounts under the Covered Bonds Guarantee until the occurrence of an Article 74 Event or an Issuer Event of Default, service by the Representative of the Covered Bondholders on the Covered Bonds Guarantor of either an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay or, if earlier, following the occurrence of a Covered Bonds Guarantor Events of Default and service by the Representative of the Covered Bondholders of a Covered Bonds Guarantor Acceleration Notice on the Covered Bonds Guarantor. The Issuer will not be relying on payments by the Covered Bonds Guarantor in order to pay interest or repay principal under the Covered Bonds.

There are a number of features of the Programme which enhance the likelihood of timely and, as applicable, ultimate payments to Covered Bondholders:

- (i) the Covered Bonds Guarantee provides credit support to the Issuer;
- (ii) the Tests are intended to ensure that the Portfolio is sufficient to repay the Covered Bonds at all times;
- (iii) among the Tests: (i) the Asset Coverage Test, in particular, is intended to maintain the sufficiency of the Covered Bonds Guarantor's assets in respect of the Covered Bonds and (ii) the Amortisation Test is intended to test the sufficiency of the Covered Bonds Guarantor's assets in respect of the Covered Bonds following the occurrence of an Issuer Event of Default and service of a Notice to Pay on the Covered Bonds Guarantor;
- (iv) the Pre-Maturity Liquidity Test is intended to trigger the provision of liquidity for Hard Bullet Covered Bonds when the Issuer's credit ratings fall below a certain level;
- (v) extendable maturity provisions are applicable to all Series of Covered Bonds other than the Hard Bullet Covered Bonds as specified in the relevant Final Terms.

Certain of these factors are considered more fully in the remainder of this section.

Covered Bonds Guarantee

The Covered Bonds Guarantee provided by the Covered Bonds Guarantor guarantees payment of the Guaranteed Amounts on the Due for Payment Date in respect of all Covered Bonds issued under the Programme. The Covered Bonds Guarantee will not guarantee any other amount becoming payable in respect of the Covered Bonds for any other reason, including any accelerated payment following the occurrence of an Issuer Event of Default or an Article 74 Event. In this circumstance (and until a Covered Bonds Guarantor Event of Default occurs and a Covered Bonds Guarantor Acceleration Notice is served), the Covered Bonds Guarantor's obligations will only be to pay the Guaranteed Amounts on the Due for Payment Date.

See further "*Description of the Transaction Documents — Covered Bonds Guarantee*", as regards the terms of the Covered Bonds Guarantee.

Under the terms of the Portfolio Administration Agreement, the Issuer and the Seller must ensure on a continuing basis and on each Calculation Date or on any other date on which the verification of the Tests is required pursuant to the Transaction Documents that the Portfolio is in compliance with the Tests described below.

If on any Calculation Date the Portfolio is not in compliance with the Tests, then the Seller (and should the Seller fail to do so, the Issuer) shall sell Public Assets or Integration Assets to the Covered Bonds Guarantor in an amount sufficient to allow the Tests to be met as soon as possible, in accordance with the relevant Master Transfer Agreement. To this extent the Seller shall grant additional amounts under the Subordinated Loan for the purposes of funding the purchase of Public Assets or Integration Assets. If the breach of Tests is not remedied and for so long as such breach is continuing, no further Series of Covered Bonds will be issued and no payments under the Subordinated Loan will be effected.

Tests

In accordance with the provisions of the MEF Decree, and the Transaction Documents, for so long as the Covered Bonds remain outstanding, the Issuer and the Seller shall procure on a continuing basis and on each Calculation Date, or any other date pursuant to the Transaction Documents, that:

- (a) prior to the occurrence of an Issuer Event of Default, the OC Adjusted Eligible Portfolio shall be equal to, or greater than, the Outstanding Principal Balance of all Series of Covered Bonds (the “**Asset Coverage Test**”) or, following the occurrence of an Issuer Event of Default, and service of the Notice to Pay by the Representative of the Covered Bondholders, the Amortisation Test Adjusted Eligible Portfolio shall be equal to, or greater than, the Outstanding Principal Balance of the Covered Bonds (the “**Amortisation Test**”)
- (b) the Net Present Value of the Eligible Portfolio shall be equal to, or greater than, the Net Present Value of the outstanding Covered Bonds (the “**NPV Test**”);
- (c) the Net Interest Collections from the Eligible Portfolio shall be equal to, or greater than, the Interest Payments and the Annual Net Interest Collections from the Eligible Portfolio shall be equal to, or greater than, the Annual Interest Payments (the “**Interest Coverage Test**”);

(the tests above are jointly defined as the “**Tests**”).

The MEF Decree requires the nominal amount of the Portfolio is to be equal to, or greater than, the outstanding nominal amount of the outstanding Covered Bonds. The Tests are fulfilled in accordance with the Portfolio Administration Agreement. In particular, with reference to the Asset Coverage Test and the Amortisation Test, such tests will be run depending on whether or not an Issuer Event of Default has occurred, provided that both tests are structured to ensure that the outstanding nominal amount of the Portfolio is equal to, or greater than, the nominal amount of the outstanding Covered Bonds.

Compliance with the Tests will be verified by the Calculation Agent and internal risk management functions of the Intesa Sanpaolo Group (under the supervision of the management body of the Issuer) on each Calculation Date and on any other date on which the verification of the Tests is required pursuant to the Transaction Documents, and subsequently checked by the Asset Monitor on a semi-annual basis.

DESCRIPTION OF THE TRANSACTION DOCUMENTS

Master Transfer Agreement

Pursuant to a master transfer agreement entered into on 20 May 2009 and subsequently amended (the “**Master Transfer Agreement**”), the Seller assigned and transferred the Initial Portfolio to the Covered Bonds Guarantor, without recourse (pro soluto), in accordance with Law 130. Furthermore, the Seller and the Covered Bonds Guarantor agreed that the Seller may assign and transfer Public Assets and/or Integration Assets to the Covered Bonds Guarantor from time to time, on a revolving basis, in the cases and subject to the limits for the transfer of further Public Assets and/or Integration Assets.

Further Assignments

For the assignment of each New Portfolio, the Covered Bonds Guarantor shall pay the Seller an amount equal to the sum of the individual price of each Receivable and Security of all the Receivables or Securities in such New Portfolio, to be calculated in accordance with the provisions set forth under the Master Transfer Agreement.

The Receivables comprised in each New Portfolio shall comply with the General Criteria (if applicable in relation to the relevant issuance, the Specific Criteria) on the relevant Cut-off Date. Each Portfolio may be composed by Integration Assets provided that the total amount of such Integration Assets does not exceed the Integration Assets Limit.

The Further Assignments shall be aimed at:

- (a) issuing further Covered Bonds funded by means of amounts drawn under the Subordinated Loan, (the “**Issuance Collateralisation Assignment**”); or
- (b) investing principal Collections by means of purchasing further Public Assets using the principal collections received by the Covered Bonds Guarantor in relation to the Public Assets and Integration Assets which are part of the Portfolio and in accordance with the relevant Priorities of Payments (the “**Revolving Assignment**”); or
- (c) complying with the Tests, and preventing the breach of the Tests, in accordance with the Portfolio Administration Agreement (the “**Integration Assignment**”), subject to the Integration Assets Limits.

The obligation of the Covered Bonds Guarantor to purchase any New Portfolio shall be conditional upon, inter alia, (a) the existence of Principal Available Funds with reference to the Pre-Issuer Default Principal Priority of Payments for the carrying out of the Revolving Assignments, and (b) the funding of the requested amounts under the relevant Subordinated Loan for the carrying out of Issuance Collateralisation Assignments or Integration Assignments;

The obligation of the Covered Bonds Guarantor to purchase any New Portfolio shall be also subject to certain conditions subsequent set out in the Master Transfer Agreement.

Criteria

Each of the Receivables forming part of the Portfolio shall comply with all the General Criteria and to the applicable Specific Criteria.

Price Adjustments

The Master Transfer Agreement provides a price adjustment mechanism pursuant to which:

- (i) if, following the relevant Cut-off Date, any Receivable which is part of the Portfolio does not meet the Criteria, then such Receivable will be deemed not to have been assigned and transferred to the Covered Bonds Guarantor pursuant to the Master Transfer Agreement;
- (ii) if, following the relevant Cut-off Date, any Receivable which meets the Criteria but it is not part of the Portfolio, then such Receivable shall be deemed to have been assigned and

transferred to the Covered Bonds Guarantor with effects as of the Effective Date of the relevant Portfolio, pursuant to the Master Transfer Agreement.

Repurchase of Receivables and Pre-emption right

The Seller is granted an option right, pursuant to Article 1331 of Italian Civil Code, to repurchase Receivables or Securities individually or in block, also in different tranches. In order to exercise the option right, the Seller is required to pay the Covered Bonds Guarantor an amount to be calculated in accordance with the provisions set forth under the Master Transfer Agreement. The exercise of the option right shall be conditional upon, inter alia, (a) the verification by the Calculation Agent, and the confirmation of the Seller, that the exercise of such right shall not cause the breach of the Tests and (b) the absence of the Issuer Events of Default set forth under Condition 11(c) (*Issuer Event of Default*) point (iii) (*Insolvency*).

The Seller is granted a pre-emption right to repurchase Receivables or Securities to be sold by the Covered Bonds Guarantor to third parties, at the same terms and conditions provided for such third parties. Such pre-emption rights shall cease should the Seller be submitted to any of the procedures set forth in Title V of the Banking Law.

Termination of the Covered Bonds Guarantor's obligation to purchase and termination of the agreement

Pursuant to the Master Transfer Agreement, the obligation of the Covered Bonds Guarantor to purchase New Portfolios shall terminate upon the occurrence of any of the following: (i) a breach of the undertakings and duties assumed by the Seller pursuant to the Transaction Documents, in the event such breach is not cured within the period specified in the Master Transfer Agreement, or it is otherwise not curable; (ii) a breach of the Seller's representations and warranties given in any of the Transaction Documents; (iii) a Seller's material adverse change; (iv) an event which is negatively affecting the corporate and financial situation of the Seller (inter alia, enforcement against the Sellers' assets, winding-up of the Seller, opening of a bankruptcy or insolvency proceeding); (v) a change of control of the Seller and consequent exit from the Intesa Sanpaolo Group; (vi) a change in law and regulations following to which the issue of Covered Bonds is impossible or less convenient, both from an economic and commercial point of view, for the parties; (vii) the Seller being notified of the commencement of a judicial proceeding which may reasonably cause the occurrence of a material adverse change of the Seller; (viii) the occurrence of an Issuer Event of Default notified by the Representative of the Covered Bondholders both to the Issuer and the Covered Bonds Guarantor. Further to the occurrence of an event described above, the Covered Bonds Guarantor shall no longer be obliged to purchase New Portfolios.

Undertakings

The Master Transfer Agreement also contains a number of undertakings by the Seller in respect of its activities in relation to the Receivables or Securities. The Seller has undertaken, inter alia, to refrain from carrying out activities with respect to the Receivables or Securities which may prejudice the validity or recoverability of any Receivable or Security and in particular not to assign or transfer the Receivables or Securities to any third party or to create any security interest, charge, lien or encumbrance or other right in favour of any third party in respect of the Receivables or Securities. The Seller has also undertaken to refrain from any action which could cause any of the Receivable or Security to become invalid or to cause a reduction in the amount of any of the Receivable or Security or the Guarantee. The Master Transfer Agreement also provides that the Seller shall waive any set off rights in respect of the Receivables or Securities, and cooperate actively with the Covered Bonds Guarantor in any activity concerning the Receivables or Securities.

The Master Transfer Agreement is governed by Italian law.

Warranty and Indemnity Agreement

On 20 May 2009, the Seller and the Covered Bonds Guarantor entered into a warranty and indemnity agreement, subsequently amended, (the “**Warranty and Indemnity Agreement**”), pursuant to which the Seller made certain representations and warranties to the Covered Bonds Guarantor.

Pursuant to the Warranty and Indemnity Agreement, the Seller has undertaken to fully and promptly indemnify and hold harmless the Covered Bonds Guarantor and its officers, directors and agents (each, an “**Indemnified Person**”), from and against any and all damages, losses, claims, liabilities, costs and expenses (including, without limitation, reasonable attorney’s fees and disbursements and any value added tax and other tax thereon as well as any claim for damages by third parties) awarded against, or incurred by, any of them, arising from any representations and/or warranties made by the Seller under the Warranty and Indemnity Agreement, and certain representations and/or warranties made by the Seller under the Master Transfer Agreement, being materially false, incomplete or incorrect and/or failure by the Seller to perform any of the obligations and undertakings assumed by the Seller.

Without prejudice of the foregoing, the Seller has further undertaken that, if any Receivable does not exist, in whole or in part, (including where such non existence is based only on a judicial pronouncement that is not definitive), the Seller shall immediately pay the Covered Bonds Guarantor any damage, costs, expenses incurred by the Covered Bonds Guarantor. In the event that, thereafter, any definitive judicial pronouncement recognises that such Receivable exists, the Covered Bonds Guarantor shall repay the amounts mentioned above received by the Seller on the immediately subsequent Guarantor Payment Date, in accordance with the relevant Priorities of Payments.

Governing Law

The Warranty and Indemnity Agreement is governed by Italian law.

Subordinated Loan Agreement

On 20 May 2009, the Seller and the Covered Bonds Guarantor entered into a subordinated loan agreement, as subsequently amended, (the “**Subordinated Loan Agreement**”), pursuant to which the Seller granted the Covered Bonds Guarantor a subordinated loan (the “**Subordinated Loan**”) with a maximum amount equal to the Maximum Amount, as amended from time to time. Under the provisions of such agreement, upon the relevant disbursement notice being filed by the Covered Bonds Guarantor, the Seller shall make advances to the Covered Bonds Guarantor in amounts equal to the relevant price of the New Portfolios transferred from time to time to the Covered Bonds Guarantor in order to carrying out (a) Issuance Collateralisation Assignment or (b) Integration Assignment.

The Covered Bonds Guarantor shall pay any amounts due under the Subordinated Loan in accordance with the relevant Priorities of Payments. The Subordinated Loan shall be remunerated by way of the Subordinated Loan Interest Amount.

Governing Law

The Subordinated Loan Agreement is governed by Italian law.

Covered Bonds Guarantee

On or about the Initial Issue Date the Covered Bonds Guarantor issued a guarantee securing the payment obligations of the Issuer under the Covered Bonds (the “**Covered Bonds Guarantee**”), in accordance with the provisions of Law 130 and of the MEF Decree.

Under the terms of the Covered Bonds Guarantee, if the Issuer defaults in the payment on the due date (subject to any applicable grace periods) of any moneys due and payable under or pursuant to the Covered Bonds, or if any other Issuer Event of Default or an Article 74 Event occurs, the

Covered Bonds Guarantor has agreed (subject as described below) to pay, or procure to be paid, following service by the Representative of the Covered Bondholders of the Notice to Pay or an Article 74 Notice to Pay (which has not been withdrawn), unconditionally and irrevocably to or to the order of the Representative of the Covered Bondholders (for the benefit of the Covered Bondholders), any amounts due under the Covered Bonds as and when the same were originally due for payment by the Issuer, as of any Maturity Date or, if applicable, Extended Maturity Date by the Issuer.

Pursuant to Article 7-bis, paragraph 1, of Law 130 and Article 4 of the MEF Decree, the guarantee provided under the Covered Bonds Guarantee is a first demand (*a prima richiesta*), unconditional, irrevocable (*irrevocabile*) and independent guarantee (*garanzia autonoma*) and therefore provides for direct and independent obligations of the Covered Bonds Guarantor *vis-à-vis* the Covered Bondholders and with limited recourse to the Available Funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the Issuer. The provisions of the Italian Civil Code relating to *fideiussione* set forth in articles 1939 (*Validità della fideiussione*), 1941, paragraph 1 (*Limiti della fideiussione*), 1944, paragraph 2 (*Escussione preventiva*), 1945 (*Eccezioni opponibili dal fideiussore*), 1955 (*Liberazione del fideiussore per fatto del creditore*), 1956 (*Liberazione del fideiussore per obbligazione futura*) and 1957 (*Scadenza dell'obbligazione principale*) shall not apply to the Covered Bonds Guarantee.

Following the occurrence of an Article 74 Event or an Issuer Event of Default and the service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, the Covered Bonds Guarantor shall pay or procure to be paid on the relevant Scheduled Due for Payment Date to the Covered Bondholders an amount equal to those Guaranteed Amounts which shall become due for payment in accordance with the relevant Conditions, but which have not been paid by the Issuer to the relevant Covered Bondholder on the relevant Scheduled Payment Date.

Following the occurrence of a Covered Bonds Guarantor Event of Default and the service by the Representative of the Covered Bondholders, of a Covered Bonds Guarantor Acceleration Notice in respect of all Covered Bonds, which shall become immediately due and repayable, the Covered Bonds Guarantor shall pay or procure to be paid on the Due for Payment Date to the Covered Bondholders, the Guaranteed Amounts for all outstanding Covered Bonds.

Following service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay on the Covered Bonds Guarantor, but prior to the occurrence of a Covered Bonds Guarantor Event of Default, payment by the Covered Bonds Guarantor of the Guaranteed Amounts pursuant to this Covered Bonds Guarantee will be made, subject to and in accordance with the Post-Issuer Default Priority of Payments, on the relevant Scheduled Due for Payment Date, provided that, if an Extended Maturity Date is envisaged under the relevant Final Terms and actually applied, any amount representing the Final Redemption Amount due and remaining unpaid on the Maturity Date may be paid by the Covered Bonds Guarantor on any Scheduled Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. In addition, to the extent that the Covered Bonds Guarantor has insufficient moneys available after payment of higher ranking amounts and taking into account amounts ranking *pari passu* therewith in the relevant Priorities of Payments, the Covered Bonds Guarantor shall make partial payments of the Guaranteed Amounts in accordance with the Post-Issuer Default Priority of Payment.

Following service of a Covered Bonds Guarantor Acceleration Notice all Covered Bonds will accelerate, in accordance with the Conditions, against the Covered Bonds Guarantor, becoming due and payable, and they will rank *pari passu* amongst themselves and the Available Funds shall be applied in accordance with the Post-Guarantor Default Priority of Payment.

All payments of Guaranteed Amounts by or on behalf of the Covered Bonds Guarantor will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other governmental charges of whatever nature unless such withholding or deduction of such taxes, assessments or other governmental charges are required by law or regulation or administrative practice of any jurisdiction. If any such withholding or deduction is required, the Covered Bonds Guarantor will pay the Guaranteed Amounts net of such withholding or deduction and shall account to the

appropriate tax authority for the amount required to be withheld or deducted. The Covered Bonds Guarantor will not be obliged to pay any amount to any Covered Bondholder in respect of the amount of such withholding or deduction.

Exercise of rights

Following the occurrence of an Article 74 Event and service of an Article 74 Notice to Pay (which has not been withdrawn) on the Covered Bonds Guarantor, but prior to the occurrence of any Covered Bonds Guarantor Events of Default, the Covered Bonds Guarantor in accordance with the provisions of Article 4, paragraph 4, of the MEF Decree shall temporarily substitute for the Issuer in all obligations of the Issuer towards the Covered Bondholders in accordance with the terms and conditions originally set out for the Covered Bonds, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bonds Guarantor on the Scheduled Due for Payment Date. (ISDA) Master Agreement (Multicurrency - Cross Border), including Schedule, 1995 ISDA Credit Support Annex (Bilateral Form – Transfer)(ISDA Agreements Subject to English law) (the **“Credit Support Annex”**) and CB Swap Confirmation (the **“CB Master Agreement”**).

TBG Swaps

In order to hedge the interest rate and/or currency risks related to the transfer of each Portfolio, the Covered Bonds Guarantor will enter into one or more swap transactions with the TBG Hedging Counterparty, on the date of each transfer as confirmed by a confirmation (a **“TBG Swap Confirmation”** and together with the CB Swap Confirmations, the **“Swap Confirmations”**) evidencing the terms of such transaction (a **“TBG Swap”** and jointly the **“TBG Swaps”** and together with the CB Swaps, the **“Swap Agreements”**), subject to a 1992 International Swaps and Derivatives Association Inc. (ISDA) Master Agreement (Multicurrency - Cross Border), including Schedule, Credit Support Annex and TBG Swap Confirmation (the **“TBG Master Agreement”** and together with the CB Master Agreement, the **“Master Agreements”**).

With respect to any Swap, the respective Hedging Counterparty will, *inter alia*, be required to have the Minimum Required Hedging Counterparty Rating provided for under the respective Master Agreement.

In the event that the Hedging Counterparty ceases to hold a Moody’s First Trigger Required Rating (**“Initial Moody’s Rating Event”**), then the Hedging Counterparty shall notify the Rating Agency, the Representative of the Covered Bondholders and the Covered Bonds Guarantor within 30 Business Days of such rating event and shall use its reasonable endeavors and as soon as reasonably practicable after such rating event and at its cost provide collateral pursuant to the terms of the Credit Support Annex.

In the event that the Hedging Counterparty shall cease to hold a Moody’s Second Trigger Required Rating (**“Subsequent Rating Event”**), then the Hedging Counterparty shall be required, (as soon as reasonably practicable after such downgrade) at its cost:

- (i) to continue to provide collateral under the terms of the Credit Support Annex until (ii) below occurs; and
- (ii) either to
 - (a) transfer all its interest in, and obligations under, this Agreement to another entity that holds a Moody’s Second Trigger Required Rating; or
 - (b) procure another entity that holds a Moody’s First Trigger Required Rating and/or a Moody’s Second Trigger Required Rating to become a guarantor in respect of the obligations of the Hedging Counterparty under this Agreement.

Failure or inability by the Hedging Counterparty to comply with the obligations described above following an Initial Rating Event or a Subsequent Rating Event shall constitute an Additional Termination Event in accordance with Section 5(b)(v) of the Master Agreements in respect of which the Hedging Counterparty shall be the sole Affected Party.

The Covered Bonds Guarantor may only designate an Early Termination Date if it has found a replacement counterparty willing to enter into a new transaction close to the current one (economic and legal terms).

Each Master Agreement will terminate on the Maturity Date or, if applicable under the relevant Final Terms, the Extended Maturity Date or the Long Date Due For Payment Date, as the case may be, unless terminated earlier in accordance with its terms.

Under the terms of each Swap Confirmation, on or about each Payment Date, or Swap Payment Date in the case of the relevant Hedging Counterparty, both the Covered Bonds Guarantor and the relevant Hedging Counterparty are required to make a payment as set out in the respective Swap Confirmation.

In the event that the Covered Bonds Guarantor fails to make any one such payment then the relevant Hedging Counterparty is entitled to terminate all of the Swaps to which it is a party. Upon such termination, the Covered Bonds Guarantor may be required to make a termination payment to the Hedging Counterparty. Such payment will be made in accordance with the Priority of Payments set out in the Intercreditor Agreement. In the event that the Hedging Counterparty fails to make any payment then the Covered Bonds Guarantor is entitled to terminate all of the Swaps to which such Hedging Counterparty is a party. In the event that following a termination due to the occurrence of an Event of Default, a Termination Event or Additional Termination Event, the Covered Bonds Guarantor may be required to make a termination payment to the Hedging Counterparty, such payment will be made in accordance with the Priority of Payments set out in the Intercreditor Agreement.

Governing Law

The Swaps are governed by English law.

Notwithstanding the above, the Covered Bonds Guarantor could enter into hedging agreements, other than the Master Agreements, in order to hedge the interest rate and/or currency risk related to the transfer of each Portfolio or to the Covered Bonds. Details of such agreements will be provided for, from time to time, in the relevant Final Terms.

SELECTED ASPECTS OF ITALIAN LAW

The following is an overview only of certain aspects of Italian law that are relevant to the transactions described in this Base Prospectus and of which prospective Covered Bondholders should be aware. It is not intended to be exhaustive and prospective Covered Bondholders should also read the detailed information set out elsewhere in this Base Prospectus.

Law 130, Article 7-bis thereof and BoI OBG Regulations. General remarks

Law 130 was enacted on 30 April 1999 and was conceived to simplify the securitisation process and to facilitate the increased use of securitisation as a financing technique in the Republic of Italy.

Law Decree No. 35 of 14 March 2005, converted with amendments into law by Law no. 80 of 14 May 2005, added articles 7-bis and 7-ter to Law 130, for the purpose of allowing Italian banks to use the securitisation techniques introduced by Law 130 in view of issuing covered bonds (*obbligazioni bancarie garantite*).

Law 130 was further amended by Law Decree No. 145 of 23 December 2013 (*Decreto Destinazione Italia*) as converted with amendments into Law No. 9 of 21 February 2014 (the “**Destinazione Italia Decree**”) and by Law Decree No. 91 of 24 June 2014 (*Decreto Competitività*) as converted with amendments into Law No. 116 of 11 August 2014 (“**Law Decree 91**”).

Pursuant to article 7-bis, certain provisions of Law 130 apply to transactions involving the “true” sale (by way of non-gratuitous assignment) of receivables or asset backed securities issued in the context of securitisation transactions meeting certain eligibility criteria set out in article 7-bis and in MEF Decree, where the sale is to a vehicle incorporated pursuant to article 7-bis and all amounts paid by the debtors are to be used by the special purpose vehicle exclusively to meet its obligations under a guarantee to be issued by it, in view of securing the payment obligations of the selling bank or of other banks in connection with the issue of covered bonds.

Pursuant to article 7-bis, the purchase price of the assets to be included in the portfolio shall be financed through the taking of a loan granted or guaranteed by the bank selling the assets or a different bank. The payment obligations of the special purpose vehicle under such loan shall be subordinated to the payment obligations *vis-à-vis* the covered bondholders, the counterparties of any derivative contracts hedging risks in connection with the assigned receivables and securities, the counterparties of any other ancillary contract and counterparties having a claim in relation to any payment of other costs of the transaction.

The covered bonds are further regulated by the Decree of the Ministry for the Economy and Finance No. 310 of 14 December 2006 (“**MEF Decree**”) and the supervisory instructions of the Bank of Italy relating to covered bonds under Part III, Chapter 3, of the circular no. 285 of 17 December 2013, containing the “*Disposizioni di vigilanza per le banche*” as further implemented and amended, (the “**BoI OBG Regulations**”). Pursuant to the BoI OBG Regulations, the covered bonds may be issued also by banks which are member of banking groups meeting, as of the date of issuance of the covered bonds, certain requirements relating to the consolidated regulatory capital and the consolidated solvency ratio at the group’s level. Such requirements must be complied with, as of the date of issuance of the covered bonds, also by banks selling the assets, where the latter are different from the bank issuing the covered bonds and do not fall within the same banking group.

The Special Purpose Vehicle

On 8 May 2015, the Ministerial Decree No. 53/2015 (the “**Decree 53/2015**”) issued by the Ministry of Economy and Finance has been published in the Official Gazette of the Republic of Italy. The Decree 53/2015 came into force on 23 May 2015, repealing the Decree No. 29/2009. Pursuant to Article 7 of the Decree 53/2015, the assignee companies which guarantee covered bonds, belonging to a banking group as defined by Article 60 of the Banking Law (such as ISP CB Pubblico S.r.l.), will no longer have to be registered in the general register held by the Bank of Italy pursuant to Article 106 of the

Eligibility criteria of the assets and limits to the assignment of assets

Under the MEF Decree, the following assets, *inter alia*, may be assigned to the purchasing company, together with any ancillary contracts aimed at hedging the financial risks embedded in the relevant assets: (a) loans extended to, or guaranteed by, the following entities, and securities issued or guaranteed by the same entities: (i) Admitted States, including therein any Ministries, municipalities (*enti pubblici territoriali*), national or local entities and other public bodies, which attract a risk weighting factor not exceeding 20 per cent. pursuant to the Directive 2006/48/EC regulation under the “Standardised Approach” to credit risk measurement; (ii) public administrations of States other than Admitted States which attract a risk weighting factor equal to 0 per cent. pursuant to the Directive 2006/48/EC regulation under the “Standardised Approach” to credit risk measurement, municipalities and national or local public bodies not carrying out economic activities (*organismi pubblici non economici*) of States other than Admitted States which attract a risk weight factor not exceeding 20 per cent. pursuant to the Directive 2006/48/EC regulation under the “Standardised Approach” to credit risk measurement (provided that such receivables and securities may not exceed 10 per cent. of the nominal value of the assets held by the covered bonds guarantor); (b) asset backed securities issued in the context of securitisation transactions, meeting the following criteria: (i) the relevant securitised receivables comprise, for an amount equal at least to 95 per cent., loans and securities referred to in letter (a) above; (ii) the relevant asset backed securities attract a risk weighting factor not exceeding 20 per cent. under the “Standardised Approach” to credit risk measurement.

For the purpose above, the relevant provisions define a guarantee “valid for purposes for the credit risk mitigation” as a guarantee eligible for the “credit risk mitigation”, in accordance with Directive 2006/48/EC of 14 June 2006 (the “**Restated Banking Directive**”). Similarly, the “Standardised Approach” shall provide a uniform approach to credit risk measurements as defined by the Restated Banking Directive.

The BoI OBG Regulations set out certain requirements for banks belonging to banking groups with respect to the issuance of covered bonds to be met at the time of the relevant issuance:

- (i) a regulatory capital on a consolidated basis of not less than Euro 250,000,000.00; and
- (ii) an overall capital ratio on a consolidated basis of not less than 9 per cent.

The above mentioned requirements must be complied with, as of the date of the assignment, also by the banks selling the assets, where the latter are different from the bank issuing the covered bonds and do not fall within the same banking group.

If the bank selling the assets does not belong to a banking group, the above mentioned requirements relate to the individual regulatory capital and/or overall capital ratio.

Moreover, the BoI OBG Regulations set out certain limits to the possibility for banks to assign eligible assets, which are linked to the tier 1 ratio (“**T1R**”) and common equity tier 1 ratio (“**CET1R**”) of the individual bank (or of the relevant banking group, if applicable), in accordance with the following grid, contained in the BoI OBG Regulations:

Ratios		Limits to the assignment
Group “a”	T1R ≥ 9 % and CET1R ≥ 8 %	No limits
Group “b”	T1R ≥ 8 % and CET1R ≥ 7 %	Assignment allowed up to 60% of the eligible assets
Group “c”	T1R ≥ 7 % and CET1R ≥ 6 %	Assignment allowed up to 25% of the eligible assets

The relevant T1R and CET1R set out in the grid relate to the aggregate of the covered bonds transactions launched by the relevant banking group or individual bank, as the case may be. If foreign

entities belonging to the banking group of the bank selling the assets have issued covered bonds in accordance with their relevant jurisdiction and have therefore segregated part of their assets to guarantee the relevant issuances, the limits set out above shall be applied to the eligible assets held by the Italian companies being part of the assigning bank's banking group.

In addition to the above, certain further amendments have been introduced in respect of the monitoring activities to be performed by the asset monitor.

The limits to the assignment set out above do not apply to Integration (as defined below) of the portfolio, provided that Integration is allowed exclusively within the limits set out by the BoI OBG Regulations.

The substitution of eligible assets included in the portfolio with other eligible assets of the same nature is also permitted, provided that certain conditions indicated under the BoI OBG Regulations are met.

Ring-Fencing of the assets

Under the terms of article 3 of Law 130, all the receivables relating to a Law 130 transaction, the relevant collections and the financial assets purchased using the collections arising from the relevant receivables will by operation of law be segregated for all purposes from all other assets of the special purpose vehicle and from those relating to the other Law 130 transactions carried out by the same special purpose vehicle. On a winding up of the special purpose vehicle such assets will only be available to holders of the covered bonds in respect of which the special purpose vehicle has issued the covered bond guarantee and to the other secured creditors of the special purpose vehicle. In addition, the assets relating to a particular covered bond transaction will not be available to the holders of covered bonds issued under any other covered bond transaction or to general creditors of the special purpose vehicle.

However, under Italian law, any other creditor of the special purpose vehicle which is not a party to the transaction documents would be able to commence insolvency or winding up proceedings against the special purpose vehicle in respect of any unpaid debt.

The assignment

The assignment of receivables under Law 130 is governed by article 58 paragraphs 2, 3 and 4 of the Banking Law. The prevailing interpretation of these provisions, which view has been strengthened by article 4 of Law 130, is that:

- (a) as from the date of publication in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) of the notice of assignment of the relevant receivables in accordance with the applicable provisions of Article 58 of the Banking Law, the assignment of the relevant receivables will become enforceable against:
 - (i) any creditors of the seller of the relevant receivables who have not commenced enforcement by means of obtaining an attachment order (*pignoramento*) prior to the date of publication of the notice of assignment of the relevant receivables;
 - (ii) a receiver in the insolvency of the seller of the relevant receivables; and
 - (iii) prior assignees of the relevant receivables who have not perfected their assignment by way of (A) notifying the assigned debtors or (B) making the assigned debtors acknowledge the assignment by an acceptance bearing a date certain at law (*data certa*) prior to the date of publication of the notice of assignment of the relevant receivables or in any other way permitted under applicable law,

without the need to follow the ordinary rules under Article 1265 of the Italian Civil Code as to making the assignment effective against third parties; and

- (b) as from the later of (A) the date of the publication of the notice of assignment of the relevant receivables, and (B) the date of registration (*iscrizione*) of such notice with the Companies' Register of the district where the issuer is enrolled, in accordance with the applicable provisions of Article 58 of the Banking Law, the assignment of the relevant receivables will also become

enforceable against:

- (i) the assigned debtors; and
- (ii) a receiver in the insolvency of the assigned debtors (so that any payments made by an assigned debtor to the purchasing company may not be subject to any claw back action according to Article 65 and Article 67 of the Bankruptcy Law),

without the need to follow the ordinary rules under Article 1264 of the Italian Civil Code as to making the assignment effective against the assigned debtor.

The benefit of any privilege, guarantee or security interest guaranteeing or securing repayment of the relevant receivables will automatically be transferred to and perfected with the same priority in favour of the special purpose vehicle, without the need for any formality or annotations.

As from the date of publication of the assignment of the relevant receivables in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), no legal action may be brought to attach the relevant receivables, or the sums derived therefrom, other than for the purposes of enforcing the rights of the holders of the covered bonds and to meet the costs of the transaction.

Article 7-*bis* provides for a special regime for the assignment of claims against public administrations, which deviates from the generally applicable regime (set out by articles 69 and 70 of Royal Decree no. 2440 of 18 November 1923). Article 7-*bis*, paragraph 4, expressly provides that articles 69 and 70 of Royal Decree no. 2440 of 1923 shall not apply to assignments of assets under Article 7-*bis*. Accordingly, the assignment of receivables against public administration shall be governed by the same rules governing the assignment of other receivables in the context of Article 7-*bis* and Law 130.

However, Article 7-*bis*, paragraph 4, also provides that where the functions of servicer (*soggetto incaricato della riscossione dei crediti*) are attributed, in the context of covered bonds transaction, to an entity other than the assigning bank (whether from the outset or eventually), notice of such circumstance shall be given by way of publication in the Italian Official Gazette and registered mail with return receipt to the relevant public administrations.

Exemption from claw-back

Assignments executed under Law 130 are subject to revocation on bankruptcy under article 67 of the Bankruptcy Law but only in the event that the transaction is entered into (i) in cases where paragraph 2 of article 67 applies, within three months of the adjudication of bankruptcy of the relevant party or (ii) in cases where paragraph 1 of article 67 applies, within six months of the adjudication of bankruptcy.

The subordinated loans to be granted to the special purpose vehicle and the covered bonds guarantee are subject to the provisions of article 67, paragraph 4, of the Bankruptcy Law, pursuant to which the provisions of article 67 relating to the claw back of for-consideration transactions, payments and guarantees do not apply to certain transactions.

In addition to the above, any payments made by an assigned debtor to the special purpose vehicle may not be subject to any claw back action according to Article 65 and 67 of the Bankruptcy Law.

Tests set out in the MEF Decree

Pursuant to article 3 of the MEF Decree, the issuing bank and the assigning bank (to the extent different from the issuing bank), will have to ensure that, in the context of the transaction, the following tests are satisfied on an ongoing basis:

- (i) the outstanding aggregate nominal amount of the portfolio shall be greater than or equal to the aggregate nominal amount of the outstanding covered bonds;
- (ii) the net present value of the portfolio, net of the transaction costs to be borne by the special purpose vehicle, including therein the expected costs and the costs of any hedging arrangement entered into in relation to the transaction, shall be greater than or equal to the net present value of the outstanding covered bonds;
- (iii) the amount of interest and other revenues generated by the portfolio, net of the costs borne by

the special purpose vehicle, shall be greater than or equal to the interest and costs due by the bank under the outstanding covered bonds, taking also into account any hedging arrangements entered into in relation to the transaction.

Integration Assets

For the purpose of ensuring compliance with the tests described above and pursuant to article 2 of the MEF Decree, in addition to assets which are eligible in accordance with article 2, paragraph 1 of the MEF Decree, the following assets may be used for the purpose of the integration of the portfolio:

- (a) the creation of deposits with banks incorporated in Admitted States or in a State which attracts a risk weight factor equal to 0 per cent. under the “Standardised Approach” to credit risk measurement;
- (b) the assignment of securities issued by the banks referred to under (a) above, having a residual maturity not exceeding one year,

(the “**Integration Assets**”).

Integration through Integration Assets shall be allowed within the limits of 15 per cent. of the nominal value of the assets included in the portfolio.

In addition, pursuant to article 7-bis of Law 130 and the MEF Decree, integration of the portfolio (the “**Integration**”), whether through eligible assets or Integration Assets, shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations.

More specifically, under the BoI OBG Regulations, Integration is allowed exclusively for the purpose of (a) complying with tests set out in the MEF Decree; (b) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements and (c) complying with the 15 per cent. limitation of the Integration Assets included the portfolio. The limits to the assignment indicated above do not apply to the Integration.

The Integration is not allowed in circumstances other than as set out in the BoI OBG Regulations.

The features of the covered bonds guarantee

According to article 4 of the MEF Decree the covered bonds guarantee shall be limited recourse to the portfolio, irrevocable, first demand, unconditional and autonomous from the obligations assumed by the issuer of the covered bonds. Accordingly, such obligations shall be a direct, unconditional, unsubordinated obligation of the special purpose vehicle, limited recourse to the special purpose vehicle’s available funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the issuer of the covered bonds.

In order to ensure the autonomous and independent nature of the covered bonds guarantee, article 4 of the MEF Decree provides that the following provisions of the Italian Civil Code, generally applicable to personal guarantees (*fideiussioni*), shall not apply to the covered bonds guarantee: (a) article 1939, providing that a *fideiussione* shall not generally be valid where the guaranteed obligation is not valid; (b) article 1941, paragraph 1, providing that a *fideiussione* cannot exceed the amounts due by the guaranteed debtor, nor can it be granted for conditions more onerous than those pertaining to the main obligation; (c) article 1944, paragraph 2, providing, *inter alia*, that the parties to the contract pursuant to which the *fideiussione* is issued may agree that the guarantor shall not be obliged to pay before the attachment is carried out against the guaranteed debtor; (d) article 1945, providing that the guarantor can raise against the creditor any objections (*eccezioni*) which the guaranteed debtor is entitled to raise, except for the objection relating to the lack of legal capacity; (e) article 1955, providing that a *fideiussione* shall become ineffective (*estinta*) where, as a consequence of acts of the creditor, the guarantor is prevented from subrogating into any rights, pledges, mortgages, and liens (*privilegi*) of the creditor; (f) article 1956, providing that the guarantor of future receivables shall not be liable where the creditor – without the authorisation of the guarantor – has extended credit to a third party, while being aware that the economic conditions of the principal obligor were such that recovering the receivable would have become significantly more difficult; (g) article 1957, providing, *inter alia*, that the guarantor will be liable also after the guaranteed obligation has become due and payable, provided

that the creditor has filed its claim against the guaranteed debtor within six months and has diligently pursued them.

The obligations of the covered bonds guarantor following a liquidation of the Issuer

The MEF Decree also sets out certain principles which are aimed at ensuring that the payment obligations of the special purpose vehicle are isolated from those of the issuer of covered bonds. To that effect it requires that the covered bonds guarantee contains provisions stating that the relevant obligations thereunder shall not accelerate upon the issuer's default, so that the payment profile of the covered bonds shall not automatically be affected thereby.

More specifically, article 4 of the MEF Decree provides that in the event of a breach by the issuer of its obligations *vis-à-vis* the covered bondholders, the special purpose vehicle shall assume the obligations of the issuer – within the limits of the portfolio – in accordance with the terms and conditions originally set out for the covered bonds. The same provision applies where the issuer is subject to mandatory liquidation procedures (*liquidazione coatta amministrativa*).

In addition, the acceleration (*decadenza dal beneficio del termine*) provided for by article 1186 of the Civil Code and affecting the issuer shall not affect the payment obligations of the special purpose vehicle under the covered bonds guarantee. Pursuant to article 4 of the MEF Decree, the limitation in the application of Article 1186 of the Civil Code shall apply not only to the events expressly mentioned therein, but also to any additional event of acceleration provided for in the relevant contractual arrangements.

In accordance with article 4, paragraph 3, of the MEF Decree, in case of a *liquidazione coatta amministrativa* of the issuer, the special purpose vehicle shall exercise the rights of the covered bondholders *vis-à-vis* the issuer in accordance with the legal regime applicable to the issuer. Any amount recovered by the special purpose vehicle as a result of the exercise of such rights shall be deemed to be included in the portfolio.

The Bank of Italy shall supervise on the compliance with the aforesaid provisions, within the limits of the powers vested with the Bank of Italy by the Banking Law.

Controls over the transaction

The BoI OBG Regulations lay down rules on controls over transactions involving the issuance of Covered Bonds.

Inter alia, in order to provide support to the resolutions passed on the assignment of portfolios to the special purpose vehicle, both in the initial phase of transactions and in later phases, the assigning bank shall request to an auditing firm a confirmation (*relazione di stima*) stating that, on the basis of the activities carried out by that auditing firm, there are no reasons to believe that the appraisal criteria utilised in order to determine the purchase price of the assigned assets are not in line with the criteria which the assigning bank must apply when preparing its financial statements. The above mentioned confirmation is not required if the assignment is made at the book value, as recorded in the latest approved financial statements of the assigning bank, on which the auditors have issued a clean opinion. The above mentioned confirmation is not required if any difference between the book value and the purchase price of the relevant assets is exclusively due to standard financial fluctuations of the relevant assets and is not in any way related to reductions in the qualitative aspects of those assets and/or the credit risk related to the relevant debtors.

The management body of the issuing bank must ensure that the internal structures delegated to the risk management verify at least every six months and for each transaction, *inter alia*:

- (i) quality and integrity of the assets sold to the special purpose vehicle securing the obligations undertaken by the latter;
- (ii) compliance with the maximum ratio between covered bonds issued and the portfolio sold to the special purpose vehicle for purposes of backing the issue, in accordance with the MEF Decree;
- (iii) compliance with the limits to the assignment and the limits to Integration set out by the BoI OBG Regulations;

- (iv) effectiveness and adequacy of the coverage of risks provided under derivative agreements entered into in connection with the transaction; and
- (v) completeness, accuracy and timeliness of information available to investors pursuant to art. 129, paragraph 7, of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013.

The bodies with management responsibilities of issuing banks and banking groups ensure that an assessment is carried out on the legal aspects (*profili giuridici*) of the activity on the basis of specially issued legal opinions setting out an in-depth analysis of the contractual structures and schemes adopted, with a particular focus on, *inter alia*, the characteristics of the covered bonds guarantee.

The BoI OBG Regulations also contain certain provisions on the asset monitor, who is delegated to carry out controls over the regularity of the transaction (*regolarità dell'operazione*) and the integrity of the covered bonds guarantee (*integrità della garanzia*) (the “**Asset Monitor**”). Due to the latest amendments to the BoI OBG Regulations, introduced by way of inclusion of new Part III, Chapter 3 (Obbligazioni bancarie garantite) in Bank of Italy’s Circular No. 285 of 17 December 2013, the Asset Monitor is also requested to carry out controls over the information to be provided to investors (*informativa agli investitori*). Pursuant to the BoI OBG Regulations the Asset Monitor shall be an auditing firm having adequate professional experience in relation to the tasks entrusted with the same and independent from (a) the bank entrusting the same and (b) the other entities which take part to the transaction. In order to meet this independence requirement the auditing firm entrusted with the monitoring must be different from the one entrusted with the auditing of the issuing bank and the selling bank (if different from the issuing bank) and the special purpose vehicle.

The Asset Monitor shall prepare annual reports on controls and assessments on the performance of transactions, to be addressed, *inter alia*, to the body entrusted with control functions of the bank which appointed the Asset Monitor. The BoI OBG Regulations refer to the provisions (article 52 and 61, paragraph 5, of the Banking Law), which impose on persons responsible for such control functions specific obligations to report to the Bank of Italy. Such reference appears to be aimed at ensuring that any irregularities found are reported to the Bank of Italy.

In order to ensure that the special purpose vehicle can perform, in an orderly and timely manner, the obligations arising under the covered bonds guarantee, the issuing banks shall use asset and liability management techniques for purposes of ensuring, including by way of specific controls at least every six months, that the payment dates of the cash-flows generated by the portfolio substantially match the payments dates with respect to payments due by the issuing bank under the covered bonds issued and other transaction costs.

Finally, in relation to the information flows, the parties to the covered bonds transactions shall assume contractual undertakings allowing the issuing bank (and the assigning bank, if different) also acting as servicer (and any third party servicer, if appointed) to hold the information on the portfolio which are necessary to carry out the controls described in the BoI OBG Regulations and for the compliance with the supervisory reporting obligations, including therein the obligations arising in connection with the participation to the central credit register (*Centrale dei Rischi*).

Insolvency proceedings (*procedure di insolvenza*)

Insolvency proceedings (*procedure di insolvenza*) conducted under Italian law may take the form of, *inter alia*, a bankruptcy proceeding (*fallimento*), a composition agreement with creditors under Article 160 and following of the Bankruptcy Law (*concordato preventivo*) or a debts restructuring agreement under Article 182-*bis* of the Bankruptcy Law (*accordo di ristrutturazione dei debiti*). Insolvency proceedings are only applicable to businesses (*imprese*) either run by companies, partnerships or by individuals. An individual who is not a sole entrepreneur or an unlimited partner in a partnership is not subject to insolvency.

A debtor can be declared bankrupt (*fallito*) and subject to *fallimento* (at its own initiative, or at the initiative of any of its creditors or, in certain cases, the public prosecutor) if it is not able to fulfil its obligations in a timely manner. If a bankruptcy proceeding is commenced, except for contrary provisions of the law, from the day of declaration of bankruptcy, no individual executory and

precautionary action, even if relating to receivables fallen due during the bankruptcy proceeding, may be commenced or pursued against assets included in the bankruptcy proceeding. The debtor loses control over all of its assets and of the management of its business, which is taken over by a court appointed receiver (*curatore fallimentare*). Once judgment has been made by the court and the creditors' claims have been approved, the sale of the debtor's property is conducted in accordance with a liquidation plan (approved by the delegated judge and the creditors' committee) which may provide for the dismissal of the whole business or single business units, even through competitive procedures.

A qualifying insolvent debtor may avoid being subject to a bankruptcy proceeding (*fallimento*) by proposing to its creditors a composition agreement pursuant to Article 160 and following of the Bankruptcy Law (*concordato preventivo*) which is a restructuring proceeding involving an arrangement by a debtor in a state of crisis or state of insolvency with its creditors, subject to court supervision, the aim of which is to restructure the business and thus avoid a declaration of bankruptcy of such debtor. Such proposal shall be based on a plan describing proposed actions and activities to be performed in order to accomplish the financial restructuring of debtor's business and to satisfy its creditors, which may provide for, among other things: (i) sales of assets, the assumption of debts or other extraordinary operations, such as the conversion of debt into equity, bonds, convertible bonds or other securities; (ii) the transfer of the business as a going concern to another entity (*assuntore*); (iii) the division of the creditors into separate classes consistent with their specific legal and economic characteristics; and (iv) different treatment for creditors belonging to different classes.

Article 161 of the Bankruptcy Law, as amended respectively by Italian Law Decree No. 83 of 22 June 2012, converted into Law No. 134 of 7 August 2012, and Italian Law Decree No. 69 of 21 June 2013, converted with amendments into Law No. 98 of 9 August 2013, provides that a debtor in a state of crisis or state of insolvency may file a petition before the competent court containing a request in advance for a composition agreement (*domanda di concordato anticipata*). Such request may contain only the annual financial statements for the last three financial years and the list of creditors' name with indication of the relevant credits. The debtor shall subsequently file the above mentioned plan, within the date set by the competent court. Together with the motivated decree setting such date, the competent court may nominate a court-appointed officeholder, following the provision of Article 161 paragraph 5, of the Bankruptcy Law that, pursuant to Article 170, paragraph 2 of the Bankruptcy Law, may examine the financial statements of the debtor. From the date on which the petition for a composition agreement with creditors or the petition containing a request in advance for a composition agreement (*domanda di concordato anticipata*) is filed before the competent court, an "automatic stay" period is triggered, during which all creditors are prevented from recovering their debt or foreclosing on the debtor's assets. The temporary "automatic stay" is effective until the date of final ratification (*decreto di omologazione*) of the composition agreement with creditors. Following the filing of the petition before the competent court, the relevant court evaluates whether conditions for admission to such proceeding are met. Should the court decide that the petition does not satisfy the requirements set out by law, the debtor's petition is rejected and if the debtor is in a state of insolvency it may be declared bankrupt (*fallito*). If the conditions for admission are met, the relevant court will, *inter alia*, appoint the court-appointed officeholder (if it was not appointed by the competent court pursuant to Article 161, paragraph 5, of the Bankruptcy Law) who will notify each creditor of the date of the creditor's meeting to vote on the plan proposed by the debtor. The composition agreement with creditors is approved with the affirmative vote of creditors representing the majority of credits admitted to vote. If there are different classes of creditors, the composition agreement with creditors is approved if the majority is reached also in the major number of classes. The court may ratify the composition agreement with creditors even if this has not been approved by the majority of creditors in one or more classes, provided that: (i) the majority of classes has approved the proposal; and (ii) the court believes that the creditor in a dissenting class will be in a position under the composition not worse than that in which they would be in case of any other feasible alternative. If creditors do not approve the composition agreement, the court will then declare its inadmissibility and may declare the debtor bankrupt if it is insolvent. On the contrary, if creditors approve the composition agreement, the designated judge, if all procedures have taken place regularly and in the absence of oppositions (or once possible oppositions have been dealt with and resolved), will ratify that approval.

Pursuant to Article 182-*bis* of the Bankruptcy Law, a debtor which is experiencing a state of crisis may require the ratification (*omologazione*) of a debts restructuring agreement (*accordo di ristrutturazione dei debiti*) entered into between it and its creditors representing at least 60 per cent. of the credits owed by it, by filing with the competent court the required corporate documentation and a certification of an expert - having certain characteristics - confirming (i) the feasibility of the debts restructuring agreement and (ii) its capability of procuring the regular payment of those creditors which are not a party to such debts restructuring agreement. The Debts Restructuring Agreement must be published in the debtor's companies' register and shall be effective as of the date of its publication. For a period of 60 days from the date of its publication, the debts restructuring agreement shall determine an "automatic stay" period pursuant to which any creditor having a title against such debtor arisen in advance to the date of publication of the debts restructuring agreement, will not be allowed to commence or continue any enforcement or precautionary action on the assets of the debtor. If the debts restructuring agreement complies with all the requirements set out by law and it is feasible to aim its purposes, the court shall issue a decree (*decreto di omologazione*) validating such debts restructuring agreement.

Law No. 3 of 27 January 2012 provides that consumers and other entities which cannot be subject to Insolvency Proceedings (Other Entities) may benefit from a special proceeding for the reconstructing of their debts. Law No. 3 of 27 January 2012 provides that the Other Entities may file a recovery plan for the restructuring of their debts with a special authority and with the competent court and that in the case of approval of the plan, it will become binding on all the creditors of the Other Entity.

Law Decree No. 179 of 18 October 2012 as converted into Law No. 221 on 17 December 2012 has amended the discipline provided for by Law No. 3 of 27 January 2012 and in particular some aspects regarding:

- (i) the setting of the recovery plan;
- (ii) the consumer insolvency (*crisi del consumatore*);
- (iii) the composition agreement related to insolvency proceedings and the subsequent discharge of residual debt by the court (*esdebitazione*).

Furthermore, Law Decree no. 83 of 22 June 2012, as converted with amendments into Law no. 134 of 17 August 2012, in order to accelerate the report of insolvencies and to favour the business administration continuity, allows the entrepreneur to claim for a composition agreement before having filed the required documentation.

Description of extraordinary administration of banks (Amministrazione Straordinaria delle Banche) – Suspension of payments

A bank may be submitted to the extraordinary administration of banks (*amministrazione straordinaria delle banche*) where: (a) serious administrative irregularities, or serious violations of the provisions governing the bank's activity provided for by laws, regulations or the bank's by-laws activity are found; (b) serious capital losses are expected to occur; (c) the dissolution has been the object of a request by the administrative bodies or an extraordinary company meeting providing the reasons for the request.

According to the Banking Law, the procedure is initiated by a decree of the Ministry of Economy and Finance, acting on a proposal by the Bank of Italy, which shall dissolve the bodies entrusted respectively with management and control functions of the bank. Subsequently the Bank of Italy shall appoint, within 15 days as from the date of that decree: (a) one or more special administrator (*commissari straordinari*); (b) a surveillance committee composed of between three and five members (*comitato di sorveglianza*). The *commissari straordinari* are entrusted with the duty to assess the situation of the bank, remove the irregularities which may have been found and promote solutions in the best interest of the depositors of the bank. The *comitato di sorveglianza* exercises auditing functions and provides to the *commissari straordinari* the opinions requested by the law or by the

Bank of Italy. However, it should be noted that the Bank of Italy may instruct in a binding manner the *commissari straordinari* and the *comitato di sorveglianza* providing specific safeguards and limits concerning the management of the bank.

In exceptional circumstances, pursuant to article 74 of the Banking Law, the *commissari straordinari*, in order to protect the interests of the creditors, in consultation with the *comitato di sorveglianza* and subject to an authorisation by the Bank of Italy, may suspend payment of the bank's liabilities and the restitution to customers of financial instruments. Payments may be suspended for a period of up to one month, which may be extended for an additional period of two months. During the suspension period forced executions or actions to perfect security interests involving the bank's properties or customers' securities may not be initiated or prosecuted. During the same period mortgages may not be registered on the bank's immovable property nor may any other rights of preference on the bank's movable property be acquired, except in the case of enforceable court orders issued prior to the beginning of the suspension period. The suspension shall not trigger the insolvency of the bank.

The *amministrazione straordinaria delle banche* shall last for one year from the date of issue of the decree of the Ministry of the Economy and Finance, unless the decree provides for a shorter period or the Bank of Italy authorises the early termination. In exceptional cases, the procedure may be extended for an additional period of up to six months. The Bank of Italy may extend the duration of the procedure for periods of up to two months, in connection with the acts and formalities related to the termination of the procedure, provided that the relevant acts to be executed have already been approved by the Bank of Italy.

At the end of the procedure, the *commissari straordinari* shall undertake the necessary steps for the appointment of the bodies governing the bank in the ordinary course of business. After the appointment, the management and audit functions shall be transferred to the newly appointed bodies. It should however be noted that, should at the end of the procedure or at any earlier time the conditions for the declaration of the *liquidazione coatta amministrativa* (described in the following section) be met, then the bank may be subject to such procedure.

Description of administrative liquidation (*Liquidazione Coatta Amministrativa delle Banche*)

According to the Banking Law, when the conditions for the *amministrazione straordinaria delle banche* and described in the preceding paragraph are exceptionally serious (*di eccezionale gravità*), or when a court has declared the state of insolvency of the bank, the Ministry of Economy and Finance, acting on a proposal of the Bank of Italy, by way of a decree, may revoke the authorisation for the carrying out of banking activities and submit the bank to the compulsory winding up (*liquidazione coatta amministrativa*).

From the date of issue of the decree the functions of the administrative and control bodies, of the shareholders meetings and of any other governing body of the bank shall cease. The Bank of Italy shall appoint: (a) one or more liquidators (*commissari liquidatori*); (b) a surveillance committee composed of between three and five members (*comitato di sorveglianza*).

From the date the *commissari liquidatori* and the *comitato di sorveglianza* have assumed their functions and in any case from the third day following the date of issue of the aforesaid decree of the Ministry of Economy and Finance, the payment of any liabilities and the restitution of assets owned by third parties shall be suspended.

The *commissari liquidatori* shall act as legal representatives of the bank, exercise all actions that pertain to the bank and carry out all transactions concerning the liquidation of the bank's assets. The *comitato di sorveglianza* shall: (i) assist the *commissari liquidatori* in exercising their functions, (ii) control the activities carried out by *commissari liquidatori*; and (iii) provide to the *commissari liquidatori* the opinions requested by the law or by the Bank of Italy. The Bank of Italy may issue directives concerning the implementation of the procedure and establish that some categories of operations and actions shall be subject to its authorisation and to preliminary consultation with the *comitato di sorveglianza*.

The Banking Law regulates the procedure for the assessment of the bank's liabilities (*accertamento del passivo*), and the procedures which allow creditors whose claims have been excluded from the list

of liabilities (*stato passivo*) to challenge the list of liabilities.

The liquidators, with the favourable opinion of the *comitato di sorveglianza* and subject to authorisation by the Bank of Italy, may assign assets and liabilities, going concerns, assets and legal relationships identifiable as a pool (*in blocco*). Such assets may be assigned at any stage of the procedure, even before the *stato passivo* has been deposited. The assignor shall however be liable exclusively for the liabilities included in the *stato passivo*. Subject to prior authorisation of the Bank of Italy and for the purpose of maximizing profits deriving from the liquidation of the assets, the commissari liquidatori may continue the banks' activity or of specific going concerns of the bank, in compliance with any indications provided for by the *comitato di sorveglianza*. In such case the provision of the Bankruptcy Law concerning the termination of legal relationships shall not apply.

Once the assets have been realised and before the final allotment to the creditors or to the last restitution to customers, the *commissari liquidatori* shall present to the Bank of Italy the closing statement of accounts of the liquidation, the financial statement and the allotment plan, accompanied by their own report and a report by the surveillance committee.

Insolvency of Italian local entities

Local entities may not be declared bankrupt.

Legislative Decree no. 267 of 18 August 2000 sets out a special procedure in the case of the serious financial distress of provinces and municipalities (*dissesto*). *Dissesto* occurs if the relevant local entity cannot ensure the performance of the functions or the essential services it must perform or is unable to pay third party creditors for due and payable credits. The main consequences of the *dissesto* can be summarised as follows: (i) a special entity charged with the settlement of the debts must be appointed by the President of the Republic of Italy; (ii) the special entity must prepare a plan for the restructuring of the budget to account for the current financial situation; and (iii) foreclosure proceedings against the relevant local entity connected with debts arisen within 31 December immediately preceding the restructuring plan referred to under (ii) are prohibited; pending foreclosure proceedings are extinguished; and seizure proceedings are ineffective against the relevant local entity.

The aim of the *dissesto* procedure is to make sure that the local entities regain financial stability in order to ensure the performance of the essential services provided by law and to fulfill their liabilities to third party creditors. The *dissesto* procedure is to be completed in a limited period of time, once the time limit is expired, creditors who have not been satisfied during the *dissesto* procedure, may commence foreclosure proceeding to recover their receivables.

- (b) *Accrual of interest:* The Covered Bonds bear interest on its Outstanding Principal Balance from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate of Interest. Interest will be payable in arrear on each CB Payment Date, subject as provided in Condition 9 (*Payments*), up to (and excluding) the Maturity Date, or as the case may be, the Extended Maturity Date. Each Covered Bond will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5 (both before and after judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Fixed Coupon Amount:* The amount of interest payable in respect of each Covered Bond for any CB Interest Period shall be the relevant Fixed Coupon Amount and, if the Covered Bonds are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination.
- (d) *Calculation of interest amount:* The amount of interest payable in respect of each Covered Bond for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Covered Bond divided by the Calculation Amount. For this purpose a “**sub-unit**” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

6 Floating Rate

- (a) *Application:* This Condition 6 is applicable to the Covered Bonds only if the Floating Rate Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Accrual of interest:* Each Covered Bond bears interest on its Outstanding Principal Balance from (and including) the Interest Commencement Date at the Rate of Interest payable in arrear on each CB Payment Date, subject as provided in Condition 9 (*Payments*). Each Covered Bond will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition (both before and after judgment) until whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).
- (c) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Covered Bonds for each CB Interest Period will be determined by the Paying Agent on the following basis:
 - (i) if the Reference Rate is a composite quotation or customarily supplied by one entity,

the Paying Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

- (ii) in any other case, the Paying Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;
- (iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Paying Agent will:
 - (A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and
 - (B) determine the arithmetic mean of such quotations; and
- (iv) if fewer than two such quotations are provided as requested, the Paying Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Paying Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Paying Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant CB Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant CB Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such CB Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Paying Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any CB Interest Period, the Rate of Interest applicable to the Covered Bonds during such CB Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Covered Bonds in respect of a preceding CB Interest Period.

- (d) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Covered Bonds for each CB Interest Period will be the sum of the Margin and the relevant ISDA Rate where “ISDA Rate” in relation to any CB Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Paying Agent under an interest rate swap transaction if the Paying Agent were acting as Paying Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:
 - (i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;
 - (ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and
 - (iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) for a currency, the first day of that CB Interest Period or (B) in any other case, as specified in the relevant Final Terms.
- (e) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.
- (f) *Calculation of Interest Amount:* The Paying Agent will, as soon as practicable after the time at

which the Rate of Interest is to be determined in relation to each CB Interest Period, calculate the Interest Amount payable in respect of each Covered Bond for such CB Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such CB Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Covered Bond divided by the Calculation Amount. For this purpose a “**sub-unit**” means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

- (g) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Paying Agent, then the Paying Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Paying Agent in the manner specified in the relevant Final Terms.
- (h) *Publication:* The Paying Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant CB Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to each competent authority, stock exchange and/or quotation system (if any) by which the Covered Bonds have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and CB Payment Date) in any event not later than the first day of the relevant CB Interest Period. Notice thereof shall also promptly be given to the Covered Bondholders. The Paying Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant CB Interest Period. If the Calculation Amount is less than the minimum Specified Denomination, the Paying Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Covered Bond having the minimum Specified Denomination.
- (i) *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Paying Agent will (in the absence of manifest error) be binding on the Issuer, the Covered Bonds Guarantor, the Covered Bondholders and (subject as aforesaid) no liability to any such Person will attach to the Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

7 Zero Coupon Provisions

- (a) *Application:* This Condition 7 is applicable to the Covered Bonds only if the Zero Coupon Provisions are specified in the relevant Final Terms as being applicable.
- (b) *Late payment on Zero Coupon Covered Bonds:* If the Redemption Amount payable in respect of any Zero Coupon Covered Bond is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:
 - (i) the Reference Price; and
 - (ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).

8 Redemption and Purchase

- (a) *Scheduled redemption:* Unless previously redeemed or purchased and cancelled as specified below, the Covered Bonds of each Series will be redeemed at their Final Redemption Amount on the relevant Maturity Date, subject as provided in Condition 8(b) (*Extension of maturity*) and Condition 9 (*Payments*). If an Extended Maturity Date is not specified as applicable in the relevant Final Terms for a Series of Covered Bonds, Condition 8(m) (*Pre-Maturity Liquidity Test*) shall apply.

The Issuer shall confirm to the Paying Agent as soon as reasonably practicable and in any event at least as of the Extension Determination Date as to whether payment will or will not be made in full of the Final Redemption Amount in respect of the Covered Bonds on that Maturity Date. Any failure by the Issuer to notify the Paying Agent shall not affect the validity or effectiveness of the extension.

- (b) *Extension of maturity:* If an Extended Maturity Date is specified as applicable in the relevant Final Terms for a Series of Covered Bonds and an Article 74 Event or an Issuer Event of Default has occurred, following the service respectively of an Article 74 Notice to Pay or a Notice to Pay on the Covered Bonds Guarantor, the Covered Bonds Guarantor or the Calculation Agent on its behalf determines that the Covered Bonds Guarantor has insufficient Available Funds under the relevant Priorities of Payments to pay the Guaranteed Amounts corresponding to the Final Redemption Amount in full in respect of the relevant Series of Covered Bonds on the date falling on the Extension Determination Date, then (subject as provided below), payment of the unpaid amount by the Covered Bonds Guarantor under the Covered Bonds Guarantee shall be deferred until the Extended Maturity Date *provided that* any amount representing the Final Redemption Amount due and remaining unpaid after the Extension Determination Date may be paid by the Covered Bonds Guarantor on any CB Payment Date thereafter up to (and including) the relevant Extended Maturity Date (the “**Extendable Maturity**”). Notwithstanding the above, if the Covered Bonds are extended as a consequence of the occurrence of an Article 74 Event, upon termination of the suspension period and withdrawal of the Article 74 Notice to Pay, the Issuer shall resume responsibility for meeting the payment obligations under any Series of Covered Bonds in respect of which an Extendable Maturity has occurred, and any Final Redemption Amount shall be due for payment on the last Business Day of the month in which the Article 74 Notice to Pay has been withdrawn.

The Covered Bonds Guarantor shall notify the relevant Covered Bondholders (in accordance with Condition 18 (*Notices*), any relevant Hedging Counterparties, the Rating Agency, the Representative of the Covered Bondholders and the Paying Agent as soon as reasonably practicable and in any event at least one Business Day prior to the relevant Maturity Date of any inability of the Covered Bonds Guarantor to pay in full the Guaranteed Amounts corresponding to the Final Redemption Amount in respect of a Series of Covered Bonds pursuant to the Covered Bonds Guarantee. Any failure by the Covered Bonds Guarantor to notify such parties shall not affect the validity or effectiveness of the extension nor give rise to any rights in any such party.

In the circumstances outlined above, the Covered Bonds Guarantor shall on the relevant Due for Payment Date, pursuant to the Covered Bonds Guarantee, apply the moneys (if any) available (after paying or providing for payment of higher ranking or *pari passu* amounts in accordance with the relevant Priorities of Payments) *pro rata* in payment of an amount equal to the Final Redemption Amount in respect of the relevant Series of Covered Bonds and shall pay Guaranteed Amounts constituting interest in respect of each such Covered Bond on such date. The obligation of the Covered Bonds Guarantor to pay any amounts in respect of the balance of the Final Redemption Amount not so paid on such Due for Payment Date shall be deferred as described above.

Interest will continue to accrue on any unpaid amount during such extended period and be payable on each Guarantor Payment Date following the Maturity Date up to the Extended Maturity Date (inclusive).

Where an Extended Maturity Date is specified as applicable in the relevant Final Terms for a Series of Covered Bonds and applied, failure to pay on the Maturity Date by the Covered Bonds Guarantor shall not constitute a Covered Bonds Guarantor Event of Default.

(c) *Redemption for tax reasons:* The Covered Bonds may be redeemed at the option of the Issuer in whole, but not in part:

- (i) at any time (if neither the Floating Rate Provisions are specified in the relevant Final Terms as being applicable); or
- (ii) on any CB Payment Date (if the Floating Rate Provisions are specified in the relevant Final Terms as being applicable),

on giving not less than 30 nor more than 60 days' notice to the Covered Bondholders (which notice shall be irrevocable), at their Early Redemption Amount, together with interest accrued (if any) to the date fixed for redemption, if:

- (B) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided, however, that no such notice of redemption shall be given earlier than:

- (1) where the Covered Bonds may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Covered Bonds were then due; or
- (2) where the Covered Bonds may be redeemed only on an CB Payment Date, 60 days prior to the CB Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Covered Bonds were then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Paying Agent with copy to the Luxembourg Listing Agent and the Representative of the Covered Bondholders a certificate signed by duly authorised officers of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred and such evidence shall be sufficient to the Paying Agent and the Representative of the Covered Bondholders and conclusive and binding on the Covered Bondholders. Upon the expiry of any such notice as is referred to in this Condition 8(c), the Issuer shall be bound to redeem the Covered Bonds in accordance with this Condition 8(c).

(d) *Redemption at the option of the Issuer:* If the Call Option is specified in the relevant Final Terms as being applicable, the Covered Bonds may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer's giving not less than 15 nor more than 30 days' notice to the Covered Bondholders (which notice shall be irrevocable and shall oblige the Issuer to redeem the Covered Bonds on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date).

The notice to Covered Bondholders referred to in Condition 8(d) (*Redemption at the option of the Issuer*) shall specify the proportion of the Covered Bonds so to be redeemed. If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.

- (f) *Redemption at the option of Covered Bondholders:* If the Put Option is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of any Covered Bondholder redeem such Covered Bonds held by it on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date. In order to exercise the option contained in this Condition 8(f), the Covered Bondholder must, not less than 15 nor more than 30 days before the relevant Optional Redemption Date (Put), deposit with the Paying Agent a duly completed Put Option Notice in the form obtainable from the Paying Agent. The Paying Agent with which a Put Option Notice is so deposited shall deliver a duly completed Put Option Receipt to the depositing Covered Bond holder. Once deposited in accordance with this Condition 8(f), no duly completed Put Option Notice, may be withdrawn; *provided, however, that* if, prior to the relevant Optional Redemption Date (Put), any Covered Bonds become immediately due and payable or, upon due presentation of any such Covered Bonds on the relevant Optional Redemption Date (Put), payment of the redemption moneys is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the Covered Bondholder at such address as may have been given by such Covered Bondholder in the relevant Put Option Notice and shall hold such Covered Bond against surrender of the relevant Put Option Receipt. For so long as any outstanding Covered Bonds are held by a Paying Agent in accordance with this Condition 8(f), the Covered Bondholder and not such Paying Agent shall be deemed to be the holder of such Covered Bonds for all purposes.
- (g) *No other redemption:* The Issuer shall not be entitled to redeem the Covered Bonds otherwise than as provided in Conditions 8(a) (*Scheduled redemption*) to (f) (*Redemption at the option of Covered Bondholders*) above.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 8(h) or, if none is so specified, a Day Count Fraction of 30E/360.

Covered Bonds redeemed pursuant to this Condition 8(k) will be redeemed at their Early Redemption Amount together (if appropriate) with interest accrued to (but excluding) the date of redemption.

- (l) *Pre-Maturity Liquidity Test*. If an Extended Maturity Date is not specified as applicable in the relevant Final Terms for a Series of Covered Bonds, on any Business Day (each the “**Pre-Maturity Liquidity Test Date**”) falling during the Pre-Maturity Rating Period prior to the occurrence of an Issuer Event of Default, the Calculation Agent will determine if the Pre-Maturity Liquidity Test (as defined below) has been breached, and if so, it shall immediately notify the Issuer, the Seller, the Hedging Counterparty and the Representative of Covered Bondholders.

For the purpose of this paragraph the “**Pre-Maturity Liquidity Test**” is complied with on any

MAIN FEATURES OF REGISTERED COVERED BONDS (*GEDECKTE NAMENSSCHULDVERSCHREIBUNGEN*)

Under the Programme the Issuer may issue Registered Covered Bonds (*Gedekte Namensschuldverschreibungen*), each issued with a minimum denomination indicated in the applicable Registered Covered Bond Conditions. The Registered Covered Bonds will not be listed and/or admitted to trading on any market and will not be settled through a clearing system.

The Registered Covered Bonds will be governed by the laws of the Federal Republic of Germany or by whatever law chosen by the Issuer (to be supplemented with the specific provisions required under German law in order for the Registered Covered Bonds to be a German law registered note (*Gedekte Namensschuldverschreibung*)) provided that, in any case, certain provisions, including those applicable to the Issuer and the Portfolio and those applicable to the status, limited recourse and the guarantee of the Registered Covered Bonds, shall be confirmed to be governed by Italian law.

The Registered Covered Bonds will be direct, unconditional, unsubordinated and unsecured obligations of the Issuer, guaranteed by the Guarantor pursuant to the terms of the Covered Bond Guarantee. The Registered Covered Bonds will rank *pari passu* and without any preference among themselves and, save for any applicable statutory provisions, at least equally with all other present and future unsecured and un-subordinated obligations of the Issuer from time to time outstanding.

In accordance with the Law 130, MEF Decree and the BoI OBG Regulations, the terms and conditions of each Series of Registered Covered Bonds together with the Transaction Documents, the Registered Covered Bondholders will have (i) recourse to the Issuer and (ii) limited recourse to the Guarantor limited to the Available Funds.

The Registered Covered Bonds shall be governed by a set of legal documentation in the form from time to time agreed with the relevant Dealer and will not be governed by the Conditions of the Covered Bonds set out in this Base Prospectus. Such legal documentation will include the relevant Registered Covered Bond certificate, the Registered Covered Bond Conditions, the Registered Covered Bond assignment agreement, any other ancillary documents and/or agreements. Notwithstanding the foregoing, the Issuer will be entitled to enter into a different or additional set of documentation as agreed with the relevant Dealer in relation to a specific issue of Registered Covered Bonds.

The full terms and conditions applicable to each Series of Registered Covered Bonds will be the relevant Registered Covered Bond Certificate, the Registered Covered Bond Conditions attached thereto and any other related agreements.

In connection with each Registered Covered Bond, each reference in the Base Prospectus to information being set out, specified, stated, shown, indicated or otherwise provided for in the applicable Final Terms shall be read and construed as a reference to such information being set out, specified, stated, shown, indicated or otherwise provided in the Registered Covered Bond Certificate, the Registered Covered Bond Conditions attached thereto or any other document expressed to govern such Registered Covered Bond and, as applicable, each other reference to Final Terms in the Base Prospectus shall be construed and read as a reference to such Registered Covered Bond, the Registered Covered Bond Conditions attached thereto or any other document expressed to govern such of Registered Covered Bond.

A transfer of Registered Covered Bonds is deemed to be not effective until the transferee has delivered to the Registrar a duly executed copy of the Registered Covered Bond certificate relating to such Registered Covered Bond along with a duly executed Registered Covered Bond assignment agreement. A transfer can only occur for the minimum denomination indicated in the applicable Registered Covered Bond Conditions or multiples thereof.

In connection of Registered Covered Bonds, any references in this Base Prospectus to the Conditions or a particularly numbered Condition shall be construed, where relevant and unless specified otherwise, to include the equivalent Condition in the Registered Covered Bond Conditions as supplemented by any other applicable document.

TAXATION IN THE REPUBLIC OF ITALY

The following is a general summary of current Italian law and practice relating to certain Italian tax considerations concerning the purchase, ownership and disposition of the Covered Bonds.

The following summary does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Covered Bonds and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules.

This summary is based upon the laws and/or practice in force as at the date of this Base Prospectus, which are subject to any changes in law and/or practice occurring after such date, which could be made on a retroactive basis.

*Law Decree No. 66 of 24 April 2014, as converted with amendments by Law No. 89 of 23 June 2014 published in the Official Gazette No. 143 of 23 June 2014, (“**Law No. 89**”) has introduced new tax provisions amending certain aspects of the tax regime of the Covered Bonds as summarized below. In particular the Law No. 89 has increased from 20 per cent. to 26 per cent the rate of withholding and substitute taxes of interest accrued, and capital gains realized, as of 1 July 2014 on financial instruments (including the Covered Bonds) other than government bonds.*

Prospective purchasers of the Covered Bonds are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Covered Bonds.

Italian Tax Treatment of the Covered Bonds – General

Decree No. 239 sets out the applicable regime regarding the tax treatment of interest, premiums and other income (including the difference between the redemption amount and the issue price) from certain securities issued, *inter alia*, by Italian resident banks (hereinafter collectively referred to as “**Interest**”). The provisions of Decree No. 239 only apply to Covered Bonds issued by the Issuer which qualify as bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) pursuant to Article 44 of Presidential Decree No. 917 of 22 December 1986 as amended and supplemented (“**Decree 917**”).

Taxation of Interest

Italian Resident Covered Bondholders

Pursuant to Decree No. 239, where the Italian resident holder of Covered Bonds that qualifies as *obbligazioni* or *titoli similari alle obbligazioni*, who is the beneficial owner of such Covered Bonds, is:

- (a) an individual holding Covered Bonds otherwise than in connection with entrepreneurial activity (unless he has entrusted the management of his financial assets, including the Covered Bonds, to an authorised intermediary and has opted for the so-called *risparmio gestito* regime according to Article 7 of Decree No. 461 – the “**Asset Management Option**”); or
- (b) a partnership (other than a *società in nome collettivo* or *società in accomandita semplice* or similar partnership) or *de facto* partnership not carrying out commercial activities or professional association; or
- (c) a private or public institution not carrying out mainly or exclusively commercial activities (including the Italian state and public entities); or
- (d) an investor exempt from Italian corporate income taxation,

interest payments relating to the Covered Bonds are subject to a tax, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent. either when Interest is paid or when payment thereof is obtained by the holder on a sale of the Covered Bonds. All the above categories are qualified as “net recipients”.

Where the resident holders of the Covered Bonds described above under (a) and (c) are engaged in an entrepreneurial activity to which the Covered Bonds are effectively connected with the same business activity, *imposta sostitutiva* applies as a provisional income tax and may be deducted from the tax due.

Where an Italian resident Covered Bondholder is a company or similar commercial entity, or a permanent establishment in Italy of a foreign company to which the Covered Bonds are effectively connected, and the Covered Bonds are deposited with an authorised intermediary, Interest from the Covered Bonds shall not be subject to *imposta sostitutiva*. They must, however, be included in the relevant Covered Bondholder's income tax return and are therefore subject to general Italian corporate taxation (and, in certain circumstances, depending on the "status" of the Covered Bondholder, also to IRAP - the regional tax on productive activities).

Italian real estate funds created under Article 37 of Italian Legislative Decree 58 of 24 February 1998 and Article 14 bis of Italian Law No. 86 of 25 January 1994 and Italian Real Estate SICAFs ("*Società di investimento a capitale fisso*") ("**Real Estate SICAFs**") to which the provisions of Law Decree No. 351 dated 25 September 2001, as subsequently amended, apply, are not subject to any substitute tax at the fund level nor to any other income tax in the hands of the fund or the Real Estate SICAF.

If the investor is resident in Italy and is an open-ended or closed-ended investment fund a SICAF or a SICAV (an "**Italian Fund**"), and the Covered Bonds are held by an authorised intermediary, Interest accrued during the holding period on the Covered Bonds shall not be subject to *imposta sostitutiva*, nor to any other income tax in the hands of the relevant Covered Bondholder; a withholding tax of 26 per cent. (the **Collective Investment Fund Tax**) shall be levied on proceeds distributed by the Italian Fund or received by certain categories of unitholders upon redemption or disposal of the units.

Where an Italian resident Covered Bondholders is a pension fund (subject to the regime provided for by article 17 of the Italian Legislative Decree No. 252 of 5 December 2005 – "**Decree 252**") and the Covered Bonds are deposited with an authorised intermediary, Interest relating to the Covered Bonds and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax (as increased by Law No. 190 of 23 December 2014 (the "**Finance Act 2015**"), which, however, provides for certain adjustments for fiscal year 2014).

As of 1 January 2015, Italian pension funds benefit from a tax credit equal to 9% of the result of the relevant portfolio accrued at the end of the tax period, provided that such pension funds invest in certain medium long term financial assets to be identified with a Ministerial Decree.

Italian resident individuals holding Covered Bonds not in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the Covered Bonds, to an authorised financial Intermediary and have opted for the Asset Management Option are not subject to the *imposta sostitutiva*.

Such categories are qualified as "gross recipients". Pursuant to Decree No. 239, the *imposta sostitutiva* is applied by banks, società di intermediazione mobiliare (so called "SIMs"), fiduciary companies, società di gestione del risparmio (SGRs), stock brokers and other qualified entities resident in Italy ("**Intermediaries**" and each an "**Intermediary**"), or by permanent establishments in Italy of foreign banks or intermediaries resident outside Italy, that must intervene in any way in the collection of Interest or, also as transferees, in transfers or disposals of the Covered Bonds.

Where the Covered Bonds and the relevant coupons are not deposited with an authorised Intermediary (or with a permanent establishment in Italy of a foreign Intermediary), the *imposta sostitutiva* is applied and withheld:

- by any Italian bank or any Italian Intermediary paying Interest to the Bondholders; or
- by the Issuer.

To ensure payment of Interest in respect of the Covered Bonds without the application of the *imposta sostitutiva*, gross recipients indicated above must (a) be the beneficial owners of payments of Interest on the Covered Bonds and (b) timely deposit the Covered Bonds together with the coupons relating to

such Covered Bonds directly or indirectly with an Italian authorised financial Intermediary (or a permanent establishment in Italy of a foreign Intermediary).

In case of application of the *imposta sostitutiva* gross recipients that are Italian resident corporations or permanent establishments in Italy of foreign corporations to which the Covered Bonds are effectively connected are entitled to deduct *imposta sostitutiva* suffered from income taxes due.

Non-Italian resident Covered Bondholders

According to Decree No. 239, payments of Interest in respect of Covered Bonds that qualify as *obbligazioni* or *titoli similari alle obbligazioni* will not be subject to the *imposta sostitutiva* at the rate of 26 per cent., provided that:

- (a) the payments are made to non-Italian resident beneficial owners of the Covered Bonds with no permanent establishment in Italy to which the Covered Bonds are effectively connected; and
- (b) such beneficial owners are resident, for tax purposes, in a country which allows for a satisfactory exchange of information with Italy (the "**White List States**") as listed in the Italian Ministerial Decree dated 4 September 1996, as amended from time to time, or in any other decree or regulation that will be issued in the future to provide the list of such countries, including any country that will be deemed listed therein for the purpose of any interim rule; and
- (c) all the requirements and procedures set forth in Decree No. 239 and in the relevant implementation rules, as subsequently amended, in order to benefit from the exemption from *imposta sostitutiva* are timely met or complied with.

The *imposta sostitutiva* may be reduced (generally to 10 per cent.) or reduced to zero under certain applicable double tax treaties entered into by Italy, if more favourable, subject to timely filing of required documentation.

Decree No. 239 also provides for additional exemptions from the *imposta sostitutiva* for payments of Interest in respect of the Covered Bonds made to (i) international entities and organisations established in accordance with international agreements ratified in Italy; (ii) certain foreign institutional investors established in a White List State; and (iii) Central Banks or entities which manage, *inter alia*, the official reserves of a foreign State.

To ensure the payment of Interest in respect of the Covered Bonds without the application of the *imposta sostitutiva*, non-Italian resident investors indicated above must:

- (a) be the beneficial owners of payments of Interest on the Covered Bonds; and
- (b) timely deposit the Covered Bonds together with the coupons relating to such Covered Bonds directly or indirectly with an Intermediary, or a permanent establishment in Italy of a non-Italian bank or financial intermediary, or with a non-Italian resident operator participating in a centralised securities management system which is in contact via computer with the Ministry of Economy and Finance; and
- (c) timely file with the relevant depository a self-assessment (*autocertificazione*) stating, *inter alia*, that he or she is resident, for tax purposes, in a country which recognises the Italian fiscal authorities' right to an adequate exchange of information. Such self-assessment (*autocertificazione*) is valid until withdrawn or revoked and need not be submitted where a certificate, declaration or other similar document meant for equivalent uses was previously submitted to the same depository. The self-assessment (*autocertificazione*) is not requested for non-Italian resident investors that are international entities and organisations established in accordance with international agreements ratified in Italy and Central Banks or entities which manage, *inter alia*, the official reserves of a foreign state.

Failure of a non-resident Covered Bondholders to timely comply with the procedures set forth in Decree No. 239 and in the relevant implementation rules will result in the application of *imposta sostitutiva* on Interest payments to a non-resident Covered Bondholders.

The *imposta sostitutiva* will be applicable at the rate of 26 per cent. to interest, premium and other income accrued during the holding period when the Covered Bondholders are resident, for fiscal purposes, in countries which do not allow for a satisfactory exchange of information with Italy.

Should the above exemptions not be applicable, non-Italian resident Covered Bondholders may be entitled to claim if certain relevant conditions are met, a reduction *imposta sostitutiva* under double taxation treaty, if any, entered into by Italy and its country of residence, subject to filing of required documentation.

Atypical securities

Interest payments relating to Covered Bonds that are not deemed to fall within the category of bonds (*obbligazioni*) or securities similar to bonds (*titoli similari alle obbligazioni*) may be qualified as “*atypical securities*” and subject to a withholding tax, levied at the rate of 26 per cent.. For this purpose, securities similar to bonds are securities that incorporate an unconditional obligation to pay, at maturity, an amount not lower than their nominal value.

In case of Covered Bonds issued by an Italian-resident issuer, where the Covered Bondholders is (i) an Italian individual engaged in an entrepreneurial activity to which the Covered Bonds are connected, (ii) an Italian company or a similar Italian commercial entity, (iii) a permanent establishment in Italy of a foreign entity to which the Covered Bonds are connected, (iv) an Italian commercial partnership or (v) an Italian commercial private or public institution, such withholding tax is a provisional withholding tax.

In all other cases, the withholding tax is a final withholding tax.

Payments made by the Guarantor

There is no authority directly regarding the Italian tax regime of payments on Covered Bonds made by an Italian resident guarantor. Accordingly, there can be no assurance that the Italian tax authorities will not assert an alternative treatment of such payments than that set forth herein or that the Italian court would not support such an alternative treatment.

With respect to payments on the Covered Bonds made to certain Italian resident Covered Bondholders by an Italian resident guarantor, in accordance with one interpretation of Italian tax law, any payment of liabilities equal to interest and other proceeds from the Covered Bonds may be subject to an advance withholding tax at a rate of 26 per cent. pursuant to Presidential Decree No. 600, as subsequently amended. With respect to non-Italian resident Covered Bondholders, a final withholding tax may be applied at 26 per cent.

Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax.

It is worth to mentioning that, in accordance with another interpretation, any payment made by the Italian resident guarantor shall be treated, in certain circumstances, as a payment by the relevant Issuer and thus shall be subject to the tax regime described in the previous paragraphs of this section.

Capital Gains Tax

Italian resident Covered Bondholders

Pursuant to Decree No. 461, a 26 per cent. capital gains tax - referred to as “*imposta sostitutiva*” - is applicable to capital gains realised by (i) an individual holding the Covered Bonds not in connection with an entrepreneurial activity, (ii) a non- commercial partnership, (iii) a non- commercial private or public institution, to which the Covered Bonds issued by Intesa Sanpaolo are connected, on any sale or transfer for consideration of the Covered Bonds or redemption thereof.

Under the so called “tax declaration regime”, which is the standard regime for taxation of capital gains realised by Italian resident individuals not engaged in entrepreneurial activities, the 26 per cent. *imposta sostitutiva* on capital gains will be chargeable, on a cumulative basis, on all capital gains net of any relevant incurred capital losses realised by Italian resident individuals not engaged in entrepreneurial activities pursuant to all investment transactions carried out during any given fiscal

year. The capital gains realised in a year net of any relevant incurred capital losses must be detailed in the relevant annual tax return to be filed with Italian tax authorities and *imposta sostitutiva* must be paid on such capital gains by Italian resident individuals together with any balance income tax due for the relevant tax year. Capital losses in excess of capital gains may be carried forward against capital gains of the same kind for up to the fourth subsequent fiscal year. Pursuant to Law No. 89, capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of: (i) 48.08 per cent. of the relevant capital losses realised before 1 January 2012; (ii) 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.

Alternatively to the tax declaration regime, holders of the Covered Bonds who are Italian resident individuals not engaged in entrepreneurial activities to which the Covered Bonds are connected, may elect to pay *imposta sostitutiva* separately on capital gains realised on each sale or transfer or redemption of the Covered Bonds (“*risparmio amministrato*” regime). Such separate taxation of capital gains is allowed subject to (i) the Covered Bonds being deposited with banks, SIMs and any other Italian qualified intermediary (or permanent establishment in Italy of foreign intermediary) and (ii) an express election for the so-called *risparmio amministrato* regime being timely made in writing by the relevant bondholder of the Covered Bonds. The intermediary is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale or transfer or redemption of the Covered Bonds, as well as on capital gains realised as at revocation of its mandate, net of any relevant incurred capital losses, and is required to pay the relevant amount to the Italian fiscal authorities on behalf of the holder of the Covered Bonds, deducting a corresponding amount from proceeds to be credited to the holder of the Covered Bonds. Where a sale or transfer or redemption of the Covered Bonds results in a capital loss, the intermediary is entitled to deduct such loss from gains of the same kind subsequently realised on assets held by the holder of the Covered Bonds within the same relationship of deposit in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Covered Bondholder is not required to declare capital gains in its annual tax declaration and remains anonymous. Pursuant to Law No. 89, capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of: (i) 48.08 per cent. of the relevant capital losses realised before 1 January 2012; (ii) 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.

Special rules apply if the Covered Bonds are part of a portfolio managed in a regime of Asset Management Option (“*risparmio gestito*” regime) by an Italian asset management company or an authorised intermediary. In that case the capital gains realised upon sale, transfer or redemption of the Covered Bonds will not be subject to *imposta sostitutiva* on capital gains but will contribute to determine the taxable base of the Asset Management Tax applicable at rate of 26 per cent..

In particular, under the Asset Management Option, any appreciation of the Covered Bonds, even if not realised, will contribute to determine the annual accrued appreciation of the managed portfolio, subject to the Asset Management Tax. Any depreciation of the managed portfolio accrued at yearend may be carried forward against appreciation accrued in each of the following years up to the fourth. Also under the Asset Management Option the realised capital gain is not requested to be included in the annual income tax return of the Covered Bondholders and the Covered Bondholders remains anonymous. Pursuant to Law No. 89, decreases in value of the management assets may be carried forward to be offset against any subsequent increase in value accrued as of 1 July 2014 for an overall amount of: (i) 48.08 per cent. of the relevant decreases in value registered before 1 January 2012; (ii) 76.92 per cent. of the decreases in value registered from 1 January 2012 to 30 June 2014.

The capital gains realised by an Italian Fund are not subject to *imposta sostitutiva* nor to any other income tax in the hands of the relevant Italian Fund but subsequent distributions in favour of unitholders or shareholders may be subject to the Collective Investment Fund Tax.

Any capital gains realised by Italian resident corporations or similar commercial entities or permanent establishments in Italy of non-Italian resident corporations to which the Covered Bonds are connected, will be included in their business income (and, in certain cases, may also be included in the taxable net value of production for IRAP purposes), subject to tax in Italy according to the relevant ordinary tax rules.

In the case of Covered Bonds held by pension fund pursuant to Decree No 252 capital gains on Covered Bonds will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent. substitute tax (as increased by Finance Act 2015, which, however, provides for certain adjustments for fiscal year 2014).

As of 1 January 2015, Italian pension funds benefit from a tax credit equal to 9% of the result of the relevant portfolio accrued at the end of the tax period, provided that such pension funds invest in certain medium long term financial assets to be identified with a Ministerial Decree.

Italian resident real estate funds created under Article 37 of Italian Legislative Decree No. 58 of 24 February 1998 and Article 14*bis* of Law No. 86 dated 25 January 1994 and the Real Estate SICAFs to which the provisions of Law Decree No. 351 dated 25 September 2001, as subsequently amended, apply, are not subject to any substitute tax at the fund level nor to any other income tax in the hands of the fund or the Real Estate SICAF.

Non-Italian resident Covered Bondholders

The 26 per cent. final *imposta sostitutiva* may in certain circumstances be payable on capital gains realised upon sale for consideration or redemption of Covered Bonds by non-Italian resident persons or entities without a permanent establishment in the Republic of Italy to which the Covered Bonds are effectively connected, if the Covered Bonds are held in the Republic of Italy.

However, pursuant to Article 23 of Decree No. 917, any capital gains realised by non-Italian residents without a permanent establishment in Italy to which the Covered Bonds are effectively connected through the sale for consideration or redemption of the Covered Bonds are exempt from taxation in Italy to the extent that the Covered Bonds are listed on a regulated market in Italy or abroad, and in certain cases subject to timely filing of required documentation (in the form of a self-assessment (*autocertificazione*) of non-residence in Italy) with Italian qualified intermediaries (or permanent establishments in Italy of foreign intermediaries) with which the Covered Bonds are deposited, even if the Covered Bonds are held in Italy and regardless of the provisions set forth by any applicable double tax treaty.

Where the Covered Bonds are not listed on a regulated market in Italy or abroad:

- (a) pursuant to the provisions of Decree No. 461 non-Italian resident beneficial owners of the Covered Bonds with no permanent establishment in Italy to which the Covered Bonds are effectively connected are exempt from the *imposta sostitutiva* in the Republic of Italy on any capital gains realised upon sale for consideration or redemption of the Covered Bonds if they are resident, for tax purposes in a White-List State. Under these circumstances, if non-Italian residents without a permanent establishment in Italy to which the Covered Bonds are effectively connected elect for the *risparmio amministrato* regime or the Asset Management Option, exemption from Italian capital gains tax will apply upon condition that they file in time with the authorised financial intermediary an appropriate self-assessment (*autocertificazione*) stating that they meet the requirement indicated above. The same exemption applies where the beneficial owners of the Covered Bonds are (i) international entities or organisations established in accordance with international agreements ratified by Italy; (ii) certain foreign institutional investors established in a White List State; or (iii) Central Banks or entities which manage, inter alia, the official reserves of a foreign State; and
- (b) in any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Covered Bonds are effectively connected that may benefit from a double taxation treaty with Italy, providing that capital gains realised upon sale or redemption of Covered Bonds are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon sale for consideration or redemption of Covered Bonds.

Under these circumstances, if non-Italian residents without a permanent establishment in Italy to which the Covered Bonds are effectively connected hold Covered Bonds with an Italian authorised financial intermediary and elect for the Asset Management Option or are subject to the *risparmio amministrato* regime, in order to benefit from exemption from Italian taxation on capital gains such

non-Italian residents may be required to file in time with the authorised financial intermediary appropriate documents which include *inter alia* a certificate of residence from the competent tax authorities of the country of residence of the non-Italian residents.

Inheritance and gift tax

Pursuant to Law Decree No. 262 of 3 October 2006, converted with amendments by Law No. 286 of 24 November 2006 effective from 29 November 2006, and Law No. 296 of 27 December 2006, the transfers of any valuable assets (including the Covered Bonds) as a result of death or donation (or other transfers for no consideration) and the creation of liens on such assets for a specific purpose are taxed as follows:

- (a) 4 per cent. if the transfer is made to spouses and direct descendants or ancestors; in this case, the transfer is subject to tax on the value exceeding €1,000,000 (per beneficiary);
- (b) 6 per cent. if the transfer is made to brothers and sisters; in this case, the transfer is subject to the tax on the value exceeding €100,000 (per beneficiary);
- (c) 6 per cent. if the transfer is made to relatives up to the fourth degree, to persons related by direct affinity as well as to persons related by collateral affinity up to the third degree; and
- (d) 8 per cent. in all other cases.

If the transfer is made in favour of persons with severe disabilities, the tax is levied to the rate mentioned above in (a), (b), (c) and (d) on the value exceeding €1,500,000.

Transfer tax

Contracts relating to the transfer of securities are subject to a Euro 200 registration tax as follows: (i) public deeds and notarised deeds are subject to mandatory registration; (ii) private deeds are subject to registration only in the case of voluntary registration.

Stamp Duty

Pursuant to Article 13 par. 2/ter of the tariff Part I attached to Presidential Decree No. 642 of 26 October 1972 (“**Decree 642**”), a proportional stamp duty applies, based on the period accounted, to any periodic reporting communications which may be sent by a financial intermediary to a Covered Bondholder in respect of any Covered Bond which may be held by with such financial intermediary.

The stamp duty applies at a rate of 0.20 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Covered Bond held. The stamp duty cannot exceed € 14,000.00 if the Covered Bondholder is not an individual.

The stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that Covered Bonds are held with an Italian-based financial intermediary.

Wealth Tax on securities deposited abroad

According to the provisions set forth by Law No. 214 of 22 December 2011, as amended and supplemented, Italian resident individuals holding the Covered Bonds outside the Italian territory are required to pay an additional tax at a rate of 0.20 per cent.. In this case the above mentioned stamp duty provided for by Article 13 of the tariff attached to Decree 642 does not apply.

This tax is calculated on the market value of the Covered Bonds at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. The amount of tax due, based on the value indicated by the Covered Bondholder in its own annual tax declaration, must be paid within the same date in which payment of the balance of the annual individual income tax (“**IRPEF**”) is due.

Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Are excluded from the scope of the Wealth Tax the financial assets held abroad if administered by

Italian financial intermediaries pursuant to an administration agreement.

Tax Monitoring

According to the Law Decree No. 167 of 28 June 1990, converted with amendments into Law No. 227 of 4 August 1990, as amended from time to time, individuals, non-profit entities and certain partnerships (*società semplici* or similar partnerships in accordance with Article 5 of Presidential Decree No. 917 of 22 December 1986) resident in Italy for tax purposes, under certain conditions, are required to report for tax monitoring purposes in their yearly income tax the amount of investments (including the Covered Bonds) directly or indirectly held abroad.

The requirement applies also where the persons above, being not the direct holder of the financial instruments, are the actual owner of the instrument.

Furthermore, the above reporting requirement is not required to comply with respect to: (i) Covered Bonds deposited for management with qualified Italian financial intermediaries; (ii) contracts entered into through the intervention of qualified Italian financial intermediaries, upon condition that the items of income derived from the Covered Bonds have been subject to tax by the same intermediaries; or (iii) if the foreign investments are only composed by deposits and/or bank accounts and their aggregate value does not exceed a €15,000 threshold throughout the year.

European Savings Directive

Under EC Council Directive 2003/48/EC (the "**EU Savings Directive**") on the taxation of savings income, each Member State is required, from 1 July 2005, to provide to the tax authorities of another Member State details of payments of interest or other similar income (within the meaning of the EU Savings Directive) paid by a paying agent within its jurisdiction to, or collected by such a paying agent for an individual resident or certain limited types of entity established in that other Member State;

However, for a transitional period, Austria may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent. The transitional period is to terminate at the end of the first full fiscal year following agreement by certain non-EU countries to the exchange of information relating to such payments.

Also a number of non-EU countries, including Switzerland and certain dependent or associated territories of certain Member States, have agreed to adopt similar measures (either provision of information or transitional withholding) in relation to payments made by a paying agent within its jurisdiction to, or collected by such a paying agent for an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for an individual resident or certain limited types of entity established in one of those territories.

On 24 March 2014, the European Council adopted an EU Council Directive formally adopted a Council Directive amending the EU Savings Tax Directive (the Amending Directive). The Amending Directive broadens the scope of the requirements described above. In particular, the changes expand the range of payments covered by the EU Savings Directive to include certain additional types of income, and widen the range of recipients payments to whom are covered by the EU Savings Directive, to include certain other types of entity and legal arrangement. Member States are required to implement national legislation giving effect to these changes by 1 January 2016 (which national legislation must apply from 1 January 2017).

However, the European Commission has proposed the repeal of the Savings Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the Savings Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The proposal

also provides that, if it proceeds, Member States will not be required to apply the new requirements of the Amending Directive.

Implementation in Italy of the EU Savings Directive

Italy has implemented the Savings Directive through Decree 84/2005. Under Decree 84/2005, subject to a number of important conditions being met, in the case of interest paid starting from 1 July 2005 (including the case of interest accrued on the Covered Bonds at the time of their disposal) to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State or in certain associated territories of Member States, Italian paying agents (i.e. banks, Italian investment firms (“*società di intermediazione mobiliare – SIM*”), fiduciary companies, Italian management company (“*società di gestione del risparmio – SGR*”) resident for tax purposes in Italy, permanent establishments in Italy of non-resident persons and any other economic operator resident for tax purposes in Italy paying interest for professional or commercial reasons) shall report to the Italian tax authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian tax authorities to the competent foreign tax authorities of the State of residence of the beneficial owner. In certain circumstances, the same reporting requirements must be complied with also in respect of interest paid to an entity established in another Member State, other than legal persons (with the exception of certain Finnish and Swedish entities), whose profits are taxed under general arrangements for business taxation and, in certain circumstance, undertakings for collective investments in transferable securities (“**UCITS**”).

The arrangements under which Covered Bonds may from time to time be agreed to be sold by the Issuer to, and purchased by, the Dealer are set out in the Dealer Agreement. The Dealer Agreement also provides for the resignation or termination of appointment of existing Dealer and for the appointment of additional or other dealers either generally in respect of the Programme or in relation to a particular Series. The Dealer Agreement contains stabilising provisions.

Subscription Agreements

Any Subscription Agreement between the Issuer and the Dealer and/or any additional or other dealers, from time to time for the sale and purchase of Covered Bonds (each a “**Relevant Dealer**”) will, *inter alia*, provide for the price at which the relevant Covered Bonds will be purchased by the Relevant Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase.

Each Subscription Agreement will also provide for the confirmation of the appointment of the Representative of the Covered Bondholders by the Relevant Dealer as initial holder of the Covered Bonds then being issued.

provided that no such offer of Covered Bonds referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, (i) the expression an "offer of Covered Bonds to the public" in relation to any Covered Bonds in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Covered Bonds to be offered so as to enable an investor to decide to purchase or subscribe the Covered Bonds, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, (ii) the expression **Prospectus Directive** means Directive 2003/71/EC (and the amendments thereto, including the 2010 Amending Directive), and includes any relevant implementing measure in the Relevant Member State, and (iii) the expression “**2010 Amending Directive**” means the Directive 2010/73/EC.
