BASE PROSPECTUS DATED 22 DECEMBER 2015

Intesa Sanpaolo S.p.A.

(*incorporated as a joint stock company under the laws of the Republic of Italy*)

€20,000,000,000 Covered Bond (*Obbligazioni Bancarie Garantite*) Programme
unsecured and unconditionally and irrevocably guaranteed as to payments of interest and principal by
ISP CB Ipotecario S.r.l.

(*incorporated as a limited liability company under the laws of the Republic of Italy*)

The €20,000,000,000 Covered Bond Programme (the **Programme**) described in this base prospectus (the **Base Prospectus**) has been established by Intesa Sanpaolo S.p.A. (**Intesa Sanpaolo** or the **Issuer**) for the issuance of *obbligazioni bancarie garantite* (the **Covered Bonds** which term includes, for avoidance of doubt the Registered Covered Bonds as defined below) guaranteed by ISP CB Ipotecario S.r.l. pursuant to Article 7-bis of law No. 130 of 30 April 1999 (**Law 130**) and regulated by the Decree of the Ministry of Economy and Finance No. 310 of 14 December 2006 (the **MEF Decree**) and the Supervisory Instructions of the Bank of Italy relating to covered bonds under Part III, Section 3, of the 5th update to Circular No. 285 of 17 December 2013, containing the "*Disposizioni di vigilanza per le banche*" as further implemented and amended (the **BoI OBG Regulations** and, together with Law 130 and the MEF Decree, the **OBG Regulations**).

ISP CB Ipotecario S.r.l. (**ISP CB Ipotecario** or the **Covered Bond Guarantor**) issued a first demand (*a prima richiesta*), autonomous, unconditional and irrevocable (*irrevocabile*) guarantee (*garanzia autonoma*) securing the payment obligations of the Issuer under the Covered Bonds (the **Covered Bond Guarantee**), in accordance with the provisions of Law 130 and of the MEF Decree. The obligation of payment under the Covered Bond Guarantee shall be limited recourse to the Portfolio and the Available Funds (as defined in the section headed "*Terms and Conditions of the Covered Bonds*").

This Base Prospectus has been approved by the *Commission de Surveillance du Secteur Financier* (the **CSSF**), which is the Luxembourg competent authority for the purposes of Directive 2003/71/EC (the **Prospectus Directive**) and relevant implementing measures in Luxembourg, which includes the amendments made by Directive 2010/73/EU (the **2010 Amending Directive**), to the extent such amendments have been implemented in a relevant Member State, as a base prospectus issued in compliance with the Prospectus Directive and relevant implementing measures in Luxembourg for the purposes of giving information with regard to the issue of Covered Bonds under the Programme during the period of twelve (12) months after the date hereof. By approving this Base Prospectus, the CSSF assumes no responsibility as to the economic and financial soundness of the transaction and the quality and solvency of the Issuer in line with the provisions of article 7(7) of the Prospectus Law dated 10 July 2005.

This Base Prospectus constitutes a base prospectus for the purposes of Article 5.4 of the Prospectus Directive.

Capitalised terms used in this Base Prospectus shall have the meaning ascribed to them in the section headed "*Glossary*", unless otherwise defined in the specific section of this Base Prospectus in which they are used.

Under the Programme, the Issuer may issue Covered Bonds denominated in any currencies, including Euro, UK Sterling, Swiss Franc, Japanese Yen and US Dollar. Interest on the Covered Bonds shall accrue monthly, quarterly, semi-annually, annually or on such other basis as specified in the relevant Final Terms, in arrears at fixed or floating rate, increased or decreased by a margin. The Issuer may also issue Covered Bonds at a discounted price with no interest accruing and repayable at nominal value (zero-coupon Covered Bonds).

The terms of each Series will be set forth in the Final Terms relating to such Series prepared in accordance with the provisions of this Base Prospectus and, if listed, to be delivered to the Luxembourg Stock Exchange on or before the date of issue of such Series.

Application has been made for Covered Bonds (other than Registered Covered Bonds) to be admitted to listing on the official list and trading on the regulated market of the Luxembourg Stock Exchange, which is a regulated market for the purposes of Directive 2004/39/EC. In addition, the Issuer and each Relevant Dealer named under the section headed "*Subscription and Sale*" may agree to make an application to list a Series on any other stock exchange as specified in the relevant Final Terms. The Programme also permits Covered Bonds to be issued on an unlisted basis.

Covered bonds will be issued in dematerialised form and the Issuer reserves the right to issue also Covered Bonds as German governed registered covered bonds (*Gedeckte Namensschuldverschreibung*) (the **Registered Covered Bonds**). This Base Prospectus does not relate to the Registered Covered Bonds which may be issued by the Issuer under the Programme pursuant to either separate documentation or the documents described in this Base Prospectus after having made the necessary amendments and the approval of this Base Prospectus by the CSSF does not cover any Registered Covered Bonds which may be issued by the Issuer.

Where Covered Bonds (other than Registered Covered Bonds) issued under the Programme are admitted to trading on a regulated market within the European Economic Area or offered to the public in a Member State of the European Economic Area in circumstances which require the publication of a prospectus under the Prospectus Directive, such Covered Bonds will have a denomination of not less than €100,000 (or, where the Covered Bonds are issued in a currency other than euro, the equivalent amount in such other currency). The terms and conditions of the Registered Covered Bonds (the **Registered Covered Bond Conditions**), which will differ from the terms and conditions set out in the section headed "*Terms and Conditions of the Covered Bonds*", will specify the minimum denomination for Registered Covered Bonds, which might not be listed.

The Covered Bonds to be issued on or after the date hereof will be held in dematerialised form or in any other form as may be set out in the Final Terms. The Covered Bonds issued in dematerialised form will be held on behalf of their ultimate owners, until redemption or cancellation thereof, by Monte Titoli S.p.A. (**Monte Titoli**) for the account of the relevant Monte Titoli Account Holders. The expression **Monte Titoli Account Holders** means any authorised financial intermediary institution entitled to hold accounts on behalf of their customers with Monte Titoli and includes any depositary banks appointed by Euroclear Bank S.A./N.V. as operator of the Euroclear System (**Euroclear**) and Clearstream Banking, *société anonyme*, Luxembourg (**Clearstream**). Each Series of Covered Bonds issued in dematerialised form will be deposited with Monte Titoli on the relevant Issue Date (as defined in the section headed "*Terms and Conditions of the Covered Bonds*"). Monte Titoli shall act as depositary for Clearstream and Euroclear. The Covered Bonds issued in dematerialised form will at all times be held in book entry form and title to the Covered Bonds issued in dematerialised form will be evidenced by book entries in accordance with the provisions of Italian Legislative Decree No. 58 of 24

February 1998 (the **Financial Law**) and implementing regulation and with the joint regulation of the *Commissione Nazionale per le Società e la Borsa* (**CONSOB**) and the Bank of Italy dated 22 February 2008 and published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) No. 54 of 4 March 2008, as subsequently amended and supplemented. No physical document of title will be issued in respect of the Covered Bonds issued in dematerialised form.

Before the Maturity Date the Covered Bonds will be subject to mandatory and optional redemption in whole or in part in certain circumstances, as set out in Condition 9 (*Redemption and Purchase*).

Each Series is expected, upon the relevant issue, to be assigned a rating as specified in the relevant Final Terms by Moody's Investors Service (**Moody's**). Conditions precedent to the issuance of any Series include that a rating letter assigning the rating to such Series of Covered Bonds is issued by the Rating Agency. Whether or not the credit rating applied for in relation to relevant Series of Covered Bonds will be issued by a credit rating agency established in the European Union and registered under Regulation (EC) No. 1060/2009 (as amended, the **CRA Regulation**) will be disclosed in the Final Terms. The credit ratings included or referred to in this Base Prospectus have been issued by Moody's, which is established in the European Union and is registered under the CRA Regulation. As such Moody's is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website http://www.esma.europa.eu/page/List-registered-and-certified-CRAs, in accordance with such Regulation. In general, European regulated investors are restricted from using a rating for regulatory purposes if such rating is not issued by a credit rating agency established in the European Union and registered under the CRA Regulation.

A credit rating is not a recommendation to buy, sell or hold Covered Bonds and may be subject to revision or withdrawal by the Rating Agency.

For a discussion of certain risks and other factors that should be considered in connection with an investment in the Covered Bonds, see the section headed "*Risk Factors*" of this Base Prospectus.

TABLE OF CONTENTS

RISK FACTORS

In purchasing Covered Bonds, investors assume the risk that the Issuer and the Covered Bond Guarantor may become insolvent or otherwise be unable to make all payments due in respect of the Covered Bonds. There is a wide range of factors which individually or together could result in the Issuer and the Covered Bond Guarantor becoming unable to make all payments due in respect of the Covered Bonds. It is not possible to identify all such factors or to determine which factors are most likely to occur, as they may not be aware of all relevant factors and certain factors which it currently deems not to be material may become material as a result of the occurrence of events outside the Issuer's and the Covered Bond Guarantor's control. The Issuer and the Covered Bond Guarantor have identified in this Base Prospectus a number of factors which could materially adversely affect their businesses and ability to make payments due under the Covered Bonds.

In addition, factors which are material for the purpose of assessing the market risks associated with the Covered Bonds issued under the Programme are also described below.

Prospective investors should also read the detailed information set out elsewhere in this Base Prospectus (including any documents deemed to be incorporated by reference herein) and reach their own views prior to making any investment decision.

1. General Investment Considerations

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

Obligations to make payments when due on the Covered Bonds

The Issuer is liable to make payments when due on the Covered Bonds. The obligations of the Issuer under the Covered Bonds are direct, unsecured, unconditional and unsubordinated obligations, ranking *pari passu* without any preference amongst themselves and equally with its other direct, unsecured, unconditional and unsubordinated obligations. Consequently, any claim directly against the Issuer in respect of the Covered Bonds will not benefit from any security or other preferential arrangement granted by the Issuer. The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts payable under the Covered Bond Guarantee until the service on the Covered Bond Guarantor of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay. Failure by the Covered Bond Guarantor to pay amounts due under the Covered Bond Guarantee in respect of any Series or Tranche would constitute a Covered Bond Guarantor Event of Default which would entitle the Representative of the Covered Bondholders to serve a Covered Bond Guarantor Acceleration Notice and accelerate the obligations of the Covered Bond Guarantor under the Covered Bond Guarantee and entitle the Representative of the Covered Bondholders to enforce the Covered Bond Guarantee. The occurrence of an Issuer Event of Default does not constitute a Covered Bond Guarantor Event of Default.

The Covered Bonds will not represent an obligation or be the responsibility of any of the Dealers, the Arrangers, the Representative of the Covered Bondholders or any other party to the Transaction Documents, their officers, members, directors, employees, security holders or incorporators, other than the Issuer and, upon service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, the Covered Bond Guarantor. The Issuer and the Covered Bond Guarantor will be liable solely in their corporate capacity and, as to the Covered Bond Guarantor, limited recourse to the Available Funds, for their obligations in respect of the Covered Bonds and such obligations will not be the obligations of their respective officers, members, directors, employees, security holders or incorporators.

The secondary market generally

Covered Bonds may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Covered Bonds easily or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market. This is particularly the case for Covered Bonds that are especially sensitive to interest rate, currency or market risks, are designed for specific investment objectives or strategies or have been structured to meet the investment

requirements of limited categories of investors. These types of Covered Bonds generally would have a more limited secondary market and more price volatility than conventional debt securities. Illiquidity may have a severely adverse effect on the market value of Covered Bonds. In addition, Covered Bonds issued under the Programme might not be rated or listed on a stock exchange or regulated market and, in these circumstances, pricing information may be more difficult to obtain and the liquidity and market prices of such Covered Bonds may be adversely affected. In an illiquid market, an investor might not be able to sell his Covered Bonds at any time at fair market prices. The possibility to sell the Covered Bonds might additionally be restricted by country specific reasons.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Covered Bonds in the Specified Currency. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than the Specified Currency. These include the risk that exchange rates may significantly change (including changes due to devaluation of the Specified Currency or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Specified Currency would decrease (1) the Investor's Currency-equivalent yield on the Covered Bonds, (2) the Investor's Currency equivalent value of the principal payable on the Covered Bonds and (3) the Investor's Currency equivalent market value of the Covered Bonds. Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

Investment in Fixed Rate Covered Bonds involves the risk that subsequent changes in market interest rates may adversely affect the value of the Fixed Rate Covered Bonds.

Rating of the Covered Bonds

The rating assigned to the Covered Bonds address, *inter alia*:

the likelihood of full and timely payment to Covered Bondholders of all payments of interest on each CB Payment Date;

the likelihood of timely payment of principal in relation to the Hard Bullet Covered Bonds on the Maturity Date; and

the likelihood of ultimate payment of principal in relation to Covered Bonds on (a) the Maturity Date thereof, or (b) if the Covered Bonds are subject to an Extended Maturity Date in accordance with the applicable Final Terms, the Extended Maturity Date thereof.

Whether or not a rating in relation to any Series of Covered Bonds will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation will be disclosed in the relevant Final Terms. The credit ratings included or referred to in this Base Prospectus have been issued by Moody's Investors Service Ltd. which is established in the European Union and is registered under the CRA Regulation. As such Moody's Investors Service Ltd. is included in the list of credit rating agencies published by the European Securities and Markets Authority on its website http://www.esma.europa.eu/page/List-registered-and-certified-CRAs in accordance with such Regulation. In general, European regulated investors are restricted under CRA Regulation from using credit ratings for regulatory purposes, unless such ratings are issued by a credit rating agency established in the EU and registered under the CRA Regulation (and such registration has not been withdrawn or suspended), subject to transitional provisions that apply in certain circumstances whilst the registration application is pending. Such general restriction will also apply in the case of credit ratings issued by non-EU credit rating agencies, unless the relevant credit ratings are endorsed by an EU-registered credit rating agency or the relevant non-EU rating agency is certified in accordance with the CRA Regulation (and such endorsement action or certification, as the case may be, has not been withdrawn or suspended). Certain information with respect to the credit rating agencies and ratings will be disclosed in the Final Terms.

The expected rating of the Covered Bonds is set out in the relevant Final Terms for each Series of Covered Bonds. The Rating Agency may lower its ratings or withdraw its rating if, in its sole judgement, the credit quality of the Issuer or the Covered Bonds has declined or is in question, and the Issuer has not undertaken to maintain a rating. In addition, at any time the Rating Agency may revise its relevant rating methodology with the result that, amongst other things, any rating assigned to the Covered Bonds may be lowered. If any rating assigned to the Covered Bonds is lowered or withdrawn, the market value of the Covered Bonds may reduce.

A credit rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by the rating agency at any time. The ratings may not reflect the potential impact of all risks related to the structure, market, additional factors discussed above and other factors that may affect the value of the Covered Bonds.

The return on an investment in Covered Bonds will be affected by charges incurred by investors

An investor's total return on an investment in any Covered Bonds will be affected by the level of fees charged by the nominee service provider and/or clearing system used by the investor. Such a person or institution may charge fees for the opening and operation of one or more investment accounts, transfers of Covered Bonds, custody services and on payments of interest, principal and other amounts. Potential investors are therefore advised to investigate the basis on which any such fees will be charged on the relevant Covered Bonds. Certain information in that respect are available under the section headed "*General Information*".

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult its legal and/or tax advisers to determine whether and to what extent (1) Covered Bonds are legal investments for it, (2) Covered Bonds can be used as collateral for various types of borrowing and (3) other restrictions apply to its purchase or pledge of any Covered Bonds. Financial institutions should consult their legal advisors or the appropriate regulators to determine the appropriate treatment of Covered Bonds under any applicable risk-based capital or similar rules.

Law 130

Law 130 was enacted in Italy in April 1999 and amended to allow for the issuance of covered bonds in 2005. Law 130 was further amended by Law Decree No. 145 of 23 December 2013 (*Decreto Destinazione Italia*), as converted with amendments into Law No. 9 of 21 February 2014 (**Law Decree No. 145**), and by Law Decree No. 91 of 24 June 2014 (*Decreto Competitività*), as converted with amendments into Law No. 116 of 11 August 2014 (**Law Decree No. 91**).

As at the date of this Base Prospectus, no interpretation of the application of Law 130 as it relates to covered bonds has been issued by any Italian court or governmental or regulatory authority, except for (i) the MEF Decree setting out the technical requirements of the guarantee which may be given in respect of covered bonds, (ii) the BoI OBG Regulations concerning guidelines on the valuation of assets, the procedure for purchasing integration assets and controls required to ensure compliance with the legislation, and (iii) the clarifications, provided for by the Bank of Italy, to certain queries concerning the OBG Regulations submitted to the such authority by Italian banks and the Italian Banking Association (*Associazione Bancaria Italiana*). Consequently, it is possible that such or different authorities may issue further regulations relating to Law 130 or the interpretation thereof, the impact of which cannot be predicted by the Issuer as at the date of this Base Prospectus.

Change of law

The structure of the Programme and, *inter alia*, the issue of the Covered Bonds and the rating assigned to the Covered Bonds are based on the relevant law, tax and administrative practice in effect at the date of this Base Prospectus, and having due regard to the expected tax treatment of all relevant entities under such law and practice. No assurance can be given as to the impact of any possible change to the law (including any change in regulation which may occur without a change in primary legislation), tax or administrative practice or its interpretation will not change after the Issue Date of any Series or that such change will not adversely impact the structure of

the Programme and the treatment of the Covered Bonds. This Base Prospectus will not be updated to reflect any such changes or events.

2. Risk factors relating to the Issuer

Risk management

The Intesa Sanpaolo Group is subject to risks that are an inherent part of its business activity. These risks include credit risk, country risk, market risk, liquidity risk and operational risk, as well as business risk and risks specific to our insurance business. The Intesa Sanpaolo Group's profitability depends on its ability to identify measure and continuously monitor these risks. As described below, the Intesa Sanpaolo Group attaches great importance to risk management and control as conditions to ensure reliable and sustainable value creation in a context of controlled risk.

The risk management strategy aims to achieve a complete and consistent overview of risks, considering both the macroeconomic scenario and the Intesa Sanpaolo Group's risk profile, by applying a culture of risk-awareness and enhancing the transparent, accurate representation of the risk level of the Group's portfolios.

Risk-acceptance strategies are summarised in the Group's Risk Appetite Framework (RAF), approved by the Management Board and Supervisory Board. The RAF, introduced in 2011 to ensure that risk-acceptance activities remain in line with shareholders' expectations, is established by taking account of the Intesa Sanpaolo Group's risk position and the economic situation.

The general principles that govern the Group's risk-acceptance strategy may be summarised as follows:

- Intesa Sanpaolo is a banking group focused on a commercial business model in which domestic retail activity remains the Group's structural strength;

- the Group does not aim to eliminate risks, but rather attempts to understand and manage them so as to ensure an adequate return for the risks taken, while guaranteeing the Company's solidity and business continuity in the long term;

- Intesa Sanpaolo has a moderate risk profile in which capital adequacy, earnings stability, a sound liquidity position and a strong reputation are the key factors to protecting its current and prospective profitability;

- Intesa Sanpaolo aims for a capitalisation level in line with its main European peers (on average with ratings higher than those of the Italian government);

- Intesa Sanpaolo intends to maintain strong management of the main specific risks (not necessarily associated with macroeconomic shocks) to which the Group may be exposed;

- the Group attaches great importance to compliance and reputational risks: for compliance risk, the Group aims to achieve formal and substantive compliance with rules in order to avoid penalties and maintain a solid relationship of trust with all of its stakeholders and customers. For reputational risk, the Intesa Sanpaolo Group strives to actively manage its image in the eyes of all stakeholders and aims to prevent and contain any negative effects on said image.

The definition of the Risk Appetite Framework and the resulting operating limits for the main specific risks, the use of risk measurement instruments in loan management processes and controlling operational risk and the use of capital at risk measures for management reporting and assessment of capital adequacy within the Intesa Sanpaolo Group, represent fundamental milestones in the operational application of the risk strategy defined by the Supervisory Board and the Management Board along the Intesa Sanpaolo Group's entire decision-making chain, down to the single operating units and to the single desk.

Risk-acceptance policies are defined by the Intesa Sanpaolo's Supervisory Board and Management Board. The Supervisory Board carries out its activity through specific internal

Committees, among which mention should be made of the Internal Control Committee and Risk Committee. The Management Board relies on the action of managerial committees, among which mention should be made of the Intesa Sanpaolo Group Risk Governance Committee. Both corporate bodies receive support from the Chief Risk Officer, who is a member of the Management Board and reports directly to the Chief Executive Officer.

The Intesa Sanpaolo Group sets out these general principles in policies, limits and criteria applied to the various risk categories (described below) and business areas with specific risk tolerance sub-thresholds, in a comprehensive framework of governance, control limits and procedures.

Risk hedging, given the nature, frequency and potential impact of the risk, is based on a constant balance between mitigation/hedging action, control procedures/processes and capital protection measures, including in the form of stress test.

Particular attention is dedicated to managing the short-term and structural liquidity position by following specific policies and procedures to ensure full compliance with the limits set at Intesa Sanpaolo Group level and operating sub-areas, in accordance with international regulations and the risk appetite approved at Intesa Sanpaolo Group level.

The Intesa Sanpaolo Group also intends to maintain adequate levels of protection against reputational risk so as to minimise the risk of negative events that might jeopardise its image. To that end, it has initiated an *ex-ante* risk management process to identify the major reputational and compliance risks for the Intesa Sanpaolo Group, to define prevention and mitigation tools and measures in advance and to implement specific, dedicated reporting flows.

Assessments of each single type of risk are integrated in a summary amount - the economic capital - defined as the maximum "unexpected" loss the Intesa Sanpaolo Group might incur over a year. This is a key measure for determining the Intesa Sanpaolo Group's financial structure and risk tolerance and guiding operations, ensuring the balance between risks assumed and shareholder returns. It is estimated on the basis of the current situation and also as a forecast, based on the budget assumptions and projected economic scenario under ordinary and stress conditions. The assessment of capital is included in business reporting and is submitted quarterly to the Intesa Sanpaolo Group Risk Governance Committee, the Risk Committee and the Management Board, as part of the Intesa Sanpaolo Group's Risks *Tableau de Bord*.

Intesa Sanpaolo is in charge of overall direction, management and control of risks. Intesa Sanpaolo Group companies that generate credit and/or financial risks are assigned autonomy limits at Intesa Sanpaolo Group level and each has its own control structure. For the main Intesa Sanpaolo Group subsidiaries, these functions are performed, on the basis of an outsourcing contract, by the Parent Company's risk control functions, which periodically report to the Board of Directors and the Audit Committee of the subsidiary.

With effect from 1st January 2014, the reforms of the accord by the Basel Committee (**Basel 3**) were implemented in the EU legal framework.

In preparing to comply with the new rules envisaged by Basel 3, the Group has undertaken adequate project initiatives, expanding the objectives of the Basel 2 Project in order to improve the measurement systems and the related risk management systems.

With respect to credit risks, the Group received authorisation to use internal ratings-based approaches effective from the report as at 31st December 2008 on the Corporate portfolio for a scope extending to the Parent Company, network banks in the *Banca dei Territori* Division and the main Italian product companies.

The scope of application has since been gradually extended to include the Retail Mortgage and SME Retail portfolios, as well as other Italian and international Group companies.

The Intesa Sanpaolo Group is also proceeding with development of the IRB systems for the other business segments and the extension of the scope of companies for their application in accordance with a plan presented to the Supervisory Authorities.

With reference to Intesa Sanpaolo and to Banca IMI, the Bank of Italy granted the authorisation to use the internal counterparty risk model for regulatory purposes, starting from the first quarter of 2014.

With regard to operational risk, the Group obtained authorisation to use the Advanced Measurement Approaches (AMA – internal model) to determine the associated capital requirement for regulatory purposes, with effect from the report as at 31 December 2009; the scope of application of the advanced approaches is being progressively expanded in accordance with the roll out plan presented to the Management and to the Supervisory Authorities. Moreover, as of 30th June 2013 the Intesa Sanpaolo Group was authorised by the Bank of Italy to include the benefits of its internal model insurance mitigation component in the computation of its regulatory capital.

Credit Risk

Credit risk is the risk of losses due to the failure on the part of the Intesa Sanpaolo Group's counterparties (customers) to meet their payment obligations to the Intesa Sanpaolo Group. Credit risk refers to all claims against customers, mainly loans, but also liabilities in the form of other extended credits, guarantees, interest-bearing securities, approved and undrawn credits, as well as counter-party risk arising through derivatives and foreign exchange contracts. Credit risk also consists of concentration risk, country risk and residual risks, both from securitisations and uncertainty regarding credit recovery rates. Credit risk represents the chief risk category for the Intesa Sanpaolo Group.

Intesa Sanpaolo has developed a set of instruments which ensures analytical control over the quality of the loans to customers and financial institutions, and loans subject to country risk.

Risk measurement uses rating models that are differentiated according to the borrower's segment (corporate, small business, mortgage loans, personal loans, sovereigns, Italian public sector entities, financial institutions). These models make it possible to summarise the credit quality of the counterparty in a measurement (the rating), which reflects the probability of default over a period of one year, adjusted on the basis of the average level of the economic cycle. In case of default, internal rating of loss given default (**LGD**) model measures losses on each facility, including any downturn effect related to the economic cycle.

Ratings and mitigating credit factors (guarantees, technical forms and covenants) play a fundamental role in the entire loan granting and monitoring process: they are used to set credit strategies and loan granting and monitoring rules as well as to determine decision-making powers.

The main characteristics of the probability of default (**PD**) and LGD models for Corporate, SME Retail segment and Retail Mortgages segment, which are validated for Basel II advanced approaches, are the following:

- PD model
    - Corporate segment models are based on financial, behavioural and qualitative data of the customers. They are differentiated according to the market in question (domestic or international) and the size bracket of the company. Specific models are implemented for specialised lending (real estate development initiatives, project finance transactions, leveraged buy-out acquisition finance and asset finance transactions).
    - For the Small Business segment, since the end of 2008 a rating model by counterparty has been used for the Intesa Sanpaolo Group, following a scheme similar to that of the Corporate segment, meaning that it is extremely decentralised and its quantitative-objective elements are supplemented by qualitative-subjective elements; in 2011, the service model for the Small Business segment was redefined, by introducing in particular a sub-segmentation of "Micro" and "Core" customers according to criteria of size and simplicity and a partial automation of the granting process.
    - The Intesa Sanpaolo Group model for the Retail Mortgages segment, adopted in late 2008, processes information relating to both the customer and the contract. It differentiates between initial disbursement, where the application model is used,

and the subsequent assessment during the lifetime of the mortgage (behavioural model), which takes into account behavioural information.

- LGD model
  - LGD model is determined according to differentiated models, specialised by operating segment and products (Corporate for Banking products, Corporate Factoring, Corporate Leasing, SME Retail, Retail Mortgages, Factoring, Leasing).
  - The LGD models, for which advanced internal rating base method has been approved, are: Retail Mortgages (effective from 30th June 2010), Corporate (these models are based on different types of financial assets: banking, effective from 31st December 2010; leasing and factoring, effective from 30th June 2012) and SME Retail (effective from 31st December 2012).
  - The LGD estimation is made up of the actual recoveries achieved during the management of disputes, taking into account the (direct and indirect) costs and the recovery period, as required by the regulation. All the models have been developed on the basis of a workout approach, analysing the losses suffered by the Intesa Sanpaolo Group on historical defaults.
  - For the Corporate segment, the following drivers were significant: geographical area, presence/absence of personal guarantee, presence/absence of real estate guarantee, facility type, and legal form. For the SME Retail segment, the following were significant: geographical area, facility type, presence/absence of personal guarantee, presence/absence of real estate guarantee, value to loan (amount of real estate coverage) and exposure level. For the Retail Mortgages segment, the geographical area and the value to loan were significant.

Country risk

Assessment of creditworthiness of countries is based on both an internal Sovereign Rating and Transfer risk Rating model.

Country risk for sovereign entities is assessed by a rating model that assigns creditworthiness ratings to over 260 countries. The model's structure includes a quantitative component for assessing country risk (which takes into account the structural rating assigned to a country by leading international rating agencies, implicit risk in market quotations of sovereign credit default swaps and bonds, and a macroeconomic model for more than 130 countries) and a qualitative component (which includes a qualitative opinion taking into consideration elements drawn from the broader scope of publicly available information concerning the political and economic structures of individual countries). Country risk for non-sovereign is measured through an internal model for transfer risk which takes into consideration both macroeconomic indicators and also the sovereign state's creditworthiness.

Market Risks

Market risk trading book

Market risk arises as a consequence of the Intesa Sanpaolo Group's trading and its open positions in the foreign exchange, interest rate and capital markets. The risk is derived from the fluctuation in the value of listed financial instruments whose value is linked to market variables. Market risk in the trading portfolio arises through trading activities in the interest rate, bonds, credit derivatives, commodities, foreign exchange and equity markets. Market risk in the banking portfolio arises from differences in fixed-rate periods.

The quantification of trading risks is based on daily value at risk ("**VaR**") of the trading portfolios of Intesa Sanpaolo and the subsidiary Banca IMI S.p.A., which represent the main portion of the Intesa Sanpaolo Group's market risks, to adverse market movements of the following risk factors:

- interest rates;
- equity and market indexes;

- investment funds;
- foreign exchange rates;
- implied volatilities;
- spreads in credit default swaps ("**CDS**");
- spreads in bond issues;
- correlation instruments;
- dividend derivatives;
- asset-backed securities ("**ABS**");
- commodities.

A number of the other Intesa Sanpaolo Group's subsidiaries hold smaller trading portfolios with a marginal risk (around 2 per cent. of the Intesa Sanpaolo Group's overall risk). In particular, the risk factors of the international subsidiaries' trading books were interest rates and foreign exchange rates, both relating to linear pay-offs.

For some of the risk factors indicated above, the Bank of Italy has validated the internal models for the reporting of the capital absorptions of both Intesa Sanpaolo and Banca IMI S.p.A. In particular, the validated risk profiles for market risks are: (i) generic and specific risk on debt securities and on equities for Intesa Sanpaolo and Banca IMI S.p.A., (ii) position risk on quotas of funds underlying CPPI (Constant Proportion Portfolio Insurance) products for Banca IMI S.p.A., (iii) position risk on dividend derivatives, and (iv) position risk on commodities for Banca IMI S.p.A., the only legal entity in the Intesa Sanpaolo Group authorised to hold open positions in commodities. As of 1st April 2014, Internal model coverage includes hedge funds positions in Intesa Sanpaolo (look-through approach).

Since VaR is a synthetic indicator which does not fully identify all types of potential loss, risk management has been enriched with other measures, in particular simulation measures for the quantification of risks from illiquid parameters (dividends, correlation, ABS, hedge funds). VaR estimates are calculated daily based on simulations of historical time-series, a 99 per cent. confidence level and 1-day holding period.

Market risk banking book

Market risk originated by the banking book arises primarily in Intesa Sanpaolo and in the main subsidiaries that carry out retail and corporate banking. The banking book also includes exposure to market risks deriving from the equity investments in listed companies not fully consolidated, mostly held by Intesa Sanpaolo and by the subsidiaries Equiter and IMI Investimenti.

The methods used to measure market risks of the Intesa Sanpaolo Group's banking book are (i) VaR, and (ii) sensitivity analysis. VaR is calculated as the maximum potential loss in the portfolio's market value that could be recorded over a ten day holding period with a statistical 99 per cent. confidence level (parametric VaR). Besides measuring the equity portfolio, VaR is also used to consolidate exposure to financial risks of the various Intesa Sanpaolo Group's companies which perform banking book activities, thereby taking into account diversification benefits.

Shift sensitivity analysis quantifies the change in value of a financial portfolio resulting from adverse movements in the main risk factors (interest rate, foreign exchange, equity). For interest rate risk, an adverse movement is defined as a parallel and uniform shift of ±100 basis points of the interest rate curve. The measurements include an estimate of the prepayment effect and of the risk originated by customer sight loans and deposits, whose features of stability and of partial and delayed reaction to interest rate fluctuations have been studied by analysing a large collection of historical data, obtaining a maturity representation model through equivalent deposits. Equity risk sensitivity is measured as the impact of a price shock of ±10 per cent.

Furthermore, the sensitivity of the interest margin is measured by quantifying the impact on net interest income of a parallel and instantaneous shock in the interest rate curve of 100 basis points,

over a period of 12 months. Hedging activity of interest rate risk is aimed (i) at protecting the banking book from variations in the fair value of loans and deposits due to movements in the interest rate curve or (ii) at reducing the volatility of future cash flows related to a particular asset/liability.

The main types of derivative contracts used are interest rate swaps ("**IRS**"), overnight index swaps ("**OIS**"), cross currency swaps ("**CCS**") and options on interest rates stipulated by Intesa Sanpaolo with third parties or with other Intesa Sanpaolo Group companies (e.g. Banca IMI S.p.A.), which, in turn, cover the risk in the market so that the hedging transactions meet the criteria to qualify as IAS compliant for consolidated annual financial statements. Hedging activities performed by the Intesa Sanpaolo Group are recorded using various hedge accounting methods. A first method refers to the fair value hedge of specifically identified assets and liabilities (microhedging), mainly consisting of bonds issued or acquired by the Intesa Sanpaolo Group companies and loans to customers. Moreover, macro-hedging is carried out on the stable portion of on demand deposits in order to hedge against fair value changes intrinsic to the instalments under accrual generated by floating rate operations. Intesa Sanpaolo is exposed to this risk in the period from the date on which the rate is set and the interest payment date. Another hedging method used is the cash flow hedge which has the purpose of stabilising interest flow on both variable rate funding to the extent that the latter finances fixed-rate investments and on variable rate investments to cover fixed-rate funding (macro cash flow hedge).

The Financial and Market Risks Head Office Department is in charge of measuring the effectiveness of interest rate risk hedges for the purpose of hedge accounting, in compliance with international accounting standards.

Foreign exchange risk

Currency risk positions are taken in both trading and non-trading books. As with market risk, the currency risk in the trading books is controlled using VaR limits (see the methodological approach described above), while the structural currency risk in the non-trading books is mitigated by the practice of raising funds in the same currency as the assets.

Issuer and counterparty risk

Issuer risk in the trading portfolio is analysed in terms of mark to market, by aggregating exposures in rating classes and is monitored using a system of operating limits based on both rating classes and concentration indices. A limit at legal entity level (for Intesa Sanpaolo and Banca IMI S.p.A.) is also defined and monitored in terms of Incremental Risk Charge (Credit VaR calculated over a one year time horizon at a confidence level of 99.9 per cent. on bonds, single name CDS and index CDS relating to the issuer trading book portfolio of each bank). Counterparty risk, measured in terms of potential future exposure, is monitored both in terms of individual and aggregate exposures by the credit department. In order for risk to be managed effectively within Intesa Sanpaolo, the risk measurement system is integrated into decision-making processes and the management of company operations. Starting from end of March 2014, Bank of Italy authorised the use of the internal model for counterparty risk (EPE – Expected Positive Exposure) for regulatory purposes, with reference to the parent company Intesa Sanpaolo and Banca IMI.

Specifically, the following measures were defined and implemented:

- PFE (potential future exposure): evolution over time of the credit exposure (i.e. positive mark-to-market) with a 95% confidence level; this is a prudent measure used for credit monitoring purposes. PFE calculated for each counterparty is calculated every day by a risk management calculation engine and sent to credit monitoring engine.
- EPE (expected positive exposure): weighted average for the expected time of the credit exposure, where the weightings are the portions that each time step represents of the entire time period. This is a regulatory measure.
- CVA capital charge: sum of spread VaR calculated in current and stressed market conditions, of a CDS equivalent porfolios of sold protection with notional equal to the expected exposure of every counterparty. This is a regulatory measure.

Liquidity risk

Liquidity risk is defined as the risk that the Intesa Sanpaolo Group may not be able to meet its payment obligations due to the inability to procure funds on the market (funding liquidity risk) or liquidate its assets (market liquidity risk). These guidelines, annually updated, incorporate international best practices and regulatory developments in order to reflect Basel III liquidity requirements, as implemented by the CRD IV/ CRR and the Liquidity Coverage Ratio Delegated Act adopted by the Commission in October 2014 and published in the Official Journal of the European Union in January 2015.

Specific rules, metrics, processes, limits, roles and responsibilities are defined in the Liquidity Risk Management Guidelines in order to ensure a prudent control of liquidity risk and guarantee an adequate, balanced level of liquidity for the whole Intesa Sanpaolo Group.

Intesa Sanpaolo directly manages its own liquidity, coordinates liquidity management at Intesa Sanpaolo Group level, verifies the adoption of adequate control techniques and procedures, and provides complete and accurate information to the Operational Committees (Group Risk Governance Committee and Group Financial Risks Committee) and the relevant statutory bodies.

The internal short-term Liquidity Policy is aimed at ensuring an adequate, balanced level of cash inflows and outflows, in order to respond to periods of tension on the various funding sourcing markets, also by establishing adequate liquidity reserves in the form of assets eligible for refinancing with Central Banks or liquid securities on private markets. The internal structural Liquidity Policy incorporates the set of measures and limits designed to control and manage the risks deriving from the mismatch of medium to long term maturities of the assets and liabilities, essential for the strategic planning of liquidity management.

The Intesa Sanpaolo Group Guidelines also call for the periodic estimation of liquidity risk position in acute combined stress scenarios (both stress specific and market-related ones) and the introduction of a target threshold aimed at establishing an overall level of reserves suitable to meet greater cash outflows to restore the Intesa Sanpaolo Group to balanced conditions.

Together with these policies, Group Guidelines provide management methods to be used in a liquidity crisis scenario, defined as a situation wherein our Group has difficulty or is unable to meet its cash obligations falling due, without implementing procedures and/or employing instruments that, due to their intensity or manner of use, do not qualify as ordinary administration.

Finally, the Intesa Sanpaolo Group has a contingency liquidity plan in place, which has the objective of safeguarding the Intesa Sanpaolo Group's asset value and enabling the continuity of operations under conditions of a liquidity constriction, or even in the absence of liquidity in the market. The plan ensures the identification of the early warning signals and their ongoing monitoring, the definition of procedures to be implemented in situations of liquidity stress, the immediate lines of action, and the intervention measures for the resolution of emergencies.

Operational risk

Operational risk is defined as the risk of suffering losses due to inadequacy or failure of processes, human resources and internal systems, or as a result of external events. Operational risk includes legal risk, which is the risk of losses deriving from breaches of laws or regulations, contractual, out-of-contract responsibilities or other disputes, ICT (information and communication technology) risk and model risk. Strategic and reputational risks are not included

The Intesa Sanpaolo Group has long defined the overall operational risk management framework by setting up a Group policy and organisational processes for measuring, managing and controlling operational risk.

The control of the Group's operational risk was attributed to the management board, which identifies risk management policies, and to the supervisory board, which is in charge of their approval and verification, as well as of the guarantee of the functionality, efficiency and effectiveness of the risk management and control system.

The tasks with which the Intesa Sanpaolo Group Internal Control Coordination and Operational Risk Committee is charged include periodically reviewing the Intesa Sanpaolo Group's overall operational risk profile, authorising any corrective measures, coordinating and monitoring the effectiveness of the main mitigation activities and approving operational risk transfer strategies.

The Intesa Sanpaolo Group has a centralised function within the Enterprise Risk Management Department for the management of the Intesa Sanpaolo Group's operational risk. This function is responsible for the definition, implementation, and monitoring of the methodological and organisational framework, as well as for the measurement of the risk profile, the verification of mitigation effectiveness and reporting to top management.

In compliance with the prevailing regulations, the individual Organisational Units are responsible for the identification, assessment, management and mitigation of risk. Specific functions have been identified within these Organisational Units responsible for the Operational Risk Management processes of their unit (collection and structured census of information relating to operational events, scenario analyses and assessment of the level of risk associated with the business environment).

The integrated Self-Diagnosis process, which has been conducted on an annual basis, has allowed the Intesa Sanpaolo Group to:

- identify, measure, monitor and mitigate operational risk through identification of the main operational problem issues and definition of the most appropriate mitigation actions; and
- create significant synergies with the other functions with control duties of the Personnel and Organisation Department that supervise the planning of operational processes and business continuity issues, with the Administrative and Financial Governance and with control functions (Compliance and Internal Auditing) that supervise specific regulations and issues (Legislative Decree 231/01, Law 262/05) or conduct tests of the effectiveness of controls of company processes.

The Self-Diagnosis process identified a good overall level of control of operational risks and contributed to enhancing the diffusion of a business culture focused on the ongoing control of these risks.

The process of collecting data on operational events (in particular operational losses, obtained from both internal and external sources) provides significant information on the exposure. It also contributes to building knowledge and understanding of the exposure to operational risk, on the one hand, and assessing the effectiveness or potential weaknesses of the internal control system, on the other hand.

The internal model for calculating capital absorption is conceived in such a way as to combine all the main sources of quantitative and qualitative information (Self-Diagnosis).

The quantitative component is based on an analysis of historical data concerning internal events (recorded by organisational units, appropriately verified by the central function and managed by a dedicated IT system) and external events (the *Operational Riskdata eXchange Association - ORX*).

The qualitative component (scenario analysis) focuses on the forward-looking assessment of the risk exposure of each unit and is based on the structured, organised collection of subjective estimates expressed directly by management (subsidiaries, Parent Company's business areas, the corporate centre) with the objective of assessing the potential economic impact of particularly severe operational events.

Capital-at-risk is therefore identified as the minimum amount at the Intesa Sanpaolo Group level required to bear the maximum potential loss (worst case); capital-at-risk is estimated using a "Loss Distribution Approach" model (actuarial statistical model to calculate the Value Risk of operational losses), applied on quantitative data and the results of the scenario analysis assuming a one-year estimation period, with a confidence level of 99.90 per cent; the methodology also applies a corrective factor, which derives from the qualitative analyses of the risk of the evaluation of the business environment (Business Environment Assessment Evaluation), to take account of the effectiveness of controls in the various organisational units.

Operational risks are monitored by an integrated reporting system which provides Management with support information for the management and/or mitigation of the operational risk.

In order to support the operational risk management process on a continuous basis, a structured training programme has been implemented for employees actively involved in this process.

The Intesa Sanpaolo Group activated a traditional operational risk transfer policy (to protect against offences such as employee disloyalty, theft and theft damage, cash and valuables in transit losses, computer fraud, forgery, earthquake and fire, cyber threats and third-party liability), which contributes to mitigating exposure to operational risk.

At the end of June 2013, in order to allow optimum use of the available operational risk transfer tools and to take advantage of the capital benefits, pursuant to applicable regulations the Group subscribed an insurance coverage policy named Operational Risk Insurance Programme, which offers additional coverage to traditional policies, significantly increasing the limit of liability, transferring the risk of significant operational losses to the insurance market. The internal model's insurance mitigation component was approved by the Bank of Italy in June 2013, with immediate effect of its benefits on operations and on the capital requirements.

Strategic Risk

Strategic risk is defined as the risk associated with a potential decrease in profits or capital due to changes in the operating environment of the Intesa Sanpaolo Group, misguided Intesa Sanpaolo Group's decisions, inadequate implementation of decisions, or an inability to sufficiently react to competitive forces. The Intesa Sanpaolo Group is able to mitigate strategic risk by following the implemented policies and procedures that place strategic decision making responsibility with the supervisory board and management board, who are supported by the Intesa Sanpaolo Group's departments and committees.

Reputational Risk

Reputational risk is defined as the current and prospective risk of a decrease in profits or capital due to a negative perception of Intesa Sanpaolo's image by customers, counterparties, shareholders, investors and supervisory authorities. The Intesa Sanpaolo Group actively manages its image in the eyes of all stakeholders and aims to prevent and contain any negative effects on its image, including through robust, sustainable growth capable of creating value for the Bank and all of its stakeholders, while also minimising possible adverse events through rigorous, stringent governance, control and guidance of the activity performed at the various service and function levels.

Reputational risk is managed and mitigated by:

- organizational units with specific tasks on reputational risk management in a systematical and autonomous way;

- across organizational units, through the Reputational Risk Management process, coordinated by the Enterprise Risk Management Department in cooperation with organizational units with specific tasks in reputational risk management.

The "**systematic**" protection system requires:

- identified organizational units that, under their area of responsibility, safeguard the Group reputation and manage the relationship with the various stakeholders;
- an integrated system for the management and control of primary risks;
- the respect of ethic and conduct standard requirements; and
- the definition and management of client's risk tolerance, by determining the risk tolerance profiles depending on the subjective and objective client characteristics.

The "**across**" protection system is based on the annual Reputational Risk Management (RRM) process, aimed at the integration and consolidation of the main results provided by the organizational units with specific tasks in reputational risk management; the goal of the RRM process is to identify and mitigate the more relevant reputational risk scenarios the Group may face and is based on the following steps:

- the Enterprise Risk Management Department identifies the main scenarios the Group may face with the cooperation of the other involved organizational units;
- the Top Management assesses the selected scenarios; and
- the definition and monitoring of adequate communication strategies and specific mitigation actions are set.

The Intesa Sanpaolo Group adopts a Code of Ethics that sets out the basic values to which it intends to commit itself and enunciates the voluntary principles of conduct for dealings with all stakeholders (customers, employees, suppliers, shareholders, the environment and, more generally, the community) with broader objectives than those required by mere compliance with the law. The Intesa Sanpaolo Group has also issued voluntary conduct policies (environmental policy and arms industry policy) and adopted international principles (UN Global Compact, UNEP FI, Equator Principles) aimed at pursuing respect for the environment and human rights.

The Intesa Sanpaolo Group aims to achieve constant improvement of reputational risk governance also through an integrated compliance risk management system, as it considers compliance with the regulations and fairness in business to be fundamental to the conduct of banking operations, which by nature is founded on trust.

Risk on owned real-estate assets

The risk on owned real-estate assets may be defined as a risk associated with the possibility of suffering financial losses due to an unfavourable change in the value of such assets.

Risks specific to Intesa Sanpaolo Group's insurance business

Life business

The typical risks of life insurance portfolios (managed by Intesa Sanpaolo Vita, Intesa Sanpaolo Life and Fideuram Vita) may be divided into three main categories: premium risks, actuarial and demographic risks and reserve risks.

Premium risks are protected initially during the establishment of the technical features of the product and its pricing, and over the life of the instrument by means of periodic checks on the sustainability and profitability (both at product level and at portfolio level, including all liabilities). When preparing a product for market, profit testing is used to measure profitability and identify any weaknesses beforehand.

Actuarial and demographic risks arise when an unfavourable trend is recorded in the actual loss ratio compared with the trend estimated when the rate was calculated, and these risks are reflected in the level of "reserves". This loss ratio refers not only to actuarial loss, but also to financial loss (guaranteed interest rate risk). Intesa Sanpaolo manages these risks by performing systematic statistical analysis of the evolution of liabilities in its own contract portfolio divided by risk type and through simulations of expected profitability of the assets hedging technical reserves.

Intesa Sanpaolo manages reserve risk through the calculation of mathematical reserves, with a series of checks as well as overall verifications performed by comparing results with the estimates produced on a monthly basis. Intesa Sanpaolo Group places an emphasis on using the correct assumption for contracts by checking the relative portfolio against the movements during the period and the consistency of the amounts settled compared with the reserves' movements. The mathematical reserves are calculated in respect of the portfolio on a contract-by-contract basis taking all future commitments into account.

Non-life business

The typical risks of the non-life insurance portfolio (managed through Intesa Sanpaolo Assicura) are essentially premium and reserve risk. Premium risks are protected initially while the product's technical features and pricing are established, and over the life of the instrument by means of periodic checks on the sustainability and profitability (both at product level and at portfolio level, including all liabilities). Reserve risk is managed through the exact calculation of technical reserves. In particular, technical reserves may be divided into a premium reserve, a

damage fund, a reserve for profits and reversals, other technical reserves and a reserve for equalisation.

Financial risks

In line with the growing focus in the insurance sector on the issues of value, risk and capital in recent years, a series of initiatives have been launched to strengthen risk governance and manage and control risk-based capital. With regard to both investment portfolios for the coverage of obligations with the insured and free capital, an internal regulation was adopted in order to define the investment policy. The aim of the investment policy is the control and monitoring of market and credit risks. The policy defines the goals and operating limits to distinguish the investments in terms of eligible assets and asset allocation, breakdown by rating classes and credit risk, concentration risk by issuer and sector, and market risks (in turn measured in terms of sensitivity to variations in risk factors and VaR). Investment decisions, portfolio growth and compliance with operating limits are reviewed on a monthly basis by specific investment committees.

Investment portfolios

The investments of the insurance subsidiaries of Intesa Sanpaolo Group are aimed at covering free capital and obligations with customers, namely life policies with profit participation clauses, index linked and unit-linked policies, pension funds and casualty policies. Life policies with profit participation clauses offer the insured the ability to receive a share of the profit from the fund management (the segregated fund) and a minimum guaranteed level, and therefore generate proprietary market and credit risks for the insurance company. Index linked and unit-linked policies, which usually do not present direct risks, are monitored with regard to reputational risks.

Competition

In recent years the Italian banking sector has been characterised by ever increasing competition which, together with the level of interest rates, has caused a sharp reduction in the difference between lending and borrowing interest rates and subsequent difficulties in maintaining a positive growth trend in interest rate margin.

In particular, such competition has had two main effects:

- a progressive reduction in the differential between lending and borrowing interest rate, which may result in Intesa Sanpaolo facing difficulties in maintaining its actual rate of growth in interest rate margins; and
- a progressive reduction in commissions and fees, particularly from dealing on behalf of third parties and orders collection, due to competition on prices.

Both of the above factors may adversely affect Intesa Sanpaolo's financial condition and result of operations.

In addition, downturns in the Italian economy could add to the competitive pressure through, for example, increased price pressure and lower business volumes for which to compete.

Legal risks

The Intesa Sanpaolo Group is involved in various legal proceedings. Management believes that such proceedings have been properly analysed by the Intesa Sanpaolo Group and its subsidiaries in order to decide upon, if necessary or opportune, any increase in provisions for litigation to an adequate extent according to the circumstances and, with respect to some specific issues, to refer to it in the Covered Bonds to the consolidated annual financial statements in accordance with the applicable accounting standards. For more detailed information, see paragraph headed "*Legal Risks*" from page 108 to 121.

Changes in regulatory framework

The Intesa Sanpaolo Group is subject to extensive regulation and supervision by the Bank of Italy, the Italian Securities and Exchange Commission (**CONSOB**), the European Central Bank (**ECB**) and the European System of Central Banks (**ESCB**). The banking laws to which the Intesa Sanpaolo Group is subject govern the activities in which banks may engage and are designed to maintain the safety and soundness of banks, and limit their exposure to risk. In addition, the

Intesa Sanpaolo Group must comply with financial services laws that govern its marketing and selling practices. The regulatory framework governing international financial markets is currently being amended in response to the credit crisis, and new legislation and regulations are being introduced in Italy and the European Union that will affect the Intesa Sanpaolo Group, including proposed regulatory initiatives that could significantly alter the Intesa Sanpaolo Group's capital requirements.

The rules applicable to banks and other entities in banking groups include implementation of measures consistent with the regulatory framework set out by the Basel Committee on Banking Supervision (the **Basel Committee** or **BCBS**) which aim to preserve stability and solidity and limit risk exposure of such entities. The Intesa Sanpaolo Group is also subject to regulations applicable to financial services that govern, among other things, the sale, placement and marketing of financial instruments as well as to those applicable to its bank-assurance activities. In particular, the Group is subject to the supervision of CONSOB and the Institute for the Supervision of Private Insurance. The Issuer is also subject to the rules applicable to it as an issuer of shares listed on the Milan Stock Exchange.

In accordance with the regulatory frameworks defined by the supervisory authorities mentioned above and consistent with the regulatory framework being implemented at the European Union level, the Intesa Sanpaolo Group has in place specific procedures and internal policies to monitor, among other things, liquidity levels and capital adequacy, the prevention and detection of money laundering, privacy protection, ensuring transparency and fairness in customer relations and registration and reporting obligations. Despite the existence of these procedures and policies, there can be no assurance that violations of regulations will not occur, which could adversely affect the Intesa Sanpaolo Group's results of operations, business and financial condition. In addition, as at the date of this Base Prospectus, certain laws and regulations have only been recently approved and the relevant implementation procedures are still in the process of being developed.

In particular, in the wake of the global financial crisis that began in 2008, the Basel Committee approved, in the fourth quarter of 2010, revised global regulatory standards (**Basel III**) on bank capital adequacy and liquidity, higher and better-quality capital, better risk coverage, measures to promote the build-up of capital that can be drawn down in periods ofstress and the introduction of a leverage ratio as a backstop to the risk-based requirement as well as two global liquidity standards (Liquidity Coverage Ratio and Net Stable Funding Ratio). The Basel III framework adopts a gradual approach, with the requirements to be implemented over time, with full enforcement in 2019.

Basel III and CRD IV

In December 2009, the Basel Committee proposed strengthening the global capital framework, and in December 2010, January 2011 and July 2011, the Basel Committee issued its final guidance on the proposed changes to capital adequacy and liquidity requirements ("**Basel III**"), which envisaged a substantial strengthening of capital rules existing at the time, including by, among other things, raising the quality and quantity of the Common Equity Tier 1 base in a harmonised manner (including through changes to the items which give rise to adjustments to that capital base), introducing requirements for Additional Tier 1 and Tier 2 capital instruments to have a mechanism that requires them to be written off or converted into ordinary shares at the point of a bank's non-viability, strengthening the risk coverage of the capital framework, promoting the build-up of capital buffers and introducing a new leverage ratio and global minimum liquidity standards for the banking sector.

In January 2013 the BCBS revised its original proposal in respect of the liquidity requirements in light of concerns raised by the banking industry, providing for a gradual phasing-in of the Liquidity Coverage Ratio with a full implementation in 2019 as well as expanding the definition of high quality liquid assets to include lower quality corporate securities, equities and residential mortgage backed securities. Regarding the other liquidity requirement, the Net Stable Funding Ratio (the "**NSFR**"), the BCBS published the final rules in October 2014 which will take effect from 1st January 2018.

The Basel III framework has been implemented in the EU through Directive 2013/36/EU of the European Parliament and of the Council of 26th June 2013 on access to the activity of credit

institutions and the prudential supervision of credit institutions and investment firms (the "**CRD IV**") and Regulation (EU) No. 575/2013 of the European Parliament and of the Council of 26th June 2013[1] on prudential requirements for credit institutions and investment firms (the "**CRR**" and together with the CRD IV, the "**CRD IV Package**").

The implementation began on 1st January 2014, with particular elements being phased in over a period of time (the requirements will be largely fully effective by 2019 and some minor transitional provisions provide for the phase-in until 2024) but it is possible that in practice implementation under national laws be delayed. Additionally, it is possible that Member States may introduce certain provisions at an earlier date than that set out in the CRD IV Package. It should also be noted that the ECB has repeatedly declared its intention to harmonize the options and national discretions that are embedded in the CRR/CRD IV and to this aim it will publish a regulation in March 2016, exercising the options and discretions that fall within the remit of national competent authorities. The new rules aim at creating a level playing field within the SSM area and could have an impact on banks' current prudential requirements.

In Italy the Government has approved the Legislative Decree no. 72 of 12th May 2015, implementing the CRD IV. Such decree entered into force on 27th June 2015. The new regulation impacts, *inter alia*, on:

(i). proposed acquirers of credit institutions' holdings, shareholders and Members of the management body requirements (Articles 22, 23 and 91 CRD IV);

(ii). competent authorities' powers to intervene in cases of crisis management (Articles 64, 65, 102 and 104 CRD IV);

(iii). reporting of potential or actual breaches of national provisions (so called whistleblowing, (Article 71 CRD IV); and

(iv). administrative penalties and measures (Article 65 CRD IV).

Moreover, the Bank of Italy published new supervisory regulations on banks in December 2013 (Circular of the Bank of Italy No. 285 of 17th December 2013 (the "**Circular No. 285**")) which came into force on 1st January 2014, implementing the CRD IV Package and setting out additional local prudential rules concerning matters not harmonised at the EU level.

Between 1st January 2014 and 31st December 2014, Italian banks were required to comply with (i) a minimum CET1 Capital ratio of 4.5%[2], (ii) a minimum Tier I Capital ratio of 5.5%[3] and (iii) a Total Capital Ratio of 8%. Upon expiry of this transitional period Italian banks shall at all times satisfy the following own funds requirements: (i) a CET 1 capital ratio of 4,5%; (ii) a Tier 1 Capital ratio of 6%; and (iii) a Total Capital Ratio of 8 %.These minimum ratios are complemented by the following capital buffers to be met with CET1 Capital:

- *Capital conservation buffer*: set at 2.5% of risk weighted assets and applies to Intesa Sanpaolo from 1st January 2014 (pursuant to Article 129 of the CRD IV and Title II, Chapter I, Section II of Circular No. 285);
- *Counter-cyclical capital buffer*: set by the relevant competent authority between 0% - 2.5% (but may be set higher than 2.5% where the competent authority considers that the conditions in the member state justify this), with gradual introduction from 1st January 2016 and applying temporarily in the periods when the relevant national authorities judge the credit growth excessive (pursuant to Article 130 of the CRD IV and Title II, Chapter I, Section III of Circular No. 285);
- *Capital buffers for globally systemically important banks* ("**G-SIBs**"): set as an "additional loss absorbency" buffer ranging from 1.0% to 3.5% determined according to specific indicators (size, interconnectedness, lack of substitutes for the services provided, global activity and complexity); to be phased in from 1st January 2016 (pursuant to Article 131 of

[1] Final Corrigendum published on 30 November, 2013

[2] Bank of Italy Circular n. 285 of 17 December 2013 (Transitional Provisions)

[3] Bank of Italy Circular n. 285 of 17 December 2013 (Transitional Provisions)

the CRD IV and Title II, Chapter I, Section IV of Circular No. 285) becoming fully effective on 1st January 2019; and

- *Capital buffers for other systemically important banks at a domestic level*: up to 2.0% as set by the relevant competent authority (reviewed at least annually from 1st January 2016), to compensate for the higher risk that such banks represent to the financial system). (pursuant to Article 131 of the CRD IV and Title II, Chapter 1, Section IV of Circular No. 285).

In addition to the above listed capital buffers, under Article 133 of the CRD IV each Member State may introduce a Systemic Risk Buffer of Common Equity Tier 1 Capital for the financial sector or one or more subsets of the sector, in order to prevent and mitigate long term non-cyclical systemic or macro-prudential risks not covered by CRR, in the meaning of a risk of disruption in the financial system with the potential to have serious negative consequences to the financial system and the real economy in a specific Member State. The Member States setting the buffer will have to notify the Commission, the EBA, and the ESRB and the competent and designated authorities of the Member States concerned. For buffer rates between 3% and 5%, the Commission will provide an opinion on the measure decided and if this opinion is negative, the Member States will have to "comply or explain". Buffer rates above 5% will need to be authorized by the Commission through an implementing act, taking into account the opinions provided by the ESRB and by the EBA.

Failure to comply with such combined buffer requirements triggers restrictions on distributions and the need for the bank to adopt a capital conservation plan on necessary remedial actions (Articles 140 and 141 of the CRD IV). At this stage no provision is included on the systemic risk buffer under Article 133 of the CRD IV as the Italian level-1 rules for the CRD IV implementation on this point have not yet been enacted.

As part of the CRD IV Package transitional arrangements, as implemented by Circular No. 285, regulatory capital recognition of outstanding instruments which qualified as Tier 1 and Tier 2 capital instruments under the framework which the CRD IV Package has replaced (CRD III) that no longer meet the minimum criteria under the CRD IV Package will be gradually phased out. Fixing the base at the nominal amount of such instruments outstanding on 1st January 2013, their recognition is capped at 80% in 2014, with this cap decreasing by 10% in each subsequent year (see, in particular, Part Two, Chapter 14, Section 2 of Circular No. 285).

The new liquidity requirements introduced under the CRD IV Package are the Liquidity Coverage Ratio and the NSFR**.** The Liquidity Coverage Ratio Delegated Act was adopted in October 2014 and published in the Official Journal of the European Union in January 2015. It shall be applicable from 1st October 2015, under a phase-in approach before it becomes fully applicable from 1st January 2018. On the NSFR, in the light of the reports to be prepared by the EBA by 31st December 2015, the Commission will prepare, if appropriate, a legislative proposal by the end of 2016, with aims to comply with NSFR implementation in 2018, as per the Basel rules approved in October 2014. In any case, Member States may maintain or introduce national provisions in the area of stable funding requirements before binding minimum standards for net stable funding requirements are specified and introduced in the European Union.

The CRD IV Package also introduces a new leverage ratio with the aim of restricting the level of leverage that an institution can take on to ensure that an institution's assets are in line with its capital. The Leverage Ratio Delegated Act was published in the Official Journal of the European Union in January 2015. Institutions have been required to disclose their leverage ratio from 1st January 2015. Full implementation and European harmonisation, however, is not expected until 1st January 2018, following the European Commission's review in 2016 of whether or not the ratio should be introduced as a binding measure.

As a result of the changes described above, there is uncertainty as to regulatory requirements that the Issuer will be required to comply with. Furthermore, should the Issuer not be able to implement the approach to capital requirements it considers optimal in order to meet the capital requirements imposed by the CRD IV Package, it may be required to maintain levels of capital which could potentially impact its credit ratings, funding conditions and limit the Issuer's growth opportunities.

The CRD IV Package contains specific mandates for the EBA to develop draft regulatory or implementing technical standards as well as guidelines and reports related to liquidity coverage ratio in order to enhance regulatory harmonisation in Europe through the EBA Supervisory Handbook (as defined below). As regards liquidity, the CRD IV Package tasks the EBA with advising on appropriate uniform definitions of liquid assets for the Liquidity Coverage Ratio. In addition, the CRD IV Package states that the EBA shall report to the Commission on the operational requirements for the holdings of liquid assets. Furthermore the CRD IV Package also tasks the EBA with advising on the impact of the liquidity coverage requirement, on the business and risk profile of institutions established in the European Union, on the stability of financial markets, on the economy and on the stability of the supply of bank lending. The EBA has submitted a number of technical standards and guidelines on the subject to the European Commission and the Commission adopted its delegated act to implement the Liquidity Coverage Ratio (LCR) in the EU, on 10th October 2014 and published in the Official Journal of the European Union in January 2015.

In addition to the substantial changes in capital and liquidity requirements introduced by Basel III and the CRD IV Package, there are several other initiatives, in various stages of finalisation, which represent additional regulatory pressure over the medium term and will impact the EU's future regulatory direction. These initiatives include, amongst others, a revised Markets in Financial Instruments EU Directive and Markets in Financial Instruments EU Regulation, which entered into force on 2nd July 2014 with implementation required at Member States level as from January 2017 subject to certain transitional arrangements, and the Bank Recovery and Resolution EU Directive which is required to be implemented by Member States by 1st January 2015 (with the bail-in provisions becoming applicable as of 1st January 2016). The Basel Committee has also published certain proposed changes to the current securitisation framework which may be accepted and implemented in due course.

One of the main proposed changes to the global regulatory framework is for G-SIBs to be required to have a minimum Total Loss Absorbing Capacity ("**TLAC**"). In November 2014, the Financial Stability Board (the "FSB") published a consultation document setting out its proposals for TLAC, which were endorsed at the Group of Twenty's (G20) Brisbane conference in November 2014. The FSB on November 2015 issued the final TLAC standard for G-SIBs, with application starting from 2019.

G-SIBs will be required to meet the TLAC requirement alongside the minimum regulatory requirements set out in the Basel III framework. Specifically, they will be required to meet a Minimum TLAC requirement of at least 16% of the resolution group's risk-weighted assets (TLAC RWA Minimum) as from 1 January 2019 and at least 18% as from 1 January 2022. Minimum TLAC must also be at least 6% of the Basel III leverage ratio denominator (TLAC Leverage Ratio Exposure (LRE) Minimum) as from 1 January 2019, and at least 6.75% as from 1 January 2022.Liabilities that are eligible for TLAC shall be capital instruments and instruments that are contractually, statutorily or structurally subordinated to certain "excluded liabilities" (including insured deposits and liabilities that cannot be effectively written down or converted into equity by relevant authorities) in a manner that does not give rise to a material risk of compensation claims or successful legal challenges. The impact on G-SIBs may well come ahead of 2019, as markets may force earlier compliance and as banks will need to adapt their funding structure in advance.

Moreover, it is worth mentioning the Basel Committee has embarked on a very significant RWA variability review. This includes the "*Fundamental Review of the Trading Book*", revised standardised approaches (credit, market, operational risk) and a consultation paper on a capital floor. The regulator's primary aim is to eliminate unwarranted levels of RWA variance. The finalization of the new framework is likely to be expected in the course of 2016 for all the relevant workstreams. The new setup will have a revolutionary impact on risk modelling: directly on the exposures assessed via standardized approach, but also indirectly on internal ratings based approach ("**IRB**") RWA, due to the introduction of capital floors that, according to the new framework, will be calculated basing on the revised standardized approach.

In addition, as mentioned above, the European Commission intends to develop the net stable funding ratio with the aim of introducing it from 1st January 2018.

Such changes in the regulatory framework and how they are implemented may have a material effect on all the European banks and on the Intesa Sanpaolo Group's business and operations. As the new framework of banking laws and regulations affecting the Intesa Sanpaolo Group is currently being implemented, the manner in which those laws and related regulations will be applied to the operations of financial institutions is still evolving. No assurance can be given that laws and regulations will be adopted, enforced or interpreted in a manner that will not have an adverse effect on the business, financial condition, cash flows and results of operations of the Intesa Sanpaolo Group. Prospective investors in the Covered Bonds should consult their own advisers as to the consequences for them of the application of the above regulations as implemented by each Member State.

ECB Single Supervisory Mechanism

On 15th October 2013, the Council of the European Union adopted Council Regulation (EU) No. 1024/2013 conferring specific tasks on the ECB concerning policies relating to the prudential supervision of credit institutions (the "**SSM Regulation**") for the establishment of a single supervisory mechanism (the "**Single Supervisory Mechanism**" or "**SSM**"). From 4 November 2014 the SSM Regulation has given the ECB, in conjunction with the national regulatory authorities of the eurozone and participating Member States, direct supervisory responsibility over "banks of significant importance" in the eurozone. In this respect, "banks of significant importance" include any eurozone bank that (i) has assets greater than €30 billion or – unless the total value of its assets is below €5 billion – greater than 20% of national gross domestic product; (ii) is one of the three most significant credit institutions established in a Member State; (iii) has requested, or is a recipient of, direct assistance from the European Financial Stability Facility or the European Stability Mechanism; (iv) is considered by the ECB to be of significant relevance where it has established banking subsidiaries in more than one participating Member State and its cross-border assets/liabilities represent a significant part of its total assets/liabilities.

Notwithstanding the fulfilment of these criteria, the ECB, on its own initiative after consulting with national competent authorities or upon request by a national competent authority, may declare an institution significant to ensure the consistent application of high-quality supervisory standards. Intesa Sanpolo S.p.A. and the Intesa Sanpaolo Group have been classified, respectively, as a significant supervised entity and a significant supervised group within the meaning of Regulation (EU) No. 468/2014 of the European Central Bank of 16th April 2014 establishing the framework for co-operation within the Single Supervisory Mechanism between the European Central Bank and national competent authorities and with national designated authorities (the "**SSM Framework Regulation**") and, as such, are subject to direct prudential supervision by the ECB in respect of the functions conferred on the ECB by the SSM Regulation and the SSM Framework Regulation.

The relevant national competent authorities for the purposes of the SSM Regulation and the SSM Framework Regulation continue to be responsible, in respect of Intesa Sanpaolo and its subsidiaries, for supervisory functions not conferred on the ECB, such as consumer protection, money laundering, payment services, and supervision over branches of third country banks. The ECB, on the other hand, is exclusively responsible for key tasks concerning the prudential supervision of credit institutions, which includes, inter alia, the power to: (i) authorise and withdraw the authorisation of all credit institutions in the Eurozone and in the Member States participating to the SSM; (ii) assess acquisition and disposal of holdings in other banks; (iii) ensure compliance with all prudential requirements laid down in general EU banking rules; (iv) set, where necessary, higher prudential requirements for certain banks to protect financial stability under the conditions provided by EU law; (v) ensure compliance with robust corporate governance practices and internal capital adequacy assessment controls; and (vi) intervene at the early stages when risks to the viability of a bank exist, in coordination with the relevant resolution authorities.

In order to foster consistency and efficiency of supervisory practices across the eurozone, in April 2015 the EBA developed a Report on convergence of supervisory practices applicable to EU Member States (the "**EBA Supervisory Handbook**").

The Intesa Sanpaolo Group is subject to the provisions of the EU Recovery and Resolution Directive-

On 2nd July 2014, the directive providing for the establishment of an EU-wide framework for the recovery and resolution of credit institutions and investment firms (Directive 2014/59/EU) (the "**Banks Recovery and Resolution Directive**" or "**BRRD**") entered into force.

The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation - which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in - which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims to equity (the **general bail-in tool**), which equity could also be subject to any future application of the general bail-in tool.

The BRRD also provides for a Member State as a last resort, after having assessed and exhausted the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts or other liabilities as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down or convert into equity capital instruments at the point of non-viability and before any other resolution action is taken (**non-viability loss absorption**). Any shares issued upon any such conversion into equity may also be subject to any application of the general bail-in tool.

For the purposes of the application of any non-viability loss absorption measure, the point of non-viability under the BRRD is the point at which the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or that the institution will no longer be viable unless the relevant capital instruments are written-down or converted or extraordinary public support is to be provided and without such support the appropriate authority determines that the institution would no longer be viable.

The BRRD provides that Member States should apply the new "crisis management" measures from 1st January 2015, except for the general bail-in tool which is to be applied by 1st January

2016. The BRRD has been implemented in Italy through the adoption of two Legislative Decrees by the Italian Government, namely, Legislative Decrees No. 180/2015 and no.181/2015 (together, the BRRD Decrees) both of which where published in the Italian Official Gazette (*Gazzetta Ufficiale*) on 16th November 2015. Legislative Decree No. 180/2015 is a stand-alone law which implements the provisions of BRRD relating to resolution actions, while Legislative Decree No. 181/2015 amends the existing Banking Law (Legislative Decree No. 385 of 1 September 1993, as amended) and deals principally with recovery plans, early intervention and changes to the creditor hierarchy. The BRRD Decrees entered into force on 16 November 2015, save that: (i) the bail-in tool will apply from January, 2016; and (ii) a "depositor preference" granted fordeposits other than those protected by the deposit guarantee scheme and those of individuals and SME's will apply from 1 January 2019.

The powers set out in the BRRD and in the Decrees will impact how credit institutions and investment firms are managed as well as, in certain circumstances, the rights of creditors.

As of 2016 (or, if earlier, the date of national implementation of the BRRD), European banks will also have to comply with a Minimum Requirement for Eligible Liabilities (the "**MREL**"). The BRRD does not foresee an absolute minimum, but attributes the competence to set a minimum amount for each bank to national resolution authorities (for banks not being part of the Banking Union) or to the Single Resolution Board (the "**SRB**") for banks being part of the Banking Union. Differently from the current discussions on TLAC (see more above under "*Changes in Regulatory Framework*") MREL includes senior unsecured debt without ex-ante limitations. On 3rd July 2015 the European Banking Authority (EBA) has adopted and submitted to the Commission its Regulatory Technical Standards (the "**RTS**") which shall further define the way in which resolution authorities or the SRB shall determine the MREL. In the introductory remarks to the RTS, it is stated that the EBA expects the RTS to be "broadly compatible with the proposed FSB term sheet for TLAC for G-SIBs", adding that "while there are differences resulting from the nature of the EBA's mandate under the BRRD, as well as the fact that the BRRD MREL requirement applies to banks which are not G-SIBs, these differences do not prevent resolution authorities from implementing the MREL for G-SIBs consistently with the international framework."

The BRRD is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing. The implementation of the directive or the taking of any action under it could materially affect the value of any Covered Bond.

As of 2016 the Intesa Sanpaolo Group will be subject to the provisions of the Regulation establishing the Single Resolution Mechanism

On 19th August 2014, the Regulation (EU) No. 806/2014 establishing a Single Resolution Mechanism (the "**SRM Regulation**") entered into force.

The SRM is expected to be operational by 1st January 2016. There are, however, certain provisions including those concerning the preparation of resolution plans and provisions relating to the cooperation of the Single Resolution Board (the "**Board**") with national resolution authorities, which entered into force on 1st January 2015.

The SRM Regulation, which will complement the SSM (as defined above), will apply to all banks supervised by the SSM. It will mainly consist of the Board and a Single Resolution Fund (the "**Fund**").

A centralised decision-making process will be built around the Board and will involve the European Commission and the Council of the European Union – which will have the possibility to object to Board decisions – as well as the ECB and the national resolution authorities.

The Fund, which will back the SRM Regulation decisions mainly taken by the Board, will be divided into national compartments during an eight years transitional period, as set out by an intergovernmental agreement. Banks will start to pay contributions in 2015 to national resolution funds that will be transferred gradually into the Fund starting from 2016 (and will be additional to the contributions to the national deposit guarantee schemes).

This framework should be able to ensure that, instead of national resolution authorities, there will be a single authority – i.e. the Board – which will take all relevant decisions for the resolution of banks being supervised by the SSM and part of the Banking Union.

There are other benefits that will derive from the Banking Union. Such benefits are aimed at: (a) breaking the negative feed loop between banks and their sovereigns; (b) providing a solution to home-host conflicts in resolution; and (c) a competitive advantage that Banking Union banks will have *vis-à-vis* non-Banking Union ones, due to the availability of a larger resolution fund.

The Intesa Sanpaolo Group may be subject to a proposed EU regulation on mandatory separation of certain banking activities

On 29th January 2014, the European Commission adopted a proposal for a new regulation on structural reform of the European banking sector following the recommendations released on 31st October 2012 by the High Level Expert Group (the "**Liikanen Group**") on the mandatory separation of certain banking activities. The proposed regulation contains new rules which would prohibit the biggest and most complex banks from engaging in the activity of proprietary trading and introduce powers for supervisors to separate certain trading activities from the relevant bank's deposit-taking business if the pursuit of such activities compromises financial stability. Alongside this proposal, the Commission has adopted accompanying measures aimed at increasing transparency of certain transactions in the shadow banking sector.

The proposed regulation would apply to European banks that will eventually be designated as G-SIBs or that exceed the following thresholds for three consecutive years: a) total assets are equal or exceed €30 billion; b) total trading assets and liabilities are equal to or exceed €70 billion or 10 per cent. of their total assets. The banks that meet either one of the aforementioned conditions would be automatically banned from engaging in "proprietary trading" defined narrowly as activities using a bank's own capital or borrowed money to take positions in any type of transaction to purchase, sell or otherwise acquire or dispose of any financial instrument or commodities for the sole purpose of making a profit for own account, and without connection to actual or anticipated client activity or for the purpose of hedging the entity's risk as a result of actual or anticipated client activity. In addition, such banks would be prohibited also from investing in or holding shares in hedge funds, or entities that engage in proprietary trading or sponsor hedge funds. Other trading and investment banking activities – including market-making, lending to venture capital and private equity funds, investment and sponsorship of complex securitisation, sales and trading of derivatives – might be subject to separation, subject to the discretion of the bank's competent authority, however they might be subject to separation if such activities are deemed to pose a threat to financial stability or if they are found to exceed certain thresholds, to be further specified in secondary legislation. A general derogation from the rules is provided for UK banks, which will be subject to rules on ring-fencing of retail activities under the UK banking reform.

The proprietary trading ban would apply as of 1st January 2017 and the effective separation of other trading activities would apply as of 1st July 2018.

The Commission's proposal is currently being considered and is likely to be amended by the European Parliament and the Council in their function of co-legislators. The Council of the European Union has reached a "general approach" (informal agreement) on the text, while the Parliament has still not found an agreement on the draft report to the proposal. Therefore, there is still no final legislative text.

Should a mandatory separation be imposed, additional costs at Intesa Sanpaolo Group level are not ruled out, in terms of higher funding costs, additional capital requirements and operational costs due to the separation, lack of diversification benefits. Due to relatively limited trading activity, Italian banks could be penalized and put at a relative disadvantage in comparison with their main global and European competitors. As a result, the proposal could lead to the creation of an oligopoly where only the biggest players would be able to support the separation of the trading activities and the costs that will be incurred. An additional layer of complexity, leading to uncertainty, is the high risk of diverging approaches throughout Europe on this issue.

The Intesa Sanpaolo Group may be affected by a proposed EU Financial Transactions Tax

On 14th February 2013 the European Commission published a legislative proposal on a new Financial Transactions Tax (the **FTT**). The proposal followed the Council's authorisation to proceed with the adoption of the FTT through enhanced cooperation, i.e. adoption limited to 11 countries initially, now to 10 because Estonia left the enhanced cooperation - among which Italy, France, Germany and Austria. Although implementation was originally envisaged for 1st January 2014, the process has been repeatedly delayed. Finance Ministers of the EU11 Member States are currently aiming to reach an agreement, during the first half of 2016, which means that entry into force of the tax, if agreed, could slip to 2017.

If adopted, the impact on the "real economy" of the FTT as currently envisaged – especially for corporations – could be severe as many financial transactions are made on behalf of businesses that would bear the additional costs of the tax. For example, a transaction tax would raise the cost of the sale and purchase of corporate bonds in a time where it is widely acknowledged that access to capital markets by corporate issuers has to be incentivised.

Moreover, it is a matter of concern for the Intesa Sanpaolo Group that the proposal does not exempt the transfers of financial instruments within a group. Thus, if a financial instrument is not purchased for a client but only moved within a banking group, each transaction would be subject to taxation. Also, the inclusion of derivatives and repos/lending transactions in the taxation scope clashes with the efficiency of financial markets.

However, the FTT proposal remains subject to negotiation between the participating Member States and the scope of any such tax is uncertain. Additional EU Member States may decide to participate.

The Intesa Sanpaolo Group may be affected by new accounting standards

Following the entry into force and subsequent application of new accounting standards, regulatory rules and/or the amendment of existing standards and rules (including the ECB's comprehensive assessment of European banks), the Intesa Sanpaolo Group may have to revise the accounting and regulatory treatment of certain transactions and the related income and expense.

In this regard, it should be pointed out that a relevant change is expected in future periods from the finalisation of IFRS 9. In particular, IFRS 9 which has been issued on 24th July 2014, will introduce significant changes with regard to classification, measurement, impairment and hedge accounting of financial instruments, replacing IAS 39. IASB decided that the mandatory effective date of IFRS 9 will be 1st January 2018. Application of this Standard to European Union entities will be subject to European Commission endorsement.

At a national level the Italian competent authorities approved new regulations that could adversely affect the business and the profitability of the Intesa Sanpaolo Group.

The Intesa Sanpaolo Group's business is focused primarily on the Italian domestic market and therefore adverse economic conditions in Italy or a delayed recovery in the Italian market may have particularly negative effects on the Intesa Sanpaolo Group's financial condition and results of operations

Although the Intesa Sanpaolo Group operates in many countries, Italy is its primary market. Its business is therefore particularly sensitive to adverse macroeconomic conditions in Italy.

The persistence of adverse economic conditions in Italy, or a slower recovery in Italy compared to other OECD nations, could have a material adverse effect on the Intesa Sanpaolo Group's business, results of operations or financial condition.

In addition, any downgrade of the Italian sovereign credit rating or the perception that such a downgrade may occur, may destabilise the markets and have a material adverse effect on the

Intesa Sanpaolo Group's operating results, liquidity position, financial condition and prospects as well as on the marketability of the Covered Bonds.

Governmental and central banks' actions intended to support liquidity may be insufficient or discontinued

In response to the financial markets crisis, the reduced liquidity available to market operators in the industry, the increase of risk premiums and the capital requirements demanded by investors, intervention with respect to the level of capitalisation of banking institutions has had to be further increased. In many countries, this has been achieved through support measures for the financial system and direct intervention by governments in the share capital of the banks in different forms. In order to technically permit such government support, financial institutions were required to pledge securities deemed appropriate by different central financial institutions as collateral.

The unavailability of liquidity through such measures, or the decrease or discontinuation of such measures by governments and central authorities could result in increased difficulties in procuring liquidity in the market and/or result in higher costs for the procurement of such liquidity, thereby adversely affecting the Intesa Sanpaolo Group's business, financial condition and results of operations.

3. Risks Factors relating to the Covered Bonds

The Covered Bonds may not be a suitable investment for all investors

Each potential investor in the Covered Bonds must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

(i) have sufficient knowledge and experience to make a meaningful evaluation of the Covered Bonds, the merits and risks of investing in the Covered Bonds and the information contained or incorporated by reference in this Base Prospectus or any applicable supplement;

(ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Covered Bonds and the impact the Covered Bonds will have on its overall investment portfolio;

(iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Covered Bonds, including Covered Bonds where the currency for principal or interest payments is different from the potential investor's currency;

(iv) understand thoroughly the terms of the Covered Bonds and be familiar with the behaviour of any relevant indices and financial markets; and

(v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Some Covered Bonds are complex financial instruments. Sophisticated institutional investors generally do not purchase complex financial instruments as stand-alone investments. They purchase complex financial instruments as a way to reduce risk or enhance yield with an understood, measured, appropriate addition of risk to their overall portfolios. A potential investor should not invest in Covered Bonds which are complex financial instruments unless it has the expertise (either alone or with a financial adviser) to evaluate how the Covered Bonds will perform under changing conditions, the resulting effects on the value of the Covered Bonds and the impact this investment will have on the potential investor's overall investment portfolio.

Risks related to the structure of a particular issue of Covered Bonds

Covered Bonds issued under the Programme will either be fungible with an existing Series (in which case they will form part of such Series) or have different terms to an existing Series (in which case they will constitute a new Series). All Covered Bonds issued from time to time will rank *pari passu* with each other in all respects and will share equally in the security granted by the Covered Bond Guarantor under the Covered Bond Guarantee. If an Issuer Event of Default

and/or a Covered Bond Guarantor Event of Default occurs and results in acceleration, all Covered Bonds of all Series will accelerate at the same time.

A number of these Covered Bonds may have features which contain particular risks for potential investors. Under no circumstances shall the interest payments for the Covered Bondholders be less than zero. Set out below is a description of the most common of such features:

(a) Covered Bonds subject to optional redemption by the Issuer

An optional redemption feature of Covered Bonds is likely to limit their market value. During any period when the Issuer may elect to redeem Covered Bonds, the market value of those Covered Bonds generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period.

The Issuer may be expected to redeem Covered Bonds when its cost of borrowing is lower than the interest rate on the Covered Bonds. At those times, an investor generally would not be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Covered Bonds being redeemed and may only be able to do so at a significantly lower rate. Potential investors should consider reinvestment risk in light of other investments available at that time.

(b) Zero Coupon Covered Bonds

The Issuer may issue Covered Bonds which do not pay current interest but are issued at a discount from their nominal value or premium from their principal amount. Such Covered Bonds are characterised by the circumstance that the relevant covered bondholders, instead of benefitting from periodical interest payments, shall be granted an interest income consisting in the difference between the redemption price and the issue price, which difference shall reflect the market interest rate. A holder of a zero coupon covered bond is exposed to the risk that the price of such covered bond falls as a result of changes in the market interest rate. Prices of zero coupon Covered Bonds are more volatile than prices of fixed rate Covered Bonds and are likely to respond to a greater degree to market interest rate changes than interest bearing Covered Bonds with a similar maturity. Generally, the longer the remaining terms of such Covered Bonds, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

(c) Fixed/Floating Rate Covered Bonds

Fixed/Floating Rate Covered Bonds may bear interest at a rate that the Issuer may elect to convert from a fixed rate to a floating rate, or from a floating rate to a fixed rate. The Issuer's ability to convert the interest rate will affect the secondary market and the market value of the Covered Bonds since the Issuer may be expected to convert the rate when it is likely to produce a lower overall cost of borrowing. If the Issuer converts from a fixed rate to a floating rate, the spread on the Fixed/Floating Rate Covered Bonds may be less favourable than then prevailing spreads on comparable Floating Rate Covered Bonds tied to the same reference rate. In addition, the new floating rate at any time may be lower than the rates on other Covered Bonds. If the Issuer converts from a floating rate to a fixed rate, the fixed rate may be lower than then prevailing rates on its Covered Bonds.

(d) Partly-paid Covered Bonds

The Issuer may issue Covered Bonds where the issue price is payable in more than one instalment. Failure to pay any subsequent instalment could result in an investor losing all of his investment.

(e) Covered Bonds issued at a substantial discount or premium

The market values of securities issued at a substantial discount or premium from their principal amount tend to fluctuate more in relation to general changes in interest rates than do prices for conventional interest-bearing securities. Generally, the longer the remaining term of the securities, the greater the price volatility as compared to conventional interest-bearing securities with comparable maturities.

Risks related to Covered Bonds generally

Set out below is a brief description of certain risks relating to the Covered Bonds generally.

Certain decisions of Representative of the Covered Bondholders taken without the consent or sanction of any of the Covered Bondholders

Pursuant to the Rules of the Organisation of the Covered Bondholders, the Representative of the Covered Bondholders may, without the consent or sanction of any of the Covered Bondholders concur with the Issuer and/or the Covered Bond Guarantor and any other relevant parties in making or sanctioning any modifications to the Rules of the Organisation of the Covered Bondholders, the Conditions and/or the other Transaction Documents:

(i) provided that in the opinion of the Representative of the Covered Bondholders such modification is not materially prejudicial to the interests of any of the Covered Bondholders of any Series; or

(ii) which in the opinion of the Representative of the Covered Bondholders are made to correct a manifest error or an error established as such to the satisfaction of the Representative of the Covered Bondholders or of a formal, minor or technical nature, or are made to comply with mandatory provisions of law.

In establishing whether an error is established as such, the Representative of the Covered Bondholders may have regard to any evidence on which the Representative of the Covered Bondholders considers reasonable to rely on, and may, but shall not be obliged to, have regard to all or any of the following:

(i) a certificate from a Relevant Dealer, stating the intention of the parties to the relevant Transaction Document, confirming nothing has been said to, or by, the investors or any other parties which is in any way inconsistent with such stated intention and stating the modification to the relevant Transaction Document that is required to reflect such intention;

(ii) confirmation from the Rating Agency that, after giving effect to such modification, the Covered Bonds shall continue to have the same credit ratings as those assigned to them immediately prior to the modification.

Covered Bondholders are bound by Extraordinary Resolutions and Programme Resolutions

A meeting of Covered Bondholders may be called to consider matters which affect the rights and interests of Covered Bondholders. These include (but are not limited to): (i) instructing the Representative of the Covered Bondholders to take enforcement action against the Issuer and/or the Covered Bond Guarantor; (ii) reduction or cancellation of the amount payable or, where applicable, modification of the method of calculating the amount payable or modification of the date of payment or, where applicable, modification of the method of calculating the date of payment in respect of any principal or interest in respect of the Covered Bonds; (iii) alteration of the currency in which payments under the Covered Bonds are to be made; (iv) alteration of the majority required to pass an Extraordinary Resolution; and (v) any amendments to the Covered Bond Guarantee or the Pledge Agreement (except in a manner determined by the Representative of the Covered Bondholders not to be materially prejudicial to the interests of the Covered Bondholders of any Series).

Certain decisions of Covered Bondholders shall be taken at a Programme level by means of Programme Resolution. A Programme Resolution will bind all Covered Bondholders, irrespective of whether they attended the meeting or voted in favour of the Programme Resolution. No Resolution, other than a Programme Resolution, passed by the holders of one Series of Covered Bonds will be effective in respect of another Series unless it is sanctioned by an Ordinary Resolution or an Extraordinary Resolution, as the case may require, of the holders of that other Series. Any Resolution passed at a meeting of the Covered Bondholders of a Series shall bind all other holders of that Series, irrespective of whether they attended the meeting and whether they voted in favour of the relevant Resolution.

It should also be noted that after the delivery of a Notice to Pay, the protection and exercise of the Covered Bondholders' rights against the Issuer will be exercised by the Covered Bond Guarantor (or the Representative of the Bondholders on its behalf). The rights and powers of the Covered Bondholders may only be exercised in accordance with the Rules of the Organisation of the Covered Bondholders. In addition, after the delivery of a Covered Bond Guarantor Acceleration Notice, the protection and exercise of the Covered Bondholders' rights against the Covered Bond

Guarantor and the security under the Covered Bond Guarantee is one of the duties of the Representative of the Covered Bondholders. The Conditions limit the ability of each individual Covered Bondholder to commence proceedings against the Covered Bond Guarantor by conferring on the meeting of the Covered Bondholders the power to determine in accordance with the Rules of the Organisation of the Covered Bondholders, whether any Covered Bondholder may commence any such individual actions.

Controls over the transaction

The BoI OBG Regulations require that certain controls be performed by the Issuer (see paragraph headed "*Controls over the transaction*" under the section headed "*Selected aspects of Italian law*"), aimed, *inter alia*, at mitigating the risk that any obligation of the Issuer or the Covered Bond Guarantor under the Covered Bonds is not complied with. Whilst the Issuer believes that it has implemented the appropriate policies and controls in compliance with the relevant requirements, investors should note that there is no assurance that such compliance ensures that the aforesaid controls are actually performed and that any failure to properly implement the relevant policies and controls could have an adverse effect on the Issuer's or the Covered Bond Guarantor's ability to perform their obligations under the Covered Bonds.

Limits to the integration

Under the BoI OBG Regulations, any integration, whether through Eligible Assets or Integration Assets shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations (see paragraph headed "*Tests set out in the MEF Decree*" under the section headed "*Selected aspects of Italian law*").

More specifically, under the BoI OBG Regulations, integration is allowed exclusively for the purpose of (i) complying with the tests provided for under the MEF Decree; (ii) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements; or (iii) complying with the Integration Assets Limit.

Investors should note that the integration is not allowed in circumstances other than as set out in the BoI OBG Regulations and specified above.

EU Savings Tax Directive

Under EC Council Directive 2003/48/EC (the "**EU Savings Tax Directive"**) on the taxation of savings income in the form of interest payments, each Member State is required to provide to the tax authorities of another Member State details of payments of interest or similar income paid by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity (as defined under article 4.2 of the EU Savings Tax Directive) established in that other Member State. However, for a transitional period, Austria is required to (unless during that period it elects otherwise) operate a withholding system in relation to such payments.

For a transitional period, Austria may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent.

A number of non-EU countries (including Switzerland) and certain dependent or associated territories of certain Member States have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

On 10th November 2015, the Council of the European Union adopted a Council Directive repealing the EU Savings Tax Directive with effect from 1st January 2017 in the case of Austria and from 1st January 2016 in the case of all other Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the EU Savings Tax Directive and a new automatic

exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The new regime under Council Directive 2011/16/EU (as amended) is in accordance with the Global Standard released by the Organisation for Economic Cooperation and Development in July 2014. Council Directive 2011/16/EU (as amended) is generally broader in scope than the EU Saving Directive, although it does not impose withholding taxes.

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of, tax were to be withheld from that payment, neither the Issuer nor any Paying Agent (as defined in the Conditions) nor any other person would be obliged to pay additional amounts with respect to any Covered Bonds as a result of the imposition of such withholding tax. The Issuer is required to maintain a Paying Agent in a Member State that is not obliged to withhold or deduct tax pursuant to the EU Savings Tax Directive.

Implementation in Italy of the EU Savings Tax Directive

Italy has implemented the EU Savings Tax Directive through Legislative Decree No. 84 of 18 April 2005 ("**Decree 84"**). Under Decree 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another Member State, Italian qualified paying agents shall not apply the withholding tax and shall report to the Italian Tax Authorities details of the relevant payments and personal information on the individual beneficial owner. Such information is transmitted by the Italian Tax Authorities to the competent foreign tax authorities of the State of residence of the beneficial owner. On 10 November 2015, the Council of the European Union adopted a Council Directive repealing the EU Savings Tax Directive in order to prevent overlap between the EU Savings Tax Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation.

Base Prospectus to be read together with applicable Final Terms

The terms and conditions of the Covered Bonds (other than the Registered Covered Bonds) included in this Base Prospectus apply to the different types of Covered Bonds which may be issued under the Programme. The terms and conditions applicable to each Series of Covered Bonds (other than the Registered Covered Bonds) can be reviewed by reading the Conditions as set out in this Base Prospectus, which constitute the basis of all Covered Bonds (other than the Registered Covered Bonds) to be offered under the Programme, together with the applicable Final Terms which complete the Conditions of the Programme in the manner required to reflect the particular terms and conditions applicable to the relevant Series of Covered Bonds. The full terms and conditions applicable to each Series of Registered Covered Bonds can be reviewed by reading the relevant Registered Covered Bond Certificate, the relevant Registered Covered Bond Conditions and any schedule or ancillary agreement attached or relating thereto.

Representative of the Covered Bondholders' powers may affect the interests of the Covered Bondholders

In the exercise of its powers, trusts, authorities and discretions the Representative of the Covered Bondholders shall only have regard to the interests of the Covered Bondholders and the other Secured Creditors but if, in the opinion of the Representative of the Covered Bondholders, there is a conflict between these interests, the Representative of the Covered Bondholders shall have regard solely to the interests of the Covered Bondholders.

If, in connection with the exercise of its powers, trusts, authorities or discretions, the Representative of the Covered Bondholders is of the opinion that the interests of the Covered Bondholders of any one or more Series would be materially prejudiced thereby, the Representative of the Covered Bondholders shall not exercise such power, trust, authority or discretion without the approval of such Covered Bondholders by Extraordinary Resolution or by a direction in writing of such Covered Bondholders of at least 25 per cent. of the Outstanding Principal Balance of the Covered Bonds of the relevant Series.

4. Risk factors relating to the Covered Bond Guarantor and the Covered Bond Guarantee

Covered Bond Guarantor only obliged to pay the Guaranteed Amounts on the Due for Payment Date

The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts payable under the Covered Bond Guarantee until service by the Representative of the Covered Bondholders:

(i) on the Covered Bond Guarantor, following the occurrence of an Article 74 Event or an Issuer Event of Default, respectively, of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay; and

(ii) following the occurrence of a Covered Bond Guarantor Event of Default, on the Covered Bond Guarantor of a Covered Bond Guarantor Acceleration Notice.

An Article 74 Notice to Pay can only be served if an Article 74 Event occurs and results in service by the Representative of the Covered Bondholders of an Article 74 Notice to Pay on the Issuer and the Covered Bond Guarantor. A Notice to Pay can only be served if an Issuer Event of Default occurs and results in service by the Representative of the Covered Bondholders of a Notice to Pay on the Issuer and the Covered Bond Guarantor. A Covered Bond Guarantor Acceleration Notice can only be served if a Covered Bond Guarantor Event of Default occurs.

Following service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay on the Covered Bond Guarantor (provided that (i) an Article 74 Event or an Issuer Event of Default has occurred and (ii) no Covered Bond Guarantor Acceleration Notice has been served) under the terms of the Covered Bond Guarantee, the Covered Bond Guarantor will be obliged to pay the Guaranteed Amounts as on the Due for Payment Date. Such payments will be subject to and will be made in accordance with the Post-Issuer Default Priority of Payments. In these circumstances, other than the Guaranteed Amounts, the Covered Bond Guarantor will not be obliged to pay any amount, for example in respect of broken funding indemnities, penalties, premiums, default interest or interest on interest which may accrue on or in respect of the Covered Bonds.

Pursuant to the Covered Bond Guarantee, following the occurrence of an Article 74 Event or an Issuer Event of Default and service, respectively, of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, but prior to the occurrence of any Covered Bond Guarantor Event of Default, the Covered Bond Guarantor shall substitute the Issuer in every and all obligations of the Issuer towards the Covered Bondholders, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration of the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the right of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

Furthermore, please note that the above restrictions are provided for by either the MEF Decree or contractual agreements between the parties of the Covered Bond Guarantee, and there is no case-law or other official interpretation on this issue. Therefore, we cannot exclude that a court might uphold a Covered Bondholder's right to act directly against the Issuer.

Extendable obligations under the Covered Bond Guarantee

With respect to the Series of Covered Bonds in respect of which the Extendable Maturity is specified in the relevant Final Terms, if the Covered Bond Guarantor is obliged under the Covered Bond Guarantee to pay a Guaranteed Amount and has insufficient funds available under the relevant Priority of Payments to pay such amount on the Maturity Date, then the obligation of the Covered Bond Guarantor to pay such Guaranteed Amounts shall automatically be deferred to the relevant Extended Maturity Date. However, to the extent the Covered Bond Guarantor has sufficient monies available to pay in part the Guaranteed Amount in respect of the relevant Series of Covered Bonds, the Covered Bond Guarantor shall make such partial payment in accordance with the relevant Priorities of Payments, as described in Condition 9 (*Redemption and Purchase*)

on the relevant Maturity Date and any subsequent CB Payment Date falling prior to the relevant Extended Maturity Date. Payment of the unpaid amount shall be deferred automatically until the applicable Extended Maturity Date. Interest will continue to accrue and be payable on the unpaid Guaranteed Amount on the basis set out in the applicable Final Terms or, if not set out therein, in Condition 9 (*Redemption and Purchase*), *mutatis mutandis*. In these circumstances, except where the Covered Bond Guarantor has failed to apply money in accordance with the relevant Priorities of Payments in accordance with Condition 9 (*Redemption and Purchase*), failure by the Covered Bond Guarantor to pay the relevant Guaranteed Amount on the Maturity Date or any subsequent CB Payment Date falling prior to the Extended Maturity Date (or the relevant later date following any applicable grace period) shall not constitute a Covered Bond Guarantor Event of Default. However, failure by the Covered Bond Guarantor to pay any guaranteed amount or the balance thereof, as the case may be, on the relevant Extended Maturity Date and/or pay any other amount due under the Covered Bond Guarantee will (subject to any applicable grace period) constitute a Covered Bond Guarantor Event of Default.

No Gross-up for Taxes by the Covered Bond Guarantor

Notwithstanding anything to the contrary in this Base Prospectus, if withholding of, or deduction of any present or future taxes, duties, assessments or charges of whatever nature is imposed by or on behalf of Italy, any authority therein or thereof having power to tax, the Covered Bond Guarantor will make the required withholding or deduction of such taxes, duties, assessments or charges for the account of the Covered Bondholders, as the case may be, and shall not be obliged to pay any additional amounts to the Covered Bondholders.

Limited resources available to the Covered Bond Guarantor

The Covered Bond Guarantor's ability to meet its obligations under the Covered Bond Guarantee will depend on the realisable value of the Portfolio, the amount of principal and revenue proceeds generated by the Portfolio and/or the Eligible Investments and the timing thereof and amounts received from the Hedging Counterparties and the Relevant Account Bank. The Covered Bond Guarantor will not have any other source of funds available to meet its obligations under the Covered Bond Guarantee.

If a Covered Bond Guarantor Event of Default occurs, the proceeds of the Portfolio, the Eligible Investments and the amounts received from the Hedging Counterparties and the Relevant Account Bank, may not be sufficient to meet the claims of all the Secured Creditors, including the Covered Bondholders. If the Secured Creditors have not received the full amount due to them pursuant to the terms of the Transaction Documents, then they may still have an unsecured claim against the Issuer for the shortfall. There is no guarantee that the Issuer will have sufficient funds to pay that shortfall.

Covered Bondholders should note that the Nominal Value Test and the Amortisation Test have been structured to ensure that the Nominal Value of the Portfolio and the Amortisation Test Aggregate Portfolio Amount, as applicable, shall be greater than or equal to the Outstanding Principal Balance of the Covered Bonds. In addition, the MEF Decree provide for certain further tests aimed at ensuring that (a) the net present value of the Eligible Portfolio (net of certain costs) shall be greater than or equal to the net present value of the Covered Bonds; and (b) the amount of interest and other revenues generated by the Portfolio (net of certain costs) shall be greater than or equal to the interest and costs due by the Issuer under the Covered Bonds.

However there is no assurance that there will not be a shortfall in the amounts available to the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Value of the Portfolio

The Covered Bond Guarantee granted by the Covered Bond Guarantor in respect of the Covered Bonds will be backed by the Portfolio and the recourse against the Covered Bond Guarantor will be limited to such assets. The value of the Covered Bond Guarantor's assets may decrease (for example if there is a general decline in property values). The Seller makes no representation, warranty or guarantee that the value of a real estate asset will remain at the same level as it was on the date of the origination of the related Mortgage Loan or at any other time. If the residential and/or commercial property market in Italy experiences an overall decline in property values, the

value of the Mortgage Loan could be significantly reduced and, ultimately, may result in losses to the Covered Bondholders if such security is required to be enforced.

Reliance of the Covered Bond Guarantor on third parties

The Covered Bond Guarantor has entered into agreements with a number of third parties, which have agreed to perform services for the Covered Bond Guarantor. In particular, but without limitation, the Servicer and the Special Servicers have been appointed, in accordance with the terms of the Servicing Agreement as to their respective duties and obligations, to service the Receivables and the Securities included in the Portfolio and the Asset Monitor has been appointed to monitor compliance with the Tests. In the event that any of those parties fails to perform its obligations under the relevant agreement to which it is a party, the realisable value of the Portfolio or any part thereof may be affected, or, pending such realisation (if the Portfolio or any part thereof cannot be sold), the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee may be affected. For instance, if the Servicer has failed to adequately administer the Portfolio, this may lead to higher incidences of non-payment or default by Debtors. The Covered Bond Guarantor is also reliant on the Hedging Counterparties to provide it with the funds matching its obligations under the Covered Bond Guarantee.

If an event of default occurs in relation to the Servicer and/or any relevant Special Servicer pursuant to the terms of the Servicing Agreement, then the Covered Bond Guarantor, with the prior written consent of the Representative of the Covered Bondholders, will be entitled to terminate the appointment of the Servicer and/or the relevant Special Servicer (as the case may be) and appoint a Successor Servicer and/or a Successor Special Servicer (as the case may be). There can be no assurance that a successor with sufficient experience in carrying out the activities of the Servicer and/or the relevant Special Servicer would be found and would be willing and able to carry out the relevant activities on the terms of the Servicing Agreement. The ability of a Successor Servicer and/or a Successor Special Servicer to perform fully the required services would depend, among other things, on the information, software and records available at the time of the appointment. Any delay or inability to appoint a Successor Servicer and/or a Successor Special Servicer may affect the realisable value of the Portfolio or any part thereof, and/or the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee.

The Representative of the Covered Bondholders is not obliged in any circumstances to act as Servicer and/or Special Servicer nor shall the Representative of the Covered Bondholders be under any obligation to monitor or supervise the observance and performance by the Servicer and/or the Special Servicers of their respective obligations under the Transaction Documents, pursuant to paragraph 28.2.2 of the Rules.

Reliance on Hedging Counterparties

To provide a hedge against interest rate risks and/or currency risk in respect of each Series of the Covered Bonds issued under the Programme, the Covered Bond Guarantor may enter into the Liability Swaps with the Liability Hedging Counterparty. Additionally, to provide a hedge against interest rate risk and/or currency risk on the Portfolio, the Covered Bond Guarantor entered into the Asset Swaps with the Asset Hedging Counterparty.

If the Covered Bond Guarantor fails to make timely payments of amounts due under any Swap Agreement, then it will (unless otherwise stated in the relevant Swap Agreement) have defaulted under that Swap Agreement. A Hedging Counterparty is (unless otherwise stated in the relevant Master Agreement) only obliged to make payments to the Covered Bond Guarantor as long as the Covered Bond Guarantor complies with its payment obligations under the relevant Swap Agreement. In circumstances where non-payment by the Covered Bond Guarantor under a Swap Agreement does not result in a default under that Swap Agreement, the Hedging Counterparty shall make payments to the Covered Bond Guarantor pursuant to the Master Agreement as if payment had been made by the Covered Bond Guarantor. Any amounts not paid by the Covered Bond Guarantor to a Hedging Counterparty may in such circumstances incur additional amounts of interest by the Covered Bond Guarantor, which would rank senior to amounts due on the Covered Bonds. If the Hedging Counterparty is not obliged to make payments or if it defaults in its obligations to make payments of amounts in the relevant currency equal to the full amount to be paid to the Covered Bond Guarantor on the payment date under the Master Agreement, the

Covered Bond Guarantor will be exposed to changes in the relevant currency exchange rates to Euro and to any changes in the relevant rates of interest.

If a Swap Agreement terminates, then the Covered Bond Guarantor may be obliged to make a termination payment to the relevant Hedging Counterparty. There can be no assurance that the Covered Bond Guarantor will have sufficient funds available to make a termination payment under the relevant Swap Agreement, nor can there be any assurance that the Covered Bond Guarantor will be able to enter into a subsequent swap agreement.

If the Covered Bond Guarantor is obliged to pay a termination payment under any Master Agreement, such termination payment may rank ahead of amounts due on the Covered Bonds and with amounts due under the Covered Bond Guarantee. Accordingly, the obligation to pay a termination payment may adversely affect the ability of the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Limited description of the Portfolio

Covered Bondholders may not receive detailed statistics or information in relation to the Eligible Assets and Integration Assets included in the Portfolio, because it is expected that the constitution of the Portfolio will frequently change due to, for instance:

(i) the Seller selling further Eligible Assets and Integration Assets;

(ii) the Seller (for as long as it acts as the Servicer in the context of the Programme) being granted by the Covered Bond Guarantor with wide powers to renegotiate the terms and conditions of the Receivables and the Securities included in the Portfolio; and

(iii) the Seller repurchasing certain Eligible Assets and Integration Assets in the limited circumstances provided for under the Master Transfer Agreement.

However, each Receivable and Security being, from time to time, part of the Portfolio, will be required to meet the Criteria and/or the characteristics (as applicable) set out in the Master Transfer Agreement and to conform to the representations and warranties granted by the Seller under the Master Transfer Agreement (see paragraph headed "*Master Transfer Agreement*" under the section headed "*Description of the Transaction Documents*"). In addition, the Tests are intended to ensure, *inter alia*, that the ratio of the Covered Bond Guarantor's assets to the Covered Bonds is maintained at a certain minimum level and the Asset Cover Report to be provided by the Calculation Agent on each Calculation Date will set out, *inter alia*, certain information in relation to the Tests.

In accordance with the Portfolio Administration Agreement, an Additional Seller may sell to the Covered Bond Guarantor, and the latter shall purchase, Eligible Assets and Integration Assets, subject to, *inter alia*: (i) the execution of a master transfer agreement by such Additional Seller, substantially in the form of the Master Transfer Agreement, and (ii) the granting of a subordinated loan by such Additional Seller for the purpose of financing the purchase of Eligible Assets or Integration Assets from it, in accordance with the provision of a subordinated loan agreement to be executed substantially in the form of the Subordinated Loan Agreement.

Sale of Selected Assets and/or Integration Assets following the occurrence of an Article 74 Event or an Issuer Event of Default

Following the service of an Article 74 Notice to Pay (which has not been withdrawn) or of a Notice to Pay and prior to the occurrence of a Covered Bond Guarantor Event of Default (if necessary in order to effect timely payments under the Covered Bonds, as determined by the Calculation Agent) the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, shall sell Selected Assets and/or Integration Assets, in accordance with, and subject to, the terms of the Portfolio Administration Agreement.

There is no guarantee that a buyer will be found to acquire Selected Assets and/or Integration Assets at the times required and there can be no guarantee or assurance as to the price which may be able to be obtained for such Selected Assets and/or Integration Assets, which may affect payments under the Covered Bond Guarantee. However, the Selected Assets and/or Integration Assets may not be sold by the Servicer, or any other third party appointed by the Representative

of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor for an amount lower than the Adjusted Required Redemption Amount for the relevant Series of Covered Bonds until 6 (six) months prior to the Maturity Date in respect of such Covered Bonds or (if the same is specified as applicable in the relevant Final Terms) the Extended Maturity Date in respect of such Covered Bonds. If, *inter alia*, Selected Assets and/or Integration Assets have not been sold (in whole or in part) in an amount equal to the Adjusted Required Redemption Amount by the date which is 6 (six) months prior to the Maturity Date or Extended Maturity Date of a Series of Covered Bonds which are not Long Dated Covered Bonds, the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, is obliged to sell the Selected Assets and/or the Integration Assets for the best price reasonably available notwithstanding that such price may be less than the Adjusted Required Redemption Amount (see paragraph headed "*Portfolio Administration Agreement*" under the section headed "*Description of the Transaction Documents*").

Realisation of assets following the occurrence of a Covered Bond Guarantor Event of Default

If a Covered Bond Guarantor Event of Default occurs and a Covered Bond Guarantor Acceleration Notice is served on the Covered Bond Guarantor, then the Representative of the Covered Bondholders shall, in the name and on behalf of the Covered Bond Guarantor, direct the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, to sell the Selected Assets and/or the Integration Assets as quickly as reasonably practicable taking into account the market conditions at that time (see paragraph headed "*Portfolio Administration Agreement*" under the section headed "*Description of the Transaction Documents*").

There is no guarantee that the proceeds of realisation of the Portfolio will be in an amount sufficient to repay all amounts due to creditors (including the Covered Bondholders) under the Covered Bonds and the Transaction Documents. If a Covered Bond Guarantor Acceleration Notice is served on the Covered Bond Guarantor, then the Covered Bonds may be repaid sooner or later than expected or not at all.

Factors that may affect the realisable value of the Portfolio or the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee

Following the occurrence of an Issuer Event of Default, the service of a Notice to Pay on the Issuer and on the Covered Bond Guarantor, the realisable value of the assets included in the Portfolio may be reduced (which may affect the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee) by, *inter alia*:

(i) default by the Debtors on amounts due in respect of Eligible Assets and Integration Assets;

(ii) set-off risks in relation to some types of Eligible Assets and Integration Assets included in the Portfolio;

(iii) limited recourse to the Covered Bond Guarantor;

(iv) possible regulatory changes by the Bank of Italy, CONSOB and other regulatory authorities;

(v) adverse movement of the interest rate;

(vi) unwinding cost related to the hedging structure; and

(vii) regulations in Italy that could lead to some terms of the Eligible Assets and Integration Assets being unenforceable.

Each of these factors is considered in more detail below. However, it should be noted that the Amortisation Test is intended to ensure that there will be an adequate amount of Eligible Assets and Integration Assets in the Portfolio and monies standing to the credit of the Accounts to enable the Covered Bond Guarantor to repay the Covered Bonds following an Issuer Event of Default, service of a Notice to Pay on the Issuer and on the Covered Bond Guarantor and, accordingly, it is expected (although there is no assurance) that Selected Assets and/or Integration Assets could be realised for sufficient values to enable the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Default by Debtors in paying amounts due on Receivables or Securities

Debtors may default on their obligations due under the Receivables or the Securities for a variety of reasons. The Eligible Assets and Integration Assets are affected by credit, liquidity and interest rate risks. Various factors influence delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies. Certain factors may lead to an increase in default by the Debtors, and could ultimately have an adverse impact on the ability of the Debtors to repay the Receivables or the Securities.

Changes to the lending criteria of the Seller

The Receivables originated by the Seller will have been originated in accordance with its lending criteria at the time of origination. It is expected that the Seller's lending criteria will generally consider term of loan, indemnity guarantee policies, status of applicants and credit history. In the event of the sale or transfer of any Receivable to the Covered Bond Guarantor, the Seller will warrant that such Receivables were originated in accordance with the Seller's lending criteria applicable at the time of origination. The Seller retains the right to revise its lending criteria from time to time, subject to the terms of the Master Transfer Agreement. However, if such lending criteria change in a manner that affects the creditworthiness of the Receivables, that may lead to increased defaults by Debtors and may affect the realisable value of the Portfolio and the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee. However, Defaulted Assets in the Portfolio will be given a zero weighting for the purposes of the calculation of the Tests.

5. Risks relating to the Mortgage Loans

The ability of the Covered Bond Guarantor to recover payments of interest and principal from the Mortgage Loans is subject to a number of risks. These include the risks set out below.

Mortgage Loans performance

The Receivables which shall be included in the Portfolio will be performing as at the relevant Selection Date. There can be no guarantee that the relevant Debtors will not default under the Mortgage Loans and that they will therefore continue to perform. The recovery of amounts due in relation to non-performing loans will be subject to the effectiveness of enforcement proceedings in respect of the Mortgage Loans, which in the Republic of Italy can take a considerable time, depending on the type of action required and where such action is taken and on several other factors, including the following: proceedings in certain courts involved in the enforcement of the Mortgage Loans and the relevant mortgages may take longer than the national average; obtaining title deeds from land registries which are in the process of computerising their records can take up to two or three years; further time is required if it is necessary to obtain an injunction decree (*decreto ingiuntivo*) and if the relevant Debtor raises a defence or counterclaim to the proceedings. According to statistics published by the Ministry of Justice in 2013 with regard to data as at 2011, the recovery period for loans in respect of which recovery is by foreclosure proceedings on the related mortgaged real estate usually last three years and three months, although such period may vary significantly depending upon, *inter alia*, the type and location of the related mortgaged real estate and the other factors described above.

Italian Law No. 302 of 3 August 1998, Italian Law No. 80 of 14 May 2005, Italian Law No. 263 of 28 December 2005 and the Italian Civil Procedure Code allow notaries public, lawyers or chartered accountant duly registered with the relevant register, as kept and updated from time to time by the president of the relevant court (*Presidente del Tribunale*), to conduct certain stages of the enforcement procedures in place of the courts.

In particular, if requested by a creditor, the notary public may issue a notarial certificate attesting the results of the searches with the *Catasto* and with the appropriate land registry (*Conservatoria dei Registri Immobiliari*). Such notarial certificate replaces several documents which are usually required to be attached by the mortgage lender to the motion for the sale of the mortgaged property and reduces the time normally required to obtain the documentation from the relevant public offices. Moreover, if appointed by the enforcement judge (*giudice dell'esecuzione*) (the

Judge) in the order authorising the sale of the mortgaged property, the notary public, the lawyer or the chartered accountant (as the case may be) will carry out, either in the event of a sale without auction (*vendita senza incanto*) or a sale at auction (*vendita con incanto*), the activities related to the sale of the mortgaged property, including: (i) determining the value of the property, (ii) deciding on the offers made on the mortgaged property, (iii) initiating further auctions or transfer, (iv) executing certain formal documents relating to the registration and filing with the land registry of the transfer decree prepared by the same notary public and issued by the Judge and (v) preparing the proceeds' distribution plan and forwarding the same to the Judge.

The above is expected to reduce the length of the enforcement proceedings.

Commingling risk

The Covered Bond Guarantor is subject to the risk that, in the event of insolvency of the Servicer, the Collections held at the time the insolvency occurs might be treated by the Servicer's bankruptcy estate as an unsecured claim of the Issuer. The Servicing Agreement includes provisions in relation to the transfer of Collections intended to reduce the amount of the monies from time to time subject to the commingling risk. In particular, pursuant to the Servicing Agreement, the Servicer has undertaken to pay all Collections into accounts of the Covered Bond Guarantor by no later than the second Business Day following the relevant collection.

Law Decree No. 91 introduced, *inter alia*, certain amendments to article 3 of Law 130, aimed at safeguarding collections generated in the context of a securitisation or covered bonds transaction.

In particular, pursuant to article 3, paragraph 2-*bis* of Law 130, no actions by persons other than the holders of the relevant securities can be brought on the accounts opened in the name of the special purpose vehicle with the account bank or the servicer, where the amounts paid by the debtors and any other sums paid or pertaining to the special purpose vehicle under the transactions ancillary to the transaction or otherwise under the transaction documents are credited. Such amounts may be applied by the special purpose vehicle exclusively in payment of (i) amounts due by special purpose vehicle the to the holder of the relevant securities; (ii) amounts due by the special purpose vehicle to any counterparty of any derivative transaction entered into by the special purpose vehicle in connection with the transaction for the purposes of hedging risks relating to the receivables and securities assigned; and (iii) the other creditors of the special purpose vehicle with respect to other costs incurred by the special purpose vehicle in connection with the transaction. In case of any proceedings pursuant to Title IV of the Banking Law, or any bankruptcy proceedings (*procedura concorsuale*), the sums credited to such accounts (whether before or during the relevant insolvency proceeding) shall not be subject to suspension of payments and shall be immediately and fully repaid to the special purpose vehicle, without the need to file any petition (*domanda di ammissione al passivo o di rivendica*) and wait for the distributions (*riparti*) and the restitutions of sums (*restituzioni di somme*).

Furthermore, pursuant to article 3, paragraph 2-*ter*, of Law 130, no actions by the creditors of the servicer can be brought on the sums credited to the accounts opened by the servicer with third party depository banks, save for any amount which exceeds the sums collected by the servicer and due from time to time to the special purpose vehicle. In case of any insolvency proceeding (*procedura concorsuale*) in respect of the servicer, the sums credited to such accounts (whether before or during the relevant insolvency proceeding), up to the amounts collected by the servicer and due to the special purpose vehicle, shall be immediately and fully repaid to the special purpose vehicle, without the need to file any petition (*domanda di ammissione al passivo o di rivendica*) and wait for the distributions (*riparti*) and the restitutions of sums (*restituzioni di somme*).

Set-off risks

The assignment of receivables under Law 130 is governed by Article 58, paragraph 2, 3 and 4, of the Banking Law. According to the prevailing interpretation of such provision, such assignment becomes enforceable against the relevant Debtors as of the later of: (i) the date of the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), and (ii) the date of registration of the notice of assignment in the Companies' Register of the place where the Covered Bond Guarantor has its registered office. Consequently, the rights of the Covered Bond Guarantor may be subject to the direct rights of the Debtors against the Seller, including rights of set-off on claims existing prior to publication in the

Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) and registration in the Companies' Register of the place where the Covered Bond Guarantor has its registered office. In addition, the exercise of set-off rights by Debtors may adversely affect any sale proceeds of the Portfolio and, ultimately, the ability of the Covered Bond Guarantor to make payments under the Covered Bond Guarantee.

Law Decree No. 145 introduced, *inter alia*, certain amendments to article 4 of Law 130. As a consequence of such amendments, it is now expressly provided by Law 130 that the Debtors cannot exercise rights of set-off against the Covered Bond Guarantor on claims arising *vis-à-vis* the Seller after the publication of the notice of assignment in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*).

Usury Law

Pursuant to Italian Law No. 108 of 7 March 1996 as amended by law decree number 70 of 13 May 2011 (the **Usury Law**), lenders are prevented from applying interest rates higher than those deemed to be usurious (the **Usury Rates**). Usury Rates are set on a quarterly basis by a decree issued by the Italian Treasury. With a view to limiting the impact of the application of the Usury Law to Italian loans executed prior to the entering into force of the Usury Law, Italian Law No. 24 of 28 February 2001 (**Law 24/2001**) provides (by means of interpreting the provisions of the Usury Law) that an interest rate is usurious if it is higher than the relevant limit in force at the time at which such interest rate is promised or agreed, regardless of the time at which interest is repaid by the borrower. A few commentators and debatable lower court decisions have held that, irrespective of the principle set out in Law 24/2001, if interest originally agreed at a rate falling below the then applicable usury limit (and thus, not usurious) were, at a later date, to exceed the usury limit from time to time in force, such interest should nonetheless be reduced to the then applicable usury limit. Recently, The Italian Supreme Court (*Corte di Cassazione*), under decision No. 350/2013 has clarified, for the first time, that the default interest are relevant for the purposes of determining if an interest rate is usurious. That interpretation is in contradiction with the current methodology for determining the Usury Rates, considering that the relevant surveys aimed at calculating the applicable average rate never took into account the default interest rates. In addition, the Italian Supreme Court (*Corte di Cassazione*), under decision No. 602/2013, has held that, with regard to loans granted before the entry into force of Usury Law, an automatic reduction of the applicable interest rate to the Usury Rates applicable from time to time shall apply.

Compounding of interest

Pursuant to article 1283 of the Italian Civil Code, in respect of a monetary claim or receivable, accrued interest may be capitalised after a period of not less than six months or from the date when any legal proceedings are commenced in respect of that monetary claim or receivable. Article 1283 of the Italian Civil Code allows derogation from this provision in the event that there are recognised customary practices to the contrary. Banks and other financial institutions in the Republic of Italy have traditionally capitalised accrued interest on a quarterly basis on the grounds that such practice could be characterised as a customary practice. However, a number of recent judgements from Italian courts (including judgements from the Italian Supreme Court (*Corte di Cassazione*) have held that such practices may not be defined as customary practices. Consequently if Debtors were to challenge this practice, it is possible that such interpretation of the Italian Civil Code would be upheld before other courts in the Republic of Italy and that the returns generated from the relevant Mortgage Loans may be prejudiced.

In this respect, it should be noted that Article 25, paragraph 3, of Legislative Decree No. 342 of 4 August 1999 (**Decree No. 342**), enacted by the Italian Government under a delegation granted pursuant to law No. 142 of 19 February 1992, has considered the capitalisation of accrued interest (*anatocismo*) made by banks prior to the date on which it came into force (19 October 1999) to be valid. After such date, the capitalisation of accrued interest is no longer possible upon the terms established by a resolution of the CICR issued on 22 February 2000. Law No. 342 has been challenged and decision No. 425 of 17 October 2000 of the Italian Constitutional Court has declared as unconstitutional under the provisions of Law No. 342 regarding the validity of the capitalisation of accrued interest made by banks prior to the date on which Law No. 342 came into force.

Recently, article 1, paragraph 629 of law No. 147 of 27 December 2013 (so called, "*Legge di Stabilità 2014*") amended article 120, paragraph 2, of the Banking Law, providing that interests shall not accrue on capitalised interests. However, given the novelty of this new legislation and the absence of any jurisprudential interpretation, the impact of such new legislation may not be predicted as at the date of this Base Prospectus.

Prepayment and renegotiations

Debtors are generally entitled to prepay their loans at any time. In the case of *mutui fondiari* the right to prepay the loan is provided for by Article 40 of the Banking Law.

In addition, pursuant to Legislative Decree No. 141 enacted on 13 August 2010, Article 120-quater has been added to the Banking Law for the purposes of providing debtors with certain rights and benefits, including the right to prepay their loans at any time, funding such prepayment by a loan granted by another lender (bank or other financial intermediary) which will be subrogated pursuant to article 1202 of the Italian Civil Code, into the rights of the original lender (*surrogazione per volontà del debitore*). The subrogation is effective regardless of the fact that the credit is still not due or that a term of payment in favour of the original lender had been agreed between the debtor and the original lender itself. Further to the subrogation, the lender will automatically replace the original lender also in relation to all guarantees to the relevant loan and no costs and expenses may be charged on the debtor.

Article 120-quater of the Banking Law was subsequently amended by Article 8, paragraph 8 of Law Decree No. 70 of 13 May 2011, converted into Law No. 106 enacted on 12 July 2011, according to which the provisions of Article 120-quater apply to loan agreements entered into between the bank or other financial intermediary and individuals or small companies (*micro-imprese*). Article 120-quarter was further amended by Law 24 March 2012, n. 27 and Law Decree No.179 of 18 October 2012, converted into Law No. 221 enacted on 17 December 2012, which respectively have introduced certain amendments (including, *inter alia*, to the timing for completion of the prepayment transactions and manner of calculating the penalty due by the bank).

The PMI Moratorium, the Piano Famiglie and the Decreto Sviluppo

The convention between ABI and the Ministry of Economic and Finance of 3 August 2009 (the **PMI Moratorium**) provides, *inter alia*, for a suspension of payments of instalments in respect of the principal of mortgage loans granted to small and medium enterprises (**PMI**) for a period of 12 months. The suspension applies on the condition that the instalments (i) are timely paid or in case of late payments, the relevant instalment has not been outstanding for more than 180 days from the date of request of the suspension. As further requirements, (i) the PMI must bear positive economic perspectives and be able to guarantee a business continuity or, in any case, be under "temporary" financial difficulties; (ii) that, on 30 September 2008, their positions were classified by the bank as performing; and (iii) that, at the time of the request of the suspension, they had no positions which could be classified as suffering and defaulting and no enforcement procedures were commenced. The Ministry of Economics and Finance's communication dated 13 January 2010 clarified that such suspension can be requested up to 30 June 2010; such term has been extended to 31 July 2011 under ABI communication dated 23 February 2011.

ABI communication dated 14 January 2010 (*Integrazione all'Avviso Comune per la Sospensione dei Debiti delle PMI verso il settore creditizio*) and ABI communication of 12 February 2010 provide for certain further integrations and clarifications of the PMI Moratorium and, in particular, extended the applicability of the objective to mortgage loans assisted by public benefits, where expressly resolved upon by the lender.

On 28 February 2012 ABI, the Ministry of Economic and Finance and the Ministry of Economic Development entered into a convention, as further amended, that updated the PMI Moratorium (*Nuove misure per il credito alle PMI*). Such convention provides, *inter alia*, for a suspension of payments of instalments in respect of the principal of mortgage loans granted to the PMI for a further period of 12 months provided that (i) such instalments have not matured for more than 90 days and (ii) the suspension is applied for by 31 December 2012. Such convention also provides that PMI may apply for the extension of the mortgage loans' duration provided that certain conditions are met. Subsequently ABI, the Ministry of Economic and Finance and the Ministry of

Economic Development entered into new conventions that updated the PMI Moratorium, the most recent conventions was entered into on 1 July 2013 and, *inter alia*, provided that (i) the suspension could be requested up to 30 September 2013 and (ii) any request for the extension of the mortgage loans' duration can be made up to 30 June 2014, or 31 December 2014, in respect of those loans which will be suspended as at 30 June 2014.

This latest agreement, which expired on 30 June 2014, was extended on 5 July 2014 by the signatories until 31 December 2014 and later until 31 March 2015, with the same contents.

The convention between ABI and the consumers' associations (the **Piano Famiglie**), stipulated on 18 December 2009 and extended on, respectively, 26 January 2011 and 25 July 2011, provides for a 12 month period suspension of payment of instalments relating to mortgage loans, where requested by the relevant Debtor during the period from 1 February 2010 to 31 January 2012 provided that the relevant requirements are satisfied before 31 December 2011. The suspension is allowed only where the following events have occurred: (i) termination of employment relationship; (ii) termination of employment relationships regulated under article 409 n. 3 of the Italian Civil Procedure Code; (iii) death or the occurrence of conditions pertaining to non-self sufficiency; and/or (iv) suspension from work or reduced working hours for a period of at least 30 days. The relevant events satisfying the subjective requirements must have occurred in respect of the relevant Debtor during the period from 1 January 2009 to 31 December 2011. The suspension can be requested on one occasion only, provided that the mortgage loans are granted for amounts not exceeding 150,000 Euro, granted for the purchase, construction or renovation of a primary residence (*mutui prima casa*): (i) mortgage loans assigned under securitisation or covered bond transactions pursuant to Law 130, (ii) renegotiated mortgage loans and (iii) mortgage loans whereby the relevant lender was subrogated pursuant to the Bersani Decree. Finally, in order to obtain such suspension of payments, the Debtor shall have an income not exceeding 40,000 Euro per year. The document clarifies that in the context of a securitisation or covered bond transaction, the special purpose vehicle, or the Bank acting on its behalf, can adhere to the *Piano Famiglie*. The suspension can be limited to principal instalments only or can encompass both principal and interest instalments.

On 31 January 2012 ABI and the consumers' associations entered into a convention (*Nuovo accordo*) that provides that the suspension of payment of instalments relating to mortgage loans may be applied for by 31 July 2012. Such convention amended the following conditions to be met in order to benefit from the suspension: (i) the conditions to benefit from the Piano Famiglia must be met by 30 June 2012; and (ii) the payment delays of instalments cannot exceed 90 days (instead of 180 days).

On 31 July 2012 ABI and the consumers' associations entered into a *Protocollo d'intesa*, amending the "*Nuovo Accordo"* above mentioned as follows:

1) the final term to apply for the suspension of payments has been postponed to the earlier between (i) the date on which regulations implementing the Art. 2, paragraph 475 and followings of Law No. 244 of 24 December 2007 relating to the Fund (as defined in the paragraph below) will be issued, and (ii) 31 January 2013.

2) the final term to meet the conditions necessary to benefit from the suspension of payment has been postponed to the earlier between (i) the date on which regulations implementing the Art. 2, paragraph 475 and followings of Law No. 244 of 24 December 2007 relating to the Fund (as defined in the paragraph below) will be issued, and (ii) 31 December 2012.

Furthermore, on 30 January 2013 ABI and the consumers' associations entered into a new *Protocollo d'intesa* amending the aforementioned conventions, which provided that the suspension of payment of instalments relating to mortgage loans may be applied for no later than 31 March 2013 and, in order to benefit from the suspension, (i) the conditions must be met by 28 February 2013 and (ii) the payment delays of instalments cannot exceed 90 days.

Law decree No. 70 of 13 May 2011, as converted into Law No. 106 of 12 July 2011 (the **Decreto Sviluppo**) provide for the right to renegotiate, subject to certain conditions and up to 31 December 2012, the floating rate or the final maturity of the mortgage loans executed prior to (and excluding) 14 May 2011 for the purpose of purchase, building or maintenance of the debtors' principal residence.

Article 1, paragraph 48, let. (c) of Italian law No. 147, dated 27 December 2013 introduced, *inter alios*, a special fund (*Fondo di garanzia per la prima casa*, hereinafter referred to as the **Fondo Prima Casa**) with the Ministry of Economic and Finance, implemented by Ministerial Decree dated 31 July 2014, whereby first demand, unconditional and irrevocable guarantees may be granted with respect to mortgage loans, with amounts not exceeding 250,000 Euro, granted by banks and financial intermediaries for purchasing and restructuring a primary residence (*prima casa*) in Italy.

Such guarantees may be granted up to 50% of the quota capital of the relevant loan and with priority to young couples, persons with children under the age of 18 years, tenants of council houses as well as people under the age of 35 years with an atypical job relation (*rapporto di lavoro atipico*) pursuant to article 1 of Italian law No. 92, dated 28 June 2012.

Furthermore, on 8 October 2014 ABI and the Ministry of Economic and Finance entered into a Protocollo d'intesa for the purposes of allowing banks and financial intermediaries to grant loans assisted by the Fondo Prima Casa.

Moreover, on 31 March 2015, ABI and the consumers' associations entered into a new agreement (*accordo per la sospensione del credito alle famiglie*) which provides for the suspension, for a period not exceeding 12 months, of payment of the quota capital of certain kinds of loans (i.e. (a) consumer loans with a maturity of more than 24 months, and (b) in some cases, mortgage loans on the principal residence) granted in favour of families.

In general terms, eligible subjects may ask for such suspension, only one time and within 31 December 2017, and only if the events specified in the agreement occur (such as dismissal, reduction or suspension of the working schedule, or death). Such suspension may be granted also to families who have already taken advantage of such moratorium in the previous years, unless the moratorium was requested in the last 24 months.

In addition, on 31 March 2015, ABI and the associations representative of corporations entered into a convention (**Accordo per il credito 2015**), replacing the previous PMI Moratorium, which comprises the following initiatives in favour of PMI:

(a) *Imprese in ripresa*, for the purposes of suspension of loans for a period up to 12 months and extension of loans;

(b) *Imprese in sviluppo*, for financing entrepreneurial investment projects and strengthening the patrimonial structure of PMI;

(c) *Imprese e Pa*, for disinvestment of PMI' claims towards public administrations.

All PMI active in Italy are eligible for benefit from the Accordo per il credito 2015, including those in financial difficulties provided that at the moment of the relevant application they are in bonis (i.e. they do not have, in general terms, exposures classified as *in sofferenza*, *inadempienze probabili* or *esposizioni scadute e/o sconfinanti* by the relevant bank).

The Accordo per il credito 2015 shall be valid until 31 December 2017.

This legislation may have an adverse effect on the Portfolio and, in particular, on any cash flow projections concerning the Portfolio as well as on the over-collateralisation required in order to maintain the then current rating of the Covered Bonds (if assigned to a Series of Covered Bonds).

Fondo di solidarietà

Italian Law Decree No. 7 of 31 January 2007, as converted into law by Italian Law No. 40 of 2 April 2007 and amended by Italian Law No. 244 of 24 December 2007 (the **2008 Budget Law**), provided for the right of eligible debtors under mortgage loans granted for the purpose of purchasing the primary residence (*abitazione principale*) and unable to pay the relevant instalments, to request the suspension of payments of the instalments due under the relevant mortgage loans on a maximum of two occasions and for a maximum aggregate period of 18 months. In this respect, the 2008 Budget Law provided for the establishment of a fund (so called *Fondo di solidarietà*, the **Fund**) created for the purpose of bearing certain costs deriving from the above mentioned suspensions of payments. Pursuant to Ministerial Decree No. 132 issued by the Ministry of Economy and Finance on 21 June 2010 and published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) on 18 August 2010 (**Decree 132**),

the provisions relating to the requirements that the debtors must comply with in order to have the right to such a suspension and subsequent aid from the Fund and the formalities and operating procedures of the Fund, were enacted. Further pieces of regulation are currently being enacted.

In light of the above, any debtor who complies with the requirements set out in Decree 132, has the right to suspend the payment of the instalments of his or her Mortgage Loans for up to 18 months; as a consequence, there is the risk that the Covered Bond Guarantor will not receive the timely payment of the full amount of principal and interest expected to be received on the relevant Mortgage Loans.

The Ministerial Decree No. 37 issued by the Ministry of Economy and Finance on 22 February 2013 and published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) on 12 April 2013 amended the Decree 132 and provided for the suspension of payments of the instalments due under the relevant mortgage loans also when such mortgage loans are the underlying assets in the context of covered bond and securitisation transactions or are concerned by subrogation according to Article 120-quater of the Banking Law.

Law No. 92 of 28 June 2012 regarding the "labour market reform", under Article 3, paragraph 48 provides for new requirements necessary to benefit from the above mentioned suspension of payments by amending paragraphs 475 to 479 of Article 2 of Law No. 244 of 24 December 2007). Therefore, the amendment to the regulation developing the Fund has been set up.

The Fund operates within the limits of its budget. Pursuant to the Law Decree no. 102 of 31 August 2013, converted into Italian Law no. 124 of 28 October 2013, the budget of the Fund is increased of Euro 20,000,000 for each of 2014 and 2015.

Mortgage Credit Directive

In July 2005, the European Commission published a Green Paper on mortgage credit, in which it announced its intention that loans secured by a mortgage on land will be excluded from the proposed consumer credit directive but will be covered by any initiatives resulting from the Green Paper process in relation to mortgage credit. It is uncertain what effect the adoption and implementation of any initiatives resulting from the Green Paper process in relation to mortgage credit, would have on the Mortgage Loans, the Issuer and its businesses and operations. The European Commission published feedback in May 2006 on its July 2005 Green Paper and subsequently undertook preliminary consultation with stakeholders which resulted in the publication of the reports of two expert groups in January 2007. The White Paper on the Integration of EU Mortgage Credit Markets was published on 18 December 2007. In the paper, the Commission has stated that it is yet to be determined as to whether legislation is the most appropriate way forward. In 2008 the Commission undertook further assessments and cost-benefit analyses. On 14 March 2008, the European Commission published a notice requesting tenders to undertake a study on the costs and benefits of the different policy options for mortgage credit. Tenders were required to be made by 13 May 2008.

On 31 March 2011, the European Commission published a proposal for a directive of the European Parliament and of the Council on credit agreements relating to residential property. The proposal is accompanied by a Commission Staff Working Paper on National measures and practices to avoid foreclosure procedures for residential mortgage loans and a Commission Staff Working Paper on impact assessment.

On 22 April 2013 the EU commissioner for the internal market and services issue a statement that the EU member states reached an agreement on the proposal. On 11 June 2013 the European Parliament stated its favour to the proposal.

On 4 February 2014, the Council of the European Union adopted Directive 2014/17/EU (the Mortgage Credit Directive). The Mortgage Credit Directive was published in the Official Journal of the European Union on 28 February 2014. It entered into force twenty days after such publication and Member States are required to implement the Mortgage Credit Directive into national law within two years after such entry into force.

Until the Mortgage Credit Directive is implemented into the Italian law, it is too early to tell what effect the implementation of the Mortgage Credit Directive into Italian law would have on the Issuer and ability of the Guarantor to make payments under the Covered Bond Guarantee.

6. **Risks related to the MBS Notes**

The Initial Portfolio consists of the Initial MBS Notes (for a detailed description of the Initial MBS Notes see the section headed "*Description of the Portfolio*") and Further Portfolios may comprise MBS Notes.

Each potential investor in Covered Bonds should refer to the section headed "Risk Factors" and any other relevant section contained in the prospectus of the relevant MBS Notes for a description of those factors which may affect the ability of the relevant MBS Notes Issuer under the relevant securitisation transaction to fulfil its obligations under the relevant MBS Notes, including but not limited to (a) the risks relating to the relevant MBS Portfolio; (b) the risks relating to the relevant MBS Notes Issuer; and (c) the risk relating to the MBS Notes.

In particular, the MBS Notes are obligations solely of the relevant MBS Notes Issuer. In order to make payments of amounts due and payable under the relevant MBS Notes, the MBS Notes Issuer does not have any significant assets other than the relevant MBS Portfolio and its rights under the transaction documents of the relevant MBS Transaction to which it is a party. The capacity of the MBS Notes Issuer to meet its obligations in respect of the relevant MBS Notes will be dependent, *inter alia*, on the receipt by the MBS Notes Issuer of amounts collected on its behalf by the servicer(s) appointed under the relevant MBS Transaction and any other amounts to be received by the MBS Notes Issuer pursuant to the provisions of the transaction documents of the relevant MBS Transaction. However, there can be no guarantee that funds available to the MBS Notes Issuer will be sufficient to repay the MBS Notes in full.

Other risks regard the fact that any MBS Notes may be affected by credit, liquidity and interest rate risks relating to the mortgage loans securing the MBS Notes. Various factors influence mortgage delinquency rates, prepayment rates, repossession frequency and the ultimate payment of interest and principal, such as changes in the national or international economic climate, regional economic or housing conditions, changes in tax laws, interest rates, inflation, the availability of financing, yields on alternative investments, political developments and government policies. Other factors with respect to mortgage loan borrowers' individual, personal or financial circumstances may affect the ability of such borrowers to make the required payments under the relevant mortgage loans which subsequently may affect the ability of the MBS Notes Issuer to make the necessary payments under the MBS Notes. Loss of earnings, illness, divorce and other similar factors may lead to an increase in delinquencies by and bankruptcies of the mortgage loan borrowers, and could ultimately have an adverse impact on the ability of such borrowers to make the required payments under each mortgage loan which subsequently may affect the ability of the MBS Notes Issuer to make the necessary payments under the MBS Notes. In addition, the ability of a mortgage loan borrower to sell a property secured by a mortgage at a price sufficient to repay the amounts outstanding under the relevant mortgage loan will depend upon a number of factors, including the availability of buyers for that

property secured by a mortgage, the value of that property and property values in general at the time.

Each of the risks associated with an MBS Note may affect the rights in respect of those MBS Notes transferred by the Seller (or any Additional Seller) to the Covered Bond Guarantor.

To mitigate such risk, pursuant to the Portfolio Administration Agreement, the Seller (or any Additional Seller) is obliged to, *inter alia*, transfer new Eligible Assets and/or Integration Assets to the Covered Bond Guarantor should the MBS Notes included in the Portfolio become Defaulted Assets, and, as set forth therein, Defaulted Assets will be excluded from the calculation of the Nominal Value Test. Moreover, pursuant to the Portfolio Administration Agreement, if the aggregate Outstanding Principal Balance of the Non-Eligible Underlying Assets exceeds 5% of the Outstanding Principal Balance of the MBS Assets issued under any relevant MBS Transaction, the Outstanding Principal Balance of such MBS Notes shall be reduced for an amount equal to the aggregate Outstanding Principal Balance of such Non-Eligible Underlying Assets in excess of the above mentioned percentage. However, in the event of a termination of the Covered Bond Guarantor's obligation to purchase Further Portfolios in the circumstances indicated under the Master Transfer Agreement (see paragraph headed "*Master Transfer Agreement*" under the section headed "*Description of the Transactions Documents*"), the Seller (or any Additional Seller, as the case may be) will not be authorised to transfer new Eligible Assets and/or Integration Assets to the Covered Bond Guarantor and, as a consequence, the Nominal Value of the Portfolio may become lower than the aggregate Outstanding Principal Balance of the Covered Bonds.

7. **Other risks**

Insolvency proceedings and subordination provisions

There is uncertainty as to the validity and/or enforceability of a provision which (based on contractual and/or trust principles) subordinates certain payment rights of a creditor to the payment rights of other creditors of its counterparty upon the occurrence of insolvency proceedings relating to that creditor.

Recent cases in English and US Courts have focused on provisions involving the subordination of a hedging counterparty's payment rights in respect of certain termination payments upon the occurrence of insolvency proceedings or other default on the part of such counterparty. Such provisions are similar in effect to the terms which will be included in the Transaction Documents relating to the subordination of certain payments to be made by the Covered Bond Guarantor to the Hedging Counterparties.

The English Supreme Court has held that a flip clause as described above is valid under English law. Contrary to this, the US Bankruptcy Court has held that such a subordination provision is unenforceable under US bankruptcy law and that any action to enforce such provision would violate the automatic stay which applies under such law in the case of a US bankruptcy of the counterparty. The implications of this conflicting judgment are not yet known, particularly as the US Bankruptcy Court approved, in December 2010, the settlement of the case to which the judgment relates and subsequently the appeal was dismissed.

If a creditor of the Covered Bond Guarantor or a related entity becomes subject to insolvency proceedings in any jurisdiction outside England and Wales, and it is owed a payment by the Covered Bond Guarantor, a question arises as to whether the insolvent creditor or any insolvency official appointed in respect of that creditor could successfully challenge the validity and/or enforceability of subordination provisions included in the Transaction Documents. In particular, based on the decision of the US Bankruptcy Court referred to above, there is a risk that such subordination provisions would not be upheld under US bankruptcy law.

While, as of the First Issue Date, Intesa Sanpaolo was the Hedging Counterparty, it cannot be excluded that different entities (including those having their registered office in the US) may enter into a Swap Transaction during the life of the Programme.

If a subordination provision included in the Transaction Documents was successfully challenged under the insolvency laws of any relevant jurisdiction and any relevant foreign judgment or order was recognised by the Italian courts, there can be no assurance that such actions would not adversely affect the rights of the Covered Bondholders, the market value of the Covered Bonds

and/or the ability of the Covered Bond Guarantor to satisfy its obligations under the Covered Bond Guarantee.

Lastly, given the general relevance of the issues under discussion in the judgments referred to above and that the Transaction Documents will include terms providing for the subordination of certain payments to be made to the Hedging Counterparties, there is a risk that the final outcome of the dispute in such judgments may result in negative rating pressure in respect of the Covered Bonds. If any rating assigned to the Covered Bonds is lowered, the market value of the Covered Bonds may reduce.

U.S. Foreign Account Tax Compliance Act Withholding

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) impose a new reporting regime and, potentially, a 30% withholding tax with respect to (i) certain payments from sources within the United States, and (ii) payments to certain investors that do not provide identification information with respect to interests issued by a participating non-U.S. financial institution. Whilst the Covered Bonds are held within the clearing systems, in all but the most remote circumstances, it is not expected that FATCA will affect the amount of any payment received by the clearing systems in respect of such Covered Bonds. However, FATCA may affect payments made to custodians or intermediaries in the subsequent payment chain leading to the ultimate investor if any such custodian or intermediary generally is unable to receive payments free of FATCA withholding. It also may affect payment to any ultimate investor that is a financial institution that is not entitled to receive payments free of withholding under FATCA, or an ultimate investor that fails to provide its broker (or other custodian or intermediary from which it receives payment) with any information, forms, other documentation or consents that may be necessary for the payments to be made free of FATCA withholding. Investors should choose the custodians or intermediaries with care (to ensure each is compliant with FATCA or other laws or agreements related to FATCA) and provide each custodian or intermediary with any information, forms, other documentation or consents that may be necessary for such custodian or intermediary to make a payment free of FATCA withholding. The Issuer's obligations under the Covered Bonds are discharged once it has paid the clearing systems and the Issuer has therefore no responsibility for any amount thereafter transmitted through the clearing systems and custodians or intermediaries. Prospective investors should refer to the section "*Taxation – Foreign Account Tax Compliance Act.*". *The Issuer believes that the risks described above are the main risks inherent in the holding of Covered Bonds of any Series issued under the Programme but the inability of the Issuer to pay interest or repay principal on the Covered Bonds of any Series may occur for other reasons and the Issuer does not represent that the above statements of the risks of holding Covered Bonds are exhaustive. While the various structural elements described in this Base Prospectus are intended to lessen some of the risks for holders of Covered Bonds of any Series, there can be no assurance that these measures will be sufficient or effective to ensure payment to the holders of Covered Bonds of any Series of interest or principal on such Covered Bonds on a timely basis or at all.*

SUPPLEMENTS TO THE BASE PROSPECTUS, FINAL TERMS AND FURTHER PROSPECTUSES

The Issuer has undertaken with the Dealers to supplement this Base Prospectus or publish a new Base Prospectus if and when the information herein should become materially inaccurate or incomplete and has further agreed with the Dealers to furnish a supplement to the Base Prospectus in the event of any significant new factor, material mistake or inaccuracy relating to the information included in this Base Prospectus which is capable of affecting the assessment of the Covered Bonds and which arises or is noted between the time when this Base Prospectus has been approved and the final closing of any Series or Tranche of Covered Bonds offered to the public or, as the case may be, when trading of any Series or Tranche of Covered Bonds on a regulated market begins, in respect of Covered Bonds issued on the basis of this Base Prospectus.

In addition, the Issuer may agree with the Dealers to issue Covered Bonds in a form not contemplated in the section headed "*Form of Final Terms*". To the extent that the information relating to that Series or Tranche of Covered Bonds constitutes a significant new factor in relation to the information contained in this Base Prospectus, a separate prospectus specific to such Series or Tranche (a **Drawdown Prospectus**) will be made available and will contain such information.

The terms and conditions applicable to any particular Series or Tranche of Covered Bonds will be the conditions set out in the section headed "*Terms and Conditions of the Covered Bonds*", as amended and/or replaced to the extent described in the relevant Final Terms or Drawdown Prospectus. In the case of a Series or Tranche of Covered Bonds which is the subject of a Drawdown Prospectus, each reference in this Base Prospectus to information being specified or identified in the relevant Final Terms shall be read and construed as a reference to such information being specified or identified in the relevant Drawdown Prospectus unless the context requires otherwise.

Each Drawdown Prospectus will be constituted either (1) by a single document containing the necessary information relating to the Issuer and the Covered Bond Guarantor and the relevant Covered Bonds or (2) by a registration document containing the necessary information relating to the Issuer and/or the Covered Bond Guarantor, a securities note containing the necessary information relating to the relevant Covered Bonds and, if applicable, a summary note.

The Issuer has undertaken, in connection with the admission to trading of the Covered Bonds on the Regulated Market of the Luxembourg Stock Exchange, that if there shall occur any adverse change in the business or financial position of the Issuer or any change in the information set out under "*Terms and Conditions of the Covered Bonds*", that is material in the context of the issuance of Covered Bonds under the Programme, the Issuer will prepare or procure the preparation of a supplement to this Base Prospectus or, as the case may be, publish a new Base Prospectus, for use in connection with any subsequent issue by the Issuer of Covered Bonds to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange.

OVERVIEW OF THE PROGRAMME

Covered Bondholders should read the detailed information set out in the section headed "*Risk Factors*" which describes known material risks related to, *inter alia*, the Issuer, the Covered Bonds, the Covered Bond Guarantee and the underlying assets of the Covered Bond Guarantee and in the section headed "*Selected Aspect of Italian Law*" which describes certain aspect of Italian law relevant to the Portfolio and the transfer of the Portfolio.

Words and expressions defined elsewhere in this Base Prospectus shall have the same meaning in this overview. An index of certain defined terms is contained at the end of this Base Prospectus.

Structure Overview

The Programme

Under this Euro 20,000,000,000 Covered Bond Programme (the **Programme**), the Issuer may from time to time issue Covered Bonds to one or more of the Dealers indicated on the cover page, and any additional Dealers appointed from time to time under the Programme by the Issuer, in accordance with the Dealer Agreement (the **Dealers**), whose appointment may be for a specific issue or on an ongoing basis.

The maximum aggregate principal amount of all Covered Bonds outstanding at any time under the Programme will not exceed Euro 20,000,000,000 (or its equivalent in other currencies). The Issuer may, from time to time, increase the amount of the Programme in accordance with the terms of the Dealer Agreement.

The Covered Bonds will be issued on a continuing basis to one or more of the Dealers.

Covered Bonds may be distributed on a syndicated or non-syndicated basis, in each case only in accordance with the relevant selling restrictions. The method of distribution of each Series or Tranche will be stated in the relevant Final Terms.

Covered Bonds will be issued in Series, but on different terms from each other, and each Series may comprise one or more Tranches, subject to the terms set out in the relevant Final Terms in respect of such Series or Tranche.

Status of the Covered Bonds

The Covered Bonds will constitute direct, unconditional, unsecured and unsubordinated obligations of the Issuer, guaranteed by the Covered Bond Guarantee and will rank *pari passu*

without any preference among themselves, except in respect of maturities of each Series or Tranche, and (save for any applicable statutory provisions) at least equally with all other present and future unsecured, unsubordinated obligations of the Issuer having the same maturity of each Series or Tranche of the Covered Bonds, from time to time outstanding.

The Covered Bond Guarantee and the Portfolio

In accordance with Law 130, by virtue of the Covered Bond Guarantee, the Covered Bondholders will benefit from a guarantee issued by the Covered Bond Guarantor which will, in turn, hold a portfolio consisting of some or all of the following assets:

(a) residential mortgage loans (*mutui ipotecari residenziali*) that have an LTV that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(b) commercial mortgage loans (*mutui ipotecari commerciali*) that have an LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(c) asset backed securities for which a risk weight not exceeding 20 per cent. is applicable in accordance with the Bank of Italy's prudential regulations for banks — standardised approach — provided that at least 95 per cent. of the relevant securitised assets are:

(i) residential mortgage loans that have an LTV that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(ii) commercial mortgage loans that have an LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(d) securities issued by central governments meeting the requirements of Article 2, Paragraph 1 (c) of the MEF Decree,

provided that the cumulative amount of the assets described under items (b), (c)(ii) and (d) above may not amount to more than 10 per cent. of the aggregate nominal value of the Portfolio.

In addition, the Portfolio may comprise Integration Assets, having the characteristics described under the section headed "*Description of the Portfolio*", subject to the limitations set out in the MEF Decree.

Under the terms of the Covered Bond Guarantee, if the Issuer defaults in the payment on the due date (subject to any applicable grace periods) of any monies due and payable under or pursuant to the Covered Bonds, or if any other Issuer Event of Default occurs, the Covered Bond Guarantor has agreed (subject to as described below) to pay, or procure to be paid, following service by the Representative of the Covered Bondholders of a Notice to Pay, unconditionally and irrevocably to the Covered Bondholders, any amounts due under the Covered Bonds on the Due for Payment Date. The obligations of the Covered Bond Guarantor under the Covered Bond Guarantee constitute direct and (following the occurrence of an Issuer Event of Default, the service of a Notice to Pay on the Issuer and the Covered Bond Guarantor or, if earlier, the service on the Covered Bond Guarantor of a Covered Bond Guarantor Acceleration Notice) unconditional, unsubordinated and limited recourse obligations of the Covered Bond Guarantor, backed by the Portfolio, as provided under the OBG Regulations. Payments made by the Covered Bond Guarantor under the Covered Bond Guarantee will be made subject to, and in accordance with, the relevant Priority of Payments, as applicable.

Subordinated Loan Agreement

Pursuant to the Subordinated Loan Agreement, the Seller has granted to the Covered Bond Guarantor the Subordinated Loan with a maximum amount equal to the Programme Limit, plus any other amounts necessary to ensure that the Mandatory Tests are met. Under the provisions of such agreement, upon the relevant disbursement notice being filed by the Covered Bond Guarantor, the Seller shall make advances to the Covered Bond Guarantor in amounts equal to the relevant price of the Initial Portfolio and of any Further Portfolio transferred from time to time to

the Covered Bond Guarantor in view of (a) collateralising the issue of further Covered Bonds or (b) carrying out an integration of the Portfolio, whether through Eligible Assets or through Integration Assets, in order to cure a breach of the Mandatory Tests and of the other tests provided for in the Portfolio Administration Agreement.

Amounts owed to the Seller by the Covered Bond Guarantor under the Subordinated Loan Agreement will be subordinated to amounts owed by the Covered Bond Guarantor under the Covered Bond Guarantee. Any such amounts will be repaid on each Guarantor Payment Date prior to the delivery of a Notice to Pay according to the relevant Pre-Issuer Event of Default Principal Priority of Payments and within the limits of the then Available Funds, provided that such repayment does not result in a breach of any of the Tests. Following the service of a Notice to Pay, amounts owed under the Subordinated Loan Agreement shall be repaid within the limits of the Available Funds, in accordance with the relevant Priority of Payments.

Servicing

Under the terms of the Servicing Agreement (i) the Servicer has agreed to administer and service the Receivables (with the exception of the Defaulted Receivables classified as *in sofferenza*) and the Securities and to carry out the collection activities relating to the Receivables and the Securities, on behalf of the Covered Bond Guarantor; and (ii) the Special Servicers have agreed to administer and service the Defaulted Receivables classified as *in sofferenza*. Under the Servicing Agreement, the Servicer has agreed to be responsible for verifying that the transaction complies with the law and this Base Prospectus, in accordance with the requirements of Law 130.

Cashflows

Prior to service of a Notice to Pay on the Covered Bond Guarantor the Covered Bond Guarantor will:

(a) apply Interest Available Funds to pay (subject to compliance with the Tests) interest due on the Subordinated Loan, but only after payment of certain items ranking higher in the Pre-Issuer Event of Default Interest Priority of Payments (including, but not limited to, payments due to the Hedging Counterparties); and

(b) apply Principal Available Funds towards (subject to compliance with the Tests) repaying the Subordinated Loan, but only after payment of certain items ranking higher in the relevant Pre-Issuer Event of Default Principal Priority of Payments (including, but not limited to, payments, if any, due to the Hedging Counterparties).

For further details of the Pre-Issuer Event of Default Interest Priority of Payments and the Pre-Issuer Event of Default Principal Priority of Payments, see the section headed "*General Description of the Programme*" below.

Following service of a Notice to Pay on the Covered Bond Guarantor (but prior to a Covered Bond Guarantor Event of Default and service of a Covered Bond Guarantor Acceleration Notice on the Covered Bond Guarantor) the Covered Bond Guarantor will use all monies to pay the Guaranteed Amounts in respect of the Covered Bonds when due for payment subject to paying certain higher ranking obligations of the Covered Bond Guarantor in the Post-Issuer Default Priority of Payments. In such circumstances, the Seller will only be entitled to receive from the Covered Bond Guarantor payment of interest and repayment of principal under the Subordinated Loan after all amounts due under the Covered Bond Guarantee in respect of the Covered Bonds have been paid in full or have otherwise been provided for.

Following the occurrence of a Covered Bond Guarantor Event of Default and service of a Covered Bond Guarantor Acceleration Notice on the Covered Bond Guarantor, the Covered Bonds will become immediately due and repayable and Covered Bondholders will then have a claim against the Covered Bond Guarantor under the Covered Bond Guarantee for an amount equal to the Early Redemption Amount in respect of each Covered Bonds, together with accrued interest and any other amounts due under the Covered Bonds, and the Available Funds will be distributed according to the Post-Guarantor Default Priority of Payments.

Mandatory Tests

The Programme provides that the assets of the Covered Bond Guarantor are subject to the statutory tests provided for under Article 3 of the MEF Decree (the **Mandatory Tests**), which are intended to ensure that the Covered Bond Guarantor can meet its obligations under the Covered Bond Guarantee. Accordingly, for so long as Covered Bonds remain outstanding, the Issuer must always ensure that the following tests are satisfied on each Calculation Date:

(1) the Nominal Value Test;

(2) the NPV Test; and

(3) the Interest Coverage Test.

Amortisation Test

The Amortisation Test is intended to ensure that if, following the occurrence of an Issuer Event of Default and service of a Notice to Pay by the Representative of the Covered Bondholders, the assets of the Covered Bond Guarantor available to meet its obligations under the Covered Bond Guarantee fall to a level where Covered Bondholders may not be repaid, a Covered Bond Guarantor Event of Default will occur and all obligations owing under the Covered Bond Guarantee may be accelerated. Under the Portfolio Administration Agreement, the Covered Bond Guarantor must ensure that, on each Calculation Date following service of a Notice to Pay on the Issuer and the Covered Bond Guarantor, but prior to a Covered Bond Guarantor Event of Default and service of a Covered Bond Guarantor Acceleration Notice, the Amortisation Test Aggregate Portfolio Amount will be in an amount at least equal to the Outstanding Principal Balance of the Covered Bonds as calculated on the relevant Calculation Date.

Extendable obligations under the Covered Bond Guarantee

An Extended Maturity Date may be specified as applying in relation to a Series of Covered Bonds in the applicable Final Terms. This means that if the Issuer fails to pay the Final Redemption Amount of the relevant Series of Covered Bonds on the relevant Maturity Date and if the Covered Bond Guarantor has, on the Extension Determination Date, insufficient Available Funds (in accordance with the Post-Issuer Default Priority of Payments) to pay in full the relevant Final Redemption Amount, then payment of the unpaid amount pursuant to the Covered Bond Guarantee shall be automatically deferred and shall become due and payable on the Extended Maturity Date. However, any amount representing the Final Redemption Amount due and remaining unpaid on the Extension Determination Date may be paid by the Covered Bond Guarantor on any CB Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. Interest will continue to accrue on any unpaid amount and be payable on each CB Payment Date during such extended period up to (and including) the Extended Maturity Date or, if earlier, the CB Payment Date on which the Final Redemption Amount is paid in full.

Asset Monitoring

Pursuant to an engagement letter entered into on or about the Programme Date, the Issuer has appointed the Asset Monitor in order to perform, subject to receipt of the relevant information from the Issuer, specific monitoring activities concerning, *inter alia*, (i) the fulfilment of the eligibility criteria set out under the MEF Decree with respect to the Eligible Assets and Integration Assets included in the Portfolio; (ii) the compliance with the limits on the transfer of the Eligible Assets set out under the MEF Decree; and (iii) the effectiveness and adequacy of the risk protection provided by any Swap Agreement entered into in the context of the Programme. Furthermore, under the terms of the Asset Monitor Agreement entered into between the Issuer, the Calculation Agent, the Asset Monitor, the Covered Bond Guarantor and the Representative of the Covered Bondholders, the Asset Monitor has agreed with the Issuer and, upon delivery of an Article 74 Notice to Pay (and until the date of its withdrawal) and a Notice to Pay, with the Covered Bond Guarantor, to verify, subject to due receipt of the information to be provided by the Calculation Agent to the Asset Monitor, the arithmetic accuracy of the calculations performed by the Calculation Agent under the Mandatory Tests and the Amortisation Test carried out pursuant to the Portfolio Administration Agreement, with a view to confirming whether such calculations are accurate.

A transfer of Registered Covered Bonds is deemed to be not effective until the transferee has delivered to the Registrar a duly executed copy of the Registered Covered Bond certificate relating to such Registered Covered Bond along with a duly executed Registered Covered Bond assignment agreement. In connection with the Registered Covered Bonds, references in this Base Prospectus to the Conditions or a particularly numbered Condition shall be construed, where relevant (and unless specified otherwise), as references to the equivalent Condition in the relevant Registered Covered Bonds Conditions as supplemented by any applicable document.

Types of Covered Bonds

In accordance with the Conditions, the Covered Bonds may be Fixed Rate Covered Bonds, Floating Rate Covered Bonds, Zero Coupon Covered Bonds or a combination of any of the foregoing, depending upon the Interest Basis shown in the applicable Final Terms. The Covered Bonds may be repayable in one or more instalments depending on the Redemption/Payment Basis shown in the applicable Final Terms. Each Series shall be comprised of Fixed Rate Covered Bonds only or Floating Rate Covered Bonds only or Zero Coupon Covered Bonds only or such other Covered Bonds accruing interest on such other basis and at such other rate as may be so specified in the relevant Final Terms only.

Fixed Rate Covered Bonds: fixed interest on the Covered Bonds will be payable in accordance with the relevant Final Terms, on such date as may be agreed between the Issuer and the Relevant Dealers and on redemption, and will be calculated on the basis of such Day Count Fraction provided for in the Conditions and the relevant Final Terms.

Floating Rate Covered Bonds: Floating Rate Covered Bonds will bear interest at a rate determined in accordance with the Conditions and the relevant Final Terms. The margin (if any) relating to such floating rate will be agreed between the Issuer and the Relevant Dealers for each Series of Floating Rate Covered Bonds.

Other provisions in relation to Floating Rate Covered Bonds: Floating Rate Covered Bonds may also have a maximum interest rate, a minimum interest rate or both.

Interest on Floating Rate Covered Bonds in respect of each CB Interest Period, as agreed prior to issue by the Issuer and the Relevant Dealer, will

be payable on such CB Payment Dates, and will be calculated on the basis of such Day Count Fraction provided for in the Conditions and the relevant Final Terms.

Partly-Paid Covered Bonds: Covered Bonds may be issued on a partly-paid basis in which case interest will accrue on the paid-up amount of such Covered Bonds or on such other basis as may be agreed between the Issuer and the relevant Dealer(s) and set out in the applicable Final Terms.

Amortising Covered Bonds: Covered Bonds may be issued with a predefined, prescheduled amortisation schedule where, in addition to interest, the Issuer will pay, on each relevant CB Payment Date, a portion of principal up to the relevant Maturity Date (as set out in the applicable Final Terms) in instalments.

Zero Coupon Covered Bonds: Zero Coupon Covered Bonds will be offered and sold at a discount to their nominal amount and will not bear interest.

The issuance of certain types of Covered Bonds may require a prior amendment to the Transaction Documents.

Issuance in Series

Covered Bonds will be issued in Series, but on different terms from each other, subject to the terms set out in the relevant Final Terms in respect of such Series. Covered Bonds of different Series will not be fungible among themselves. Each Series (excluding any Series of Registered Covered Bonds, which may be issued only in Series) may be issued in more than one Tranche which are identical in all respects, but having, inter alia, different issue dates, interest commencement dates, issue prices, dates for first interest payments, maturity dates and may be issued in different currencies (provided that Tranches issued in different currencies will not be fungible among themselves). The Issuer will issue Covered Bonds without the prior consent of the holders of any outstanding Covered Bonds, but subject to certain conditions (see "*Conditions Precedent to the Issuance of a new series of Covered Bonds*" below).

Notwithstanding the foregoing, the term "Series" shall mean in the case of Registered Covered Bonds, each Registered Covered Bonds made out in the name of a specific Registered Covered Bondholder.

Final Terms

Specific final terms will be issued and published in accordance with the generally applicable terms and conditions of the Covered Bonds (the **Conditions**) prior to the issue of each Series detailing certain relevant terms thereof which, for the purposes of that Series only, supplement the Conditions and the Base Prospectus and must be read in conjunction with the Base Prospectus (such specific final terms, the **Final Terms**). The terms and conditions applicable to any particular Series are the Conditions as supplemented, amended and/or replaced by the relevant Final Terms.

In the case of Registered Covered Bonds, each other reference to Final Terms in the Prospectus shall be construed and read as a reference to such Registered Covered Bond (*Gedeckte Namensschuldverschreibung*), the Registered Covered Bond Conditions and any other related agreements.

Interest on the Covered Bonds

Except for Zero Coupon Covered Bonds, and unless otherwise specified in the Conditions and the relevant Final Terms, the Covered Bonds will be interest-bearing and interest will be calculated on the Outstanding Principal Balance of the relevant Covered Bonds. Interest will be calculated on the basis of such Day Count Fraction in accordance with the Conditions and in the relevant Final Terms. Interest may accrue on the Covered Bonds at a fixed rate or a floating rate or on such other basis and at such rate as may be so specified in the relevant Final Terms and the method of calculating interest may vary between the Issue Date and the Maturity Date of the relevant Series.

Interest Rate Conversion	The relevant Final Terms may specify, with respect to a Series of Covered Bonds which are Fixed Rate Covered Bonds, that, in the event such Covered Bonds are not redeemed in full on the Maturity Date, the interest rate payable on such Covered Bonds converts to a floating rate index plus a conversion margin in accordance with the terms specified in the relevant Final Terms.
Redemption of the Covered Bonds	The applicable Final Terms will indicate either (a) that the Covered Bonds cannot be redeemed prior to their stated maturity (other than in specified instalments, if applicable, or in other specified cases, e.g. taxation reasons, or Covered Bond Guarantor Events of Default, as specified in the paragraph *Early Redemption of the Covered Bonds* below), or (b) that such Covered Bonds will be redeemable at the option of the Issuer upon giving notice to the Representative of the Covered Bondholders on behalf of the holders of the Covered Bonds (the **Covered Bondholders**), or at the option of the Covered Bondholders upon deposit of a notice by the Representative of the Covered Bondholders, on behalf of the Covered Bondholders, with the Paying Agent, and in accordance with the provisions of Condition 9 (*Redemption and Purchase*) and of the relevant Final Terms, (i) on a date or dates specified prior to such maturity and (ii) at a price or prices, and on such other terms as may be agreed between the Issuer and the Relevant Dealers (as set out in the applicable Final Terms).
Early Redemption of the Covered Bonds	In certain circumstances indicated under the Conditions (including an early redemption (i) for tax reasons or illegality, or (ii) following a delivery by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice upon the Covered Bond Guarantor), the Covered Bonds may be early redeemed at their Early Redemption Amount. **Early Redemption Amount** means, in respect of any Series of Covered Bonds, the principal amount of such Series or such other amount as may be specified in, or determined in accordance with, the relevant Final Terms.
Tax Gross Up and Redemption for taxation reasons	Payments in respect of the Covered Bonds to be made by the Issuer will be made without deduction for or on account of withholding taxes imposed by Italy, subject as provided in Condition 11 (*Taxation*). In the event that any such withholding or deduction is to be made, the Issuer will be required to pay additional amounts to cover the amounts so deducted. In such circumstances and provided that such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Covered Bonds will be redeemable (in whole, but not in part) at the option of the Issuer. See Condition 9(c) (*Redemption for tax reasons*). All payments in respect of the Covered Bonds will be made subject to any withholding or deduction required pursuant to FATCA, as provided in Condition 10 (*Payments*). The Covered Bond Guarantor will not be liable to pay any additional amount due to taxation reasons following an Issuer Event of Default.
Maturity Date	The final maturity date for each Series (the **Maturity Date**) will be specified in the relevant Final Terms, and in any event the determination of the Maturity Date will be subject to such minimum or maximum maturities as may be allowed or required from time to time by the relevant regulatory body or by any laws or regulations applicable to the Issuer or the currency of the Covered Bonds. Unless previously redeemed as provided in Condition 9 (*Redemption and Purchase*), and subject to any provision regarding extendable maturity which may be included in the Final Terms, the Covered Bonds of each Series will be redeemed at their Outstanding Principal Balance on the relevant Maturity Date.
Extendable	The applicable Final Terms may also provide that the obligations of the

Maturity	Covered Bond Guarantor to pay all or (as applicable) part of the Final Redemption Amount payable on the Maturity Date may be deferred to a later date pursuant to Condition 9(b) (*Extension of maturity*) (the **Extended Maturity Date**). Such deferral may occur, if so stated in the relevant Final Terms, automatically if: (a) an Article 74 Event or an Issuer Event of Default has occurred; and (b) the Covered Bond Guarantor has, on the date falling four Business Days prior to the Maturity Date (the **Extension Determination Date**), insufficient Available Funds (in accordance with the Post-Issuer Default Priority of Payments) to pay in full any amount representing the Guaranteed Amounts corresponding to the amount due (subject to the applicable grace period) in respect of the relevant Series of Covered Bond as set out in the relevant Final Terms (the **Final Redemption Amount**) on the Maturity Date (a **Maturity Extension**). In these circumstances, to the extent that the Covered Bond Guarantor has sufficient Available Funds to pay in part the Final Redemption Amount in respect of the relevant Series of Covered Bonds, the Covered Bond Guarantor shall make partial payment of the relevant Final Redemption Amount, in accordance with the Post-Issuer Default Priority of Payments, without any preference among the Covered Bonds outstanding, except in respect of maturities of each Series or Tranche. Payment of all unpaid amounts shall be deferred automatically until the applicable Extended Maturity Date, provided that, any amount representing the Final Redemption Amount due and remaining unpaid on the Maturity Date may be paid by the Covered Bond Guarantor on any CB Payment Date thereafter, up to (and including) the relevant Extended Maturity Date. Interest will continue to accrue and be payable on any unpaid amount up to the Extended Maturity Date in accordance with Condition 9(b) (*Extension of maturity*). Notwithstanding the above, if the Covered Bonds are extended as a consequence of the occurrence of an Article 74 Event, upon termination of the suspension period and withdrawal of the Article 74 Notice to Pay, the Issuer shall resume responsibility for meeting the payment obligations under any Series of Covered Bonds in respect of which a Maturity Extension has occurred, and any Final Redemption Amount shall be due for payment by no later than 15 calendar days following the day on which the Article 74 Notice to Pay has been withdrawn.
Long Dated Covered Bonds	If the Extended Maturity Date is set at the Long Date Due for Payment Date in the relevant Final Terms, the relevant Covered Bonds will be considered **Long Dated Covered Bonds**. **Long Date Due For Payment Date** means the CB Payment Date immediately following the tenth anniversary of the latest maturity date in respect of the Eligible Assets or Integration Assets contained in the Portfolio as of the Extension Determination Date.
Hard Bullet Covered Bonds	If no Extended Maturity Date is specified in the relevant Final Terms, the Final Redemption Amount in respect of a Series of Covered Bonds (the **Hard Bullet Covered Bonds**) will be due for payment on the Maturity Date. Hard Bullet Covered Bonds may be offered and will be subject to a Pre-Maturity Liquidity Test. The purpose of the Pre-Maturity Liquidity Test is to provide liquidity for the Hard Bullet Covered Bonds if the Issuer's credit ratings have fallen below a certain level.
Ranking of the Covered Bonds	The Covered Bonds will constitute direct, unconditional, unsubordinated obligations of the Issuer – guaranteed by the Covered Bond Guarantor by means of the Covered Bond Guarantee – and will rank *pari passu* without

any preference among themselves, except in respect of maturities of each Series or Tranche, and (save for any applicable statutory provisions) at least equally with all other present and future unsecured, unsubordinated obligations of the Issuer having the same maturity of each Series or Tranche of the Covered Bonds, from time to time outstanding.

Recourse

In accordance with the legal framework established by Law 130 and the MEF Decree and with the terms and conditions of the relevant Transaction Documents, the Covered Bondholders will benefit from full recourse to the Issuer and limited recourse to the Covered Bond Guarantor (see the section headed "*Credit Structure*"). The obligation of the Covered Bond Guarantor under the Covered Bond Guarantee shall be limited recourse to the Available Funds.

Substitution of the Issuer

The Representative of the Covered Bondholders may (and in the case of an Approved Reorganisation, shall) agree with the Issuer (or any previous substitute) and the Covered Bond Guarantor at any time without the consent of the Covered Bondholders:

(a) to the substitution in place of Intesa Sanpaolo (or of any previous substitute) as principal debtor under the Covered Bonds by any bank Subsidiary of Intesa Sanpaolo (the **Substitute Obligor**) by way of an obligation transfer agreement without recourse to the Issuer (*accollo liberatorio*); or

(b) to an Approved Reorganisation; or

(c) that Intesa Sanpaolo (or any previous substitute) may, other than by means of an Approved Reorganisation, consolidate with, merge into or amalgamate with any successor company,

provided that:

(i) the obligations of the Substitute Obligor or the Resulting Entity under the Covered Bonds shall be irrevocably and unconditionally guaranteed by Intesa Sanpaolo or its successor company (on like terms as to subordination, if applicable, to those of the Covered Bond Guarantee);

(ii) (other than in the case of an Approved Reorganisation) the Representative of the Covered Bondholders is satisfied that the interests of the Covered Bondholders will not be materially prejudiced thereby;

(iii) the Substitute Obligor or the Resulting Entity agrees, in form and manner satisfactory to the Representative of the Covered Bondholders, to be bound by the terms and conditions of the Covered Bonds and all the Transaction Documents in respect of any Series of Covered Bonds still outstanding, by means of executing agreements and documents substantially in the same form and substance of the Transaction Documents; and

(iv) the Representative of the Covered Bondholders is satisfied that (a) the Resulting Entity or Substituted Obligor has obtained all governmental and regulatory approvals and consents necessary for its assumption of liability as principal debtor in respect of the Covered Bonds in place of the Issuer (or such previous substitute as aforesaid), and (b) such approvals and consents are, at the time of substitution, Approved Reorganisation or consolidation, merger, amalgamation other than by means of an Approved Reorganisation, as the case may be, in full force and effect.

Upon the assumption of the obligations of the Issuer by a Substitute Obligor or a Resulting Entity or a successor company, Intesa Sanpaolo shall have no further liabilities under or in respect of the Covered Bonds.

Any substitution as described above shall be notified by the Issuer to the

Rating Agency.

Provisions of Transaction Documents

The Covered Bondholders are entitled to the benefit of, are bound by, and are deemed to have notice of, all provisions of the Transaction Documents applicable to them. In particular, each Covered Bondholder, by reason of holding Covered Bonds, recognises the Representative of the Covered Bondholders as its representative and accepts to be bound by the terms of each of the Transaction Documents signed by the Representative of the Covered Bondholders as if such Covered Bondholder was a signatory thereto.

Conditions Precedent to the Issuance of a new Series of Covered Bonds

The Issuer will be entitled (but not obliged) at its option, on any date and without the consent of the holders of the Covered Bonds issued beforehand and of any other creditors of the Covered Bond Guarantor or of the Issuer, to issue further Series of Covered Bonds other than the first issued Series, subject to, *inter alia*:

(i) issuance of a rating letter by the Rating Agency with respect to such further issue of Covered Bonds, unless the Covered Bonds issued under such further issue are unrated;

(ii) satisfaction of the Mandatory Tests both before and immediately after such further issue of Covered Bonds;

Approval, listing and admission to trading

This prospectus has been approved by the CSSF as a base prospectus issued in compliance with the Prospectus Directive.

Application has been made to the Luxembourg Stock Exchange for Covered Bonds (other than the Registered Covered Bonds) to be issued under the Programme to be admitted to the official list and to be admitted to trading on the Regulated Market of the Luxembourg Stock Exchange's regulated market or as otherwise specified in the relevant Final Terms and references to listing shall be construed accordingly. As specified in the relevant Final Terms, a Series of Covered Bonds may be unlisted.

	The applicable Final Terms will state whether or not the relevant Covered Bonds are to be listed and, if so, on which stock exchange(s). The Registered Covered Bonds may not be listed and/or admitted to trading on any regulated market. The approval of this Base Prospectus by the CSSF does not cover any Registered Covered Bonds which may be issued by the Issuer.
Settlement	Monte Titoli / Euroclear / Clearstream or any other clearing system as may be specified in the relevant Final Terms. Registered Covered Bonds will not be settled through a clearing system.
Governing law	The Covered Bonds (other than the Registered Covered Bonds), the Programme and the other Italian Law Transaction Documents are governed by Italian law; the English Law Transaction Documents are governed by English law. The Registered Covered Bonds will be governed by the laws of the Federal Republic of Germany or by whatever law chosen by the Issuer (to be supplemented with the specific provisions required under German law in order for the Registered Covered Bonds to be a German law registered note (*Gedeckte Namensschuld verschreibung*)) and shall be regulated by separate agreements *provided that*, in any case, provisions applicable to the Issuer and the Portfolio shall be confirmed to be governed by Italian law.
Rating	Each Series issued under the Programme may be assigned a rating by the Rating Agency. Whether or not a rating in relation to any Series of Covered Bonds will be issued by a credit rating agency established in the European Union and registered under the CRA Regulation, will be disclosed in the relevant Final Terms. **All credit ratings assigned to the Covered Bonds issued under the Programme will be disclosed in the relevant Final Terms**.
Rating Agency Confirmation	The issue of any Series of Covered Bonds, in each case as specified in the applicable Final Terms, and the increase of the Programme Limit, may be subject to Rating Agency Confirmation. By subscribing for or purchasing the Covered Bond(s), each Covered Bondholder will be deemed to have acknowledged and agreed that a credit rating of a Series of Covered Bonds is an assessment of credit risk and does not address other matters that may be of relevance to Covered Bondholders, including, without limitation, in the case of a Rating Agency Confirmation, whether such action is either (i) permitted by the terms of the relevant Transaction Document, or (ii) in the best interest of, or not prejudicial to, some or all of the Covered Bondholders. In being entitled to have regard to the fact that the Rating Agency has confirmed that the then current rating of the relevant Series of Covered Bonds would not be adversely affected or withdrawn, each of the Issuer, the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Covered Bondholders and the other Secured Creditors is deemed to have acknowledged and agreed that a Rating Agency Confirmation does not impose or extend any actual or contingent liability on the Rating Agency to the Issuer, the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Covered Bondholders and the other Secured Creditors or any other person or create any legal relations between the Rating Agency and the Issuer, the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Covered Bondholders and the other Secured Creditors or any other person whether by way of contract or otherwise. By subscribing for or purchasing the Covered Bond(s), each Covered Bondholder will be deemed to have acknowledged and agreed that:

(a) a Rating Agency Confirmation may or may not be given at the sole discretion of the Rating Agency;

(b) depending on the timing of delivery of the request and any information needed to be provided as part of any such request, it may be the case that the Rating Agency cannot provide a Rating Agency Confirmation in the time available, or at all, and the Rating Agency will not be responsible for the consequences thereof;

(c) a Rating Agency Confirmation, if given, will be given on the basis of the facts and circumstances prevailing at the relevant time, and in the context of cumulative changes to the transaction of which the Covered Bonds form a part; and

(d) a Rating Agency Confirmation represents only a restatement of the opinions given, and will not be construed as advice for the benefit of any Covered Bondholder or any other party.

Purchase of the Covered Bonds by the Issuer

The Issuer may at any time purchase any Covered Bonds in the open market or otherwise and at any price. If the purchase is made by tender, tenders must be available to all holders of the Series which the Issuer intends to buy.

3. COVERED BOND GUARANTEE

Security for the Covered Bonds

In accordance with Law 130, by virtue of the Covered Bond Guarantee, the Covered Bondholders will benefit from a guarantee issued by the Covered Bond Guarantor which will, in turn, hold the Portfolio consisting of some or all of the following assets:

(a) residential mortgage loans (*mutui ipotecari residenziali*) that have LTV that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(b) commercial mortgage loans (*mutui ipotecari commerciali*) that have LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(c) asset backed securities for which a risk weight not exceeding 20 per cent. is applicable in accordance with the Bank of Italy's prudential regulations for banks — standardised approach — provided that at least 95 per cent. of the relevant securitised assets are:

(i) residential mortgage loans that have LTV that does not exceed 80 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(ii) commercial mortgage loans that have LTV that does not exceed 60 per cent. and for which the hardening period with respect to the perfection of the relevant mortgage has elapsed;

(d) securities issued by central governments meeting the requirements of Article 2, Paragraph 1 (c) of the MEF Decree,

provided that the cumulative amount of the assets described under items (b), (c)(ii) and (d) above may not amount to more than 10 per cent. of the aggregate nominal value of the Portfolio.

Under the terms of the Covered Bond Guarantee, the Covered Bond Guarantor will be obliged to pay any amounts due under the Covered Bonds on the relevant Due for Payment Date and in accordance with the relevant Priority of Payments.

In view of ensuring timely payment by the Covered Bond Guarantor, a Notice to Pay will be served on the same as a consequence of an Issuer

Event of Default.

The obligations of the Covered Bond Guarantor under the Covered Bond Guarantee shall constitute a first demand, unconditional and independent guarantee (*garanzia autonoma*) and certain provisions of Italian civil code relating to non-autonomous personal guarantees (*fidejussioni*), specified in the MEF Decree, shall not apply. Accordingly, such obligation shall be a direct, unconditional, unsubordinated obligation of the Covered Bond Guarantor, with limited recourse to the Available Funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the Issuer.

Temporary transfer of payment obligations to the Covered Bond Guarantor

If an Article 74 Event occurs, the Covered Bond Guarantor, in accordance with Article 4, Paragraph 4, of the MEF Decree, shall be responsible for the payments of the amounts due and payable under the Covered Bonds during the Suspension Period and each Series of Covered Bonds will accelerate against the Issuer.

Following to an Article 74 Event, the Representative of the Covered Bondholders will serve an Article 74 Notice to Pay on the Issuer and the Covered Bond Guarantor that an Article 74 Event has occurred. Unless and until such Article 74 Notice to Pay has been withdrawn:

(i) *Temporary Acceleration against the Issuer*: each Series or Tranche of Covered Bonds will accelerate against the Issuer and the Covered Bonds will rank *pari passu* amongst themselves against the Issuer, provided that: (a) such Article 74 Events shall not trigger an acceleration against the Covered Bond Guarantor, and (b) in accordance with Article 4, Paragraph 4, of the MEF Decree, the Covered Bond Guarantor shall be responsible for the payments of the amounts due and payable under the Covered Bonds during the Suspension Period;

(ii) *Delegation:* the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the right of the Covered Bondholders *vis-à-vis* the Issuer in accordance with the provisions of the Covered Bond Guarantee in the context of which the Covered Bondholders have irrevocably delegated – also in the interest and for the benefit of the Covered Bond Guarantor – to the Covered Bond Guarantor the exclusive right to proceed against the Issuer to enforce the performance of any of the payment obligations of the Issuer under the Covered Bonds including any rights of enforcing any acceleration of payment provisions provided under the Conditions or under the applicable legislation. For this purpose, upon request of the Covered Bond Guarantor, the Representative of the Covered Bondholders on behalf of the Covered Bondholders shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

In accordance with the Covered Bond Guarantee, the Representative of the Covered Bondholders on behalf of the Covered Bondholders has confirmed such delegation and waived any rights of the Covered Bondholders to revoke such delegation and take any such individual action against the Issuer;

(iii) *Payments by the Covered Bond Guarantor*: the Covered Bond Guarantor will pay any amounts due under the Covered Bonds on the Due for Payment Date in accordance with (i)(a) above and subject in any case to the provisions of the Conditions;

(iv) *Mandatory Tests*: the Mandatory Tests shall continue to be applied; and

(v) *Pre-Maturity Liquidity Test*: the Pre-Maturity Liquidity Test shall be deemed to be failed with respect to any Hard Bullet Covered Bonds for which the Maturity Date falls within 12 months.

Upon the termination of the Suspension Period, the Article 74 Notice to Pay shall be withdrawn and the Issuer shall be responsible for meeting the payment obligations under the Covered Bonds (and for the avoidance of doubt, the Covered Bonds then outstanding will no longer be deemed to be accelerated against the Issuer) in accordance with the relevant Priority of Payments.

Suspension Period means the period of time following an Article 74 Event, in which the Covered Bond Guarantor, in accordance with the MEF Decree, shall be responsible for the payments of the Guaranteed Amounts due and payable within the entire Period in which the suspension continues.

Issuer Events of Default

Each of the following events with respect to the Issuer shall constitute an **Issuer Event of Default**:

(i) *Non-payment*: default is made by the Issuer for a period of 7 days or more in the payment of any principal or redemption amount, or for a period of 14 days or more in the payment of any interest on the Covered Bonds of any Series or Tranche when due, unless an Article 74 Event has occurred and the relevant suspension period is continuing; or

(ii) *Breach of other obligations*: the Issuer is in breach of material obligations under or in respect of the Covered Bonds (of any Series or Tranche outstanding) or any of the Transaction Documents to which it is a party (other than any obligation for the payment of principal or interest on the Covered Bonds and/or any obligation to ensure compliance of the Portfolio with the Tests)) and such failure remains unremedied for 30 days after the Representative of the Covered Bondholders has given written notice thereof to the Issuer, certifying that such failure is, in its opinion, materially prejudicial to the interests of the Covered Bondholders and specifying whether or not such failure is capable of remedy; or

(iii) *Cross-default*: any of the events described in paragraphs (i) and (ii) above occurs in respect of any other Series or Tranche of Covered Bonds; or

(b) the Maturity Date of that Series or Tranche of Covered Bonds; or

(vii) *Breach of Mandatory Test*: breach of any of the Mandatory Tests which is not remedied by the Calculation Date immediately following the notification of such breach.

If an Issuer Event of Default occurs, the Representative of the Covered Bondholders will serve a Notice to Pay on the Issuer and Covered Bond Guarantor that an Issuer Event of Default has occurred and, upon service of such Notice to Pay:

(a) *No further Series or Tranche of Covered Bonds*: the Issuer may not

issue any further Series or Tranche of Covered Bonds;

(b) *Acceleration against the Issuer*: each Series or Tranche of Covered Bonds will accelerate against the Issuer and the Covered Bonds will rank *pari passu* amongst themselves against the Issuer, provided that (i) such events shall not trigger an acceleration against the Covered Bond Guarantor, and (ii) in accordance with Article 4, Paragraph 3, of the MEF Decree and pursuant to the relevant provisions of the Transaction Documents, the Covered Bond Guarantor shall be solely responsible for the exercise of the rights of the Covered Bondholders vis-à-vis the Issuer and any Excess Proceeds will be part of the Available Funds;

(c) *Delegation:* the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the rights of the Covered Bondholders *vis-à-vis* the Issuer in accordance with the provisions of the Covered Bond Guarantee, in the context of which the Covered Bondholders have irrevocably delegated – also in the interest and for the benefit of the Covered Bond Guarantor – to the Covered Bond Guarantor the exclusive right to proceed against the Issuer to enforce the performance of any of the payment obligations of the Issuer under the Covered Bonds including any rights of enforcing any acceleration of payment provisions provided under the Conditions and/or under the applicable legislation. For this purpose, upon request of the Covered Bond Guarantor, the Representative of the Covered Bondholders on behalf of the Covered Bondholders shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

In accordance with the Covered Bond Guarantee, the Representative of the Covered Bondholders on behalf of the Covered Bondholders has confirmed such delegation and waived any rights of the Covered Bondholders to revoke such delegation and take any such individual action against the Issuer;

(d) *Payments by the Covered Bond Guarantor*: the Covered Bond Guarantor will pay any amounts due under the Covered Bonds on the Due for Payment Date in accordance with (b)(i) above and subject in any case to the provisions of the Conditions;

(e) *Disposal of Assets*: the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, shall sell the Eligible Assets and Integration Assets (other than cash deposits) included in the Portfolio in accordance with the provisions of the Portfolio Administration Agreement;

(f) *Amortisation Test*: the Amortisation Test shall be applied.

Covered Bond Guarantor Events of Default

Following an Issuer Event of Default, each of the following events shall constitute a **Covered Bond Guarantor Event of Default**:

(i) *Non-payment*: non-payment of principal and/or interest in respect of the relevant Series or Tranche of Covered Bonds by the Covered Bond Guarantor in accordance with the Covered Bond Guarantee, subject to a 7 day cure period in respect of principal or redemption amounts and a 14 day cure period in respect of interest payment or non-payment or non setting aside for payment of costs or amounts due to any Hedging Counterparties by the Covered Bond Guarantor;

(iv) *Insolvency*: an Insolvency Event occurs in respect of the Covered Bond Guarantor;

(v) *Invalidity of the Covered Bond Guarantee*: the Covered Bond Guarantee is not in full force and effect.

(i) *Acceleration of Covered Bonds*: each Series or Tranche of Covered Bonds will accelerate against the Covered Bond Guarantor, becoming immediately due and payable, and the Covered Bonds will rank *pari passu* amongst themselves;

(ii) *Disposal of assets*: the Representative of the Covered Bondholders shall, in the name and on behalf of the Covered Bond Guarantor, direct the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, to sell all assets included in the Portfolio in accordance with the provisions of the Portfolio Administration Agreement; and

Cross Acceleration

If a Covered Bond Guarantor Event of Default is triggered with respect to a Series, all outstanding series of Covered Bonds will cross accelerate at the same time against the Covered Bond Guarantor, provided that the Covered Bonds will not otherwise contain a cross default provision and will thus not cross accelerate against the Covered Bond Guarantor in case of an Issuer Event of Default.

Pre-Maturity Liquidity Test

The Pre-Maturity Liquidity Test is intended to provide liquidity for Hard Bullet Covered Bonds when the Issuer's long-term credit ratings fall below the Pre-Maturity Liquidity Required Rating.

On any Business Day (each a **Pre-Maturity Liquidity Test Date**) falling during the Pre-Maturity Rating Period prior to the occurrence of an Issuer Event of Default, the Calculation Agent will determine if the Pre-Maturity Liquidity Test has been breached, and if so, it shall immediately notify the Issuer, the Seller, the Hedging Counterparties and the Representative of the Covered Bondholders.

For the purpose of this paragraph the **Pre-Maturity Liquidity Test** is complied with on any Pre-Maturity Liquidity Test Date if, during the Pre-Maturity Rating Period, the Issuer's short-term credit rating is greater than or equal to the Pre-Maturity Liquidity Required Rating.

Following a breach of the Pre-Maturity Liquidity Test in respect of a Series or Tranche of Covered Bonds:

(i) the Issuer shall:

(a) make a cash deposit in an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates on the Pre-Maturity Liquidity Account, opened in its name with a bank whose ratings are at least equal to the Minimum Required Account Bank Rating provided for under the Transaction Documents and pledged in favour of the Covered Bondholders; or

(b) obtain a first demand, autonomous guarantee (meeting the criteria set forth by the Rating Agency) for an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates, by an eligible entity whose ratings are at least equal to the Minimum Required Pre-Maturity Liquidity Guarantor Rating; or

(c) take action in the form of a combination of the foregoing which in aggregate add up to an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates;

and/or

(ii) the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, on behalf of the Covered Bond Guarantor, shall sell, subject to any pre-emption right of the Seller or any Additional Seller (as the case may be) pursuant to the relevant Master Transfer Agreement, Selected Assets and Integration Assets in accordance with the procedures set out in the Portfolio Administration Agreement, for an amount equal to the Adjusted Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates.

If the Pre-Maturity Liquidity Test in respect of any Series of Covered Bonds is breached and the Issuer or the Servicer (on behalf of the Covered Bond Guarantor) has not taken the required actions (as described above) following the breach by the earlier to occur of:

(a) 20 Business Days from the date on which the Issuer is notified of the breach of the Pre-Maturity Liquidity Test, and

(b) the Maturity Date of that Series of Covered Bonds,

an Issuer Event of Default shall occur and the Representative of the Covered Bondholders will serve a Notice to Pay to the Issuer and the Covered Bond Guarantor.

DESCRIPTION OF THE ISSUER

History and organisation of the Intesa Sanpaolo Group

Intesa Sanpaolo Origins

Intesa Sanpaolo is the result of the merger by incorporation of Sanpaolo IMI S.p.A. with and into Banca Intesa S.p.A. (effective 1st January 2007).

Banca Intesa S.p.A.

Banca Intesa S.p.A. was originally established in 1925 under the name of La Centrale and invested in the business of the production and distribution of electricity. After the nationalisation of companies in this sector in the early 1960s the company changed its name to La Centrale Finanziaria Generale, acquiring equity investments in various companies in the banking, insurance and publishing sector. The company merged by incorporation with Nuovo Banco Ambrosiano in 1985 and assumed its name and constitutional objects. Following the acquisition of Cassa di Risparmio delle Provincie Lombarde S.p.A. (**Cariplo**) in January 1998, the Intesa Sanpaolo Group's name was changed to Gruppo Banca Intesa. Then, in 2001, Banca Commerciale Italiana S.p.A. was merged into the Gruppo Banca Intesa and the group's name was changed to "Banca Intesa Banca Commerciale Italiana S.p.A." On 1 January 2003 the corporate name was changed to "Banca Intesa S.p.A.".

Sanpaolo IMI S.p.A.

Sanpaolo IMI S.p.A. (**Sanpaolo IMI**) was formed in 1998 through the merger of Istituto Mobiliare Italiano S.p.A. (**IMI**) with and into Istituto Bancario San Paolo di Torino S.p.A. (**Sanpaolo**).
Sanpaolo originated from the "Compagnia di San Paolo" brotherhood, which was set up in 1563 to help the needy. The "Compagnia di San Paolo" began undertaking credit activities and progressively developed into a banking institution during the nineteenth century, becoming a public law credit institution (Istituto di Credito di Diritto Pubblico) in 1932. Between 1960 and 1990, Sanpaolo expanded its network nationwide through a number of acquisitions of local banks and medium-sized regional banks, ultimately reaching the level of a multifunctional group of national importance in 1991 after its acquisition of Crediop. On 31st December 1991, Sanpaolo became a stock corporation (società per azioni) with the name Istituto Bancario San Paolo di Torino Società per Azioni.

IMI was established as a public law entity in 1931 and during the 1980s it developed its specialist credit and investment banking services and, with Banca Fideuram, its professional asset management and financial consultancy services. IMI became a stock corporation (società per azioni) in 1991.

The merger between Banca Intesa and Sanpaolo IMI and the creation of Intesa Sanpaolo S.p.A.

The boards of directors of Banca Intesa and Sanpaolo IMI unanimously approved the merger of Sanpaolo IMI into Banca Intesa on 12 October 2006 and the merger became effective on 1 January 2007. The surviving entity changed its name to Intesa Sanpaolo S.p.A., the parent company of the Intesa Sanpaolo Group.

Intesa Sanpaolo in the last two years

Below is a summary of the transactions carried out by the Intesa Sanpaolo Group during 2013 and 2014 which, where necessary, have been reported in specific market disclosure documents.

On 11th April 2013, Intesa Sanpaolo and the Trade Unions signed an agreement to facilitate the exit of a further 600 employees. The agreement envisaged the possibility for employees who at that date had met the A.G.O. pension requirements, or who would do so by 31st December 2013, to retire on 1st July 2013, or subsequently to that date upon meeting the requirements, up until 31st December 2013. Furthermore, employees who meet the pension requirements by 30th September 2017 are offered the possibility of using the Solidarity Allowance for a maximum period of 36 months.

On expiry of the time limits for joining the exit agreement, 252 employees had accepted it; of these, 97 already met the minimum retirement requirements or would meet them by the end of 2013, while 155 accessed the Solidarity Allowance.

A supplemental agreement was signed on 2nd July 2013, in compliance with the provisions set out in the agreement of 11th April 2013, and in order to achieve the objectives pursued, expanding the group of employees eligible for the Solidarity Allowance. Employees wishing to take advantage of this exit option could apply for the scheme by 16th September 2013.

A subsequent agreement of 8th October 2013 extended the deadline from 16th September to 31st October 2013.

At the end of this second round, the proposal had been accepted by a further 201 persons.

The cost of the exit incentive and of supporting the early retirement of these employees was approximately 66 million euro (before discounting and before taxes), which were charged to the income statement for 2013.

At the beginning of July 2013, Intesa Sanpaolo launched a bid to purchase its senior notes. The transaction allowed optimisation of the Bank's liabilities profile, reducing excess amounts and modifying the related timing distribution. With an offer of 2,247 million euro, the final total of notes delivered was 1,493 million euro, corresponding to a total purchase amount of 1,510 million euro. As a consequence of the buyback finalisation, the Intesa Sanpaolo Group registered a positive contribution in the year, including the positive impact of the unwinding of interest rate derivatives, of approximately 106 million euro gross (71 million euro net of the tax effect).

In August, Intesa Sanpaolo carried out an exchange of existing subordinated notes (exchange offer) with newly issued Tier 2 subordinated notes in euro, with maturity on 13 September 2023. The transaction was finalised on 13 September. At the end of the offer, the aggregate nominal value of the notes offered by the holders and accepted for the exchange was 1,428 million euro. Consequently, as at the settlement date, Intesa Sanpaolo issued an aggregate nominal value of new notes amounting to 1,446 million euro. As a consequence of finalisation of the exchange, the Intesa Sanpaolo Group registered a positive contribution of 87 million euro to its pre-tax income and of 58 million euro to its net income in the third quarter of 2013.

On 24th September 2013, Telco's shareholders entered into an agreement amending the shareholders' agreement relating to Telco for the purposes of recapitalising and refinancing the company. The overall impact of the investment in Telco in the 2013 consolidated income statement of Intesa Sanpaolo was thus negative in the amount of 80 million euro.

On 15th October 2013, the Management Board of Intesa Sanpaolo adopted the following detailed action plan in favour of Alitalia: first, to subscribe to the increase in the share capital of the company for an amount of 26 million euro (proportionate to Intesa Sanpaolo's stake in Alitalia); second, to guarantee the underwriting of up to 50 million euro of any unsubscribed shares subject to certain conditions, which later occurred; third, to grant an advance of up to 50 million euro under the aforementioned underwriting commitment. In the 2013 financial statements of the Intesa Sanpaolo Group, in the light of the current complex situation of the sector, marked by a high degree of uncertainty, it was deemed appropriate to value the stake with a prudential approach, pending developments in the current negotiations. Consequently, impairment of about 61 million euro was recognised, as well as losses of 35 million euro, both certain and estimated on the basis of the available data.

The increase in the share capital was completed in December 2013, and totalled 300 million euro, with the entry of new shareholders (Poste Italiane, Unicredit, Percassi Group). Intesa Sanpaolo's commitment to the capital increase was 76 million euro. Furthermore, in February 2013, Intesa Sanpaolo subscribed for a portion (approximately 16 million euro) in the subordinated convertible bond loan approved by the Shareholders' Meeting of Alitalia for a maximum amount of 150 million euro and subscribed by the shareholders as to 95 million euro. As at 31st December 2013, the first expiry date for exercising the conversion option, Intesa Sanpaolo decided not to exercise this right. Following the subscription to the capital increase and conversion of the bond loan (not converted by Intesa Sanpaolo), the interest held by Intesa Sanpaolo comes to 20.59% (19.21% directly and 1.38% through Ottobre 2008). As part of the same financing transaction, on 3rd December 2013 the Management Board approved the extension of short-term credit facilities, commitments and derivatives commitments of approximately 250 million euro through 30th June 2015, whereas on 28th January 2014 it then approved a loan of 70 million euro as part of a pool transaction of a total of 165 million euro. This financing transaction, including equity and debt, was aimed at allowing a new industrial investor to be identified. Since last spring, Intesa Sanpaolo has been engaged in negotiations in view of a partnership and merger agreement between Alitalia and Etihad Airways. To that end, subject to the successful completion of the

ongoing negotiations, Intesa Sanpaolo has indicated its willingness to support the transaction by granting new lines of credit and guaranteeing its participation, to the extent of its involvement, with an equity commitment of a maximum of 300 million euro.

Based on a prudent assessment of the current situation of Alitalia and of the commitments undertaken, Intesa Sanpaolo has, in the Half-yearly Report of 2013: (i) fully written down the residual carrying amount of the investment (38 million euro); (ii) established provisions for risks and charges of 30 million euro for losses that the company is suffering; (iii) adjusted cash loans, currently equal to approximately 160 million euro, for an amount of 119 million euro. The impact on the half-yearly income statement amounted to 188 million euro, before tax.

On 11th November 2013, Intesa Sanpaolo completed the sale of approximately 21 million ordinary shares in Assicurazioni Generali, corresponding to approximately 1.3% of this company's share capital, at a price of 16.60 euro per share in an accelerated bookbuilt offering. The total consideration was approximately 348 million euro, yielding for Intesa Sanpaolo a positive contribution to its consolidated net income of approximately 63 million euro. By completing this transaction, Intesa Sanpaolo sold its entire stake in Assicurazioni Generali, reporting for the fourth quarter a positive contribution to consolidated net income of approximately 82 million euro. The total contribution of this stake to net income for 2013, which takes into account the impairment of 58 million euro recognised in the half-yearly report as at 30th June, was about 24 million euro.

On 2nd December 2013, Intesa Sanpaolo (jointly with other shareholders) executed with Fondo Strategico Italiano, F2i SGR and Orizzonte SGR sale-and-purchase agreements concerning the sale of 59.3% of the share capital of SIA (28.9% of which is held by the Intesa Sanpaolo Group). The price was determined on the basis of a valuation of 100% of the SIA capital equal to 765 million euro; the transaction was completed on 28th May 2014. The Intesa Sanpaolo Group's consolidated net income has recorded a positive contribution of approximately €170 million from the transaction.

Again in December 2013, the third amending agreement was signed in respect of the existing agreements between the company Carlo Tassara S.p.A. and the lending banks as part of a restructuring plan to enable the company to better enhance the assets under disposal, the proceeds of which will be used to repay its financial debt. With regard to the overall gross exposure towards Carlo Tassara, Intesa Sanpaolo recognised a 497 million euro adjustment (including 67 million euro recognised in the 2013 financial statements), considered suitable to cover the Bank's total exposure.

Finally, on 16th May 2013 EBA recommended supervisory authorities to conduct asset quality reviews on major EU banks, the objective being to review the banks' classifications and valuations of their assets so to help dispel concerns over the deterioration of asset quality due to macroeconomic conditions in Europe. On 23rd October 2013, the ECB announced that, together with the national competent authorities responsible for conducting bank supervision, it would carry out a comprehensive assessment of the banking system, pursuant to the regulations on the Single Supervisory Mechanism (EU Council Regulation No. 1024/2013 of 15th October 2013) that became effective on 3rd November 2013. This activity, started during 2014, will involve the major European banks, including the Intesa Sanpaolo Group.

As to important events after the close of the year 2013, we report that on 23rd January 2014 Intesa Sanpaolo signed an agreement concerning the sale of 100% of the capital of its Ukrainian subsidiary Pravex-Bank to CentraGas Holding Gmbh for a consideration of 74 million euro. Finalisation of the transaction is subject to regulatory approval being obtained and is expected to take place within the next few months. As a result, the consolidated income statement will record a negative contribution of 38 million euro after tax (calculated on the basis of the subsidiary's shareholders' equity as at 31st December 2013), plus, at the time of finalising the transaction, the effect of the release of foreign exchange differences from the related valuation reserve, which will be negative in the amount of 60 million euro. The evidence of a transaction price lower than the carrying amount, which constitutes an impairment indicator, led to recognition of the loss already

in the 2013 financial statements, with the exception of the effect linked to the exchange rate reserve, for which IAS 21 requires recognition in the income statement only at the time of disposal.

Furthermore, the Intesa Sanpaolo Group has signed a binding memorandum of understanding concerning the sale of the stake held by subsidiary Intesa Sanpaolo Vita in the Chinese insurance company Union Life (representing 19.9% of the latter's capital) for a consideration of 146 million euro. This transaction will generate a positive contribution of approximately 30 million euro after tax to the consolidated income statement. It is subject to prior authorisation being obtained from local supervisory bodies.

On 6th March 2014, Intesa Sanpaolo completed the sale of approximately 7 million ordinary shares held in Pirelli & C., corresponding to approximately 1.5% of the Company's voting share capital and representing the entire stake held. The sale was made at a price of 12.48 euro per share in an accelerated bookbuilt offering.

The total value was 89.3 million euro, representing a positive contribution to consolidated net income for Intesa Sanpaolo of approximately 55 million euro recognised in the income statement of the first quarter of 2014.

On 30th June 2014, following the approval obtained at the shareholders' meeting of NH Hotel Group S.A. (formerly NH Hoteles S.A., hereinafter **NH**) on 26th June 2014 regarding the capital increase reserved for Intesa Sanpaolo through the issue of 42,000,000 new ordinary shares of NH at a price of 4.70 euro per share, Intesa Sanpaolo executed the capital increase by contributing its entire shareholding owned in NH Italia S.p.A., representing 44.5% of the latter's share capital, to NH. Intesa Sanpaolo's consolidated net income has recorded a positive contribution of 47 million euro from the transaction.

On 16th June 2014, Assicurazioni Generali, Intesa Sanpaolo and Mediobanca exercised the right to request the demerger of Telco, under the terms of its shareholders' agreement. On 26th June 2014, the Board of Directors of Telco and, subsequently, on 9th July, the shareholders' meeting of Telco approved the proposed partial non-pro rata demerger of the company. Telco will continue to exist with a minimal share capital and with no Telecom Italia shares held, in order to deal with the remaining assets and liabilities on the balance sheet. The company will then be placed in liquidation once this phase is complete. In this context, also in occasion of the 2014 Half-yearly Report, the investment was valued by considering the Telecom shares at their market price as at 30th June 2014, equal to 0.925 euro. This valuation resulted in a recovery on the investment of 25 million euro, which net of the pro rata amount of losses recorded by the company, equal to 3 million, brings the new carrying amount of the investment to 22 million euro.

On 10th July 2014, Nuove Partecipazioni S.p.A. (**NP**), Intesa Sanpaolo S.p.A. (**ISP**), UniCredit S.p.A. (**UC**), Clessidra SGR S.p.A., on behalf of Fondo Clessidra Capital Partner II (**Clessidra**), and Long-Term Investments Luxembourg S.A., a company designated by Rosneft Oil Company, as investor in Camfin S.p.A. (the **Strategic Investor**) finalised a transaction concerning Camfin S.p.A. by which the Strategic Investor purchased for a total consideration of 552.7 million euro: i) from Clessidra, the entire share capital of Lauro 54 and, therefore, the indirect stake representing 24.06% of Lauro 61/Camfin share capital; ii) from each of ISP and UC, a stake representing 12.97% of Lauro 61/Camfin share capital. Intesa Sanpaolo's consolidated net income has recorded a positive contribution of 44 million euro from the transaction.

On 21st July 2014, Intesa Sanpaolo announced that its Hungarian subsidiary CIB Bank and the Intesa Sanpaolo Group are impacted by a law approved in Hungary on 4th July 2014 and published on 18th July 2014, which regards the local banking sector. The enactment of this law entails a negative impact on the Intesa Sanpaolo Group's consolidated net income for the second quarter of 2014 of approximately €65 million, resulting from customer reimbursement in relation to the abolition, and the consequent retroactive correction, of the bid/offer spreads applied to retail foreign-currency loans.

Recent Events

On 25th February, 2015, Intesa Sanpaolo provided the following information, as requested by CONSOB:

- the Bank has today received notification of the ECB's final decision concerning the specific capital requirements that the Bank has to meet on a consolidated basis;
- the Bank's Directors do not see any difficulty regarding the current and future ability of Intesa Sanpaolo to meet these requirements, which establish an overall capital ratio equal to:
  - 9% in terms of Common Equity Tier 1 ratio; and
  - 11.5% in terms of Total Capital ratio;
- Intesa Sanpaolo's capital ratios as at 31st December, 2014 on a consolidated basis - net of €1.2 billion of proposed dividends for the financial year 2014 - were as follows:
  - 13.6% in terms of Common Equity Tier 1 ratio; and
  - 17.2% in terms of Total Capital ratio,

  calculated by applying Basel 3 transitional arrangements for 2014, and
  - 13.3% in terms of pro-forma Common Equity Tier 1 ratio; and
  - 16% in terms of pro-forma Total Capital ratio,

  calculated on a fully loaded basis ([4]).

On 17th April, 2015, Intesa Sanpaolo - upon CONSOB's request dated as of 14thApril, 2015, with regards to the press release dated as of 22nd April, 2014 which announced that Intesa Sanpaolo S.p.A. ("Intesa Sanpaolo") and UniCredit S.p.A. ("UniCredit") signed a memorandum of understanding with Alvarez & Marsal and KKR concerning the management of a "selected portfolio of receivables under restructuring", as well as with regards to recent news leaks concerning the status of the project - provided the following information.

1. Following the signing of the memorandum of understanding, the parties have analyzed the issues concerning the project's corporate and contractual structure. Intesa Sanpaolo Management Board, upon its meeting held on 17th March, 2015, and UniCredit Board of Directors, upon its meeting held on 9th April, 2015, approved the participation to the project with KKR and Alvarez & Marsal, granting the respective competent managerial bodies the responsibility for the final definition of the structure, the economics and contractual documentation as well as the selection of the portfolios involved which, as previously mentioned, are currently under negotiations among the parties.

2. In the ongoing negotiation phase, the main corporate features of the initial structure under which the project should be implemented consist of a securitization vehicle (the "130 Vehicle") and of a joint-stock company (the "SPA"), that will control the 130 Vehicle and whose controlling shareholder will be KKR. Banks will not control (not even jointly) the abovementioned companies, nor will the Banks exercise any form of notable influence, although a participating relationship is not excluded.

   At the moment it is assumed that to the above structure be transferred certain portfolios of receivables - basically arising from medium and long-term loans (which will be acquired by the 130 Vehicle) - as well as of equity instruments - such as shares or participating instruments (which will be acquired by SPA) - towards certain non-listed borrowers which might appreciate following financial and industrial restructuring; it is currently foreseen that the global nominal amount of such portfolios be around €1,000,000,000. As consideration for such transfer, the Banks will receive Notes of diversified seniority issued by the 130 Vehicle and – where applicable – participating instruments issued by SPA.

[4] Estimated by applying the parameters set out under fully loaded Basel 3 to the financial statements as at 31st December, 2014, considering the total absorption of deferred tax assets (DTAs) related to the goodwill realignment, the expected absorption of DTAs on losses carried forward, and the effect of the Danish compromise (under which insurance investments are risk weighted instead of being deducted from capital, with a benefit of nine basis points for the Common Equity Tier 1 ratio and five basis points for the Total Capital ratio).

3. The operating management of the companies involved in this structure, controlled by KKR which will also provide the resources needed for adequate new finance injections, will be the responsibility of an independent management, with significant experience in the areas of restructuring and turnaround that will have the possibility to rely upon the skilled support of Alvarez & Marsal which will act as Preferred Asset Manager Advisor. The responsibilities for the management of the portfolios to be transferred will belong exclusively to such companies, controlled by KKR, which will independently make all decisions concerning the management, with a view to optimize the appreciation and disposal of such assets.

4. The possible consequences upon the Banks' balance sheets of the effects of the deployment of the project as well as of the development of the restructuring processes, together with prudential regulation issues, are currently under analysis and discussion with the competent authorities.

5. The project is aimed at allowing that management of the restructuring portfolios occur in the framework of turnaround and re-launching of medium-large companies, benefitting from industrial restructuring expertise and new money injection as well as leveraging on primary managerial skills and new governance. Indeed the possibility to manage globally the portfolios involved in each restructuring process and the immediate availability of new finance are crucial to enhance the promptness and effectiveness of the actions taken in such restructuring processes.

Alternatively, these shares may be retained to service possible future incentive plans.

c) Proposal for the approval of the criteria for the determination of the compensation to be granted in the event of early termination of the employment agreement or early termination of office. Legal Risks

Legal risks are thoroughly and individually analysed by both the Intesa Sanpaolo and the individual Intesa Sanpaolo Group companies concerned. Provisions are made to the allowances for risks and charges when there are legal obligations that are likely to result in a financial outlay and where the amount of the disbursement may be reliably estimated.

The issues recording certain developments during the 2014 financial year, the 2015 financial year as of 30th June 2015 and 30th September 2015 are described below.

Dispute relating to anatocism

In 1999, the Italian Court of Cassation reversed its stance and found the quarterly capitalisation of interim interest payable on current accounts to be unlawful, assuming that the relevant clauses in bank contracts do not integrate the contract with a "regulatory" standard practice, but rather with a "commercial" practice, and therefore, such clauses are not adequate to derogate from the prohibition of anatocism pursuant to Art. 1283 of the Italian Civil Code.

The subsequent Legislative Decree 342 of 1999 confirmed the legitimacy of interim capitalisation of interest on current accounts, as long as interest is calculated with the same frequency on deposits and loans. From April 2000 (the date on which this regulation came into effect), quarterly capitalisation of both interest income and expense was applied to all current accounts.

Therefore the dispute on this issue concerns only those contracts which were stipulated before the indicated date.

In the judgment no. 24418 handed down by its Joint Sections on 2 December 2010, the Court of Cassation ruled that the ten-year statute of limitations applicable to account-holders' entitlement to reimbursement of capitalised interest debited on the current account begins to toll on the date the account is closed, if the account had an overdraft facility and the facility's limit was respected, or on the date on which deposits were made to cover part or all of previous interest debits if the account was drawn beyond such limits or did not have an overdraft facility.

These principles have not always been uniformly applied by courts in the first and second instances. However, though with varying effectiveness based on the specific cases, they contribute to a general decrease in the claims for restitution put forward by account holders, especially when the claims relate to transactions far back in time.

In addition to this aspect, it must be noted that, though the overall number of lawsuits increased due to the current economic situation, it remains at an insignificant level in absolute terms and is the subject of constant monitoring. The risks related to these disputes are covered by specific, adequate provisions to the allowances for risks and charges.

Altroconsumo class action

In 2010, Altroconsumo, representing three account holders, brought a class-action suit seeking a finding of the unlawfulness of overdraft charges and the fee for overdrawing accounts without credit facilities, the latter of which had been adopted in 2009 as part of adjustments of contracts to the new rules imposed by lawmakers regarding bank fees. The suit also sought a finding that the "threshold rate" set out in the law on usury had been exceeded. By order of 28th April 2010, the Court of Turin declared the suit inadmissible. Following the complaint filed by the plaintiffs, the Torino Court of Appeal, by order of 16th September 2011, overturned the previous order, restricting the scope of the suit solely to account overdraft charges applied effective 16th August 2009. A total of 104 applications to join the suit were then filed within the terms set by the Court. The suit was resolved by the judgment filed on 10th April 2014, in which 101 of the 104 applications were found to be inadmissible due to formal irregularities of presentation or failure to meet consumer requirements by some of the applicants. On the merits, having rejected the claims regarding usury, the judgment finds that the account overdraft charge is void on the basis of the principle according to which, in the absence of a formal credit facility, an overdraft would not justify the application of additional costs to the account holder, given that no banking service requiring compensation has been provided in such cases. The decision was appealed because it is founded upon an untenable interpretation of the statute concerned. Altroconsumo and three parties promoting the class action appeared in court in the second instance proceedings, proposing an incidental appeal, specifically regarding the decision ruling that most of the participants in the class action were inadmissible. In economic terms, the ruling is irrelevant both in terms of the claims made by the three current account holders admitted and in terms of those referring to current account holders currently excluded. It bears clarifying that the contested fee was replaced, effective October 2012, by the expedited approval fee introduced by the Monti administration's Save Italy Decree.

Judicial and administrative proceedings involving the New York branch

During 2012 the criminal investigation instigated by the New York District Attorney's Office and the Department of Justice aimed at verifying the methods used for clearing through the United States of payments in dollars to/from countries embargoed by the US government in the years from 2001 to 2008, an update on which has been provided each year, was concluded in Intesa Sanpaolo's favour in 2012.

As regards the transactions (the handling of bank transfers in dollars through the SWIFT interbank payments service, cleared through US banks), Intesa Sanpaolo was also subject to assessments by the **OFAC** (Office of Foreign Assets Control), the authority of the United States Department of the Treasury responsible for foreign exchange control. As a result of these assessments, Intesa Sanpaolo paid a fine of 2.9 million dollars due to the acknowledgement of the commission of a small number of administrative errors during the period 2004-2007.

The transactions in question remain subject to the scrutiny of the FED and the New York State Department for Financial Services (formerly known as New York State Banking Department). The related proceedings are still pending and, at present, it is not possible to forecast its outcome or assess the risk of penalties.

Intesa Sanpaolo (formerly Banca OPI, then Banca Infrastrutture Innovazione e Sviluppo) and Municipality of Taranto litigation

Banca Infrastrutture Innovazione e Sviluppo (**BIIS**), as the successor to Banca OPI, was involved in a case pending before the Court of Taranto brought by the Municipality of Taranto in relation to the subscription in 2004 by Banca OPI of a 250 million euro bond issued by the Municipality.

In its judgement of 27th April 2009, the Court declared the invalidity of the operation, ordering Intesa Sanpaolo to reimburse, with interest, the partial repayments of the loan made by the Municipality of Taranto. The latter was ordered to reimburse, with interest, the loan granted. The Court also ordered compensation for damages in favour of the Municipality, to be calculated by separate proceedings.The Municipality and Intesa Sanpaolo jointly agreed not to enforce the judgement.

On 20th April 2012 the Court of Appeal, without prejudice to the findings of the separate proceedings regarding the alleged damages, partially reformulated the first instance ruling by ordering that:

(a) BIIS reimburse the sums paid by the Municipality of Taranto, plus legal interest;

(b) the Municipality of Taranto reimburse BIIS for the sums disbursed in execution of the bond loan, less amounts already paid, plus legal interest and currency appreciation;

(c) BIIS reimburse the Municipality for first instance legal costs, compensated against those for the appeal.

Intesa Sanpaolo, which succeeded BIIS in the proceedings following the well-known corporate operations, filed an appeal against this judgement before the Court of Cassation. The date of the hearing is scheduled on 26th January, 2016.

In the meantime, the insolvency procedure entity for the Municipality of Taranto informed BIIS that the Municipality's debt to Intesa Sanpaolo for the repayment of the 250 million euro bond had been added to "the insolvency procedures' list of debts". Intesa Sanpaolo nonetheless appealed the judgment before the Regional Administrative Court of Puglia, which found the appeal inadmissible, ruling that the dispute fell within the jurisdiction of the civil courts and – albeit on an incidental basis – the appealed judgment was devoid of dispositional content and was thus incapable of undermining the bank's credit claims.

Intesa Sanpaolo and the Municipality have met repeatedly to assess the possibility of an amicable settlement to the pending litigation, however, such settlement could not be reached due to the intervention of the insolvency procedure entity, which claimed its own jurisdiction over managing the debt in question. In order to ascertain the illegitimacy of including the Intesa Sanpaolo s receivable in the insolvency procedures' list of debts and the lack of jurisdiction of the Extraordinary Liquidator, BIIS thus filed an extraordinary appeal to the President of the Republic, which is still pending.

Intesa Sanpaolo has also initiated additional civil proceedings before the Court of Rome for a ruling on its lack of liability for damages to the Municipality of Taranto.By way of non-final ruling, the Court of Rome, accepting the plaintiff's requests, rejected the claims of lack of interest to sue, demurrer and estoppel, and ordered the continuation of the proceedings for the purpose of drawing up a court-appointed expert's report, not only on amount but also on the cause of the alleged damages. Moreover, the court-appointed expert's report must be limited to the documents already filed in the records, as all the preclusions pertaining to the preliminary investigation have been applied, and should be confirmed by the Intesa Sanpaolo 's stance that the Municipality of Taranto suffered no damages as a result of the loan from BIIS. The lawsuit was suspended pending the outcome of the judgment from the Court of Cassation.

These events are also connected to criminal proceedings before the Court of Taranto, against several Executives of Banca OPI and Sanpaolo IMI, among others, in which the preliminary hearing judge has ruled that the Municipality of Taranto may file an appearance as civil claimant

in the criminal proceedings. The defendants are charged with indirect abuse of office, a crime which is not significant for the purposes of Legislative Decree 231/2001. In these proceedings, BIIS (now Intesa Sanpaolo) has been charged with civil liability for an amount of no less than 1 billion euro. In its ruling of 6th October 2014, the Court sentenced two Banca OPI Executives, while acquitting all of Intesa Sanpaolo 's other defendants, in addition to jointly and severally ordering Intesa Sanpaolo and the two aforementioned Executives, to pay compensation for damages in favour of the Municipality, to be settled in separate proceedings, as well as to pay an immediately enforceable provisional award of 26,167,175 euro, almost entirely represented by the interest portion of the repayments made by the Municipality - i.e. 25,167,175 euro - previously the subject of sentences from the First Instance Court and the Court of Appeal. Both the former employees found to be liable and Intesa Sanpaolowill appeal this judgment, applying for a stay of the provisional enforcement of the civil remedies. It is noted that for the provisional award Intesa Sanpaolo will not have to incur any outlays, as it can offset the amount in question with the higher credit claimed from the Municipality, as recognised by the Court of Appeal in the civil proceedings.

The assessment of the compensation risk indicated that there was no need to recognise a specific provision as at 31st December 2014.

Dispute relating to investment services

Disputes relating to investment services show a diversified trend based on the type of financial instrument concerned by the dispute.

Disputes relating to Parmalat and Cirio bonds can now be considered as coming to an end.

Disputes concerning Argentina bonds are steadly declining. Disputes concerning bonds issued by companies belonging to the Lehman Brothers Group decreased slightly both in the number of disputes and the values of the economic claims compared to the previous year,without prejudice to the fact that these disputes remained at insignificant levels in absolute terms. The judgments to this point in relation to Intesa Sanpaolo - with the exception of a few isolated cases subject to appeal - have all been favourable to Intesa Sanpaolo S.p.A.

As part of a system-wide initiative, the Intesa Sanpaolo Group oversaw and secured the establishment of proof of debt in the insolvency procedures pending in various foreign countries for its customers who hold the aforementioned bonds, at no cost to its customers.

There were no significant changes in disputes concerning derivative products compared to previous years. They remain at insignificant levels (both in number and value). All risks related to this category of disputes are constantly monitored and covered by accurate allowances that reflect the specific characteristics of the individual cases.

Disputes regarding the Cirio Group default

In November 2002, the Cirio Group defaulted on the repayment of a loan issued on the Euromarket. This event led to a cross default on all its existing issues. In April 2007, ten companies of the Cirio Group in Extraordinary Administration notified Intesa Sanpaolo and Banca Caboto (now Banca IMI), as well as five other banks, considered to be severally liable, of the filing of a claim for the reimbursement of alleged damages deriving from:

a) the worsening of the default of the Cirio Group, from the end of 1999 to 2003, favoured also by the issue in the 2000-2002 period of 6 bond issues; the damages thereof were quantified with the main criteria in 2,082 million euro and, with the control criteria, in 1,055 million euro or 421 million euro;

b) the impossibility by the Extraordinary Administration procedures of undertaking bankruptcy repeal, for undetermined amounts, in the event that the default of Cirio Group companies was not postponed in time;

c) the payment of fees of 9.8 million euro for the placement of the various bond issues.

In a judgment filed on 3rd November 2009, the Court of Rome found the Cirio Group's claims to be unfounded on the merits and therefore rejected said claims on the grounds of a lack of a causal relationship between the actions of the banks named defendants in the suit and the claimed damage event.

The claimants appealed against this judgment, proposing in that venue a stay of enforcement of the judgment to pay legal fees, firstly, and said petition was accepted by the Rome Court of Appeals. The lawsuit has been postponed to 27th January 2016 for an evidentiary hearing.

Disputes regarding tax-collection companies sold

As part of the government's re-internalisation of tax collection operations, Intesa Sanpaolo sold to Equitalia S.p.A. (a company owned by *Agenzia delle Entrate - Italian Revenue Agency* and *INPS*) the entire share capital of Gest Line and ETR/ESATRI, companies which managed tax-collection activities in the respective areas of the former Sanpaolo Imi Group (**Gest Line**) and the former Intesa Group (**ETR/ESATRI**), undertaking to indemnify the buyer against any losses and out-of-period expenses associated with the collection activity carried out up to the moment of sale of the investment. The most significant portion of the out-of-period expenses consist in costs incurred for operations prior to the sale, such as charges resulting from negative outcomes of litigation with taxpayers tax authorities or employees, tax collection expenses not recovered due to events attributable to the former concessionaires (mainly expenses for unsuccessful administrative detentions). The above commitments were triggered not only by contractual guarantees, but also by a statute, which entered into force in 2005, that directly transfers to the seller any payment obligation concerning tax collection activities conducted by the company sold prior to the sale thereof.

In October 2012 a board of experts was set up for dialogue with Equitalia to assess both the grounds for and the amount of the requests for compensation submitted pertaining to said guarantee. The board also examines asset captions for the seller, to be reconciled with those that are the subject of the requests for compensation.

Specifically regarding the litigation, as things stand, only one main dispute should be noted. This is the ruling promoted before the Campania Regional Section of the Court of Auditors by the bankruptcy proceedings of SERIT S.p.A., which was already the collection agent for section "B" of the Province of Caserta. The bankruptcy appellant is claiming that the defendants (in addition to Intesa Sanpaolo, Ministry for Economy and Finance and the Italian Revenue Agency) are liable for breach of contract with the resulting request for compensation for the damages suffered, as a result of the failure to refund the taxes paid in advance by SERIT under the "contingent payment obligation" system (note that in 1994 SERIT'S concession was revoked and then assigned to Banco Napoli as Government Commission Agent). The claim for damages is quantified as 129 million euro, unless more accurately specified through an expert's report to be drawn up during the proceedings.

Intesa Sanpaolo's position is founded on valid defence arguments, both in pre-trial phase and on the merits, which lead us to consider the dispute as free from risks.

Angelo Rizzoli lawsuit

In September 2009, Angelo Rizzoli filed suit against Intesa Sanpaolo (as the successor of the former Banco Ambrosiano) and four other parties seeking a finding of nullity for the transactions undertaken between 1977 and 1984 alleged to have resulted in a detrimental loss of the control that he would have exercised over Rizzoli Editore S.p.A. and claiming compensation in an amount ranging from 650 million to 724 million euro according to entirely subjective damage quantification criteria.

Rizzoli's claims, in addition to being without foundation on the merits due to the lack of a breach of the provision that prohibits preferential collateral rights argued to have occurred in the transactions whereby Rizzoli Editore S.p.A. was transferred, are also inadmissible at a preliminary procedural level, as held by Intesa Sanpaolo in its motion of appearance, on the grounds that the Milan Court of Appeal had already decided the matter in its judgment of 1996, which has become *res judicata*, as well as that Rizzoli lacked an interest to sue due to prescription of claims for compensation or restitution and usucaption by third parties.

In a judgment filed on 11th January 2012, the Court of Milan granted the preliminary objections of prescription and change into res judicata of the subject of the dispute and rejected the claims brought by Angelo Rizzoli, sentencing him to compensate Intesa Sanpaolo for expenses and frivolous litigation.

In February 2012 the plaintiff filed an appeal and, in relation to his request for suspension of the enforceability of the first instance ruling, the Court of Appeal granted the suspension of solely the frivolous litigation conviction. The lawsuit postponed to 21st October 2014 for an evidentiary hearing was declared interrupted due to the death of Angelo Rizzoli. The curator of Angelo Rizzoli's heredity resumed the appeal and next hearing was postponed to 22nd December, 2015.

Considering the favourable outcome of the first instance proceedings, no provisions were allocated.

Allegra Finanz AG litigation

On 31st January 2011, Allegra Finanz AG and other international institutional investors sued Intesa Sanpaolo and Eurizon Capital SGR, along with six other major international financial institutions, before the Court of Milan. The claimants are seeking compensation of approximately 129 million euro due to the losses they sustained as a result of various investments in bonds and shares issued by Parmalat Group companies.

With the ruling of 26th January, 2015 the Court rejected all claims brought by the plaintiffs, declaring the termination of the claim for compensation brought against Intesa Sanpaolo due to statute of limitations.

The plaintiffs didn't appeal within the deadline of 26th July, 2015 and the judgement can't be impugned.

Relations with the Giacomini Group

Starting from May 2012, certain media outlets published news of criminal investigations of members of the Giacomini family (which controls the industrial group of the same name) and other individuals in connection with possible illegal exportation of capital and other related offences.

In further detail, it was brought to light that the Public Prosecutor's Offices of Verbania and Novara have initiated investigations of possible tax offences committed by the Giacomini family and their advisors, and the Public Prosecutor's Office of Milan is investigating possible complicity in money-laundering by certain of the Giacominis' financial advisors, and the former CEO of the Luxembourg subsidiary, Intesa Luxembourg, and the head of Corporate Division relations of Intesa Sanpaolo, as well as Intesa Luxembourg and Intesa Sanpaolo for administrative liability pursuant to Legislative Decree no. 231/2001.

The charges against Intesa Luxembourg and Intesa Sanpaolo were dropped by the Court of Milan with a decision adopted in September 2015.

In regard to this matter, Intesa Sanpaolo has conducted internal inspection reviews to reconstruct the facts, including in reference to a loan disbursed by Intesa Luxembourg in December 2008 in the amount of 129 million euro to Alberto Giacomini's family in the context of a family buy-out transaction. No significant irregularities have emerged so far in relation to this.

Dispute relating to the acquisition of Bank of Alexandria

In 2006 Sanpaolo IMI acquired from the Egyptian government an 80% investment in Bank of Alexandria, as part of the government privatisation programme launched in the 1990's. In 2011, two proceedings were initiated before the Administrative Court of Cairo, by two private entities against several members of the previous government, aimed at the cancellation of the administrative measure for privatisation and the resulting deed of purchase and sale, based on alleged irregularities in the administrative process and the alleged unfairness of the share transfer price. Bank of Alexandria has intervened in both proceedings to fight the lawsuits, claiming the lack of jurisdiction of the administrative judge in the pre-trial proceedings and the groundlessness of the opponents' claims on the merits. Concerning the latter aspect, it has been inferred, with the support of suitable documentation, that the privatisation procedure was conducted correctly and - contrary to the opponents' allegations - in the form of public auction, in which numerous international banks participated, as a result of which Sanpaolo IMI was judged as the best bidder.

The two proceedings, which are going forward at the same time and have been subject to numerous postponements and slowdowns, are currently in the preliminary investigation phase. As things stand, and in consideration of the current phase of the proceedings, there are no critical issues in view with regard to the problems which are the focus of the disputes. Law 32/2014 was enacted on 24th April 2014. The statute clarifies the subjective requirements for appealing previous privatisations by limiting standing to sue to the original contracting parties only. The counsel to the defence believe that the statute is also applicable to the ongoing proceedings to which Bank of Alexandria is a party. Moreover, the statute was reviewed by Egypt's Constitutional Court due to contentions of unconstitutionality that arose in other proceedings to which Bank of Alexandria is not a party. Both lawsuits are constantly monitored by the Parent Company , also in terms of possible developments of the scenario.

Alberto Tambelli Lawsuit

In January 2013 – before the Milan Court of Appeal – Alberto Tambelli summarised a judgment of the Court of Cassation, claiming compensation for damages in terms of lost earnings for a total of approximately 110 million euro. The proceedings originate from futures transactions performed in 1994 with the Milan branch of the former Banca Popolare dell'Adriatico (now Banca dell'Adriatico) resulting in a capital loss for Mr. Tambelli. On termination of both levels of proceedings brought against Intesa Sanpaolo, Mr. Tambelli obtained reimbursement of the damages suffered but both the Ordinary Court and the Milan Court of Appeal denied compensation for other damages associated with loss of earnings which, in Mr. Tambelli's opinion, could have been achieved in the period in which he was deprived of availability of the sums lost in the aforementioned financial transactions. The Court of Appeal judgment was challenged by both parties before the Court of Cassation, which by decision dated st October 2012 rejected Intesa Sanpaolo's appeal, thereby finalising the order to compensate damages resulting from the loss of capital invested (which had in any event already been paid to Mr. Tambelli in 2004) and, vice versa, accepted Mr. Tambelli's claim, considering that – unlike the decision of the Milan Court of Appeal – the further claims for compensation for loss of earnings were not time-barred and their merits could therefore be assessed in new proceedings before a different bench by the Milan court.

As a result of the corporate affairs affecting Banca Popolare dell'Adriatico, the new proceedings were brought against Intesa Sanpaolo, as universal successor to the merged company Banca Popolare dell'Adriatico, and also against Banca dell'Adriatico as specific successor of the former bank.

At the hearing of 23rd April 2013, the judge, without considering Mr. Tambelli's preliminary claims, ordered the case to be decided by the Bench and set the date for the evidentiary hearing as 9th February 2016.

As the lawsuit is deemed lacking in grounds no provisions have been made.

Interporto Sud Europa (ISE) lawsuit against Banco di Napoli

By write of summons served on 28th December 2013, Interporto Sud Europa (ISE) summoned Banco di Napoli and another bank before the Court of Santa Maria Capua Vetere, calling for them to be jointly ordered to compensate for damages, quantified at 186 million euro.

In further detail, the plaintiff claimed that it decided to assume the debt arising from the first tranche of a pool loan disbursed to Comes S.r.l. (a total of 70 million euro for the construction of the shopping centre in Marcianise) on the understanding that the two banks concerned would then have disbursed an additional loan of 35 million euro for which ISE had applied directly (while reducing the original loan from 70 million to 35 million euro).

However, that loan was not in fact disbursed, and this situation allegedly resulted in a serious lack of liquidity for ISE, which, among other effects, purportedly prevented it from selling said shopping centre to third parties at a price regarded as expedient.

However, during the internal assessment process, various factual elements were brought to light, justifying the two banks' decision not to provide the loan.

The plaintiff has not entered into any preliminary pleadings and the judgement, as per the witnesses request, has deferred to the hearing 15th December, 2015 for a final conclusion.

Dispute initiated by Acotel Group S.p.A.

In its document initiating arbitration proceedings served on 4th November 2013, Acotel Groupseeks an award ordering Intesa Sanpaolo to provide compensation for damages, quantified at a total of 150 million euro, caused by alleged breach of a complex cooperation agreement, which took the concrete form of various contracts aimed at developing and selling an innovative telephone SIM card known as SIM Noverca to bank customers. Acotel assumes that the failure of the commercial initiative and the resulting damages were the result solely of breach of contract by Intesa Sanpaolo due to the lack of interest shown in the promotion and distribution of the product amongst its customers, which culminated in the cancellation and termination of the commercial agreements. Intesa Sanpaolo conducted its defence by raising a number of exceptions of a procedural nature.On the merits, it argued that the reasons for the transaction's lack of success may be found to lie in the technological inadequacy of the SIM card, which was rapidly rendered obsolete by the development of other, more attractive propositions on the market and the low level of competitiveness of the rate scheme, both of which were problems that Noverca was unable to overcome. Due to the lack of interest in proceeding with the arbitration shown by Acotel (which reserved the right to take action in the ordinary courts) and its consequent inactivity, the Chamber of Arbitration of Milan declared the proceedings closed by decision of 10th June 2014.

By writ of summons served on 2nd October, 2014, Acotel Group S.p.A. and Noverca Italia S.r.l. resubmitted the same arguments to the Court of Turin, presenting, in the case of Acotel Group, a compensation claim of similar amount to that previously entered in the arbitration proceedings and, in the case of Noverca, a request for damages of the lesser amount of approximately 11.5 million euro by way of contractual penalties.

In light of the defence arguments which can be objected to, the lawsuit is considered free from risks. The judgement is still under investigation

Compensation claim of G & C Holding S.r.l.

With summons served on 5th December, 2014, G. & C. Holding S.r.l. brought a legal action before the Court of Milan against the former CEO and the Head of Intesa Sanpaolo Corporate Division, as well as Intesa Sanpaolo, as jointly liable with the two defendants.

Said writ also summoned Roberto Colaninno (Chairman of CAI), Rocco Sabelli (CEO of CAI) and Alitalia – Compagnia Aerea Italiana S.p.A., as jointly liable with the two defendants.

In substance, G.& C. Holding claims that it incurred, from the end of 2008 to the beginning of 2009, an investment in Alitalia – CAI of approximately €40 million, for the purpose of revitalising the Italian national airline, from the point of view outlined in the 'Fenice' project.

Intesa Sanpaolo, as the "director" of the project, is charged with misrepresenting the actual outlook for the investment, thereby inducing the company into taking on the initiative in a transaction which ended in bankruptcy.

The request for compensation, against all defendants, has been quantified at €65 million, in addition to interest and revaluation.

The first hearing was postponed automatically to 16th February, 2016.

The preliminary pre-trial assessments are underway and, pending developments, the possibility of lawsuit risk will be assessed.

Lawsuit brought by Alis Holding S.r.l. in liquidation

By writ of summons served on 10th December, 2014, Alis Holding S.r.l. in liquidation brought a compensation claim before the Court of Milan, requesting that Intesa Sanpaolo be sentenced to pay €127.6 million as a result of the failure to achieve the positive results expected in relation to the value that its investment Cargoitalia was expected to reach.

The plaintiff claims that in developing a project launched in 2008 to enhance the potential for business in the air cargo sector in Italy, it purchased, along with Intesa Sanpaolo as its financial

partner, investments – in the amount of two-thirds (66.67%) and one-third (33.33%) – in the share capital of Cargoitalia, based on investment and shareholders' agreements through which Intesa Sanpaolo reserved a series of prerogatives on significant issues for itself.

In 2011, as a result of an adverse economic situation and the presence of a fierce competitor, Cargoitalia suffered a situation of financial tension which made it necessary to draw up a three-year recovery plan (2011-2014) to protect the business as a going concern.

The recovery plan included obtaining €8 million in resources through debt financing, which Intesa Sanpaolo was to disburse in a pool with another bank. Alis Holding claims that Intesa Sanpaolo allegedly refused, without reason, to honour that financing commitment, causing the winding up of Cargoitalia due to the impossibility of pursuing the corporate purpose and its resulting implementation of arrangement with creditors. Alis Holding thus claims liability of Intesa Sanpaolo due to breach of a shareholders' loan agreement which was assumed to be entered into on a de facto basis or, alternatively, due to the de facto exercise of management and coordination of Cargoitalia which was allegedly carried out in breach of the principles of sound company management.

During the hearing of 6th October, 2015, the plaintiff has made a new claim for compensation for the same amount in relation to liability of Intesa Sanpaolo, in relation to statements made by one of its employee in his capacity as a director appointed by the Bank to the Board of Directors of the company on 16 December 2011. Intesa Sanpaolo has disputed and opposed this new application. The judge has set the deadline for the filing of pleadings and has adjourned the case to March 15, 2016.

Croatia - Class Action against PBZ relating to CHF denominated loans

In the context of historically low interest rates on assets denominated in Swiss francs (CHF), starting from 2004 numerous Croatian banks have disbursed retail loans in Swiss francs. This practice was immediately appreciated by customers. Therefore, in order to avoid erosion of market share, PBZ also began to offer similar products in February 2005.

Though it was following market trends, PBZ implemented procedures significantly different than those of other banks. In particular, in informing its customers of exchange rate risk, PBZ included specific clauses in its loan contracts which notified customers of the possibility that the amount of their instalments could change due to the volatility of exchange rates.

In addition to foreign currency, a fundamental characteristic of this loan portfolio is the presence of so-called “administered interest rate”, which means that interest rates could be changed at the discretion of the Bank, without a clearly identified underlying index. This type of interest rate was the most common in the Croatian banking sector along with fixed interest rates. Only with the introduction of the new law on consumer credit were administered interest rates banned for all new loans starting from January 2013. PBZ correctly complied with these law provisions by introducing index-linked interest rates.

By writ of summons served on 23 April 2012, PBZ was sued, along with seven major Croatian banks (subsidiaries of non-Croatian groups) by a consumer association (Potrošač). Extremely in brief, the association called for the banks to be sentenced for:

– not having appropriately informed customers of the risks of an exposure in a foreign currency such as the Swiss franc;

– not having clearly set out in the contracts the rules for determining the interest rate, which the bank could unilaterally change.

On 4th July 2013, in the first instance, the Commercial Court of Zagreb substantially accepted the requests of the consumers association, ordering the banks to transform their receivables into HRK at the exchange rate at the disbursement date and to a fixed interest rate equal to the interest rate applicable to loan contracts on the date of their subscription.

In July 2013 the banks appealed against the first instance measure; the execution of the ruling was suspended pending the judgment on the appeal.

On 16th July 2014, the High Commercial Court of the Republic of Croatia rendered its second instance ruling. The resulting situation is more favourable for the banks than the first instance ruling;in particular:

- the part of the first instance ruling which established that the banks were to denominate in HRK the principal originally lent to the borrowers of loans granted in CHF,was overturned.

- , the first instance ruling was also overturned in the part referring to the loans granted in CHF to be converted, establishing that the banks were to apply a fixed interest rate equal to that applicable on the loan agreement when granted. on the other hand, the court upheld the unlawful nature of the unilateral changes to interest rates on the loans by the banks.

The banks appealed to the Croatian Supreme Court, in order to obtain the review of the part of the appeal ruling in which they are found liable. The appeal to the Supreme Court did not provide a stay of the enforcement of the appeal ruling. The counterparty, Potrošač also submitted the same appeal.

On 13th May, 2015, the Croatian Supreme Court announced its own decision on the appeal ruling, upholding it in its entirety. The Supreme Court's ruling did not substantially change the situation compared with the appeal ruling.

On 11th June, 2015, PBZ lodged an appeal with the Constitutional Court, contesting the Supreme Court ruling, and on 23rd June, 2015 it further requested that the Croatian Constitutional Court should verify the constitutionality of the legislation in force governing consumer credit.

With relation to the disputes described, it should be noted that the Croatian Parliament passed a number of amendments to the "Consumer Credit Act" and to the "Credit Institutions Act" on 18th September, 2015; these amendments took effect on 30th September.

Very briefly, these amendments contemplate obliging Croatian banks to offer customers a conversion into euro of the loans either disbursed in CHF, or pegged to CHF, using the exchange rate applicable on the date of disbursement of each loan. The sums already disbursed must be converted in euro at the exchange rate of the payment date. The interest rates must be the same as those applied to customers which took out loans in euro over the same period.

The impact of applying the new law, which effectively shifts the entire burden of the CHF revaluation since the disbursement date onto the bank, has been estimated by PBZ at around €172 million, which has been included in provisions for risks and charges.

Taking into account the negative impact of the law, on 29th September, 2015, PBZ filed an appeal with the Croatian Constitutional Court to verify its legitimacy. The bank challenged the constitutionality of the legislation on the basis of its violation of a number of articles of the Croatian constitution, including legal certainty, property rights, freedom of enterprise and the free market, rights to compensation in the event of expropriation and the non-retroactive nature of laws and other government regulations. PBZ applied to the court for the law to be suspended until the appeal has been ruled on.

Since the Constitutional Court did not suspend the law until this day, PBZ proceeded with the abovementioned conversion of the loans for its customers and the first conversions took place in December this year. It is expected that individual litigation with customers will decrease as result of these recent events.

Lawsuit brought by Fondazione Monte Paschi di Siena

By writ served on 11th July 2014, Fondazione MPS brought a lawsuit before the Court of Siena against former members of the Foundation's administrative body, as well as all of the banks, including Intesa Sanpaolo and Banca IMI, that had participated in 2011 in a pool loan to the Foundation intended to provide the Foundation with the resources required to subscribe for a capital increase undertaken by its subsidiary, Banca Monte Paschi di Siena.

In support of its compensation claim of approximately 286 million euro, the Foundation argued that the former directors and advisor bore contractual liability for having breached the limit on the debt-to-equity ratio imposed by the articles of association, as well as that the lending banks bore tortious liability for having knowingly been complicit in the alleged breach by the directors. Even though, as regards internal dealings between the defendants, alleged liability for compensation may be allocated proportionally, the Foundation sought a finding of joint and several liability of all the defendants in the proceedings.

The compensation claim, as presented, against the banks is deemed to be unfounded on a variety of grounds that relate not only to the possibility of attributing tortious liability to the banks, but also to an incorrect technical valuation of the financial statmente captions which form the basis of the alleged breach of said financial parameter, the inexistence of a causal relationship between the objectionable conduct and the harmful event as well as the determination of the amount of the items of the damages into which the compensation claim is divided Due to the referring to other parties (among whom some insurance companies) the judge has scheduled the first hearing on 16th February, 2016.

Lawsuit brought by Novembre RSA S.r.l. impresa sociale, Segno Unico S.r.l. and Novembre SGI S.r.l..

By writ of summons served on 5th August 2014 (first hearing set for May 2015), Novembre RSA S.r.l. impresa sociale, Segno Unico S.r.l. and Novembre SGI S.r.l., which have common owners, brought a compensation claim before the Court of Turin in which they seek a finding of joint and several liability against Intesa Sanpaolo and Mediocredito Italiano for the payment of damages of approximately 63 million euro, for which both banks are claimed to be liable for having failed to disburse a loan intended to finance a home for the elderly. The banks' liability depends on their alleged conduct in bad faith, which allegedly generated in the plaintiffs a good faith reliance that the loan would be disbursed.

The lawsuit joins the other disputes concerning misappropriation of accounts of said three companies, disputes which, though the related claims are unclear, have economic content significantly lower than that stated in the claim for damages.

The lawsuit in question is deemed to be unfounded in that the grounds of the failure to approve the loan are to be sought in multiple factors attributable to objective situations to which the defendant banks are completely extraneous. For these reasons, the lawsuit is deemed to be free of risks.

Labour litigation

There were no significant cases of labour litigation from either a qualitative or quantitative standpoint as at 31st December, 2014. In general, all labour litigation is covered by specific provisions adequate to meet any outlays.

Tax litigation

Overall tax litigation risks of the Intesa Sanpaolo Group are covered by adequate provisions to allowances for risks and charges.

As at 31st December, 2014, the Parent Company was a party to 306 litigation proceedings, in which a total of €952 million were at issue, including proceedings in both administrative and judicial venues at various instances. The actual risks associated with these proceedings were quantified at €75 million at 31st December, 2014.The Group’s other Italian companies within the scope of consolidation are parties to tax litigation proceedings in which a total of 370 million euro is at stake at that date, reflected by specific allowances of 29 million euro.

Pending international charges, totalling 9 million euro, are not material in amount when compared to the size of the business conducted by the Group. Specific provisions of adequate amount have been recognised to account for the risks associated with such charges.

In general, the checks conducted by the financial authorities in 2014 featured the mere reiteration of issues concerning interpretations which had arisen in previous years and have not been unequivocally defined With regard to Intesa Sanpaolo, it is important to note the issue of assessment report for 2009 of the charges concerning a series of transactions implemented for the purpose of capital strengthening by issuing preference shares through international subsidiaries (in the form of LLCs) resident in Delaware (USA). The claim is based on the assumption that the subordinated deposits in place between the international subsidiaries and the Parent Company can be reclassified as loans, subject to 12.50%. final withholding tax pursuant to the last paragraph of art. 26 of Italian Presidential Decree No. 600/1973. The claim related to said year, totalling €38 million in withholding taxes, penalties and interest, was, obviously, appealed before the court.

Moreover, the dispute for the year 2008, amounting to €74 million, is pending in the first instance. Conversely, the dispute relating to the year 2007, which amounted to €63 million, had a negative outcome in the first instance, in line with the adverse approach taken on the specific matter in the proceedings on the merits relating to equivalent charges against other banks. In spite of the approach of case law, due to the absolute debatable tax authority's argument, no provisions were made.

In terms of the main outcomes of proceedings during the reporting period, the following is worth mentioning:

(a) for the Parent Company, the positive judgement in all proceedings on the merits, in the first and second instance, in relation to the reclassifications by Agenzia delle Entrate of contributions of business lines and the subsequent sale of shares deriving from contributions as a step transaction, equivalent to the transfer of a business line;

(b) Moreover, with regard to the contributions of bank branches to CariParma and FriulAdria in 2007, the State Attorney's Office submitted an appeal to the Court of Cassation on behalf of the Agenzia delle Entrate;

(c) for the merged company Centro Leasing Banca, the favourable ruling of the Court of Cassation, though with a structure that implies the confirmation of the second instance ruling, regarding the issue of real estate lease-back transactions performed by the Company, which, in the tax audit of the years 2003 to 2007 were claimed to be a misuse of a right, concluded with the forecast of a total claim of €56 million for additional IRES tax, IRAP tax and VAT, in addition to penalties and interest. The tax claims under said ruling concerning the years 2004 and 2005 amounted to €16 million.

Using dispute settlement mechanisms, at the end of December 2014 Banca IMI settled the dispute concerning "misuse of a right" involving the sales of futures on listed Italian shares carried out as part of market maker operations in 2009, which the financial authorities reclassified as repurchase agreements based on their affirmed circular nature. Also in relation to this position, as previously done, the decision to settle that litigation was taken, though fully convinced of the groundlessness of the claim, in consideration of the inappropriateness of nurturing litigations that are time-consuming and costly, with a sharp degree of randomness in the specific matter. In the case in point, the tax claim, amounting to €157 million (for taxes, withholding taxes and penalties) was settled with a payment of €4 million.

Out of the total cases of tax litigation pending as at 31st December, 2014, at Group level €236 million is posted to the balance sheet among assets, €200 million of which refers to the Parent Company, representing the total amount paid by way of provisional tax collection where assessments are conducted.

For said cases of litigation, provisions for risks and charges amount to €49 million at Group level, of which €35 million for the Parent Company.

In this regard, it is important to note that the provisional payments were made in compliance with specific legal provisions, which mandate such payments based on an automatic mechanism completely unrelated to whether the related tax claims are actually founded and, thus, irrespective of the higher or lower level of risk of a negative outcome in the related proceedings. Thus, these payments were made solely based on the administrative deeds that set forth the related tax claim, which does not lose its effectiveness even when appealed, has no suspensive effect and does not

add to the assessments of the actual risk of a negative outcome, which must be measured using the criteria set forth in IAS 37 for liabilities.

The Tax Police Squad in Milan verification regarding Intesa Sanpaolo, which began in November 2013, was concluded in February 2015, with the notification of a report of findings containing claims for higher taxes totalling 107.2 million, in addition to 14.8 million for interest and penalties. This dispute initially moved forward with the notification of verification notices in June concerning VAT for 2007 and 2008, regarding the attribution of autonomous relevance to the control and supervisory activity, implicit in the service of custodian bank.The administrative settlement of the dispute is under way, in line with the recent decision of the Italian Revenue Agency, which limited the portion referred to the remuneration of said activity to 28.3%. To that end, a total of 5.1 million is due for taxes and interest, without the application of the related sanctions, due to the recognition of the objective uncertainty concerning the reference regulations. The second, partial follow up on said verification regards the notification of a verification notice for the alleged failure to apply withholdings for 2008 on interest relating to short-term deposits on the US market, containing a claim for 92.6 million euro, including interest and penalties. That verification notice will be contested, as it is deemed illegitimate, along with the remaining findings contained in that report on findings.

Another new position, which relates to a claim for a total of 31.5 million euro for taxes, penalties and interest, relates to the recovery of registration tax on contributions and subsequent sales of shares, relating to a transaction carried out with State Street concerning the securities services business, which was previously challenged in terms of reclassification as a mere transfer of a business unit, and is now being challenged in terms of its related valuation.

Lastly, an important agreement was reached with the Italian Revenue Agency, on the complete settlement of all claims relating to the fiscal consolidation tax return for 2005, which was reached following the sharp reduction of the related total tax claims for taxes and penalties, from the original 331.7 million euro to 5.8 million euro. The most significant dispute in terms of quantity included in that settlement, which amounts to 326 million euro, relates to the sale without recourse of loans to Castello Finance Srl, which was challenged in terms of the alleged non-deductibility for tax purposes of losses on loans, based on the argument of the absence of "certain and exact" elements required by the case law of the Court of Cassation. The Revenue Agency has now completely abandoned that claim, as in the case in question all the conditions set out in Circular no. 26/E of 1 August 2013 apply for the recognition of the deductibility of losses.

With regard to other Group companies, on 21 May 2014, the Tax Police Squad of the Milan Guardia di Finanza initiated a verification of direct taxes on the subsidiary Eurizon Capital S.A. – Luxembourg, for the tax periods from 2004 to 2013, based on the allegation (presumed according to the documentation acquired during the access phase of Eurizon Capital SGR on 11 December 2012) that the Luxembourg company may be considered as resident for tax purposes in Italy pursuant to Article 73, paragraph 3 of the Combined Tax Regulations. On conclusion of the verification, on 10 February 2015, the auditors thus notified a report on findings to Eurizon Capital S.A. regarding the company's alleged tax residence in Italy, due to the presence in Italy of its administrative offices and main purpose, and the failure to declare income of approximately 731 million euro for IRES purposes. On 23 June 2015, the subsidiary then received a formal notification of the related verification notices (issued by the Milan Provincial Department of the Italian Revenue Agency) for the tax periods 2004 to 2008, for a total amount of 122 million euro of IRES tax due, plus interest and penalties. Based on assessments by the advisors appointed by the Luxembourg company, which the Parent Company's Tax Service agrees with, the subsidiary considers the findings put forth by the auditors to be unfounded. In this regard, it is important to note that Eurizon Capital SA:

- has operated in Luxembourg since 1988 with a structure comprising over 50 highly qualified employees, who therefore posses suitable skills to autonomously carry out the business functions of the company;

- is subject to supervision by the Luxembourg regulatory authorities, as this is provided for on-site at its administrative headquarters;

- has always acted in full compliance with national tax regulations and the treaty against double taxation between Italy and Luxembourg.

The activities carried out in Italy by Eurizon Capital in relation to Eurizon Capital SA, on the other hand, have always been limited to the exercise of management and coordination pursuant to civil regulations and the fulfilment of obligations required by the national supervisory authorities. Currently, contacts are ongoing with the Italian Revenue Agency to demonstrate, in a pre-trial phase, the appropriateness of the subsidiary's conduct.

Regarding the third quarter of 2015, September saw the completion of the inspection of the Cassa di Risparmio in Bologna by the fiscal Authorities. This concluded with a PVC (Processo Verbale di Constatazione - report on findings) which sets out the recovery of higher IRES totalling €18.6 million, plus fines and interest. This almost exclusively related to a dispute which has taken on wider applicability within the area administered by the Emilia Romagna Regional Department of the Agenzia delle Entrate (Italian Revenue Agency).

In particular, this dispute relates to the reclassification of performing loans (which are discounted at a flat rate) as loans which are valued analytically (because they are related to insolvency proceedings). The assumption is that the impairment losses are not limited to merely neutralising the corresponding amounts deducted beforehand, but that they should be attributed to corresponding impairment reserves, at least at a purely fiscal level, in line with the treatment of write-offs or disposals which remove the loan from the balance sheet.

The Agency’s view is thus that this type of value adjustment can not be set off entirely against the financial year in which they are made in accordance with art. 101, para. 5 of the Combined Tax Regulations, but that they must be deducted over 18 financial years pursuant to art. 106, para. 3 of the Combined Tax Regulations (the “limit”).

There are several clear reasons why this tax claim is unfounded, but it should be noted that it is indicative of a fiscal approach which is closer to an exemption from the applicable law than to an interpretation of its meaning. Nonetheless, the approach of our Group was the same as that applied to all the other main Italian Banks.

At the judicial level, two rulings on preference shares by the Turin Regional Tax Committee should be noted. These went against the negative position taken on the merits, which was reported in prior financial reports and annulled the approx. €15 million of fines imposed relating to the 2007 and 2008 financial years, on the basis that the applicable regulations were objectively unclear.

(b) such Securities shall have a residual maturity not longer than one year.

Eligible States shall mean any States belonging to the European Economic Space, Switzerland and any other State attracting a zero per cent. risk weight factor in accordance with the Bank of Italy's prudential regulations for banks - standardised approach.

"**standardised approach**" is the approach to credit risk measurements as defined under Directive 2006/48/EC.

For the purposes of this section, **Intesa Sanpaolo Group** means the banking group constituted by Intesa Sanpaolo S.p.A. and the banks or companies which were from time to time part of the "Gruppo Intesa" and the "Gruppo Sanpaolo IMI".

COLLECTION AND RECOVERY PROCEDURES

A. Performing Mortgage Loans

Payment Procedures

Almost all the mortgage loans begin to amortise on the first day of the second month falling after the execution date of the mortgage loan agreement (except where the mortgage loan agreements provide for pre-amortisation periods). From the date of execution of the agreement to the start date of the amortisation, the borrower is only required to pay interest.

The payment of the instalments under the mortgage loans can be mainly effected as follows:

(i) by direct debit from the current account, held with any branch of Intesa Sanpaolo;

(ii) by submitting the payment advice slip (**MAV -** "*Pagamento Mediante Avviso*"*,* at a branch of Intesa Sanpaolo or another bank, using the MAV system;

(iii) by direct debit from the current account, held with another bank (**SDD Order**);

(iv) by payment made at a branch of Intesa Sanpaolo and/or by a transfer from another bank.

Direct debit payments from current accounts

Where payments are made by direct debit from a current account, a procedure is in place which identifies all the instalments falling due on a specific day and debits the current account (on such a day). Where a current account of the borrower does not have sufficient funds to its credit, the account will still be debited, and the IT system will automatically flag to each branch, on a daily basis, the list of instalments made which have caused a current account to exceed its limit. The relevant branch can then transfer the said instalment back to the current account.

Any default is immediately registered on the IT systems of Intesa Sanpaolo. The status of payments of a mortgage loan in any case can be checked at any time.

Payments by direct debit

In order to facilitate the making of payments by the borrowers and to offer borrowers services increasingly aimed at meeting their needs, it is also possible for the borrowers to make the payments of instalments due by authorising direct debit payments to current accounts held with other banks. Such instruction to debit accounts held with other banks, only to be carried out upon the explicit request of the relevant borrower, is an alternative to the debiting to a current account open with Intesa Sanpaolo. This option is interesting in respect of the management of borrowers operating with other credit institutions. This service contributes to reducing the number of mortgage loans which are not linked to a current account.

A few days prior to the instalments falling due in relation to the amounts to be collected through SSD order, the flows of amounts due are automatically determined and notified to the relevant correspondent bank. On the day of expiry of the debit instructions, the procedure credits the collections ("*salvo buon fine*") subject to the availability of funds to a transitional account, and on the same day the "*Mutui*" procedure debits the amounts of the instalment due to such account so as to offset the credited amount.

Where such direct debit cannot be effected by the correspondent banks, the instalment payment is automatically transferred back to the transitional account by the procedure. Such payments are made automatically by the procedure. In view of the time that it takes for the banks with which the borrowers' accounts are held to return the credited amounts ("*salvo buon fine*") and the subsequent processing time, the instalment only appears as paid (or unpaid) approximately after twenty five days.

The payment advice slip – (MAV) – "Pagamento Mediante avviso"

In order to ensure a faster registration of the payments made against the payment of mortgage loan instalments with other credit institutions and making the relevant procedure automatic, a payment advice slip was prepared in standard interbank form, which permits the automatic interbank payment system to be used to credit the amounts received to the relevant Bank.

The payment advice slip (MAV) is a paper form which can be presented to make payment at any bank which uses such a system (i.e. virtually all Italian banks). Intesa Sanpaolo sends such form to the borrower, before the instalment payment is due, approximately forty five days, in case of a mortgage loan payable on a semi-annual basis or on a quarterly basis and twenty days, in case of a mortgage loan payable on a monthly basis. If the payment is then made with a branch of Intesa Sanpaolo, the relevant registration is made in real time. If the borrower makes such payment with another bank, an electronic data flow concerning all the details of such payment is transferred to the bank.

The use of the automatic interbank payment system, in addition to accelerating the transfer of data and providing timely updates on the mortgage files, also minimises the manual work that needs to be carried out by Intesa Sanpaolo in order to monitor the documented money transfers received from other banks.

Any payment made with another bank (and transferred electronically) is normally received within three days of the date of such payment.

Renegotiations of Mortgage Loans

Under the Servicing Agreement, the Servicer has been granted certain powers to renegotiate the Mortgage Loans (with respect to duration and interest rate). In addition, the Servicer may, inter alia, extend the duration of the floating and fixed rate loans, provided that (a) in respect of retail consumers only, the final deadline of the amortising plan shall not exceed 40 years and the relevant debtor shall not be over 75 (or such other limits as are determined pursuant to the current policy of the Group); (b) the Servicer shall allow payment holidays for up to twelve months in several circumstances (in the event of agreements promoted by trade associations (*associazioni di categoria*), eg. ABI in order to help small business and retail customers or in connection with laws and regulations, existing or to be enacted or reached, such as the *Fondo di solidarietà* pursuant to Ministerial Decree number 132 issued by the Ministry of Economy and Finance on 21 June 2010or particular provisions to prevent natural disasters or humanitarian emergencies); and (c) the Servicer may allow payment holidays up to twelve months in the context of the then applicable commercial policy toward its clients).

B. Performing Securities

Payment Procedures

All principal redemption amounts, interest payments and any other amounts due for any reason in relation to the Securities will be credited by Monte Titoli or Clearstream (as the case may be) to the custodian bank in favour of the securities account opened and maintained in the name of the Covered Bond Guarantor, through specific segregated liquidator account, properly opened with Monte Titoli or Clearstream. The custodian bank automatically and promptly pays the collected amounts as follows:

- any principal amount to the Principal Securities Collection Account; and
- any interest amount to the Interest Securities Collection Account

(jointly, the Securities Collection Accounts).

Further payments

If, for any reason, the Servicer receives any collections other than those described above, the Servicer shall carry out a reconciliation of the amounts received within 20 (twenty) days from the receipt of such amounts by the Debtors and credit to the relevant Securities Collection Account, in respect of principal and interest,

such sums received and reconciled within 3 (three) Business Days following the reconciliation of such amounts and with value date corresponding to the collection date by the Servicer.

Collection verification

Further to any payment date of each Security, as set forth under the relevant Securities documents, the Servicer will verify that the amounts due as principal, interest or for any other reason due in relation to each Security have been credited on the relevant Securities Collection Account, in respect of principal and interest, with value date corresponding to the relevant payment date of each Securities, as set forth under the relevant Security documents.

C. Management of Loans in Arrears or likely to become in Arrears (*crediti con arretrati o potenzialmente in arretrato*)

Constant monitoring of the quality of the loan portfolio is pursued through specific operating activities for all the phases of loan management, using both IT procedures and activities aimed at the systematic analysis of loans, in order to promptly detect any symptoms of anomaly and promote corrective actions aimed at preventing situations of possible deterioration of credit risk.

Symptoms of the possible deterioration of loans are captured through several indicators (level of risk of any debtor and level of risk of the economic group, rating of the relevant borrower, *overdrafts,* ratio of instalments in arrears, etc.).

On the basis of the monitoring activity mentioned above, the Bank identifies within its portfolio loans which, while not yet showing features falling within the definition of "non-performing loans", require special management approaches. These loans still considered as "performing" fall in the categories of "*Proactive Management/Credito Proattivo*" and "*In Risanamento*".

Since 7/2014, the ***Proactive Management*** Unit has been established for the management of those customers showing potential problems, with the aim of addressing the anomalies in a correct and timely manner from the very first signs of deterioration, with the involvement of the commercial unit as from the very first phases of the process. Proactive Management process is carried out through specialised structures both at a central (Chief Lending Officer Area) and at a peripheral level (Regional Directions for loans pertaining to Banche dei Territori Division).

High risk positions are taken care by the Proactive Management Unit and the relationship manager must prepare an action plan within 30 days. The Proactive Management Unit supports the loan manager in order to analyse the loan, validates the action plans and monitors that such plans are followed.

When risks are perceived as particularly high, the loan may be classified as *Non performing (Deteriorato)*.

A loan falls automatically into the Proactive Management Category when at least one of the following criteria is met:

- Risk Level is High or Medium/High
- Overdraft of limited amount (only for Private or Small Business Micro Segments)
- There is a continuous overdraft for more than 30 days for an amount above the materiality threshold
- The overdue instalment ratio (*coefficiente rate arretrate*, i.e. the ratio between the overdue amounts – including default interest – and the instalment due) is higher or equal to 1

In case of retail customers the interception does not take into account the Risk Level, but only certain well defined (fatal) symptoms, or overdue amounts.

The process starts with contacting the client to verify the causes of the problems that led to the interception, with timing prescribed by:

- The contact Unit
- The Branch Manager

When necessary, all due actions are put in place to support the client who is facing temporary difficulties in honouring its obligations with the Bank.

Once the borrower is intercepted, the Bank management process can be divided in three statuses: "Phone Banking", "Branch Management", and "Proactive Management".

1) The *Phone Banking status* is applicable only to Private or Small Business Micro segments, intercepted due to the *coefficiente rate arretrate* (the ratio between amount in arrears, including default interests, and the last instalment due) or due to an overdraft of limited amount, in both cases when full identification data for the client are available. The Contact Unit contacts the borrowers, verifies the reason of their difficulties in facing their obligations, with the aim of finding, whenever possible, an agreement to settle the overdue amounts or, in case this is not feasible, to arrange a meeting at the Bank.

   The client is given a grade (from one to three) on the basis of how difficult the solution is perceived by the Contact Unit.

   The client may remain in this status for maximum 60 days.

   The Branch may decide within 10 days since the loan has been intercepted, to exclude some loans from this status. This causes automatically the classification of the loan into the "Branch Management" category.

   Any position that at the maturity of the status still shows the symptoms that caused the interception, is automatically classified into the "Proactive Management" status.

2) The *Branch Management status* is applicable to any loan, intercepted due to overdraft of a material amount, or – only when full identification data for the clients are not available – due to overdraft or due to the *coefficiente rate arretrate.*

   The client is given a grade on the basis of how difficult the solution is perceived by the Contact Unit.

   The client may remain in this status for maximum 60 days.

   Any position that at the maturity of the status still shows the symptoms that caused the interception is automatically classified into the "Proactive Management" status.

2) The *Proactive Management status* is applicable to those loans:

   i. Previously falling into the Phone Banking and Branch Management status and not normalized at the expiration of the status

   ii. Intercepted for Risk Level

   iii. Classified into the Small Business Core and Corporate Regolamentare Segments and with overdraft exceeding below threshold longer than 30 days.

   This status does not have a pre-defined maturity; it ends when the loan is normalised or when it is classified into the "*in Risanamento*" status (described hereinafter) or "*credito deteriorato*" status.

Another status "***In Risanamento****"* defines positions with overall exposure higher than € 1 million (at group level) and with at least one of the following conditions:

1) prospect of an interbank table for any restructuring plan

2) request for a moratorium/standstill in sight/presence of an inter-bank table for any restructuring plan/reorganization or restructuring / reorganization under the Bankruptcy Law (art. 67 letter. d, art. 182 / bis),

3) possible restructuring / reorganization under the Bankruptcy Law (art. 67 letter. d, art. 182 / bis or of similar models of foreign law).

Loans classified as "*Credito Proattivo*" and "*In Risanamento*" are still considered as "performing".

"Non performing loans"

In 2014 the European Banking Authority (EBA) published the final version of the "Draft Implementing Technical On Supervisory reporting on forbearance and non-performing exposures under article 99(4) of Regulation (EU) No 575/2013". Consequently on January 2015 the Bank of Italy issued an updated regulations providing for the amendment of the subdivision of non-performing financial assets into risk-categories, thus harmonizing its regulations to the new European Union law.

According to new Bank of Italy's regulations, "Non performing loans" consist in:

- Past due exposures ("*Sconfino*");

- Unlikely to pay ("*Inadempienze probabili*");

- Doubtful ("*Sofferenze*").

All such exposures are subject to valuations for accounting purposes.

Furthermore, it has also been identified a new array of exposures covering all loans being renegotiated because of financial difficulties (existing or likely to exist) of the counterparty. Such range of loans can be classified as follows:

- Forbearance Non Performing: non performing exposures with forbearance measures

- Forbearance Performing: performing exposures with forbearance measures.

"Past due exposures"

Exposures other than those classified as Doubtful or Unlikely to Pay that, as at reporting date, are past due for over 90 days on a continuous basis and exceeding a materiality threshold.

"Unlikely to pay"

Some specific and minimum criteria are taken into consideration for the classification of an exposure as Unlikely to pay. It's the result of the assessment as to the improbability that the borrower will thoroughly fulfil its credit obligations (by way of repayment of principal and/or interest) without recourse to actions such as the enforcement of guarantees/ collateral. Such assessment should be carried out irrespectively of any past due and/or unpaid amounts (or instalments).

"Doubtful"

According to the provisions of the Bank of Italy, the total exposure of a borrower who is insolvent or bankrupt or is in the process of being declared insolvent or bankrupt or who has an equivalent status, is considered as "*in sofferenza*" (even where no judgment has yet been given in relation to such insolvency), regardless of any debt predictions which may have been drawn up by Intesa Sanpaolo or any valuations made in relation to guarantees.

In each case, in the Programme, a mortgage loan will be considered as being a Defaulted Loan if the loan is classified as "*in sofferenza*" according to the provisions of the Bank of Italy (as defined above) and, in any

event, where the ratio of the sum of instalment payments in arrears divided by the last instalment due is greater than or equal to (i) 10, in the case of a mortgage loan payable on a monthly basis, (ii) 4 in the case of a mortgage loan payable on a quarterly basis and (iii) 2 in the case of a mortgage loan payable on a semi-annual basis.

External Collection

For the out-of-court settlement of the loans in arrears granted to households and clients belonging to the small business segment, being classified as *Credito Proattivo* or *Deteriorato* (only *Inadempienza probabile, Sconfino* and restructured loans), in addition to their internal offices, the banks of the *Divisione Banca dei Territori* now avail themselves of specialised external companies having the necessary regulatory requirements.

The assignment and management process is supported by a dedicated IT processing system allowing the immediate visibility of the collection actions undertaken by such external companies and a punctual monitoring of the evolution of the loan status.

The relevant thresholds for the appointment of third party Companies are:

- in respect of counterparties that have only unsecured exposures, where such exposures are between Euro 15,500 and Euro 50,000; and

- in respect of counterparties that have both unsecured exposures and mortgage loans, where the aggregate exposure is between Euro 15,500 and Euro 200,000, provided that the mortgage loan amount is equal to or higher than 80 per cent. of the total exposure.

The main contractual conditions applicable to the appointment of third party companies are the following:

- appointments are granted periodically, usually monthly, according to the Bank's needs and in its total discretion, without any obligation to grant a minimum number of loans to third party companies;

- such companies undertake to carry out the assignments with upmost care and according to criteria of qualified expertise;

- such companies' activities are to be carried out in full compliance with any Authority's laws, regulations or provisions applicable from time to time and, in particular, are to operate in careful compliance with anti-money laundering laws and personal data protection;

- such companies cannot directly collect amounts due on the Loans, unless they have the necessary regulatory authorisations.

In order to carry out their appointment, such companies may appoint an external lawyer to receive advice and to send further payment reminders to the relevant debtor. Such companies shall provide monthly reports on the activities carried out and also provide Intesa Sanpaolo with specific written reports.

Renegotiation

In the case of a mortgage loan with overdue payments, the term of the amortisation plan only may be renegotiated.. As to the positions classified as, *Gestione Proattiva, In Risanamento*, *Sconfino* or *Inadempienza probabile*, the proposal of a renegotiation of the Mortgage Loan to the relevant client must obtain previous clearance by the relevant department of the Servicer.

The characteristics of such renegotiation are as follows, subject to renegotiations made under laws or regulations or agreements promoted by relevant authorities or trade associations (*associazioni di categoria*), existing or to be enacted or reached:

- option to include the amount of the overdue, unpaid instalments, together with the residual debt, with a restructuring of the amortisation plan; the customer has the option to extend the term of the loan for another 10 years compared to the original maturity, in compliance with the limits set out below:

- for retail customers, an overall term of the loan, including the extension, of no more than 40 years and provided that at the new maturity the age of the principal debtor does not exceed 75 years;

- for Companies, within the maximum limit equal to twice the residual life of the renegotiated Loan;

- solely for the positions classified as *Credito Proattivo*, in *Risanamento*, *Sconfino* or *Inadempienza probabile*, it is possible to provide a pre-amortisation period of no more than 36 months in which only interest instalments will be paid, with specific authorisation at the minimum level of Regional Department/BDT Division Bank limited to Private counterparties;

- without prejudice, as a priority, to the need to collect, together with the renegotiation, in addition to the interest accrued from the last instalment due on the day of completion of the transaction, the contractual interest accrued on overdue payments in the last six months and all default interest, with specific authorisation at the minimum level of resolution of the Regional Department of the BDT Division and only for positions classified as Overrun and/or Substandard, the last two items (accrued interest in the last six months and default interest) may be extended and deferred on the renegotiated loan. In this case, the extension period may last up to a maximum of 36 months and no later than the remaining term of the renegotiated loan. These items will be non-interest bearing, not subject to late payment interest including in the event of default and will be collected in instalments starting from the first instalment after those made up only of interest (in case of any pre-amortisation period). Derogation to the collection for Performing positions is not permitted.

Restructuring

A loan may be restructured according to Italian laws dealing with bankruptcy establishing criteria and ways of restructruring

D. The Management of the Defaulted Loans classified as "*in sofferenza*"

The assignment of the management of the Defaulted Loans classified as "*in sofferenza"* to the First Special Servicer or the Second Special Servicer will comply with the provisions included in the Servicing Agreement.

The Management of the Defaulted Loans Classified as "*in sofferenza*" by the First Special Servicer

A judicial action will be carried out as follows:

(i) directly, to the extent possible, for actions to be taken by the parties (*atti di parte*) (e.g. timely proving in bankruptcy, declaration of credit in insolvency proceedings, etc.) or for judicial acts carried out with the assistance of in-house counsels,

and

(ii) by appointing external counsel for judicial initiatives (e.g. injunction decree (*decreto ingiuntivo*), and foreclosure proceedings, etc), whose activity will be closely supervised.

As for the recovery activity of positions having a significant value, an initial assessment will be carried out and all the urgent and necessary actions will be implemented to maximise the chance of recovery of the claim. The best operating strategy will then be devised in order to maximise the recovery within the shortest possible period of time and, in particular, it may be resolved:

(a) to carry out the direct recovery of the individual claim (whether in the framework of a judicial action or by an out-of-court procedure);

(b) to entrust the recovery to external companies (almost exclusively in the case of positions of negligible amount);

(c) to carry out transfers of individual claims without recourse (*pro soluto*).

In order to manage the Defaulted Loans classified as "*in sofferenza*", the First Special Servicer has been granted by ISP CB Ipotecario S.r.l., *inter alia*, the power to authorise any judicial, administrative and enforceable action in any court and at any level of judgment.

The First Special Servicer may perform its activities also through the divisions and units of Intesa Sanpaolo.

Management of the Defaulted Loans Classified as "*in sofferenza*" by the Second Special Servicer

Once the receivables are recorded as Defaulted Loans classified as "*in sofferenza*", the Servicer communicates the credit position to the Second Special Servicer by providing information on the financial situation of the debtor and any guarantors and submits all the documentation needed to activate the recovery. In communicating to the Second Special Servicer the credit position of the Defaulted Loans classified as "*in sofferenza*", the Servicer highlights, *inter alia*, that the relevant Defaulted Loans classified as "*in sofferenza*" relate to the Programme.

The powers of the Second Special Servicer in relation to Defaulted Loans classified as "*in sofferenza*" that it manages itself are the same as the powers conferred upon the Second Special Servicer in respect of individual customers by certain agreements between Intesa Sanpaolo and the Second Special. Such management powers shall be deemed to be amended from time to time in the event of subsequent agreements between the companies of Intesa Sanpaolo Group and the Second Special Servicer, provided that such powers may not be wider than the powers of the First Special Servicer as provided by the Collection Policies. In case of amendments of these powers, the First Special Servicer will promptly inform ISP CB Ipotecario S.r.l. and the Representative of the Covered Bondholders.

As specified under the Servicing Agreement, the Second Special Servicer may also avail itself of third parties, who will act under its responsibility, to carry out specific services relating to the management of defaulted loans classified as "*in sofferenza*". The power to delegate to such third parties is regulated by certain agreements between Intesa Sanpaolo and the Second Special Servicer. Even in this case, such powers shall be deemed amended from time to time in the event of subsequent agreements between the First Special Servicer and the Second Special Servicer. In case of amendments of these powers, the First Special Servicer will promptly inform ISP CB Ipotecario S.r.l. and the Representative of the Covered Bondholders.

Pursuant to the *Accordo di Gestione* (i) the Second Special Servicer will continue to manage exclusively the Defaulted Loans delegated to it until 30 April 2015, with reference to the clients who, at the date of the relevant delegation, had an exposure not higher than €249,999; and (ii) starting from 1 May 2015, Intesa Sanpaolo Group Services S.C.p.A. will manage the Defaulted Receivables delegated to it prior to 30 April 2015 (with reference to the clients who, at the date of the relevant delegation, had an exposure higher than €249,999), as well as any other loans which, starting from 1 May 2015, may be classified by the Servicer as Defaulted Loans.

E. Defaulted Securities - Monitoring of events of default

The Servicer shall monitor on a continuing basis the financial performance of the Securities and the fulfilment of the Debtors' obligations in respect of the Securities, and shall classify as Defaulted Securities the Securities (i) whose issuer has been classified as "in default"; (ii) that may be considered "in default" in accordance with the provisions of the relevant Securities documents provided that an acceleration notice has been served by the relevant representative of the noteholders or trustee, and (iii) that have been delinquent for more than 30 Business Days starting from the maturity date provided for under the relevant Securities documents.

CREDIT STRUCTURE

The Covered Bonds (*obbligazioni bancarie garantite*) will be direct, unsecured, unconditional obligations of the Issuer guaranteed by the Covered Bond Guarantor. The Covered Bond Guarantor has no obligation to pay the Guaranteed Amounts under the Covered Bond Guarantee until (i) the occurrence of an Article 74 Event or an Issuer Event of Default, service by the Representative of the Covered Bondholders on the Covered Bond Guarantor of either an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, or (ii) the occurrence of a Covered Bond Guarantor Event of Default and service by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice on the Covered Bond Guarantor. The Issuer will not be relying on payments by the Covered Bond Guarantor under the Subordinated Loan in order to pay interest or repay principal under the Covered Bonds.

There are a number of features of the Programme which enhance the likelihood of timely and, as applicable, ultimate payments to Covered Bondholders:

(i) the Covered Bond Guarantee provides credit support to the Issuer;

(ii) the Tests are intended to ensure that the Portfolio is sufficient to repay the Covered Bonds at all times;

(iii) among the Tests: (i) the Nominal Value Test is intended to maintain the sufficiency of the Covered Bond Guarantor's assets in respect of the Covered Bonds and (ii) the Amortisation Test is intended to test the sufficiency of the Covered Bond Guarantor's assets in respect of the Covered Bonds following the occurrence of an Issuer Event of Default and service of a Notice to Pay on the Covered Bond Guarantor;

(iv) the Pre-Maturity Liquidity Test is intended to trigger the provision of liquidity for Hard Bullet Covered Bonds when the Issuer's credit ratings fall below a certain level;

(v) extendable maturity provisions are applicable to all Series of Covered Bonds other than Hard Bullet Covered Bonds as specified in the relevant Final Terms.

Certain of these factors are considered in more detail in the remainder of this section.

Covered Bond Guarantee

The Covered Bond Guarantee provided by the Covered Bond Guarantor guarantees payment of the Guaranteed Amounts on the Due for Payment Date in respect of all Covered Bonds issued under the Programme. The Covered Bond Guarantee will not guarantee any other amount payable in respect of the Covered Bonds for any other reason, including any accelerated payment following the occurrence of an Issuer Event of Default or an Article 74 Event. In this circumstance (and until a Covered Bond Guarantor Event of Default occurs and a Covered Bond Guarantor Acceleration Notice is served), the Covered Bond Guarantor's obligations will only be to pay the Guaranteed Amounts on the Due for Payment Date.

See paragraph headed "*Covered Bond Guarantee*" under the section headed "*Description of the Transaction Documents*", as regards the terms of the Covered Bond Guarantee.

Under the terms of the Portfolio Administration Agreement, the Issuer must ensure that the Portfolio is in compliance with the Tests described below on each Calculation Date or on any other date on which the verification of the Tests is required pursuant to the Transaction Documents.

If on any Calculation Date the Portfolio is not in compliance with the Mandatory Tests, then the Seller and, should the Seller fail to do so, any Additional Sellers, provided that the conditions indicated under the relevant Master Transfer Agreement are met, shall sell Eligible Assets or Integration Assets to the Covered Bond Guarantor in an amount sufficient to allow the Mandatory Tests to be met as soon as possible, in accordance with the relevant Master Transfer Agreement. To facilitate such a sale, the Seller and/or any Additional Seller shall grant additional amounts under the relevant Subordinated Loan for the purposes of funding the purchase of Eligible Assets or Integration Assets. If a breach of the Mandatory Tests is not remedied and for so long as such breach is continuing, no further Series of Covered Bonds will be issued and no payments under the Subordinated Loan will be effected.

Tests

For so long as any Covered Bond remains outstanding and provided that no Issuer Event of Default has occurred, the Issuer shall procure that, on a continuing basis (provided that such obligation shall be deemed to be complied with if the following mandatory tests are satisfied on each Calculation Date and/or on each other date on which those mandatory tests are to be carried out pursuant to the provisions of the Portfolio Administration Agreement and the other Transaction Documents), the following mandatory tests are satisfied and verified on each Calculation Date or any other date on which the verification of the Mandatory Tests is required pursuant to the Transaction Documents.

1. ***Nominal Value Test***

Prior to the occurrence of an Issuer Event of Default, the Nominal Value of the Portfolio shall be greater than or equal to the aggregate Outstanding Principal Balance of all Series of Covered Bonds (the **Nominal Value Test**).

Nominal Value of the Portfolio will be an amount calculated on each Calculation Date by applying the following formula (without double-counting):

A + R + B + D + C - X – Y – Z

where,

"A" stands for the aggregate **Adjusted Outstanding Principal Balance** of each Mortgage Loan, which shall be the lower of:

(i) the Outstanding Principal Balance of the relevant Mortgage Loan as calculated by reference to the relevant Collection Date; and

(ii) the Latest Valuation relating to the Real Estate Asset of the relevant Mortgage Loan multiplied by M,

where

(a) for all Residential Mortgage Loans that are not Defaulted Loans, M = 0.80;

(b) for all Commercial Mortgage Loans that are not Defaulted Loans, M = 0.60, subject in any case to the Aggregate Percentage Limitation (as defined under "D" below); and

(c) for all Mortgage Loans that are Defaulted Loans M = 0;

minus

the aggregate sum of the following reductions to the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio:

(1) a Mortgage Loan (or any Security relating thereto) in relation to which a breach of the representations and warranties contained in the relevant Master Transfer Agreement has occurred and has not been remedied or which is subject to any indemnity and/or repurchase obligation of the Seller or any relevant Additional Seller, and in each case the Seller or any relevant Additional Seller, has not repurchased the Mortgage Loan or Mortgage Loans (each an **Affected Loan**) of the relevant Debtor, to the extent required by the terms of the relevant Master Transfer Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the Adjusted Outstanding Principal Balance of the relevant Affected Loan or Affected Loans (as calculated on the relevant Calculation Date); and/or

(2) the Seller or any Additional Seller is in breach of any other material warranty under the relevant Master Transfer Agreement and/or the Servicer is in breach of a material term of the Servicing Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the resulting financial loss incurred by the Covered Bond Guarantor (such financial loss to be calculated by the Covered Bond Guarantor or on its behalf by the Calculation Agent without double counting and to be reduced by any amount paid (in cash or in

kind) to the Covered Bond Guarantor by the Issuer, the Seller, any Additional Seller and/or the Servicer to indemnify the Covered Bond Guarantor for such financial loss);

the amount resulting from the calculations above, *multiplied by* the Asset Percentage;

"R" stands for the aggregate Outstanding Principal Balance of all MBS Notes, subject in any case to the Aggregate Percentage Limitation (as defined under "D" below), *minus* the sum of, without double counting:

(i) the aggregate Outstanding Principal Balance of all MBS Notes in relation to which a breach of any of the material representations and warranties contained in the relevant Master Transfer Agreement has occurred;

(ii) the aggregate Outstanding Principal Balance of all Defaulted Securities;

(iii) if the aggregate Outstanding Principal Balance of the Non-Eligible Underlying Assets exceeds 5% of the Outstanding Principal Balance of the Underlying Assets (both as calculated on the most recent calculation date of the relevant MBS Transaction), an amount equal to the aggregate Outstanding Principal Balance of such Non-Eligible Underlying Assets in excess of the above mentioned 5%, *multiplied by*, in respect of each relevant MBS Transaction, the ratio between (i) the Outstanding Principal Balance of the relevant MBS Notes which have been transferred to the Covered Bond Guarantor, and (ii) the Outstanding Principal Balance of all the MBS Assets of the same class,

the amount resulting from the calculations above, *multiplied by* the Asset Percentage;

"B" stands for the aggregate amount standing to the credit of each Relevant Investment Account and the principal amount of any Integration Assets (i) not exceeding the Integration Assets Limit and (ii) in relation to which a breach of any of the representations and warranties contained in the relevant Master Transfer Agreement has not occurred or has been remedied;

"D" stands for the principal amount of any other Eligible Asset not indicated under "A" and "R" above and included in the Portfolio (i) not exceeding (together with any Eligible Asset consisting of receivables indicated under Article 2, Paragraph 1 (b) of the MEF Decree and/or asset backed securities whose securities receivables are those indicated under Article 2, Paragraph 1 (b) of the MEF Decree) 10% of the aggregate Outstanding Principal Balance of the assets included in the Portfolio (the **Aggregate Percentage Limitation**), and (ii) in relation to which a breach of any of the representations and warranties contained in the relevant Master Transfer Agreement has not occurred or has been remedied;

"C" stands for the aggregate amount of all Eligible Investments;

"X" stands for an amount equal to the Supplemental Liquidity Reserve Amount (if any);

where,

(i) the Outstanding Principal Balance of the relevant Mortgage Loan as calculated by reference to the relevant Collection Date; and

(ii) the Latest Valuation relating to the Real Estate Asset of the relevant Mortgage Loan multiplied by M,

where

(a) for all Residential Mortgage Loans that are not Defaulted Loans, M = 0.80;

In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the Adjusted Outstanding Principal Balance of the relevant Affected Loan or Affected Loans (as calculated on the relevant Calculation Date); and/or

(2) the Seller or any Additional Seller is in breach of any other material warranty under the relevant Master Transfer Agreement and/or the Servicer is in breach of a material term of the Servicing Agreement. In this event, the aggregate Adjusted Outstanding Principal Balance of the Mortgage Loans in the Portfolio (as calculated on the relevant Calculation Date) will be deemed to be reduced by an amount equal to the resulting financial loss incurred by the Covered Bond Guarantor (such financial loss to be calculated by the Covered Bond Guarantor or on its behalf by the Calculation Agent without double counting and to be reduced by any amount paid (in cash or in kind) to the Covered Bond Guarantor by the Issuer, the Seller, any Additional Seller and/or the Servicer to indemnify the Covered Bond Guarantor for such financial loss);

"D" stands for the principal amount of any other Eligible Asset not indicated under "A" and "R" above and included in the Portfolio in relation to which a breach of any of the representations and warranties contained in the relevant Master Transfer Agreement has not occurred or has been remedied;

The Tests are fulfilled in accordance with the Portfolio Administration Agreement. In particular, the Amortisation Test will be run only following the occurrence of an Issuer Event of Default, provided that such test is structured to ensure that the Portfolio contains sufficient assets to enable the Covered Bond Guarantor to meet its obligations under the Covered Bond Guarantee.

Compliance with the Tests will be verified by the Calculation Agent and internal risk management functions of the Intesa Sanpaolo Group (under the supervision of the management body (*organo con funzione di gestione*) of the Issuer) on each Calculation Date and on any other date on which the verification of the Tests

is required pursuant to the Transaction Documents, and subsequently checked by the Asset Monitor on a semi-annual basis.

In addition to the above, following the occurrence of a breach of the Tests, based on the information provided by the Servicer with reference to the last day of each preceding calendar month (starting from the date on which such breach has been notified, and until 6 (six) months after the date on which such breach has been cured), the Calculation Agent shall verify compliance with the Tests not later than the thirty-fifth calendar day following the end of each preceding calendar month. On or about the First Issue Date the Covered Bond Guarantor issued the Covered Bond Guarantee securing the payment obligations of the Issuer under the Covered Bonds, in accordance with the provisions of Law 130 and of the MEF Decree.

Under the terms of the Covered Bond Guarantee, if the Issuer defaults in the payment on the due date (subject to any applicable grace periods) of any monies due and payable under or pursuant to the Covered Bonds, or if any other Issuer Event of Default or an Article 74 Event occurs, the Covered Bond Guarantor has agreed (subject as described below) to pay, or procure to be paid, following service by the Representative of the Covered Bondholders of a Notice to Pay or an Article 74 Notice to Pay (which has not been withdrawn), unconditionally and irrevocably, any amounts due under the Covered Bonds as and when the same were originally due for payment by the Issuer, as of any Maturity Date or, if applicable, Extended Maturity Date.

Pursuant to Article 7-*bis*, paragraph 1, of Law 130 and Article 4 of the MEF Decree, the guarantee provided under the Covered Bond Guarantee is a first demand (*a prima richiesta*), unconditional, irrevocable (*irrevocabile*) and independent guarantee (*garanzia autonoma*) and therefore provides for direct and independent obligations of the Covered Bond Guarantor *vis-à-vis* the Covered Bondholders and with limited recourse to the Available Funds, irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the Issuer. The provisions of the Italian Civil Code relating to *fideiussione* set forth in articles 1939 (*Validità della fideiussione*), 1941, paragraph 1 (*Limiti della fideiussione*), 1944, paragraph 2 (*Escussione preventiva*), 1945 (*Eccezioni opponibili dal fideiussore*), 1955 (*Liberazione del fideiussore per fatto del creditore*), 1956 (*Liberazione del fideiussore per obbligazione futura*) and 1957 (*Scadenza dell'obbligazione principale*) shall not apply to the Covered Bond Guarantee.

Following the occurrence of an Article 74 Event or an Issuer Event of Default and the service of an Article 74 Notice to Pay (which has not been withdrawn) or a Notice to Pay, the Covered Bond Guarantor shall pay or procure to be paid on the relevant Scheduled Due for Payment Date to the Covered Bondholders

an amount equal to those Guaranteed Amounts which shall become due for payment in accordance with the relevant Conditions, but which have not been paid by the Issuer to the relevant Covered Bondholder on the relevant Scheduled Payment Date.

Following the occurrence of a Covered Bond Guarantor Event of Default and the service by the Representative of the Covered Bondholders of a Covered Bond Guarantor Acceleration Notice in respect of all Covered Bonds, which shall become immediately due and repayable, the Covered Bond Guarantor shall pay or procure to be paid on the Due for Payment Date to the Covered Bondholders, the Guaranteed Amounts for all outstanding Covered Bonds.

In addition, to the extent that the Covered Bond Guarantor has insufficient monies available after payment of higher ranking amounts and taking into account amounts ranking *pari passu* therewith in the relevant Priorities of Payments, the Covered Bond Guarantor shall make partial payments of the Guaranteed Amounts in accordance with the Post-Issuer Default Priority of Payments.

Following service of a Covered Bond Guarantor Acceleration Notice all Covered Bonds will accelerate against the Covered Bond Guarantor in accordance with the Conditions, becoming due and payable, and they will rank *pari passu* amongst themselves and the Available Funds shall be applied in accordance with the Post-Guarantor Default Priority of Payments.

All payments of Guaranteed Amounts by or on behalf of the Covered Bond Guarantor will be made without withholding or deduction for, or on account of, any present or future taxes, duties, assessments or other governmental charges of whatever nature unless such withholding or deduction of such taxes, assessments or other governmental charges are required by law or regulation or administrative practice of any jurisdiction. If any such withholding or deduction is required, the Covered Bond Guarantor will pay the Guaranteed Amounts net of such withholding or deduction and shall account to the appropriate tax authority for the amount required to be withheld or deducted. The Covered Bond Guarantor will not be obliged to pay any amount to any Covered Bondholder in respect of the amount of such withholding or deduction.

Exercise of rights

Following the occurrence of an Article 74 Event and service of an Article 74 Notice to Pay (which has not been withdrawn) on the Covered Bond Guarantor, but prior to the occurrence of a Covered Bond Guarantor Event of Default, the Covered Bond Guarantor in accordance with the provisions of Article 4, Paragraph 4, of the MEF Decree shall temporarily substitute the Issuer with respect to all obligations of the Issuer towards the Covered Bondholders in accordance with the terms and conditions originally set out for the Covered Bonds, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration for the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the rights of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

Following the occurrence of an Issuer Event of Default (other than the event referred under Condition 12(c)(iv)) and service of a Notice to Pay on the Covered Bond Guarantor, but prior to the occurrence of any Covered Bond Guarantor Event of Default, the Covered Bond Guarantor, in accordance with the provisions set forth under the Covered Bond Guarantee (as well as in accordance with the provisions of Article 4, Paragraph 3, of the MEF Decree), shall substitute the Issuer with respect to all obligations of the Issuer towards the Covered Bondholders in accordance with the terms and conditions originally set out for the Covered Bonds, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration for

the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the right of the Covered Bondholders *vis-à-vis* the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

Following the occurrence of an Issuer Event of Default referred under Condition 12(c)(iv)) and service of a Notice to Pay on the Covered Bond Guarantor, but prior to the occurrence of a Covered Bond Guarantor Event of Default, as of the date of administrative liquidation (*liquidazione coatta amministrativa*) of the Issuer, the Covered Bond Guarantor in accordance with the provisions of Article 4, Paragraph 3, of the MEF Decree shall substitute the Issuer with respect to all obligations of the Issuer towards the Covered Bondholders in accordance with the terms and conditions originally set out for the Covered Bonds, so that the rights of payment of the Covered Bondholders in such circumstance will only be the right to receive payments of the Scheduled Interest and the Scheduled Principal from the Covered Bond Guarantor on the Scheduled Due for Payment Date. In consideration for the substitution of the Covered Bond Guarantor in the performance of the payment obligations of the Issuer under the Covered Bonds, the Covered Bond Guarantor (directly or through the Representative of the Covered Bondholders) shall exercise, on an exclusive basis, the rights of the Covered Bondholders vis-à-vis the Issuer and any amount recovered from the Issuer will be part of the Available Funds.

As a consequence and as expressly indicated in the Conditions, the Covered Bondholders have irrevocably delegated to the Covered Bond Guarantor (also in the interest and for the benefit of the Covered Bond Guarantor) the exclusive right to proceed against the Issuer to enforce the performance of any of the payment obligations of the Issuer under the Covered Bonds, including any rights of enforcing any acceleration of payment provisions provided under the Conditions or under the applicable legislation. For this purpose the Representative of the Covered Bondholders, on behalf of the Covered Bondholders, upon request of the Covered Bond Guarantor, shall provide the Covered Bond Guarantor with any powers of attorney and/or mandates as the latter may deem necessary or expedient for taking all necessary steps to ensure the timely and correct performance of its mandate.

The Accounts will be opened in the name of the Covered Bond Guarantor and shall be operated by the Relevant Account Bank, and the amounts standing to the credit thereof shall be debited and credited in accordance with the provisions of the Cash Management and Agency Agreement.

Pursuant to the Cash Management and Agency Agreement, notwithstanding the provisions regarding deposits and withdrawals in respect of the Accounts contained therein (as described in the section headed "Accounts and Cash Flows"), from the date on which the rating of Intesa Sanpaolo is re-established to the Minimum Required Account Bank Rating by way of a guarantee and until termination of that guarantee, if, at any time, the aggregate amount (or the cash equivalent amount, in case of the Intesa Securities Account, or the originally invested amount, in case of the Intesa Eligible Investments Account) standing to the credit of the Intesa Investment Account, the Intesa Payment Account, the Intesa Collateral Accounts, the Intesa Interest Securities Collection Account, the Intesa Principal Securities Collection Account, the Intesa Securities Account and the Intesa Eligible Investments Account exceeds the amount of euro 1,500,000,000, any such excess shall be credited by Intesa Sanpaolo (as Account Bank), acting in the name and on behalf of the Covered Bond Guarantor, to the CA-CIB Collection Account (in case of cash) or the CA-CIB Securities Account (in case of securities consisting of Eligible Assets), the CA-CIB Eligible Investments Account (in case of securities consisting of Eligible Investments) or the CA-CIB Collateral Account (in case of collateral consisting of cash) and the relevant amounts and/or securities shall be withdrawn therefrom and credited to the Intesa Account from which they were originally withdrawn on any Business Day on which a payment (or disinvestment in case of Eligible Investments) by any such Intesa Account will have to be made in accordance with the provisions regarding deposits and withdrawals in respect of the Accounts.

On behalf of the Covered Bond Guarantor, the Relevant Account Bank shall maintain or ensure that records in respect of each of the Accounts are maintained and such records will, on or prior to each Quarterly Report Date, show separately: (i) the balance of each of the Accounts as of the immediately preceding Collection Date; (ii) the total interest accrued and paid on the Accounts as of the immediately preceding Collection Date; and (iii) details of all amounts or securities credited to, and transfers made from, each of the Accounts in the course of the immediately preceding Collection Period. The Relevant Account Bank will provide information to the Covered Bond Guarantor, the Representative of the Covered Bondholders, the Administrative Services Provider and/or the Calculation Agent, upon their request, regarding the balance of the Accounts.

Pursuant to the Cash Management and Agency Agreement, it is a necessary requirement that the Account Banks shall always maintain the Minimum Required Account Bank Rating provided for under the Cash Management and Agency Agreement, provided that failure by Intesa Sanpaolo to so qualify shall not constitute a termination event in relation to it, but shall trigger the other consequences described under the Cash Management and Agency Agreement.

Each Account Bank may resign from its appointment under the Cash Management and Agency Agreement and the Covered Bond Guarantor and the Representative of the Covered Bondholders may jointly terminate the appointment of each Account Bank pursuant to the terms of the Cash Management and Agency Agreement. Each Account Bank shall not be released from its obligations under the Cash Management and Agency Agreement until its substitute, to be appointed by the Representative of the Covered Bondholders and the Covered Bond Guarantor jointly, has entered into the Cash Management and Agency Agreement, the Intercreditor Agreement and the Master Definitions Agreement and has accepted the security created under the Pledge Agreement and the Deed of Charge and Assignment.

Cash Manager

On each Guarantor Payment Date, the Cash Manager shall, subject to receiving the Payments Report from the Calculation Agent, execute the payment instructions stated by the Calculation Agent and shall allocate the amounts standing on the Payment Account according to the relevant Priorities of Payments, except for the payments to be carried out by the Paying Agent under the outstanding Covered Bonds.

During each Collection Period, the Cash Manager may instruct the Relevant Account Bank to invest funds standing to the credit of the Investment Account in Eligible Investments on behalf of the Covered Bond Guarantor.

Subject to compliance with the definition of Eligible Investments and the other restrictions set out in the Cash Management and Agency Agreement, the Cash Manager shall have absolute discretion as to the types and amounts of Eligible Investments which it may acquire and as to the terms on which, through whom and on which markets, any purchase of Eligible Investments may be effected. As long as the Relevant Account Bank meets the requirements under the Cash Management and Agency Agreement, with particular regard to the Minimum Required Account Bank Rating and the Collection Accounts and the Investment Account constitute Eligible Investments, the Cash Manager will be under no obligation or duty whatsoever to instruct or consider instructing the Account Bank to invest funds standing to the credit of the Investment Account in any other Eligible Investment.

On or prior to each Quarterly Report Date, the Cash Manager shall deliver a copy of its report to, inter alios, the Covered Bond Guarantor, the Representative of the Covered Bondholders and the Calculation Agent; such report shall include information on the Eligible Investments.

The Cash Manager may resign from its appointment under the Cash Management and Agency Agreement and the Covered Bond Guarantor and the Representative of the Covered Bondholders may jointly terminate the appointment of the Cash Manager pursuant to the terms of the Cash Management and Agency Agreement. The Cash Manager shall not be released from its obligations under the Cash Management and Agency Agreement until its substitute, to be appointed by the Representative of the Covered Bondholders and the Covered Bond Guarantor jointly, has entered into the Cash Management and Agency Agreement, the Intercreditor Agreement and the Master Definitions Agreement and has accepted the security created under the Pledge Agreement and the Deed of Charge and Assignment.

The Calculation Agent will prepare a Payments Report by no later than the fifth Business Day prior to each Guarantor Payment Date, subject to receipt by it of reports from the Servicer, the Cash Manager, the Account Banks, the Hedging Counterparties and the Administrative Services Provider, which will set out the Available Funds and payments to be made on the immediately succeeding Guarantor Payment Date in accordance with the applicable Priorities of Payments. Following the delivery of an Article 74 Notice to Pay (which has not been withdrawn), a Notice to Pay or a Covered Bond Guarantor Acceleration Notice, the Relevant Account Bank, shall make payments of principal and interest, in accordance with the Covered Bond Guarantee, the relevant Priorities of Payments and the relevant provisions of the Cash Management and Agency Agreement.

Pursuant to the Cash Management and Agency Agreement, it is a necessary requirement that the Paying Agent shall always maintain the Minimum Required Paying Agent Rating provided for under the Cash Management and Agency Agreement, and failure to so qualify shall constitute a termination event thereunder.

Luxembourg Listing Agent

The Luxembourg Listing Agent will, upon and in accordance with the written instructions of the Issuer and, after the occurrence of an Issuer Event of Default, the Covered Bond Guarantor or, following the occurrence of a Covered Bond Guarantor Event of Default, the Representative of the Covered Bondholders received at least 5 (five) calendar days before the proposed publication date, arrange for publication of any supplement to this Base Prospectus and any notice which is to be given to the Covered Bondholders by publication in the Luxembourg Stock Exchange website or alternatively in a newspaper having general circulation in

The Luxembourg Listing Agent will (a) promptly forward to the Issuer, the Paying Agent, the Administrative Services Provider, the Representative of the Covered Bondholders and the Covered Bond Guarantor a copy of any notice or communication addressed to the Covered Bond Guarantor or the Issuer by any Covered Bondholders and which is received by the Luxembourg Listing Agent; (b) make available to the Issuer, the Covered Bond Guarantor and the Paying Agent such information in its possession as is reasonably required for the maintenance of the records in respect of all the Accounts; (c) comply with the listing rules of the Luxembourg Stock Exchange in connection with the Programme; and (d) promptly inform the Covered Bond Guarantor of any fact which may affect its duties in connection with the Programme.

Termination

Upon the occurrence of certain events, including CA-CIB as Account Bank or the Paying Agent ceasing to maintain the respective Minimum Required Ratings (it being understood that, if Intesa Sanpaolo ceases to have the Minimum Required Account Bank Rating, no Termination Event in respect of Intesa Sanpaolo shall occur if Intesa Sanpaolo fully, duly and timely complies with the provisions of the Cash Management and Agency Agreement), either the Issuer (only prior to the occurrence of an Issuer Event of Default and with respect to certain agents only), the Representative of the Covered Bondholders or the Covered Bond Guarantor, provided that (in the case of the Covered Bond Guarantor) the Representative of the Covered Bondholders consents in writing to such termination, may terminate the appointment of CA-CIB as Account Bank, of the Cash Manager, the Paying Agent, the Luxembourg Listing Agent and the Calculation Agent, as the case may be, under the terms of the Cash Management and Agency Agreement.

The Servicer, or any other third party appointed by the Representative of the Covered Bondholders, in the name and on behalf of the Covered Bond Guarantor, will offer the Selected Assets for sale for the best price reasonably available. Any proceeds of such sale shall be credited to the Supplemental Liquidity Reserve Account.

Under the Asset Monitor Agreement, the Asset Monitor has acknowledged and accepted that its services will be carried out also for the benefit and in the interest of the Covered Bond Guarantor and the Representative of the Covered Bondholders.

The Issuer and (with effect as from the service of an Article 74 Notice to Pay (and until the date of its withdrawal) and/or a Notice to Pay) the Covered Bond Guarantor may, subject to the prior written consent of the Representative of the Covered Bondholders, terminate the appointment of the Asset Monitor in accordance with the termination provisions of the Asset Monitor Agreement. In any case, no revocation of the appointment of the Asset Monitor shall take effect until a successor has been duly appointed in accordance with the provisions of the Asset Monitor Agreement.

The Asset Monitor may, at any time, resign in accordance with the resignation provisions of the Asset Monitor Agreement. Such resignation will be subject to and conditional upon, *inter alia*, a substitute Asset Monitor being appointed by the Issuer or (upon delivery of an Article 74 Notice to Pay - and until the date of its withdrawal - or a Notice to Pay) the Covered Bond Guarantor.

11. **Dealer Agreement**

Pursuant to the Dealer Agreement, the parties thereto have agreed upon the conditions under which the Covered Bonds may be issued and sold, from time to time, by the Issuer to the Dealers or any other dealers and the Issuer and the Covered Bond Guarantor have undertaken to indemnify the Dealers for all costs,

liabilities, charges, expenses and claims incurred by or made against the Dealers arising out of, in connection with or based on breach of duty or misrepresentation by the Issuer and/or the Covered Bond Guarantor.

The Dealer Agreement contains provisions relating to the resignation or termination of appointment of the existing Dealers and for the appointment of additional or other dealers acceding as new dealer (i) generally in respect of the Programme, or (ii) in relation to a particular issue of a Series of Covered Bonds.

The Dealer Agreement contains stabilisation provisions.

Pursuant to the Dealer Agreement, the Issuer and the Covered Bond Guarantor have given certain representations and warranties to the Dealers in relation to, *inter alia*, themselves and the information given by each of them in connection with this Base Prospectus.

12. **Subscription Agreement**

The Dealer Agreement also contains the *pro forma* of the Subscription Agreement to be entered into in relation to each issue of Covered Bonds.

Governing Law

The Pledge Agreement, and any non-contractual obligations arising out of or in connection with the Pledge Agreement, is governed by Italian law.

14. **Deed of Charge and Assignment**

Pursuant to the Deed of Charge and Assignment, the Covered Bond Guarantor has assigned by way of security to, and charged in favour of, the Representative of the Covered Bondholders (acting in its capacity as trustee for itself and the Secured Creditors), all of its rights, title, interest and benefit from time to time in and to the Swap Agreements.

Governing Law

The Deed of Charge and Assignment, and any non-contractual obligations arising out of or in connection with the Deed of Charge and Assignment, is governed by English law.

15. **Swap Agreements**

Swap Agreements

The Covered Bond Guarantor may enter into one or more swap transactions (each a **Swap Transaction**) with Hedging Counterparties in order to hedge certain risks. Each Swap Transaction with a Hedging Counterparty will be governed by a 1992 ISDA Master Agreement (Multicurrency-Cross Border), as published by the International Swap and Derivatives Association, Inc. (**ISDA**), the Schedule thereto (the **Master Agreement**) as supplemented by a 1995 Credit Support Annex (English Law) published by ISDA

(the **CSA**) entered into with that Hedging Counterparty and a confirmation (the **Swap Confirmation**) evidencing the terms of such transaction, all governed by English law (the Master Agreement, the CSA and the Swap Confirmations, together the **Swap Agreement**).

Under the terms of each Swap Agreement, in the event that the rating(s) of the relevant Hedging Counterparty, or any guarantor of the relevant Hedging Counterparty's obligations, is downgraded by the Rating Agency below the rating(s) specified in the relevant Master Agreement for that Hedging Counterparty or any guarantor of that Hedging Counterparty, that Hedging Counterparty will, in accordance with the relevant Master Agreement, be required to take certain remedial measures which may include:

(a) providing collateral for its obligations under the Swap Agreement, or

(b) arranging for its obligations under the Swap Agreement to be transferred to an entity with the rating(s) required under the Swap Agreement, or

(c) procuring another entity with the rating(s) required under the Swap Agreement to become co-obligor or guarantor in respect of its obligations under the Swap Agreement.

A failure to take such steps within the time periods specified in the Master Agreement will allow the Covered Bond Guarantor to terminate the relevant Swap Agreement.

The Swap Agreement may also be terminated in certain other circumstances pursuant to any other events of default and termination events set out in the Swap Agreement (each a **Swap Early Termination Event**), including, if there is a failure by the a party to make timely payments of any amounts due under the Swap Agreement and upon the occurrence of the insolvency of the Hedging Counterparty or any guarantor of that Hedging Counterparty.

Upon the termination of the Swap Agreement pursuant to a Swap Early Termination Event, the Covered Bond Guarantor or the relevant Hedging Counterparty may be liable to make a termination payment to the other in accordance with the provisions of the Swap Agreement. Such payment will be made in accordance with the Priority of Payments set out in the Intercreditor Agreement.

Collateralisation under the Credit Support Annex

Under the CSA, if required to do so following a downgrade of a Hedging Counterparty, or any guarantor of that Hedging Counterparty, as the case may be, and subject to the conditions specified in the CSA, such Hedging Counterparty will make transfers of collateral to the Covered Bond Guarantor in support of its obligations under the relevant Swap Agreement (the **Swap Collateral**) and the Covered Bond Guarantor will be obliged to return equivalent collateral in accordance with the terms of the CSA where there is a subsequent reduction in the exposure of the Covered Bond Guarantor to the Hedging Counterparty.

Any Swap Collateral required to be posted by the relevant Hedging Counterparty pursuant to the terms of the relevant CSA may be delivered in the form of cash or securities. Cash amounts will be paid into an account opened with respect to each Hedging Counterparty, designated a "**Collateral Account – Cash**" and securities will be transferred to an account opened with respect to each Hedging Counterparty, designated a "**Collateral Account – Securities**".

If a Collateral Account – Cash and/or a Collateral Account – Securities are opened in relation to a Swap, cash and securities (and all income in respect thereof) transferred as collateral will only be available to be applied in returning collateral (and income thereon) or in satisfaction of amounts owing by the relevant Hedging Counterparty in accordance with the terms of the relevant CSA.

Any Swap Collateral will be returned by the Covered Bond Guarantor to the relevant Hedging Counterparty directly in accordance with the terms of the relevant CSA and not under the Priorities of Payments, provided that, in the event of early termination of the Swap Agreement, the Swap Collateral may be applied in accordance with the terms of the Master Agreement.

Asset Swap Transactions

The Covered Bond Guarantor may enter into one or more swap transactions on or about the date of the transfer of each Portfolio or on or about each Issue Date with the Hedging Counterparty in order to, *inter alia*, hedge the interest rate risks and/or currency risks related to the transfer of each Portfolio.

Some of the Mortgage Loans in each Portfolio will pay a floating rate of interest which may or may not be subject to a cap and some of the Mortgage Loans will pay a fixed rate of interest. However, the payments to

be made by the Covered Bond Guarantor under the Liability Swap Transactions will be generally based on EURIBOR.

To provide a hedge against the possible variance between:

(a) the rates of interest payable on the Mortgage Loans in each Portfolio; and

(b) EURIBOR,

the Covered Bond Guarantor and the Hedging Counterparty may enter into Asset Swap Transactions in respect of the various Portfolios held by the Covered Bond Guarantor.

Liability Swap Transactions

Where Covered Bonds are issued in a currency and/or on an interest rate basis different to the Asset Swap Transactions, the Covered Bond Guarantor may enter into Liability Swap Transactions.

In respect of a Series of Covered Bonds denominated in Euros, the Covered Bond Guarantor will pay to the Hedging Counterparty an amount in Euros calculated with reference to a floating rate of interest and in return the Hedging Counterparty will pay to the Covered Bond Guarantor the amount of interest due on the relevant Series of Covered Bonds.

Each Liability Swap Transaction which may be entered into in connection with a Series of Covered Bond will terminate on the Maturity Date of the relevant Series of Covered Bond or, if applicable under the relevant Final Terms and agreed by the Parties, on the Extended Maturity Date or the Long Date Due For Payment Date, as the case may be, unless terminated earlier in accordance with its terms.

Governing Law

The Swap Agreements are governed by English law.

Notwithstanding the above, the Covered Bond Guarantor could enter into hedging agreements, other than the Swap Agreements, in order to hedge the interest rate and/or currency risk related to the transfer of each Portfolio or to the Covered Bonds.

16. Swap Service Agreements

Pursuant to the Swap Service Agreements, Intesa Sanpaolo and any other party which may enter in the Programme has agreed or will agree, as the case may be, to provide the Covered Bond Guarantor with certain services due under the Swap Agreement in order to implement the provisions relating, *inter alia*, to the reporting activities imposed by EMIR Regulation; and ISGS has agreed to provide the Covered Bond Guarantor with certain services due under the Swap Agreement in order to implement the provisions relating, *inter alia*, to the portfolio reconciliation and dispute resolution imposed by EMIR Regulation.

Pursuant to the Swap Service Agreements, (i) no additional fees are due to Intesa Sanpaolo, in its capacity as Swap Service Provider, other than the fees due to the same entity in its capacity as Hedging Counterparty under the Swap Agreement; and (ii) the fees due under the relevant Swap Service Agreement to ISGS as Swap Service Provider will be paid under the same item of the relevant Priority of Payments as the fees due to ISGS in its capacity as First Special Servicer.

Governing Law

The Swap Service Agreements, and any non-contractual obligations arising out of or in connection with the Swap Service Agreements, are governed by Italian law.

17. **Master Definitions Agreement**

Under the Master Definitions Agreement, the parties thereto have agreed upon the definitions of certain terms utilised in the Transaction Documents.

SELECTED ASPECTS OF ITALIAN LAW

The following is an overview only of certain aspects of Italian law that are relevant to the transactions described in this Base Prospectus and of which prospective Covered Bondholders should be aware. It is not intended to be exhaustive and prospective Covered Bondholders should also read the detailed information set out elsewhere in this Base Prospectus.

Law 130, Article 7-*bis* thereof and BoI OBG Regulations. General remarks

Law 130 was enacted on 30 April 1999 and was conceived to simplify the securitisation process and to facilitate the increased use of securitisation as a financing technique in the Republic of Italy.

Law Decree No. 35 of 14 March 2005, converted with amendments into law by Law no. 80 of 14 May 2005, added articles 7-*bis* and 7-*ter* to Law 130, for the purpose of allowing Italian banks to use the securitisation techniques introduced by Law 130 in view of issuing covered bonds (*obbligazioni bancarie garantite*).

Law 130 was further amended by Law Decree No. 145 of 23 December 2013 (***Decreto Destinazione Italia***) as converted with amendments into Law No. 9 of 21 February 2014 and by Law Decree No. 91 of 24 June 2014 (*Decreto Competitività*) which has been converted with amendments into Law No. 116 of 11 August 2014.

Pursuant to article 7-*bis*, certain provisions of Law 130 apply to transactions involving the "true" sale (by way of non-gratuitous assignment) of receivables or asset backed securities issued in the context of securitisation transactions meeting certain eligibility criteria set out in article 7-*bis* and in MEF Decree, where the sale is to a vehicle incorporated pursuant to article 7-*bis* and all amounts paid by the debtors are to be used by the special purpose vehicle exclusively to meet its obligations under a guarantee to be issued by it, in view of securing the payment obligations of the selling bank or of other banks in connection with the issue of covered bonds.

Pursuant to article 7-*bis*, the purchase price of the assets to be included in the portfolio shall be financed through the taking of a loan granted or guaranteed by the bank selling the assets or a different bank. The payment obligations of the special purpose vehicle under such loan shall be subordinated to the payment obligations *vis-à-vis* the covered bondholders, the counterparties of any derivative contracts hedging risks in connection with the assigned receivables and securities, the counterparties of any other ancillary contract and counterparties having a claim in relation to any payment of other costs of the transaction.

The covered bonds are further regulated by the Decree of the Ministry for the Economy and Finance No. 310 of 14 December 2006 ("**MEF Decree**") and the supervisory instructions of the Bank of Italy relating to covered bonds under Part III, Chapter 3, of the circular no. 285 of 17 December 2013, containing the "*Disposizioni di vigilanza per le banche"* as further implemented and amended, (the "**BoI OBG Regulations**"). Pursuant to the BoI OBG Regulations, the covered bonds may be issued also by banks which are member of banking groups meeting, as of the date of issuance of the covered bonds, certain requirements relating to the consolidated regulatory capital and the consolidated solvency ratio at the group's level. Such requirements must be complied with, as of the date of issuance of the covered bonds, also by banks selling the assets, where the latter are different from the bank issuing the covered bonds and do not fall within the same banking group.

The Special Purpose Vehicle

On 8 May 2015, the Ministerial Decree No. 53/2015 (the "**Decree 53/2015**") issued by the Ministry of Economy and Finance has been published in the Official Gazette of the Republic of Italy. The Decree 53/2015 came into force on 23 May 2015, repealing the Decree No. 29/2009. Pursuant to Article 7 of the Decree 53/2015, the assignee companies which guarantee covered bonds, belonging to a banking group as defined by Article 60 of the Banking Law (such as ISP CB Pubblico S.r.l.), will no longer have to be registered in the general register held by the Bank of Italy pursuant to Article 106 of the Banking Law.

Eligibility criteria of the assets and limits to the assignment of assets

Under the MEF Decree, the following assets, *inter alia*, may be assigned to the purchasing company, together with any ancillary contracts aimed at hedging the financial risks embedded in the relevant assets: (a) residential and commercial mortgage loans having the characteristics set out under Article 2, Paragraph 1 (a) and (b), respectively, of the MEF Decree; (b) the public assets meeting the characteristics set out under

Article 2, Paragraph 1(c) of the MEF Decree; (c) asset backed securities issued in the context of securitisation transactions, meeting the following criteria: (i) the relevant securitised receivables comprise, for an amount equal at least to 95 per cent., loans referred to in (a) and (b) above; (ii) the relevant asset backed securities attract a risk weighting factor not exceeding 20 per cent. under the "standardised approach" to credit risk measurement.

For the purpose above, the relevant provisions define a guarantee "valid for purposes for the credit risk mitigation" as a guarantee eligible for the "credit risk mitigation", in accordance with Directive 2006/48/EC of 14 June 2006 (the **Restated Banking Directive**). Similarly, the "Standardised Approach" shall provide a uniform approach to credit risk measurements as defined by the Restated Banking Directive.

The BoI OBG Regulations set out certain requirements for banks belonging to banking groups with respect to the issuance of covered bonds to be met at the time of the relevant issuance:

(i) own funds (*fondi propri*) of not less than Euro 250,000,000.00; and

(ii) a total capital ratio on a consolidated basis of not less than 9 per cent.

The above mentioned requirements must be complied with, as of the date of the assignment, also by the banks selling the assets, where the latter are different from the bank issuing the covered bonds and do not fall within the same banking group.

If the bank selling the assets does not belong to a banking group, the above mentioned requirements relate to the individual regulatory capital and/or overall capital ratio.

Moreover, the BoI OBG Regulations set out certain limits to the possibility for banks to assign eligible assets, which are linked to the tier 1 ratio (**T1R**) and common equity tier 1 ratio (**CET1R**) of the individual bank (or of the relevant banking group, if applicable), in accordance with the following grid, contained in the BoI OBG Regulations:

Ratios		**Limits to the assignment**
Group "a"	T1R ≥ 9 % and CET1R ≥ 8 %	No limits
Group "b"	T1R ≥ 8 % and CET1R ≥ 7 %	Assignment allowed up to 60% of the eligible assets
Group "c"	T1R ≥ 7 % and CET1R ≥ 6 %	Assignment allowed up to 25% of the eligible assets

The relevant T1R and CET1R set out in the grid relate to the aggregate of the covered bonds transactions launched by the relevant banking group or individual bank, as the case may be. If foreign entities belonging to the banking group of the bank selling the assets have issued covered bonds in accordance with their relevant jurisdiction and have therefore segregated part of their assets to guarantee the relevant issuances, the limits set out above shall be applied to the eligible assets held by the Italian companies being part of the assigning bank's banking group.

In addition to the above, certain further amendments have been introduced in respect of the monitoring activities to be performed by the asset monitor.

The limits to the assignment set out above do not apply to Integration (as defined below) of the portfolio, provided that Integration is allowed exclusively within the limits set out by the BoI OBG Regulations.

The substitution of eligible assets included in the portfolio with other eligible assets of the same nature is also permitted, provided that certain conditions indicated under the BoI OBG Regulations are met.

Ring-Fencing of the assets

Under the terms of article 3 of Law 130, all the receivables relating to a Law 130 transaction, the relevant collections and the financial assets purchased using the collections arising from the relevant receivables will by operation of law be segregated for all purposes from all other assets of the special purpose vehicle and from those relating to the other Law 130 transactions carried out by the same special purpose vehicle On a winding up of the special purpose vehicle such assets will only be available to holders of the covered bonds in respect of which the special purpose vehicle has issued the covered bond guarantee and to the other secured creditors of the special purpose vehicle. In addition, the assets relating to a particular covered bond

transaction will not be available to the holders of covered bonds issued under any other covered bond transaction or to general creditors of the special purpose vehicle.

However, under Italian law, any other creditor of the special purpose vehicle which is not a party to the transaction documents would be able to commence insolvency or winding up proceedings against the special purpose vehicle in respect of any unpaid debt.

The assignment

The assignment of receivables under Law 130 is governed by Article 58, paragraphs 2, 3 and 4 of the Banking Law. The prevailing interpretation of these provisions, which view has been strengthened by Article 4 of Law 130, is that:

(a) as from the date of publication in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) of the notice of assignment of the relevant receivables in accordance with the applicable provisions of Article 58 of the Banking Law, the assignment of the relevant receivables will become enforceable against:

(i) any creditors of the seller of the relevant receivables who have not commenced enforcement by means of obtaining an attachment order (*pignoramento*) prior to the date of publication of the notice of assignment of the relevant receivables;

(ii) a receiver in the insolvency of the seller of the relevant receivables; and

(iii) prior assignees of the relevant receivables who have not perfected their assignment by way of (A) notifying the assigned debtors or (B) making the assigned debtors acknowledge the assignment by an acceptance bearing a date certain at law (*data certa*) prior to the date of publication of the notice of assignment of the relevant receivables or in any other way permitted under applicable law,

without the need to follow the ordinary rules under Article 1265 of the Italian Civil Code as to making the assignment effective against third parties; and

(b) as from the later of (A) the date of the publication of the notice of assignment of the relevant receivables, and (B) the date of registration (*iscrizione*) of such notice with the Companies' Register of the district where the issuer is enrolled, in accordance with the applicable provisions of Article 58 of the Banking Law, the assignment of the relevant receivables will also become enforceable against:

(i) the assigned debtors; and

(ii) a receiver in the insolvency of the assigned debtors (so that any payments made by an assigned debtor to the purchasing company may not be subject to any claw back action according to Article 67 of the Insolvency Law),

without the need to follow the ordinary rules under Article 1264 of the Italian Civil Code as to making the assignment effective against the assigned debtor.

The benefit of any privilege, guarantee or security interest guaranteeing or securing repayment of the relevant receivables will automatically be transferred to and perfected with the same priority in favour of the special purpose vehicle, without the need for any formality or annotations.

As from the date of publication of the assignment of the relevant receivables in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*), no legal action may be brought to attach the relevant receivables, or the sums derived therefrom, other than for the purposes of enforcing the rights of the holders of the covered bonds and to meet the costs of the transaction.

Notices of the assignment of the Initial Portfolio and of the Further Portfolios pursuant to the Master Transfer Agreement were published in the Official Gazette of the Republic of Italy (*Gazzetta Ufficiale della Repubblica Italiana*) and were filed with the Companies' Register of Milan.

Exemption from claw-back

Assignments executed under Law 130 are subject to revocation on bankruptcy under Article 67 of the Insolvency Law, but only in the event that the transaction is entered into (i) in cases where paragraph 2 of

article 67 applies, within three months of the adjudication of bankruptcy of the relevant party or (ii) in cases where paragraph 1 of Article 67 applies, within six months of the adjudication of bankruptcy.

The subordinated loans to be granted to the special purpose vehicle and the covered bond guarantee are subject to the provisions of Article 67, paragraph 4, of the Insolvency Law, pursuant to which the provisions of Article 67 relating to the claw back of for-consideration transactions, payments and guarantees do not apply to certain transactions.

In addition to the above, any payments made by an assigned debtor to the special purpose vehicle may not be subject to any claw back action according to Article 65 and 67 of the Insolvency Law.

Tests set out in the MEF Decree

Pursuant to Article 3 of the MEF Decree, the issuing bank and the assigning bank (to the extent different from the issuing bank), will have to ensure that, in the context of the transaction, the following tests are satisfied on an ongoing basis:

(i) the outstanding aggregate nominal amount of the portfolio shall be greater than or equal to the aggregate nominal amount of the outstanding covered bonds;

(ii) the net present value of the portfolio, net of the transaction costs to be borne by the special purpose vehicle, including therein the expected costs and the costs of any hedging arrangement entered into in relation to the transaction, shall be greater than or equal to the net present value of the outstanding covered bonds;

(iii) the amount of interest and other revenues generated by the portfolio, net of the costs borne by the special purpose vehicle, shall be greater than or equal to the interest and costs due by the bank under the outstanding covered bonds, taking also into account any hedging arrangements entered into in relation to the transaction.

Integration Assets

For the purpose of ensuring compliance with the tests described above and pursuant to Article 2 of the MEF Decree, in addition to assets which are eligible in accordance with Article 2, Paragraph 1 of the MEF Decree, the following assets may be used for the purpose of the integration of the portfolio:

(a) the creation of deposits with banks incorporated in Eligible States or in a State which attracts a risk weight factor equal to 0 per cent. under the "standardised approach" to credit risk measurement;

(b) the assignment of securities issued by the banks referred to under (a) above, having a residual maturity not exceeding one year,

(the **Integration Assets**).

Integration through Integration Assets shall be allowed within the limits of 15 per cent. of the nominal value of the assets included in the portfolio.

In addition, pursuant to Article 7-bis of Law 130 and the MEF Decree, integration of the portfolio, whether through eligible assets or Integration Assets (the **Integration**) shall be carried out in accordance with the modalities, and subject to the limits, set out in the BoI OBG Regulations.

More specifically, under the BoI OBG Regulations, Integration is allowed exclusively for the purpose of (a) complying with the tests set out in the MEF Decree; (b) complying with any contractual overcollateralisation requirements agreed by the parties to the relevant agreements; and (c) complying with the 15 per cent. limitation of the Integration Assets included in the portfolio. The limits to the assignment indicated above do not apply to the Integration.

The Integration is not allowed in circumstances other than as set out in the BoI OBG Regulations.

The features of the covered bond guarantee

According to Article 4 of the MEF Decree, the covered bond guarantee shall be limited recourse to the portfolio, irrevocable, first demand, unconditional and autonomous from the obligations assumed by the issuer of the covered bonds. Accordingly, such obligations shall be a direct, unconditional, unsubordinated obligation of the special purpose vehicle, limited recourse to the special purpose vehicle's available funds,

irrespective of any invalidity, irregularity or unenforceability of any of the guaranteed obligations of the issuer of the covered bonds.

In order to ensure the autonomous and independent nature of the covered bond guarantee, Article 4 of the MEF Decree provides that the following provisions of the Italian Civil Code, generally applicable to personal guarantees (*fideiussioni*), shall not apply to the covered bond guarantee: (a) Article 1939, providing that a *fideiussione* shall not generally be valid where the guaranteed obligation is not valid; (b) Article 1941, paragraph 1, providing that a *fideiussione* cannot exceed the amounts due by the guaranteed debtor, nor can it be granted for conditions more onerous than those pertaining to the main obligation; (c) Article 1944, paragraph 2, providing, *inter alia*, that the parties to the contract pursuant to which the *fideiussione* is issued may agree that the guarantor shall not be obliged to pay before the attachment is carried out against the guaranteed debtor; (d) Article 1945, providing that the guarantor can raise against the creditor any objections (*eccezioni*) which the guaranteed debtor is entitled to raise, except for the objection relating to the lack of legal capacity; (e) Article 1955, providing that a *fideiussione* shall become ineffective (*estinta*) where, as a consequence of acts of the creditor, the guarantor is prevented from subrogating into any rights, pledges, mortgages, and liens (*privilegi*) of the creditor; (f) Article 1956, providing that the guarantor of future receivables shall not be liable where the creditor – without the authorisation of the guarantor – has extended credit to a third party, while being aware that the economic conditions of the principal obligor were such that recovering the receivable would have become significantly more difficult; (g) Article 1957, providing, *inter alia*, that the guarantor will be liable also after the guaranteed obligation has become due and payable, provided that the creditor has filed its claim against the guaranteed debtor within six months and has diligently pursued them.

The obligations of the covered bond guarantor following a liquidation of the Issuer

The MEF Decree also sets out certain principles which are aimed at ensuring that the payment obligations of the special purpose vehicle are isolated from those of the issuer of covered bonds. To that effect it requires that the covered bond guarantee contains provisions stating that the relevant obligations thereunder shall not accelerate upon the issuer's default, so that the payment profile of the covered bonds shall not automatically be affected thereby.

More specifically, Article 4 of the MEF Decree provides that in the event of a breach by the issuer of its obligations *vis-à-vis* the covered bondholders, the special purpose vehicle shall assume the obligations of the issuer – within the limits of the portfolio – in accordance with the terms and conditions originally set out for the covered bonds. The same provision applies where the issuer is subject to mandatory liquidation procedures (*liquidazione coatta amministrativa*).

In addition, the acceleration (*decadenza dal beneficio del termine*) provided for by Article 1186 of the Civil Code and affecting the issuer shall not affect the payment obligations of the special purpose vehicle under the covered bond guarantee. Pursuant to Article 4 of the MEF Decree, the limitation in the application of Article 1186 of the Civil Code shall apply not only to the events expressly mentioned therein, but also to any additional event of acceleration provided for in the relevant contractual arrangements.

In accordance with Article 4, Paragraph 3, of the MEF Decree, in case of a *liquidazione coatta amministrativa* of the issuer, the special purpose vehicle shall exercise the rights of the covered bondholders *vis-à-vis* the issuer in accordance with the legal regime applicable to the issuer. Any amount recovered by the special purpose vehicle as a result of the exercise of such rights shall be deemed to be included in the portfolio.

The Bank of Italy shall supervise on the compliance with the aforesaid provisions, within the limits of the powers vested with the Bank of Italy by the Banking Law.

Controls over the transaction

The BoI OBG Regulations lay down rules on controls over transactions involving the issuance of Covered Bonds.

Inter alia, in order to provide support to the resolutions passed on the assignment of portfolios to the special purpose vehicle, both in the initial phase of transactions and in later phases, the assigning bank shall request to an auditing firm a confirmation (*relazione di stima*) stating that, on the basis of the activities carried out by that auditing firm, there are no reasons to believe that the appraisal criteria utilised in order to determine the purchase price of the assigned assets are not in line with the criteria which the assigning bank must apply

when preparing its financial statements. The above mentioned confirmation is not required if the assignment is made at the book value, as recorded in the latest approved financial statements of the assigning bank, on which the auditors have issued a clean opinion. The above mentioned confirmation is not required if any difference between the book value and the purchase price of the relevant assets is exclusively due to standard financial fluctuations of the relevant assets and is not in any way related to reductions in the qualitative aspects of those assets and/or the credit risk related to the relevant debtors.

The management body of the issuing bank must ensure that the internal structures delegated to the risk management verify at least every six months and for each transaction, *inter alia*:

(i) quality and integrity of the assets sold to the special purpose vehicle securing the obligations undertaken by the latter;

(ii) compliance with the maximum ratio between covered bonds issued and the portfolio sold to the special purpose vehicle for purposes of backing the issue, in accordance with the MEF Decree;

(iii) compliance with the limits to the assignment and the limits to Integration set out by the BoI OBG Regulations;

(iv) effectiveness and adequacy of the coverage of risks provided under derivative agreements entered into in connection with the transaction;

(v) completeness, accuracy and timeliness of information available to investors pursuant to art. 129, paragraph 7, of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013.

The bodies with management responsibilities of issuing banks and banking groups ensure that an assessment is carried out on the legal aspects (*profili giuridici*) of the activity on the basis of specially issued legal opinions setting out an in-depth analysis of the contractual structures and schemes adopted, with a particular focus on, *inter alia*, the characteristics of the covered bond guarantee.

The BoI OBG Regulations also contain certain provisions on the asset monitor, who is delegated to carry out controls over the regularity of the transaction (*regolarità dell'operazione*), the integrity of the covered bond guarantee (*integrità della garanzia*) (the **Asset Monitor**). Due to the latest amendments to the BoI OBG Regulations, introduced by way of Part III, Chapter 3 (*Obbligazioni Bancarie Garantite*) in Bank of Italy's Circular No 285 of 17 December 2013, pursuant to art. 129, paragraph 7, of Regulation (EU) No 575/2013 of the European Parliament and of the Council of 26 June 2013, the Asset Monitor is also requested also to carry out controls over the information provided to investors (*informativa agli investitori*). Pursuant to the BoI OBG Regulations, the Asset Monitor shall be an auditing firm having adequate professional experience in relation to the tasks entrusted with the same and independent from (a) the bank entrusting the same and (b) the other entities which take part to the transaction. In order to meet this independence requirement the auditing firm entrusted with the monitoring must be different from the one entrusted with the auditing of the issuing bank and the selling bank (if different from the issuing bank) and the special purpose vehicle.

The Asset Monitor shall prepare annual reports on controls and assessments on the performance of transactions, to be addressed, *inter alia*, to the body entrusted with control functions of the bank which appointed the Asset Monitor. The BoI OBG Regulations refer to the provisions (Article 52 and 61, paragraph 5, of the Banking Law), which impose on persons responsible for such control functions specific obligations to report to the Bank of Italy. Such reference appears to be aimed at ensuring that any irregularities found are reported to the Bank of Italy.

In order to ensure that the special purpose vehicle can perform, in an orderly and timely manner, the obligations arising under the covered bond guarantee, the issuing banks shall use asset and liability management techniques for purposes of ensuring, including by way of specific controls at least every six months, that the payment dates of the cash-flows generated by the portfolio substantially match the payments dates with respect to payments due by the issuing bank under the covered bonds issued and other transaction costs.

Finally, in relation to the information flows, the parties to the covered bonds transactions shall assume contractual undertakings allowing the issuing bank (and the assigning bank, if different) also acting as servicer (and any third party servicer, if appointed) to hold the information on the portfolio which are necessary to carry out the controls described in the BoI OBG Regulations and for the compliance with the

supervisory reporting obligations, including therein the obligations arising in connection with the participation to the central credit register (*Centrale dei Rischi*).

Insolvency proceedings

Insolvency proceedings (*procedure di insolvenza*) conducted under Italian law may take the form of, *inter alia*, a bankruptcy proceeding (*fallimento*), a composition agreement with creditors under Article 160 and following of the Insolvency Law (*concordato preventivo*) or a debts restructuring agreement under Article 182-bis of the Insolvency Law (*accordo di ristrutturazione dei debiti*). Insolvency proceedings are only applicable to businesses (*imprese*) either run by companies, partnerships or by individuals. An individual who is not a sole entrepreneur or an unlimited partner in a partnership is not subject to insolvency.

A debtor can be declared bankrupt (*fallito*) and subject to *fallimento* (at its own initiative, or at the initiative of any of its creditors or, in certain cases, the public prosecutor) if it is not able to fulfil its obligations in a timely manner. If a bankruptcy proceeding is commenced, except for contrary provisions of the law, from the day of declaration of bankruptcy, no individual executory and precautionary action, even if relating to receivables fallen due during the bankruptcy proceeding, may be commenced or pursued against assets included in the bankruptcy proceeding. The debtor loses control over all of its assets and of the management of its business, which is taken over by a court appointed receiver (*curatore fallimentare*). Once judgment has been made by the court and the creditors' claims have been approved, the sale of the debtor's property is conducted in accordance with a liquidation plan (approved by the delegated judge and the creditors' committee) which may provide for the dismissal of the whole business or single business units, even through competitive procedures.

A qualifying insolvent debtor may avoid being subject to a bankruptcy proceeding (*fallimento*) by proposing to its creditors a composition agreement pursuant to Article 160 and following of the Insolvency Law (*concordato preventivo*) which is a restructuring proceeding involving an arrangement by a debtor in a state of crisis or state of insolvency with its creditors, subject to court supervision, the aim of which is to restructure the business and thus avoid a declaration of bankruptcy of such debtor. Such proposal shall be based on a plan describing proposed actions and activities to be performed in order to accomplish the financial restructuring of debtor's business and to satisfy its creditors, which may provide for, among other things: (i) sales of assets, the assumption of debts or other extraordinary operations, such as the conversion of debt into equity, bonds, convertible bonds or other securities; (ii) the transfer of the business as a going concern to another entity (*assuntore*); (iii) the division of the creditors into separate classes consistent with their specific legal and economic characteristics; and (iv) different treatment for creditors belonging to different classes. Article 161 of the Insolvency Law, as amended respectively by Italian Law Decree No. 83 of 22 June 2012, converted into Law No. 134 of 7 August 2012, and Italian Law Decree No. 69 of 21 June 2013, converted with amendments into Law No. 98 of 9 August 2013, provides that a debtor in a state of crisis or state of insolvency may file a petition before the competent court containing a request in advance for a composition agreement (*domanda di concordato anticipata*). Such request may contain only the annual financial statements for the last three financial years and the list of creditors' name with indication of the relevant credits. The debtor shall subsequently file the above mentioned plan, within the date set by the competent court. Together with the motivated decree setting such date, the competent court may nominate a court-appointed officeholder, following the provision of Article 161, paragraph 5 of the Insolvency Law that, pursuant to Article 170, paragraph 2 of the Insolvency Law, may examine the financial statements of the debtor. From the date on which the petition for a composition agreement with creditors or the petition containing a request in advance for a composition agreement (*domanda di concordato anticipata*) is filed before the competent court, an "automatic stay" period is triggered, during which all creditors are prevented from recovering their debt or foreclosing on the debtor's assets. The temporary "automatic stay" is effective until the date of final ratification (*decreto di omologazione*) of the composition agreement with creditors. Following the filing of the petition before the competent court, the relevant court evaluates whether conditions for admission to such proceeding are met. Should the court decide that the petition does not satisfy the requirements set out by law, the debtor's petition is rejected and if the debtor is in a state of insolvency it may be declared bankrupt (*fallito*). If the conditions for admission are met, the relevant court will, *inter alia*, appoint the court-appointed officeholder (if it was not appointed by the competent court pursuant to Article 161, paragraph 5, of the Insolvency Law) who will notify each creditor of the date of the creditor's meeting to vote on the plan proposed by the debtor. The composition agreement with creditors is approved with the affirmative vote of creditors representing the majority of credits admitted to vote. If there are different classes of creditors, the composition agreement with creditors is approved if the majority is

reached also in the major number of classes. The court may ratify the composition agreement with creditors even if this has not been approved by the majority of creditors in one or more classes, provided that: (i) the majority of classes has approved the proposal; and (ii) the court believes that the creditor in a dissenting class will be in a position under the composition not worse than that in which they would be in case of any other feasible alternative. If creditors do not approve the composition agreement, the court will then declare its inadmissibility and may declare the debtor bankrupted if it is insolvent. On the contrary, if creditors approve the composition agreement, the designated judge, if all procedures have taken place regularly and in the absence of oppositions (or once possible oppositions have been dealt with and resolved), will ratify that approval.

Pursuant to Article 182-bis of the Insolvency Law, a debtor which is experiencing a state of crisis may require the ratification (*omologazione*) of a debts restructuring agreement (*accordo di ristrutturazione dei debiti*) entered into between it and its creditors representing at least 60% of the credits owed by it, by filing with the competent court the required corporate documentation and a certification of an expert - having certain characteristics - confirming (i) the feasibility of the debts restructuring agreement and (ii) its capability of procuring the regular payment of those creditors which are not a party to such debts restructuring agreement. The Debts Restructuring Agreement must be published in the debtor's companies' register and shall be effective as of the date of its publication. For a period of 60 days from the date of its publication, the debts restructuring agreement shall determine an "automatic stay" period pursuant to which any creditor having a title against such debtor arisen in advance to the date of publication of the debts restructuring agreement, will not be allowed to commence or continue any enforcement or precautionary action on the assets of the debtor. If the debts restructuring agreement complies with all the requirement set out by law and it is feasible to aim its purposes, the court shall issue a decree (*decreto di omologazione*) validating such debts restructuring agreement.

Law No. 3 of 27 January 2012 provides that consumers and other entities which cannot be subject to Insolvency Proceedings (Other Entities) may benefit from a special proceeding for the reconstructuring of their debts. Law No. 3 of 27 January 2012 provides that the Other Entities may file a recovery plan for the restructuring of their debts with a special authority and with the competent court and that in the case of approval of the plan, it will become binding on all the creditors of the Other Entity.

Law Decree No. 179 of 18 October 2012 as converted into Law No. 221 on 17 December 2012 has amended the discipline provided for by Law No. 3 of 27 January 2012 and in particular some aspects regarding:

(i) the setting of the recovery plan;

(ii) the consumer insolvency (*crisi del consumatore*);

(iii) the composition agreement related to insolvency proceedings and the subsequent discharge of residual debt by the court (*esdebitazione*).

Furthermore, Law Decree No. 83 of 22 June 2012 as converted with amendments into Law No. 134 of 17 August 2012, in order to accelerate the report of insolvencies and to favour the business administration continuity, allows the enterpreneur to claim for a composition agreement before having filed the required documentation.

Law Decree No. 83 of 27 June 2015, as converted into Law No. 132 of 6 August 2015 ("**Decree 83**"), has amended the discipline of the Insolvency Law and, *inter alios*, some aspects regarding:

(i) the composition agreement (*concordato preventivo*); and

(ii) the debts restructuring agreement (*accordo di ristrutturazione dei debiti*).

In relation to the composition agreement, pursuant to the new Article 163-bis, when the plan of the composition provides for an offer to purchase, the court shall issue a decree in order to start a competitive procedure (*procedimento competitivo*) by searching for new prospective buyers. Such decree shall also indicate and describe the procedure for submitting irrevocable offers and ensure the comparability between them. At the hearing set for the exam of the offers, these are published. In the presence of different offers better than the proposal of the debtor, the court provides for a competition between them. As a consequence, the debtor shall amend the proposal of composition agreement in compliance with the result of the competition.

In addition, the Decree 83 has amended Article 163 of the Insolvency Law in order to allow the creditors to offer alternative proposals of composition agreement from that offered by the insolvent debtor. For this purpose, the new proposal must be formulated by creditors representing at least the 10% of all the claims, provided that such request will not be taken into account when the offer of the debtor ensure the payment of at least 30% of the unsecured claims.

In relation to the debt restructuring agreement, the Decree 83 has included in the Insolvency Law the new Article 182-septies, which provides that, in case of claims of banks and/or financial institutions against a debtor, they may agree on a debt restructuring agreement if (i) the creditors party to it represent at least the 75% of the claims of the same category, and (ii) the non-financial creditors are entirely satisfied. When such conditions are satisfied, the debtor may ask for extension of the agreement to the banks and the financial institutions (which are not party to it) if (i) they have omogeneous economic interest and same legal status against the debtor and (ii) they have been put in condition to participate to the negotiations and they have been informed on the terms of the agreement. In any case, the agreement is subject to ratification (*omologazione*) by the court.

A similar discipline is applicable to the temporary moratorium of claims (*moratoria temporanea dei crediti*) between the debtor and one or more banks or financial institutions, which is admitted by the court when made with creditors representing at least the 75% of the claims of the same category. The moratorium shall be effective also against the banks and the financial institutions which are party to it if (i) they have been put in condition to participate to the negotiations and (ii) a professional with the requirements indicated in paragraph 3 of Article 67 of the Insolvency Law, certifies that they have omogeneous economic interest and same legal status against the debtor.

Description of *Amministrazione Straordinaria delle Banche* – Suspension of payments

A bank may be submitted to the *amministrazione straordinaria delle banche* where: (a) serious administrative irregularities, or serious violations of the provisions governing the bank's activity provided for by laws, regulations or the bank's by-laws activity are found; (b) serious capital losses are expected to occur; (c) the dissolution has been the object of a request by the administrative bodies or an extraordinary company meeting providing the reasons for the request.

According to the Banking Law, the procedure is initiated by a decree of the Ministry of Economy and Finance, acting on a proposal by the Bank of Italy, which shall dissolve the bodies entrusted respectively with management and control functions of the bank. Subsequently the Bank of Italy shall appoint, within 15 days as from the date of that decree: (a) one or more special administrator (*commissari straordinari*); (b) a surveillance committee composed of between three and five members (*comitato di sorveglianza*). The *commissari straordinari* are entrusted with the duty to assess the situation of the bank, remove the irregularities which may have been found and promote solutions in the best interest of the depositors of the bank. The *comitato di sorveglianza* exercises auditing functions and provides to the *commissari straordinari* the opinions requested by the law or by the Bank of Italy. However, it should be noted that the Bank of Italy may instruct in a binding manner the *commissari straordinari* and the *comitato di sorveglianza* providing specific safeguards and limits concerning the management of the bank.

In exceptional circumstances, pursuant to Article 74 of the Banking Law, the *commissari straordinari*, in order to protect the interests of the creditors, in consultation with the *comitato di sorveglianza* and subject to an authorisation by the Bank of Italy, may suspend payment of the bank's liabilities and the restitution to customers of financial instruments. Payments may be suspended for a period of up to one month, which may be extended for an additional period of two months. During the suspension period forced executions or actions to perfect security interests involving the bank's properties or customers' securities may not be initiated or prosecuted. During the same period mortgages may not be registered on the bank's immovable property nor may any other rights of preference on the bank's movable property be acquired, except in the case of enforceable court orders issued prior to the beginning of the suspension period. The suspension shall not trigger the insolvency of the bank.

The *amministrazione straordinaria delle banche* shall last for one year from the date of issue of the decree of the Ministry of the Economy and Finance, unless the decree provides for a shorter period or the Bank of Italy authorises the early termination. In exceptional cases, the procedure may be extended for an additional period of up to six months. The Bank of Italy may extend the duration of the procedure for periods of up to two months, in connection with the acts and formalities related to the termination of the procedure, provided that the relevant acts to be executed have already been approved by the Bank of Italy.

At the end of the procedure, the *commissari straordinari* shall undertake the necessary steps for the appointment of the bodies governing the bank in the ordinary course of business. After the appointment, the management and audit functions shall be transferred to the newly appointed bodies. It should however be noted that, should at the end of the procedure or at any earlier time the conditions for the declaration of the *liquidazione coatta amministrativa* (described in the following section) be met, then the bank may be subject to such procedure.

Description of *Liquidazione Coatta Amministrativa delle Banche*

According to the Banking Law, when the conditions for the a*mministrazione straordinaria delle banche* and described in the preceding paragraph are exceptionally serious (*di eccezionale gravità*), or when a court has declared the state of insolvency of the bank, the Ministry of Economy and Finance, acting on a proposal of the Bank of Italy, by way of a decree, may revoke the authorisation for the carrying out of banking activities and submit the bank to the compulsory winding up (*liquidazione coatta amministrativa*).

From the date of issue of the decree the functions of the administrative and control bodies, of the shareholders meetings and of any other governing body of the bank shall cease. The Bank of Italy shall appoint: (a) one or more liquidators (*commissari liquidatori*); (b) a surveillance committee composed of between three and five members (*comitato di sorveglianza*).

From the date the *commissari liquidatori* and the *comitato di sorveglianza* have assumed their functions and in any case from the third day following the date of issue of the aforesaid decree of the Ministry of Economy and Finance, the payment of any liabilities and the restitution of assets belonging to third parties shall be suspended.

The *commissari liquidatori* shall act as legal representatives of the bank, exercise all actions that pertain to the bank and carry out all transactions concerning the liquidation of the bank's assets. The *comitato di sorveglianza* shall: (i) assist the *commissari liquidatori* in exercising their functions, (ii) control the activities carried out by *commissari liquidatori*; and (iii) provide to the *commissari liquidatori* the opinions requested by the law or by the Bank of Italy. The Bank of Italy may issue directives concerning the implementation of the procedure and establish that some categories of operations and actions shall be subject to its authorisation and to preliminary consultation with the *comitato di sorveglianza*.

The Banking Law regulates the procedure for the assessment of the bank's liabilities (*accertamento del passivo*), and the procedures which allow creditors whose claims have been excluded from the list of liabilities (*stato passivo*) to challenge the list of liabilities.

The liquidators, with the favourable opinion of the *comitato di sorveglianza* and subject to authorisation by the Bank of Italy, may assign assets and liabilities, going concerns, assets and legal relationships identifiable as a pool (*in blocco*). Such assets may be assigned at any stage of the procedure, even before the *stato passivo* has been deposited. The assignor shall however be liable exclusively for the liabilities included in the *stato passivo*.

Subject to prior authorisation of the Bank of Italy and for the purpose of maximizing profits deriving from the liquidation of the assets, the *commissari liquidatori* may continue the banks' activity or of specific going concerns of the bank, in compliance with any indications provided for by the *comitato di sorveglianza*. In such a case the provisions of the Insolvency Law concerning the termination of legal relationships shall not apply.

Once the assets have been realised and before the final allotment to the creditors or to the last restitution to customers, the *commissari liquidatori* shall present to the Bank of Italy the closing statement of accounts of the liquidation, the financial statement and the allotment plan, accompanied by their own report and a report by the surveillance committee.

The Banks Recovery and Resolution Directive (BRRD)

The BRRD is designed to provide authorities with a credible set of tools to intervene sufficiently early and quickly in an unsound or failing institution so as to ensure the continuity of the institution's critical financial and economic functions, while minimising the impact of an institution's failure on the economy and financial system. The BRRD provides that Member States should apply the new "crisis management" measures from 1st January 2015, except for the general bail-in tool which is to be applied by 1st January 2016.

The BRRD contains four resolution tools and powers which may be used alone or in combination where the relevant resolution authority considers that (a) an institution is failing or likely to fail, (b) there is no reasonable prospect that any alternative private sector measures would prevent the failure of such institution within a reasonable timeframe, and (c) a resolution action is in the public interest: (i) sale of business - which enables resolution authorities to direct the sale of the firm or the whole or part of its business on commercial terms; (ii) bridge institution - which enables resolution authorities to transfer all or part of the business of the firm to a "bridge institution" (an entity created for this purpose that is wholly or partially in public control); (iii) asset separation - which enables resolution authorities to transfer impaired or problem assets to one or more publicly owned asset management vehicles to allow them to be managed with a view to maximising their value through eventual sale or orderly wind-down (this can be used together with another resolution tool only); and (iv) bail-in - which gives resolution authorities the power to write down certain claims of unsecured creditors of a failing institution and to convert certain unsecured debt claims to equity (the "**general bail-in tool**"), which equity could also be subject to any future application of the general bail-in tool.

The BRRD also provides for a Member State as a last resort, after having assessed and exhausted the above resolution tools to the maximum extent possible whilst maintaining financial stability, to be able to provide extraordinary public financial support through additional financial stabilisation tools. These consist of the public equity support and temporary public ownership tools. Any such extraordinary financial support must be provided in accordance with the EU state aid framework.

An institution will be considered as failing or likely to fail when: it is, or is likely in the near future to be, in breach of its requirements for continuing authorisation; its assets are, or are likely in the near future to be, less than its liabilities; it is, or is likely in the near future to be, unable to pay its debts or other liabilities as they fall due; or it requires extraordinary public financial support (except in limited circumstances).

In addition to the general bail-in tool, the BRRD provides for resolution authorities to have the further power to permanently write-down or convert into equity capital instruments at the point of non-viability and before any other resolution action is taken ("**non-viability loss absorption**"). Any shares issued upon any such conversion into equity may also be subject to any application of the general bail-in tool.

For the purposes of the application of any non-viability loss absorption measure, the point of non-viability under the BRRD is the point at which the relevant authority determines that the institution meets the conditions for resolution (but no resolution action has yet been taken) or that the institution will no longer be viable unless the relevant capital instruments are written-down or converted or extraordinary public support is to be provided and without such support the appropriate authority determines that the institution would no longer be viable.

As of 2016 (or, if earlier, the date of national implementation of the BRRD), European banks will also have to comply with a Minimum Requirement for Eligible Liabilities (the "**MREL**"). The BRRD does not foresee an absolute minimum, but attributes the competence to set a minimum amount for each bank to national resolution authorities (for banks not being part of the Banking Union) or to the Single Resolution Board (the "**SRB**") for banks being part of the Banking Union. MREL includes senior unsecured debt without ex-ante limitations. On 3rd July 2015 the European Banking Authority ("**EBA**") has adopted and submitted to the Commission its Regulatory Technical Standards (the "**RTS**") which shall further define the way in which resolution authorities or the SRB shall determine the MREL. In the introductory remarks to the RTS, it is stated that the EBA expects the RTS to be "broadly compatible with the proposed FSB term sheet for TLAC for G-SIBs", adding that "while there are differences resulting from the nature of the EBA's mandate under the BRRD, as well as the fact that the BRRD MREL requirement applies to banks which are not G-SIBs, these differences do not prevent resolution authorities from implementing the MREL for G-SIBs consistently with the international framework."

The BRRD is intended to enable a range of actions to be taken in relation to credit institutions and investment firms considered to be at risk of failing.

In the event of a compulsory winding-up (*liquidazione coatta amministrativa*) of the Issuer, any funds realised and payable to the Covered Bondholders will be collected by the Covered Bond Guarantor on their behalf.

(b) *Status of the Covered Bond Guarantee*: The payment of Guaranteed Amounts in respect of each Series or Tranche of Covered Bonds when due for payment will be unconditionally and irrevocably guaranteed by the Covered Bond Guarantor pursuant to the Covered Bond Guarantee. However, the Covered Bond Guarantor shall have no obligation under the Covered Bond Guarantee to pay any Guaranteed Amount on the Due for Payment Date until the occurrence of an Article 74 Event (and for so long it is outstanding) or an Issuer Event of Default and service by the Representative of the Covered Bondholders on the Covered Bond Guarantor of an Article 74 Notice to Pay (and until its withdrawal) or a Notice to Pay.

(c) *Priority of Payments*: Amounts due by the Covered Bond Guarantor pursuant to the Covered Bond Guarantee shall be paid in accordance with the Priority of Payments, as set out in the Intercreditor Agreement.

Any payment made by the Covered Bond Guarantor shall discharge the corresponding obligations of the Issuer under the Covered Bonds *vis-à-vis* the Covered Bondholders.

5 Fixed Rate Provisions

(a) *Application:* This Condition 5 is applicable to the Covered Bonds only if the Fixed Rate Provisions are specified in the relevant Final Terms as being applicable.

(b) *Accrual of interest:* The Covered Bonds bear interest on their Outstanding Principal Balance from (and including) the Interest Commencement Date at the rate(s) per annum equal to the Rate of Interest. Interest will be payable in arrears on each CB Payment Date, subject as provided in Condition 10 (*Payments*), up to (and excluding) the Maturity Date, or as the case may be, the Extended Maturity Date. Each Covered Bond will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 5 until whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) *Fixed Coupon Amount:* The amount of interest payable in respect of each Covered Bond for any CB Interest Period shall be the relevant Fixed Coupon Amount and, if the Covered Bonds are in more than one Specified Denomination, shall be the relevant Fixed Coupon Amount in respect of the relevant Specified Denomination.

(d) *Calculation of interest amount:* The amount of interest payable in respect of each Covered Bond for any period for which a Fixed Coupon Amount is not specified shall be calculated by applying the Rate of Interest to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of such Covered Bond divided by the Calculation Amount. For this purpose a **sub-unit** means, in the case of any currency other than euro, the lowest amount of such

currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

6 Floating Rate

(a) *Application:* This Condition 6 is applicable to the Covered Bonds only if the Floating Rate Provisions are specified in the relevant Final Terms as being applicable.

(b) *Accrual of interest:* Each Covered Bond bears interest on its Outstanding Principal Balance from (and including) the Interest Commencement Date at the Rate of Interest payable in arrears on each CB Payment Date, subject as provided in Condition 10 (*Payments*). Each Covered Bond will cease to bear interest from the due date for final redemption unless payment of the Redemption Amount is improperly withheld or refused, in which case it will continue to bear interest in accordance with this Condition 6 until whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).

(c) *Screen Rate Determination:* If Screen Rate Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Covered Bonds for each CB Interest Period will be determined by the Paying Agent on the following basis:

(i) if the Reference Rate is a composite quotation or customarily supplied by one entity, the Paying Agent will determine the Reference Rate which appears on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

(ii) in any other case, the Paying Agent will determine the arithmetic mean of the Reference Rates which appear on the Relevant Screen Page as of the Relevant Time on the relevant Interest Determination Date;

(iii) if, in the case of (i) above, such rate does not appear on that page or, in the case of (ii) above, fewer than two such rates appear on that page or if, in either case, the Relevant Screen Page is unavailable, the Paying Agent will:

(A) request the principal Relevant Financial Centre office of each of the Reference Banks to provide a quotation of the Reference Rate at approximately the Relevant Time on the Interest Determination Date to prime banks in the Relevant Financial Centre interbank market in an amount that is representative for a single transaction in that market at that time; and

(B) determine the arithmetic mean of such quotations; and

(iv) if fewer than two such quotations are provided as requested, the Paying Agent will determine the arithmetic mean of the rates (being the nearest to the Reference Rate, as determined by the Paying Agent) quoted by major banks in the Principal Financial Centre of the Specified Currency, selected by the Paying Agent, at approximately 11.00 a.m. (local time in the Principal Financial Centre of the Specified Currency) on the first day of the relevant CB Interest Period for loans in the Specified Currency to leading European banks for a period equal to the relevant CB Interest Period and in an amount that is representative for a single transaction in that market at that time,

and the Rate of Interest for such CB Interest Period shall be the sum of the Margin and the rate or (as the case may be) the arithmetic mean so determined; *provided, however, that* if the Paying Agent is unable to determine a rate or (as the case may be) an arithmetic mean in accordance with the above provisions in relation to any CB Interest Period, the Rate of Interest applicable to the Covered Bonds during such CB Interest Period will be the sum of the Margin and the rate or (as the case may be) the arithmetic mean last determined in relation to the Covered Bonds in respect of a preceding CB Interest Period.

(d) *ISDA Determination:* If ISDA Determination is specified in the relevant Final Terms as the manner in which the Rate(s) of Interest is/are to be determined, the Rate of Interest applicable to the Covered Bonds for each CB Interest Period will be the sum of the Margin and the relevant ISDA Rate where **ISDA Rate** in relation to any CB Interest Period means a rate equal to the Floating Rate (as defined in the ISDA Definitions) that would be determined by the Paying Agent under an interest rate swap transaction if the Paying Agent were acting as Paying Agent for that interest rate swap transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

(i) the Floating Rate Option (as defined in the ISDA Definitions) is as specified in the relevant Final Terms;

(ii) the Designated Maturity (as defined in the ISDA Definitions) is a period specified in the relevant Final Terms; and

(iii) the relevant Reset Date (as defined in the ISDA Definitions) is either (A) if the relevant Floating Rate Option is based on the London inter-bank offered rate (LIBOR) for a currency, the first day of that CB Interest Period or (B) in any other case, as specified in the relevant Final Terms.

(e) *Maximum or Minimum Rate of Interest:* If any Maximum Rate of Interest or Minimum Rate of Interest is specified in the relevant Final Terms, then the Rate of Interest shall in no event be greater than the maximum or be less than the minimum so specified.

(f) *Calculation of Interest Amount:* The Paying Agent will, as soon as practicable after the time at which the Rate of Interest is to be determined in relation to each CB Interest Period, calculate the Interest Amount payable in respect of each Covered Bond for such CB Interest Period. The Interest Amount will be calculated by applying the Rate of Interest for such CB Interest Period to the Calculation Amount, multiplying the product by the relevant Day Count Fraction, rounding the resulting figure to the nearest sub-unit of the Specified Currency (half a sub-unit being rounded upwards) and multiplying such rounded figure by a fraction equal to the Specified Denomination of the relevant Covered Bond divided by the Calculation Amount. For this purpose a **sub-unit** means, in the case of any currency other than euro, the lowest amount of such currency that is available as legal tender in the country of such currency and, in the case of euro, means one cent.

(g) *Calculation of other amounts:* If the relevant Final Terms specifies that any other amount is to be calculated by the Paying Agent, then the Paying Agent will, as soon as practicable after the time or times at which any such amount is to be determined, calculate the relevant amount. The relevant amount will be calculated by the Paying Agent in the manner specified in the relevant Final Terms.

(h) *Publication:* The Paying Agent will cause each Rate of Interest and Interest Amount determined by it, together with the relevant CB Payment Date, and any other amount(s) required to be determined by it together with any relevant payment date(s) to be notified to each competent authority, stock exchange and/or quotation system (if any) by which the Covered Bonds have then been admitted to listing, trading and/or quotation as soon as practicable after such determination but (in the case of each Rate of Interest, Interest Amount and CB Payment Date) in any event not later than the first day of the relevant CB Interest Period. Notice thereof shall also promptly be given to the Covered Bondholders. The Paying Agent will be entitled to recalculate any Interest Amount (on the basis of the foregoing provisions) without notice in the event of an extension or shortening of the relevant CB Interest Period. If the Calculation Amount is less than the minimum Specified Denomination, the Paying Agent shall not be obliged to publish each Interest Amount but instead may publish only the Calculation Amount and the Interest Amount in respect of a Covered Bond having the minimum Specified Denomination.

(i) *Notifications etc:* All notifications, opinions, determinations, certificates, calculations, quotations and decisions given, expressed, made or obtained for the purposes of this Condition by the Paying Agent will (in the absence of manifest error) be binding on the Issuer, the Covered Bond Guarantor, the Covered Bondholders and (subject as aforesaid) no liability to any such Person will attach to the Paying Agent in connection with the exercise or non-exercise by it of its powers, duties and discretions for such purposes.

7 Zero Coupon Provisions

(a) *Application:* This Condition 7 is applicable to the Covered Bonds only if the Zero Coupon Provisions are specified in the relevant Final Terms as being applicable.

(b) *Late payment on Zero Coupon Covered Bonds:* If the Redemption Amount payable in respect of any Zero Coupon Covered Bond is improperly withheld or refused, the Redemption Amount shall thereafter be an amount equal to the sum of:

(i) the Reference Price; and

(ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price on the basis of the relevant Day Count Fraction from (and including) the Issue Date to (but excluding) whichever is the earlier of (i) the day on which all sums due in respect of such Covered Bond up to that day are received by or on behalf of the relevant Covered Bondholder and (ii) the day which is seven days after the Paying Agent has notified the Covered Bondholders that it has received all sums due in respect of the Covered Bonds up to such seventh day (except to the extent that there is any subsequent default in payment).

8 Partly-Paid Provisions

(a) *Application*: This Condition 8 is applicable to the Covered Bonds only if the Partly-Paid Provisions are specified in the relevant Final Terms as being applicable.

(b) *Rate of Interest*: Interest will accrue on the paid up nominal amount of such Covered Bonds or as otherwise specified in the applicable Final Terms.

9 Redemption and Purchase

(a) *Scheduled redemption*: Unless previously redeemed or purchased and cancelled as specified below, the Covered Bonds of each Series or Tranche will be redeemed at their Final Redemption Amount on the relevant Maturity Date, subject as provided in Condition 9(b) (*Extension of maturity*) and Condition 10 (*Payments*). If an Extended Maturity Date is not specified as applicable in the relevant Final Terms for a Series or Tranche of Covered Bonds, Condition 9(m) (*Pre-Maturity Liquidity Test*) shall apply.

The Issuer shall confirm to the Paying Agent as soon as reasonably practicable and in any event at least as of the Extension Determination Date as to whether payment will or will not be made in full of the Final Redemption Amount in respect of the Covered Bonds on that Maturity Date. Any failure by the Issuer to notify the Paying Agent shall not affect the validity or effectiveness of the extension.

(b) *Extension of maturity*: Without prejudice to Condition 11 (*Taxation*), if (i) an Extended Maturity Date is specified as applicable in relation to the Covered Bond Guarantor in the relevant Final Terms for a Series or Tranche of Covered Bonds and an Article 74 Event or an Issuer Event of Default has occurred, following the service, respectively, of an Article 74 Notice to Pay or a Notice to Pay on the Covered Bond Guarantor, and (ii) the Calculation Agent (on behalf of the Covered Bond Guarantor) determines that the Covered Bond Guarantor has insufficient Available Funds under the Post-Issuer Default Priority of Payments to pay the Guaranteed Amounts corresponding to the Final Redemption Amount in full in respect of the relevant Series or Tranche of Covered Bonds on the Maturity Date, then (subject as provided below), payment of the unpaid amount by the Covered Bond Guarantor under the Covered Bond Guarantee shall be deferred until the Extended Maturity Date *provided that* any amount representing the Final Redemption Amount due and remaining unpaid after the Extension Determination Date may be paid by the Covered Bond Guarantor on any CB Payment Date thereafter up to (and including) the relevant Extended Maturity Date (a **Maturity Extension**). Notwithstanding the above, if the Covered Bonds are extended as a consequence of the occurrence of an Article 74 Event, upon termination of the suspension period and withdrawal of the Article 74 Notice to Pay, the Issuer shall resume responsibility for meeting the payment obligations under any Series or Tranche of Covered Bonds in respect of which an Extendable Maturity has occurred, and any Final Redemption Amount shall be due for payment by no later than 15 calendar days following the day on which the Article 74 Notice to Pay has been withdrawn.

The Covered Bond Guarantor shall notify the relevant Covered Bondholders (in accordance with Condition 19 (*Notices*)), any relevant Hedging Counterparty, the Rating Agency, the Representative of the Covered Bondholders and the Paying Agent as soon as reasonably practicable, and in any event at least one Business Day prior to the relevant Maturity Date, of any inability of the Covered Bond Guarantor to pay in full the Guaranteed Amounts corresponding to the Final Redemption Amount in respect of a Series or Tranche of Covered Bonds pursuant to the Covered Bond Guarantee. Any failure by the Covered Bond Guarantor to notify such parties shall not affect the validity or effectiveness of the extension nor give rise to any rights in any such party.

In the circumstances outlined above, the Covered Bond Guarantor shall, on the relevant Due for Payment Date, pursuant to the Covered Bond Guarantee, apply the monies (if any) available (after paying or providing for payment of higher ranking or *pari passu* amounts in accordance with the relevant Priorities of Payments) *pro rata* in payment of an amount equal to the Final Redemption Amount in respect of the relevant Series or Tranche of Covered Bonds and shall pay Guaranteed Amounts constituting interest in respect of each such Covered Bond on such date. The obligation of the Covered Bond Guarantor to pay any amounts in respect of the balance of the Final Redemption Amount not so paid on such Due for Payment Date shall be deferred as described above.

Interest will continue to accrue on any unpaid amount during such extended period and be payable on each Guarantor Payment Date following the Maturity Date up to the Extended Maturity Date (inclusive).

Where an Extended Maturity Date is specified as applicable in the relevant Final Terms for a Series or Tranche of Covered Bonds and applied, failure to pay on the Maturity Date by the Covered Bond Guarantor shall not constitute a Covered Bond Guarantor Event of Default.

(c) *Redemption for tax reasons:* The Covered Bonds may be redeemed at the option of the Issuer in whole, but not in part:

(i) at any time (if the Floating Rate Provisions are not specified in the relevant Final Terms as being applicable); or

(ii) on any CB Payment Date (if the Floating Rate Provisions are specified in the relevant Final Terms as being applicable),

on giving not less than 30 nor more than 60 days' notice to the Covered Bondholders (which notice shall be irrevocable), at their Early Redemption Amount, together with interest accrued (if any) to the date fixed for redemption, if:

(A) the Issuer has or will become obliged to pay additional amounts as provided or referred to in Condition 11 (*Taxation*) as a result of any change in, or amendment to, the laws or regulations of Italy or any European law or regulation, or any political subdivision or any authority thereof or therein having power to tax, or any change in the application or official interpretation of such laws or regulations (including a holding by a court of competent jurisdiction), which change or amendment becomes effective on or after the date of issue of the first Series or Tranche of Covered Bonds; and

(B) such obligation cannot be avoided by the Issuer taking reasonable measures available to it,

provided, however, that no such notice of redemption shall be given earlier than:

(1) where the Covered Bonds may be redeemed at any time, 90 days prior to the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Covered Bonds were then due; or

(2) where the Covered Bonds may be redeemed only on a CB Payment Date, 60 days prior to the CB Payment Date occurring immediately before the earliest date on which the Issuer would be obliged to pay such additional amounts if a payment in respect of the Covered Bonds were then due.

Prior to the publication of any notice of redemption pursuant to this paragraph, the Issuer shall deliver to the Paying Agent, with a copy to the Luxembourg Listing Agent and the Representative of

the Covered Bondholders, a certificate signed by a duly authorised officer of the Issuer stating that the Issuer is entitled to effect such redemption and setting forth a statement of facts showing that the conditions precedent to the right of the Issuer so to redeem have occurred and such evidence shall be sufficient to the Paying Agent and the Representative of the Covered Bondholders and conclusive and binding on the Covered Bondholders. Upon the expiry of any such notice as is referred to in this Condition 9(c), the Issuer shall be bound to redeem the Covered Bonds in accordance with this Condition 9(c).

(d) *Redemption at the option of the Issuer:* If the Call Option is specified in the relevant Final Terms as being applicable, the Covered Bonds may be redeemed at the option of the Issuer in whole or, if so specified in the relevant Final Terms, in part on any Optional Redemption Date (Call) at the relevant Optional Redemption Amount (Call) on the Issuer's giving not less than 15 nor more than 30 days' notice to the Covered Bondholders (which notice shall be irrevocable and shall oblige the Issuer to redeem the Covered Bonds on the relevant Optional Redemption Date (Call) at the Optional Redemption Amount (Call) plus accrued interest (if any) to such date).

(e) *Partial redemption:* If the Covered Bonds are to be redeemed in part only on any date in accordance with Condition 9(d) (*Redemption at the option of the Issuer*), the Covered Bonds to be redeemed in part shall be redeemed in the principal amount specified by the Issuer and the Covered Bonds will be so redeemed in accordance with the rules and procedures of Monte Titoli and/or any other Relevant Clearing System (to be reflected in the records of such clearing systems as a pool factor or a reduction in principal amount, at their discretion), subject to compliance with applicable law, the rules of each competent authority, stock exchange and/or quotation system (if any) by which the Covered Bonds have then been admitted to listing, trading and/or quotation. The notice to Covered Bondholders referred to in Condition 9(d) (*Redemption at the option of the Issuer*) shall specify the proportion of the Covered Bonds so to be redeemed. If any Maximum Redemption Amount or Minimum Redemption Amount is specified in the relevant Final Terms, then the Optional Redemption Amount (Call) shall in no event be greater than the maximum or be less than the minimum so specified.

(f) *Redemption at the option of Covered Bondholders:* If the Put Option is specified in the relevant Final Terms as being applicable, the Issuer shall, at the option of any Covered Bondholder, redeem such Covered Bonds held by it on the Optional Redemption Date (Put) specified in the relevant Put Option Notice at the relevant Optional Redemption Amount (Put) together with interest (if any) accrued to such date. In order to exercise the option provided for under this Condition 9(f), the Covered Bondholder must, not less than 15 nor more than 30 days before the relevant Optional Redemption Date (Put), deposit with the Paying Agent a duly completed Put Option Notice in the form obtainable from the Paying Agent. The Paying Agent with which a Put Option Notice is so deposited shall deliver a duly completed Put Option Receipt to the depositing Covered Bondholder. Once deposited in accordance with this Condition 9(f), no duly completed Put Option Notice, may be withdrawn; *provided, however, that* if, prior to the relevant Optional Redemption Date (Put), any Covered Bonds become immediately due and payable or, upon due presentation of any such Covered Bonds on the relevant Optional Redemption Date (Put), payment of the redemption monies is improperly withheld or refused, the relevant Paying Agent shall mail notification thereof to the Covered Bondholder at such address as may have been given by such Covered Bondholder in the relevant Put Option Notice and shall hold such Covered Bond against surrender of the relevant Put Option Receipt. For so long as any outstanding Covered Bonds are held by a Paying Agent in accordance with this Condition 9(f), the Covered Bondholder and not such Paying Agent shall be deemed to be the holder of such Covered Bonds for all purposes.

(g) *No other redemption:* The Issuer shall not be entitled to redeem the Covered Bonds otherwise than as provided in Conditions 9(a) (*Scheduled redemption*) to (f) (*Redemption at the option of Covered Bondholders*) above.

(h) *Early redemption of Zero Coupon Covered Bonds:* Unless otherwise specified in the relevant Final Terms, the Redemption Amount payable on redemption of a Zero Coupon Covered Bonds at any time before the Maturity Date shall be an amount equal to the sum of:

(i) the Reference Price; and

(ii) the product of the Accrual Yield (compounded annually) being applied to the Reference Price from (and including) the Issue Date to (but excluding) the date fixed for redemption or (as the case may be) the date upon which the Covered Bonds become due and payable.

Where such calculation is to be made for a period which is not a whole number of years, the calculation in respect of the period of less than a full year shall be made on the basis of such Day Count Fraction as may be specified in the Final Terms for the purposes of this Condition 9(h) or, if none is so specified, a Day Count Fraction of 30E/360.

(i) *Redemption by instalments*: If the Covered Bonds are specified in the relevant Final Terms as being amortising and redeemable in instalments they will be redeemed in such number of instalments, in such amounts (**Instalment Amounts**) and on such dates as may be specified in or determined in accordance with the relevant Final Terms and upon each partial redemption as provided by this Condition 9(i), the outstanding principal amount of each such Covered Bonds shall be reduced by the relevant Instalment Amount for all purposes.

(j) *Purchase:* The Issuer or any of its Subsidiaries (other than the Covered Bond Guarantor) may at any time purchase Covered Bonds in the open market or otherwise and at any price. The Covered Bond Guarantor shall not purchase any Covered Bonds at any time.

(k) *Legislative Exchange*: Following the coming into force in Italy, at any time after the Issue Date, of (i) any legislation similar to the OBG Regulation in force in any other European Union country or (ii) any rules, regulations or guidelines published by any governmental authority that provides for bonds issued by Italian issuers to qualify for the same benefits available to covered bonds issued under covered bond legislation in force in any other European Union country, the Issuer may, at its option and without the consent of the Representative of the Covered Bondholders, exchange all (but not some only) of the Covered Bonds of all Series or Tranche then outstanding (the **Existing Covered Bonds**) for new Covered Bonds which qualify as covered bonds under such new legislation, rules, regulations or guidelines (the **New Covered Bonds**) on the same economic terms and conditions as the Existing Covered Bonds (the **Legislative Exchange**) if not more than 60 nor less than 30 days' notice to the Covered Bondholders (in accordance with Condition 19 (*Notices*)) and the Representative of the Covered Bondholders is given and provided that:

(i) on the date on which such notice expires the Issuer delivers to the Representative of the Covered Bondholders a certificate signed by two authorised signatories of each of the Issuer and the Covered Bond Guarantor confirming that, in the case of the Issuer, no Issuer Event of Default and, in the case of the Covered Bond Guarantor, no Covered Bond Guarantor Event of Default, has occurred which is continuing;

(ii) the Rating Agency has confirmed in writing that the New Covered Bonds will be assigned the same ratings as are then applicable to the Existing Covered Bonds; and

(iii) if the Existing Covered Bonds are listed, quoted and/or traded on or by a competent and/or relevant listing authority, stock exchange and/or quotation system on or before the date on which such notice expires, the Issuer delivers to the Representative of the Covered Bondholders a certificate signed by two authorised signatories of the Issuer confirming that all applicable rules of such competent and/or relevant listing authority, stock exchange and/or quotation system have been or will be complied with.

The Existing Covered Bonds will be cancelled concurrently with the issue of the New Covered Bonds and with effect on and from the date of issue thereof all references herein to Covered Bonds shall be deemed to be references to the New Covered Bonds.

(l) *Redemption due to illegality*: The Covered Bonds of all Series or Tranche may be redeemed at the option of the Issuer in whole, but not in part, at any time, on giving not less than 30 nor more than 60 days' notice to the Representative of the Covered Bondholders and the Paying Agent and, in accordance with Condition 19 (*Notices*), all Covered Bondholders (which notice shall be irrevocable), if the Issuer satisfies the Representative of the Covered Bondholders immediately before the giving of such notice that it has, or will, before the next CB Payment Date of any Covered Bond of any Series or Tranche, become unlawful for the Issuer to make any payments under the

Covered Bonds as a result of any change in, or amendment to, the applicable laws or regulations or any change in the application or official interpretation of such laws or regulations, which change or amendment has become or will become effective before the next such CB Payment Date.

Covered Bonds redeemed pursuant to this Condition 9(l) will be redeemed at their Early Redemption Amount together (if appropriate) with interest accrued to (but excluding) the date of redemption.

(m) *Pre-Maturity Liquidity Test.* If an Extended Maturity Date is not specified as applicable in the relevant Final Terms for a Series or Tranche of Covered Bonds, on any Business Day falling during the Pre-Maturity Rating Period prior to the occurrence of an Issuer Event of Default (each a **Pre-Maturity Liquidity Test Date**), the Calculation Agent will determine if the Pre-Maturity Liquidity Test (as defined below) has been breached, and if so, it shall immediately notify the Issuer, the Seller, the Hedging Counterparties and the Representative of the Covered Bondholders.

For the purpose of this paragraph (m) the **Pre-Maturity Liquidity Test** is complied with on any Pre-Maturity Liquidity Test Date if, during the Pre-Maturity Rating Period, the Issuer's credit rating is greater than or equal to the Pre-Maturity Liquidity Required Rating.

Following a breach of the Pre-Maturity Liquidity Test in respect of a Series or Tranche of Covered Bonds:

(i) the Issuer shall:

(a) make a cash deposit in an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates on the Pre-Maturity Liquidity Account, opened in its name with a bank whose ratings are at least equal to the Minimum Required Account Bank Rating provided for under the Transaction Documents and pledged in favour of the Covered Bondholders; or

(c) take action in the form of a combination of the foregoing which in aggregate add up to an amount equal to the Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates;

and/or

(ii) the Servicer, or any other third party appointed by the Representative of the Covered Bondholders, on behalf of the Covered Bond Guarantor, shall sell, subject to any pre-emption right of the Seller or any Additional Seller (as the case may be) pursuant to the relevant Master Transfer Agreement, Selected Assets and Integration Assets in accordance with the procedures set out in the Portfolio Administration Agreement, for an amount equal to the Adjusted Required Redemption Amount of the Series or Tranche of Hard Bullet Covered Bonds to which such Pre-Maturity Liquidity Test relates.

10 Payments

(a) *Payments through clearing systems*: Payment of interest and repayment of principal in respect of the Covered Bonds will be credited, in accordance with the instructions of Monte Titoli, by the Paying Agent on behalf of the Issuer or the Covered Bond Guarantor (as the case may be) to the accounts of those banks and authorised brokers whose accounts with Monte Titoli are credited with those Covered Bonds and thereafter credited by such banks and authorised brokers from such aforementioned accounts to the accounts of the beneficial owners of those Covered Bonds or through the Relevant Clearing Systems to the accounts with the Relevant Clearing Systems of the beneficial owners of those Covered Bonds, in accordance with the rules and procedures of Monte Titoli and of the Relevant Clearing Systems, as the case may be.

(b) *Payments subject to fiscal laws:* All payments in respect of the Covered Bonds are subject in all cases to any applicable fiscal or other laws and regulations in the place of payment, but without prejudice to the provisions of Condition 11 (*Taxation*). No commissions or expenses shall be charged to Covered Bondholders in respect of such payments.

(c) *Payments on business days:* If the due date for payment of any amount in respect of any Covered Bond is not a Business Day in the Place of Payment, the Covered Bondholder shall not be entitled to payment in such place of the amount due until the next succeeding Business Day in such place and shall not be entitled to any further interest or other payment in respect of any such delay.

In that event, the Issuer shall pay such additional amounts as will result in receipt by the Covered Bondholders after such withholding or deduction of such amounts as would have been received by them had no such withholding or deduction been required, except that no such additional amounts shall be payable in respect of any Covered Bond:

(i) in respect to any payment or deduction of any interest or principal on account of *imposta sostitutiva* (at the then applicable rate of tax) pursuant to Decree 239 with respect to any Covered Bonds or, for the avoidance of doubt, Decree 461 or any related implementing regulations, and in all circumstances in which the procedures set forth in Decree 239 in order to benefit from a tax exemption have not been met or complied with except where such procedures have not been met or complied with due to the actions or omissions of the Issuer or its agents; or

(b) *Taxing jurisdiction:* If the Issuer becomes subject at any time to any taxing jurisdiction other than the Republic of Italy, references in these Conditions to the Republic of Italy shall be construed as references to the Republic of Italy and/or such other jurisdiction. For the avoidance of doubt, the Issuer will have no obligation to pay additional amounts in respect of the Covered Bonds for any amounts required to be withheld or deducted pursuant to sections 1471 to 1474 of the U.S. Internal Revenue Code of 1986.

If an Issuer Event of Default occurs, the Representative of the Covered Bondholders will serve a notice (the **Notice to Pay**) on the Issuer and the Covered Bond Guarantor that an Issuer Event of Default has occurred and, upon service of such Notice to Pay:

(a) *No further Series or Tranche of Covered Bonds*: the Issuer may not issue any further Series or Tranche of Covered Bonds;

The Paying Agent and its initial Specified Office are set out in these Conditions. Any additional Paying Agent and its Specified Office (if any) are specified in the relevant Final Terms. The Issuer, and (where applicable) the Covered Bond Guarantor, reserves the right at any time to vary or terminate the appointment of the Paying Agent and to appoint an additional or successor paying agent; *provided, however, that:*

17 Substitution of the Issuer

The Representative of the Covered Bondholders may (and in the case of an Approved Reorganisation shall) agree with the Issuer (or any previous substitute) and the Covered Bond Guarantor at any time without the consent of the Covered Bondholders:

(b) to an Approved Reorganisation; or

(c) that Intesa Sanpaolo (or any previous substitute) may, other than by means of an Approved Reorganisation, consolidate with, merge into or amalgamate with any successor company,

provided that:

(i) the obligations of the Substitute Obligor or the Resulting Entity under the Covered Bonds shall be irrevocably and unconditionally guaranteed by Intesa Sanpaolo (on like terms as to subordination, if applicable, to those of the Covered Bond Guarantee); and

(ii) (other than in the case of an Approved Reorganisation) the Representative of the Covered Bondholders has confirmed in writing that it is satisfied that the interests of the Covered Bondholders will not be materially prejudiced thereby; and

(iii) the Substitute Obligor or the Resulting Entity agrees, in form and manner satisfactory to the Representative of the Covered Bondholders, to be bound by the terms and conditions of the Covered Bonds and all the Transaction Documents in respect to any Series or Tranche of Covered Bonds still

outstanding, by means of executing agreements and documents substantially in the same form and substance of the Transaction Documents;

(iv) the Representative of the Covered Bondholders has confirmed in writing that it is satisfied that (a) the Resulting Entity or Substituted Obligor has obtained all governmental and regulatory approvals and consents necessary for its assumption of liability as principal debtor in respect of the Covered Bonds in place of the Issuer (or such previous substitute as aforesaid), and (b) such approvals and consents are, at the time of substitution, Approved Reorganisation or consolidation, merger, amalgamation other than by means of an Approved Reorganisation, as the case may be, in full force and effect.

Upon the assumption of the obligations of the Issuer by a Substitute Obligor or a Resulting Entity or a successor company, Intesa Sanpaolo shall have no further liabilities under or in respect of the Covered Bonds.

Any such substitution, Approved Reorganisation or consolidation, merger or amalgamation shall be notified to the Covered Bondholders in accordance with Condition 19 (*Notices*) and to the Rating Agency. In the case of a substitution, the relevant Issuer shall notify the Luxembourg Stock Exchange thereof and prepare, or procure the preparation of, a supplement to the Base Prospectus in respect of the Programme.

In connection with the exercise of its powers, authorities or discretions above mentioned: (a) the Representative of the Covered Bondholders shall have regard to the interests of the Covered Bondholders as a class and in particular, but without prejudice to the generality of the foregoing, shall not have regard to the consequences of such exercise for individual Covered Bondholders resulting from them being for any purpose domiciled or resident in, or otherwise connected with, or subject to the jurisdiction of, any particular territory; and (b) the Representative of the Covered Bondholders shall not be entitled to claim from the Issuer any indemnification or payment in respect of any tax consequence of any such exercise upon individual Covered Bondholders except to the extent already provided for by Condition 11 (*Taxation*).

For the avoidance of doubt, it is understood that if the Available Funds are insufficient to pay any amount due and payable on any Guarantor Payment Date in accordance with the relevant Priority of Payments, the shortfall then occurring will not be payable on that date but will become payable on the subsequent Guarantor Payment Dates if and to the extent that the Available Funds may be used for this purpose in accordance with the Priorities of Payments. Such shortfall will not cause the accrual of default interest unless otherwise provided in the relevant Transaction Document. If there are not Available Funds for payment to the Secured Creditors at the date the Covered Bonds are cancelled in accordance with the Conditions, the Secured Creditors shall have no further claim against the Covered Bond Guarantor in respect of any unpaid amount;

(ii) acknowledges and agrees that the limited recourse nature of the obligations of the Covered Bond Guarantor under the Covered Bonds or any Transaction Documents produces the effect of a *contratto aleatorio* and accepts the consequences thereof, including but not limited to the provision of Article 1469 of the Italian Civil Code and will have an existing claim against the Covered Bond Guarantor only in respect of the Available Funds which may be applied for the relevant purpose as at the relevant date and will not have any claim, by operation of law or otherwise, against, or recourse to, the Covered Bond Guarantor's assets (other than the Portfolio and the Available Funds) or its contributed equity capital or any other assets of the Covered Bond Guarantor whatsoever;

(iii) acknowledges and agrees that all payments to be made by the Covered Bond Guarantor to it, whether under any Transaction Document or otherwise, will be made by the Covered Bond Guarantor solely from the Available Funds, except as permitted in the Transaction Documents;

(iv) acknowledges that it will not have any claim, by operation of law or otherwise, against, or recourse to, any assets of the Covered Bond Guarantor other than the Portfolio and the Available Funds;

(v) undertakes not to enforce any covenants, agreements, representations or warranties of the Covered Bond Guarantor contained in any of the Transaction Documents or any other document related thereto against the Covered Bond Guarantor's assets (other than the Portfolio and the Available Funds) or its contributed equity capital or against any quotaholder, director, auditor or agent of the Covered Bond Guarantor, but to enforce such covenants, agreements, representations and warranties only against the Portfolio and the Available Funds and within the limits set forth in this Condition and in the Intercreditor Agreement;

(vi) undertakes to enforce any judgment obtained by it in any action brought under any of the Transaction Documents or any other document relating thereto only against the Portfolio and the Available Funds and not against any other assets or property or the contributed equity capital of the Covered Bond Guarantor or of any quotaholder, director, employee, officer, auditor or agent of the Covered Bond Guarantor;

(vii) undertakes not to make any claim or bring any action in contravention of the provisions of this Condition 17; and

(viii) undertakes not to permit the Covered Bond Guarantor to pay, prepay or discharge any amount to it other than in accordance with this Condition 17.

(c) *Other publication*: The Representative of the Covered Bondholders shall be at liberty to sanction any other method of giving notice to Covered Bondholders if, in its opinion, such other method is reasonable having regard to market practice then prevailing and to the rules of the competent authority, stock exchange and/or listing system by which the Covered Bonds are then admitted to trading (including any means provided for under Article 16 of Luxembourg law implementing the Prospectus Directive, dated 04 November 2003) and provided that notice of such other method is

given to the holders of the Covered Bonds in such manner as the Representative of the Covered Bondholders shall require.

20 Rounding

The Representative of the Covered Bondholders may convene a single meeting of the Covered Bondholders of more than one Series if in the opinion of the Representative of the Covered Bondholders there is no conflict between the holders of the Covered Bonds of the relevant Series, in which event the provisions of these Rules shall apply thereto *mutatis mutandis*.

4.2 Meetings convened by Issuer

Whenever the Issuer is about to convene a Meeting, it shall immediately give notice in writing to the Representative of the Covered Bondholders specifying the proposed day, time and place of the Meeting, and the items to be included in the agenda.

4.3 Time and place of Meetings

8.1.2 in any other case, the Meeting shall stand adjourned to the same day in the next week (or if such day is a public holiday the next succeeding business day) at the same time and place (except in the case of a meeting at which an Extraordinary Resolution is to be proposed in which case it shall stand adjourned for such period, being not less than 13 clear days nor more than 42 clear days, and to such place as may be appointed by the Chairman either at or subsequent to such meeting and approved by the Representative of the Covered Bondholders).

8.2 If within 15 minutes (or such longer period not exceeding 30 minutes as the Chairman may decide) after the time appointed for any adjourned meeting a quorum is not present for the transaction of any particular business, then, subject and without prejudice to the transaction of the business (if any) for which a quorum is present, the Chairman may either (with the approval of the Representative of the Covered Bondholders) dissolve such meeting or adjourn the same for such period, being not less than 13 clear days (but without any maximum number of clear days), and to such place as may be appointed by the Chairman either at or subsequent to such adjourned meeting and approved by the Representative of the Covered Bondholders.

12.6 References to the blocking or release of Covered Bonds shall be construed in accordance with the usual practices (including blocking the relevant account) of any Relevant Clearing System.

MAIN FEATURES OF REGISTERED COVERED BONDS (*GEDECKTE NAMENSSCHULDVERSCHREIBUNGEN)*

Under the Programme the Issuer may issue Registered Covered Bonds (*Gedeckte Namensschuldverschreibungen*), each issued with a minimum denomination indicated in the applicable Registered Covered Bond Conditions. The Registered Covered Bonds will not be listed and/or admitted to trading on any market and will not be settled through a clearing system.

The Registered Covered Bonds will be governed by the laws of the Federal Republic of Germany or by whatever law chosen by the Issuer (to be supplemented with the specific provisions required under German law in order for the Registered Covered Bonds to be a German law registered note (*Gedeckte Namensschuldverschreibung*)) provided that, in any case, certain provisions, including those applicable to the Issuer and the Portfolio and those applicable to the status, limited recourse and the guarantee of the Registered Covered Bonds, shall be confirmed to be governed by Italian law.

The Registered Covered Bonds will be direct, unconditional, unsubordinated and unsecured obligations of the Issuer, guaranteed by the Guarantor pursuant to the terms of the Covered Bond Guarantee. The Registered Covered Bonds will rank pari passu and without any preference among themselves and, save for any applicable statutory provisions, at least equally with all other present and future unsecured and un-subordinated obligations of the Issuer from time to time outstanding.

In accordance with the Law 130, MEF Decree and the BoI OBG Regulations, the terms and conditions of each Series of Registered Covered Bonds together with the Transaction Documents, the Registered Covered Bondholders will have (i) recourse to the Issuer and (ii) limited recourse to the Guarantor limited to the Available Funds.

The Registered Covered Bonds shall be governed by a set of legal documentation in the form from time to time agreed with the relevant Dealer and will not be governed by the Conditions of the Covered Bonds set out in this Base Prospectus. Such legal documentation will include the relevant Registered Covered Bond certificate, the Registered Covered Bond Conditions, the Registered Covered Bond assignment agreement, any other ancillary documents and/or agreements. Notwithstanding the foregoing, the Issuer will be entitled to enter into a different or additional set of documentation as agreed with the relevant Dealer in relation to a specific issue of Registered Covered Bonds.

The full terms and conditions applicable to each Series of Registered Covered Bonds will be the relevant Registered Covered Bond Certificate, the Registered Covered Bond Conditions attached thereto and any other related agreements.

In connection with each Registered Covered Bond, each reference in the Base Prospectus to information being set out, specified, stated, shown, indicated or otherwise provided for in the applicable Final Terms shall be read and construed as a reference to such information being set out, specified, stated, shown, indicated or otherwise provided in the Registered Covered Bond Certificate, the Registered Covered Bond Conditions attached thereto or any other document expressed to govern such Registered Covered Bond and, as applicable, each other reference to Final Terms in the Base Prospectus shall be construed and read as a reference to such Registered Covered Bond, the Registered Covered Bond Conditions attached thereto or any other document expressed to govern such of Registered Covered Bond.

A transfer of Registered Covered Bonds is deemed to be not effective until the transferee has delivered to the Registrar a duly executed copy of the Registered Covered Bond certificate relating to such Registered Covered Bond along with a duly executed Registered Covered Bond assignment agreement. A transfer can only occur for the minimum denomination indicated in the applicable Registered Covered Bond Conditions or multiples thereof.

In connection of Registered Covered Bonds, any references in this Base Prospectus to the Conditions or a particularly numbered Condition shall be construed, where relevant and unless specified otherwise, to include the equivalent Condition in the Registered Covered Bond Conditions as supplemented by any other applicable document.

TAXATION

Republic of Italy

The following is an overview of current Italian law and practice relating to the taxation of the Covered Bonds. The statements herein regarding taxation are based on the laws in force in Italy as of the date of this Base Prospectus and are subject to any changes in law occurring after such date, which changes could be made on a retroactive basis.

The following overview does not purport to be a comprehensive description of all the tax considerations which may be relevant to a decision to subscribe for, purchase, own or dispose of the Covered Bonds and does not purport to deal with the tax consequences applicable to all categories of investors, some of which (such as dealers in securities or commodities) may be subject to special rules. Prospective purchasers of the Covered Bonds are advised to consult their own tax advisers concerning the overall tax consequences of their ownership of the Covered Bonds.

*Law Decree No. 66 of 24 April 2014, published in the Official Gazette No. 95 of 24 April 2014, as converted into law with amendments by Law No. 89 of 23 June 2014 (**Decree 66**), introduced tax provisions amending certain aspects of the tax treatment of the Covered Bonds, as summarised below. In particular, Decree 66 has increased the rate of withholding taxes and substitute taxes applicable on interest accrued, and capital gains realisded, as of 1 July 2014* on financial instruments (incuding the Covered Bonds) other than government bonds.

Tax treatment of the Covered Bonds

Legislative Decree No. 239 of 1 April 1996, as subsequently amended, (**Decree 239**) provides for the applicable regime with respect to the tax treatment of interest, premium and other income (including the difference between the redemption amount and the issue price) from notes issued, *inter alia*, by Italian banks, falling within the category of bonds (*obbligazioni*) or debentures similar to bonds (*titoli similari alle obbligazioni*). For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at redemption, an amount not lower than their nominal value.

Italian resident Covered Bondholders

Where an Italian resident Covered Bondholder is (a) an individual not engaged in an entrepreneurial activity to which the Covered Bonds are connected (unless the individual has opted for the application of the "*risparmio gestito*" regimes – see "*Capital Gains Tax" below*), (b) a non-commercial partnership, (c) a non-commercial private or public institution, or (d) an investor exempt from Italian corporate income taxation, interest, premium and other income relating to the Covered Bonds, accrued during the relevant holding period, are subject to a withholding tax, referred to as *imposta sostitutiva*, levied at the rate of 26 per cent .

In the event that the Covered Bondholders described under (a) or (c) above are engaged in an entrepreneurial activity to which the Covered Bonds are connected, the *imposta sostitutiva* applies as a provisional tax.

Where an Italian resident Covered Bondholder is a company or similar commercial entity or a permanent establishment in Italy of a foreign company to which the Covered Bonds are effectively connected and the Covered Bonds are deposited with an authorised intermediary, interest, premium and other income from the Covered Bonds will not be subject to *imposta sostitutiva*, but must be included in the relevant Covered Bondholder's annual income tax return and are therefore subject to general Italian corporate taxation (**IRES**) (and, in certain circumstances, depending on the "*status*" of the Covered Bondholder, also to regional tax productive activities (**IRAP**)).

Under the current regime provided by Law Decree No. 351 of 25 September 2001 converted into law with amendments by Law No. 410 of 23 November 2001 (**Decree 351**), as clarified by the Italian Revenues Agency (*Agenzia delle Entrate*) through Circular No. 47/E of 8 August 2003 and Circular No. 11/E of 28 March 2012, payments of interest, premiums or other proceeds in respect of the Covered Bonds made to Italian resident real estate investment funds established pursuant to Article 37 of Legislative Decree No. 58 of 24 February 1998 or pursuant to Article 14-bis of Law No. 86 of 25 January 1994, and Italian real estate SICAFs (**Real Estate SICAFs**) are subject neither to *imposta sostitutiva* nor to any other income tax in the hands of a real estate investment fund or Real Estate SICAFs.

If an investor is resident in Italy and is an open-ended or a closed-ended investment fund, a SICAF (an investment company with fixed capital) or a SICAV (an investment company with variable capital) established in Italy and either (i) the fund, the SICAF or the SICAV or (ii) their manager is subject to the supervision of a regulatory authority (the **Fund**), and the relevant Covered Bonds are held by an authorised intermediary, interest, premium and other income accrued during the holding period on the Covered Bonds will not be subject to imposta sostitutiva, but must be included in the management results of the Fund accrued at the end of each tax period. The Fund will not be subject to taxation on such result, but a withholding tax of 26 per cent. will apply, in certain circumstances, to distributions made in favour of unitholders or shareholders (the **Collective Investment Fund Tax**).

Where an Italian resident Covered Bondholder is a pension fund (subject to the regime provided for by Article 17 of the Legislative Decree No. 252 of 5 December 2005) and the Covered Bonds are deposited with an authorised intermediary, interest, premium and other income relating to the Covered Bonds and accrued during the holding period will not be subject to *imposta sostitutiva*, but must be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to a 20 per cent substitute tax. The 20 per cent. substitute tax shall apply on the portfolio's results accrued at the end of the tax year from 2015 onwards.

As of 1 January 2015, Italian pension funds benefit from a tax credit equal to 9% of the result of the relevant portfolio accrued at the end of the tax period, provided that such pension funds invest in certain medium long term financial assets as identified by the Ministerial Decree of 19 June 2015 published in the Official Gazette – general series No. 175, on 30 July 2015.

Pursuant to Decree No. 239, *imposta sostitutiva* is applied by banks, *Società di intermediazione mobiliare* (SIMs), fiduciary companies, *Società di gestione del risparmio* (SGRs), stockbrokers and other entities identified by a Decree of the Ministry of Economy and Finance (each an **Intermediary**) as subsequently amended and integrated.

An Intermediary must: (a) be resident in Italy or be a permanent establishment in Italy of a non-Italian resident financial intermediary and (b) intervene, in any way, in the collection of interest or in the transfer of the Covered Bonds. For the purpose of the application of the *imposta sostitutiva*, a transfer of Covered Bonds includes any assignment or other act, either with or without consideration, which results in a change of the ownership of the relevant Covered Bonds or in a change of the Intermediary with which the Covered Bonds are deposited.

Where the Covered Bonds are not deposited with an Intermediary, the *imposta sostitutiva* is applied and withheld by any entity paying interest to a Covered Bondholder.

Non-Italian resident Covered Bondholders

Where the Covered Bondholder is a non-Italian resident, without a permanent establishment in Italy to which the Covered Bonds are connected, an exemption from the *imposta sostitutiva* applies provided that the non-Italian resident beneficial owner is either (a) resident, for tax purposes, in a country which allows for a satisfactory exchange of information with Italy as listed in the Italian Ministerial Decree of 4 September 1996, as amended from time to time (the **White List**) or in any other decree or regulation that will be issued in the future to provide the list of such countries (the **New White List**), including any country that will be deemed listed therein for the purpose of any interim rule; or (b) an international body or entity set up in accordance with international agreements which have entered into force in Italy; or (c) a Central bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) an institutional investor which is resident in a country included in the White List (or the New White List, once effective).

The *imposta sostitutiva* will be applicable at the rate of 26 per cent., or at the reduced rate provided for by the applicable double tax treaty, if any, to interest, premium and other income paid to Covered Bondholders who are resident, for tax purposes, in countries which do not allow for a satisfactory exchange of information with Italy. In order to ensure gross payment, non-resident investors must be the beneficial owners of payments of interest, premium or other income and (a) deposit, directly or indirectly, the Covered Bonds, the Receipts or the coupons with a bank or a SIM or a permanent establishment in Italy of a non-resident bank or SIM or with a non-resident operator of a clearing system having appointed as its agent in Italy for the purposes of Decree 239 a resident bank or SIM or a permanent establishment in Italy or a non-resident bank or SIM which are in contact via computer with the Ministry of Economy and Finance and (b) file with the relevant depositary, prior to or concurrently with the deposit of the Covered Bonds, a statement of the

relevant Covered Bondholder, to be provided only once, until revoked or withdrawn, in which the Covered Bondholder declares to be eligible to benefit from the applicable exemption from *imposta sostitutiva*. Such statement, which is not requested for international bodies or entities set up in accordance with international agreements which have entered into force in Italy or in the case of foreign Central Banks or entities which manage the official reserves of a foreign State, must comply with the requirements set forth by Ministerial Decree of 12 December 2001.

Payments made by an Italian resident guarantor

With respect to payments on the Covered Bonds made to certain Italian resident Covered Bondholders by an Italian resident guarantor, in accordance with one interpretation of Italian tax law, any payment of liabilities equal to interest and other proceeds from the Covered Bonds may be subject to a provisional withholding tax at a rate of 26 per cent. pursuant to Presidential Decree No. 600 of 29 September 1973, as subsequently amended. In case of payments to non-Italian resident Covered Bondholders, the withholding tax may be applied at 26 per cent. as a final tax.

Double taxation treaties entered into by Italy may apply allowing for a lower (or, in certain cases, nil) rate of withholding tax.

In accordance with another interpretation, any such payment made by the Italian resident guarantor will be treated, in certain circumstances, as a payment by the relevant Issuer and will thus be subject to the tax regime described in the previous paragraphs of this section.

Atypical Securities

Interest payments relating to Covered Bonds that are not deemed to be bonds (*obbligazioni*), debentures similar to bonds (*titoli similari alle obbligazioni*), shares or securities similar to shares pursuant to Article 44 of Presidential Decree No. 917 of 22 December 1986 may be subject to a withholding tax, levied at the rate of 26 per cent.. For this purpose, debentures similar to bonds are securities that incorporate an unconditional obligation to pay, at redemption, an amount not lower than their nominal value.

Where the Covered Bondholder is (a) an Italian individual engaged in an entrepreneurial activity to which the Covered Bonds are connected, (b) an Italian company or a similar Italian commercial entity, (c) a permanent establishment in Italy of a foreign entity, (d) an Italian commercial partnership or (e) an Italian commercial private or public institution, such withholding tax is a provisional withholding tax. In all other cases the withholding tax is a final withholding tax. For non-Italian resident Covered Bondholders, the withholding tax rate may be reduced by any applicable tax treaty.

Capital gains tax

Any gain obtained from the sale, early redemption or redemption of the Covered Bonds would be treated as part of the taxable income (and, in certain circumstances, depending on the "status" of the Covered Bondholder, also as part of the net value of the production for IRAP purposes) if realised by an Italian company or a similar commercial entity (including the Italian permanent establishment of foreign entities to which the Covered Bonds are connected) or Italian resident individuals engaged in an entrepreneurial activity to which the Covered Bonds are connected.

Where an Italian resident Covered Bondholder is (i) an individual holding the Covered Bonds not in connection with an entrepreneurial activity, (ii) a non-commercial partnership, (iii) a non-commercial private or public institution, any capital gain realised by such Covered Bondholder from the sale early redemption or redemption of the Covered Bonds would be subject to an *imposta sostitutiva*, levied at the current rate of 26 per cent. Covered Bondholders may set off losses with gains.

In respect of the application of the *imposta sostitutiva*, taxpayers may opt for one of the three regimes described below.

Under the tax declaration regime (*regime della dichiarazione*), which is the default regime for taxation of capital gains realised by Italian resident individuals not engaged in an entrepreneurial activity to which the Covered Bonds are connected, the *imposta sostitutiva* on capital gains will be chargeable, on a yearly cumulative basis, on all capital gains, net of any incurred capital loss, realised by the Italian resident individual Covered Bondholder holding the Covered Bonds not in connection with an entrepreneurial activity pursuant to all sales, early redemption or redemptions of the Covered Bonds carried out during any given tax year. Italian resident individuals holding the Covered Bonds not in connection with an

entrepreneurial activity must indicate the overall capital gains realised in any tax year, net of any relevant incurred capital loss, in the annual tax return and pay *imposta sostitutiva* on such gains together with any balance income tax due for such year. Capital losses in excess of capital gains may be carried forward against capital gains realised in any of the four succeeding tax years Capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of: (i) 48.08 per cent. of the relevant capital losses realised before 1 January 2012; (ii) 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.

As an alternative to the tax declaration regime, Italian resident individual Covered Bondholders holding the Covered Bonds not in connection with an entrepreneurial activity may elect to pay the *imposta sostitutiva* separately on capital gains realised on each sale, early redemption or redemption of the Covered Bonds (the *risparmio amministrato* regime provided for by Article 6 of the Legislative Decree No. 461 of 21 November 1997, as a subsequently amended, the **Decree 461**). Such separate taxation of capital gains is allowed subject to (a) the Covered Bonds being deposited with Italian banks, SIMs or certain authorised financial intermediaries and (b) an express and valid election for the *risparmio amministrato* regime being punctually made in writing by the relevant Covered Bondholder. The depository is responsible for accounting for *imposta sostitutiva* in respect of capital gains realised on each sale, early redemption or redemption of the Covered Bonds (as well as in respect of capital gains realised upon the revocation of its mandate), net of any incurred capital loss, and is required to pay the relevant amount to the Italian tax authorities on behalf of the taxpayer, deducting a corresponding amount from the proceeds to be credited to the Covered Bondholder or using funds provided by the Covered Bondholder for this purpose. Under the *risparmio amministrato* regime, where a sale, early redemption or redemption of the Covered Bonds results in a capital loss, such loss may be deducted from capital gains subsequently realised, within the same securities management, in the same tax year or in the following tax years up to the fourth. Under the *risparmio amministrato* regime, the Covered Bondholder is not required to declare the capital gains in the annual tax return. Capital losses may be carried forward to be offset against capital gains of the same nature realised after 30 June 2014 for an overall amount of: (i) 48.08 per cent. of the relevant capital losses realised before 1 January 2012; (ii) 76.92 per cent. of the capital losses realised from 1 January 2012 to 30 June 2014.

Any capital gains realised or accrued by Italian resident individuals holding the Covered Bonds not in connection with entrepreneurial activity who have entrusted the management of their financial assets, including the Covered Bonds, to an authorised intermediary and have validly opted for the so-called *risparmio gestito* regime (regime provided by Article 7 of Decree 461) will be included in the computation of the annual increase in value of the managed assets accrued, even if not realised, at year end, subject to a 26 per cent. substitute tax, to be paid by the managing authorised intermediary. Under this *risparmio gestito* regime, any depreciation of the managed assets accrued at year end may be carried forward against increase in value of the managed assets accrued in any of the four succeeding tax years. Under the *risparmio gestito* regime, the Covered Bondholder is not required to declare the capital gains realised in the annual tax return. Decreases in value of the management assets may be carried forward to be offset against any subsequent increase in value accrued as of 1 July 2014 for an overall amount of: (i) 48.08 per cent. of the relevant decreases in value registered before 1 January 2012; (ii) 76.92 per cent. of the decreases in value registered from 1 January 2012 to 30 June 2014.

Any capital gains realised by a Covered Bondholder who is a Fund will be included in the result of the relevant portfolio accrued at the end of the tax period. Such result will not be taxed with the Fund, but subsequent distributions in favour of unitholders or shareholders may subject to the Collective Investment Fund Tax.

Any capital gains realised by a Covered Bondholder who is an Italian real estate fund to which the provisions of Decree 351 as subsequently amended apply will be subject neither to *imposta sostitutiva* nor to any other income tax at the level of the real estate investment fund or Real Estate SICAFs.

Any capital gains realised by a Covered Bondholder who is an Italian pension fund (subject to the regime provided for by article 17 of the Legislative Decree No. 252 of 5 December 2005) will be included in the result of the relevant portfolio accrued at the end of the tax period, to be subject to the 20 per cent. substitute tax . The 20 per cent. substitute tax shall apply on the portfolio's results accrued at the end of the tax year from 2015 onwards, but would also apply on a retroactive basis with reference to the portfolio's results accrued at the end of tax year 2014.

As of 1 January 2015, Italian pension funds benefit from a tax credit equal to 9% of the result of the relevant portfolio accrued at the end of the tax period, provided that such pension funds invest in certain medium long term financial assets as identified by the Ministerial Decree of 19 June 2015 published in the Official Gazette – general series No. 175, on 30 July 2015.

Capital gains realised by non-Italian-resident Covered Bondholders from the sale, early redemption or redemption of Covered Bonds issued by an Italian resident Issuer are not subject to Italian taxation, provided that the Covered Bonds are traded on regulated markets.

Capital gains realised by non-Italian resident Covered Bondholders from the sale, early redemption or redemption of Covered Bonds not traded on regulated markets are not subject to the *imposta sostitutiva*, provided that the effective beneficiary: (a) is resident in a country included in the White List (or the New White List, once effective); or (b) is an international entity or body set up in accordance with international agreements which have entered into force in Italy; or (c) is a Central Bank or an entity which manages, *inter alia*, the official reserves of a foreign State; or (d) is an institutional investor which is resident in a country included in the White List (or the New White List, once effective), even if it does not possess the status of a taxpayer in its own country of residence.

If none of the conditions above are met, capital gains realised by non-Italian resident Covered Bondholders from the sale or redemption of Covered Bonds issued by an Italian resident Issuer are subject to the *imposta sostitutiva* at the current rate of 26 per cent.

In any event, non-Italian resident individuals or entities without a permanent establishment in Italy to which the Covered Bonds are connected, that may benefit from a double taxation treaty with Italy providing that capital gains realised upon the sale, early redemption or redemption of Covered Bonds are to be taxed only in the country of tax residence of the recipient, will not be subject to *imposta sostitutiva* in Italy on any capital gains realised upon the sale, early redemption or redemption of Covered Bonds.

Inheritance and gift taxes

Pursuant to Law Decree No. 262 of 3 October 2006 (**Decree No. 262**), converted into Law No. 286 of 24 November 2006 as subsequently amended, the transfers of any valuable asset (including shares, bonds or other securities) as a result of death or donation are taxed as follows:

(a) transfers in favour of spouses and direct descendants or direct ancestors are subject to an inheritance and gift tax applied at a rate of 4 per cent on the value of the inheritance or the gift exceeding € 1,000,000, for each beneficiary;

(b) transfers in favour of relatives to the fourth degree or relatives-in-law to the third degree are subject to an inheritance and gift tax at a rate of 6 per cent on the entire value of the inheritance or the gift. Transfers in favour of brothers/sisters are subject to the 6 per cent inheritance and gift tax on the value of the inheritance or the gift exceeding € 100,000, for each beneficiary; and

(c) any other transfer is, in principle, subject to an inheritance and gift tax applied at a rate of 8 per cent on the entire value of the inheritance or the gift.

If the transfer is made in favour of persons with severe disabilities, the tax is levied at the rate mentioned above in (a), (b) and (c) on the value exceeding, for each beneficiary, €1,500,000.

Transfer tax

Following the repeal of the Italian transfer tax contracts relating to the transfer of securities are subject to the registration tax as follows: (a) public deeds and notarized deeds are subject to fixed registration tax at rate of €200; (b) private deeds are subject to registration tax only in case of use or voluntary registration.

Stamp duty

Pursuant to Article 13 par. 2-ter of Part I of the tariff attached to Presidential Decree No. 642 of 26 October 1972 (**Decree 642**), a proportional stamp duty applies, based on the period accounted, to any periodic reporting communications which may be sent by a financial intermediary to a Covered Bondholder in respect of any Covered Bond which may be held by with such financial intermediary.

The stamp duty applies at a rate of 0.2 per cent.; this stamp duty is determined on the basis of the market value or – if no market value figure is available – the nominal value or redemption amount of the Covered Bond is held. The stamp duty cannot exceed € 14,000 if the Covered Bondholder is not an individual.

The stamp duty applies both to Italian resident and non-Italian resident investors, to the extent that Covered Bonds are held with an Italian-based financial intermediary.

Wealth Tax on securities deposited abroad

According to the provisions set forth by Law No. 214 of 22 December 2011, as amended and supplemented, Italian resident individuals holding the Covered Bonds outside the Italian territory are required to pay an additional tax at a rate of 0.2 per cent.

This tax is calculated on the market value of the Covered Bonds at the end of the relevant year or – if no market value figure is available – the nominal value or the redemption value of such financial assets held outside the Italian territory. The amount of tax due, based on the value indicated by the Covered Bondholder in its own annual tax declaration, must be paid within the same date in which payment of the balance of the annual individual income tax (**IRPEF**) is due.

Taxpayers are entitled to an Italian tax credit equivalent to the amount of wealth taxes paid in the State where the financial assets are held (up to an amount equal to the Italian wealth tax due).

Financial assets held abroad are excluded from the scope of the Wealth Tax if financial such assets are administered by Italian financial intermediaries pursuant to an administration agreement. In this case the above mentioned stamp duty provided for by Article 13 of the tariff attached to Decree 642 does apply.

Withholding under the EU Savings Tax Directive

Under EC Council Directive 2003/48/EC (the **Eu Savings Tax Directive**) on the taxation of savings income in the form of interest payments, EU Member States are required to provide to the tax authorities of other EU Member States details of certain payments of interest or similar income paid or secured by a person established in a EU Member State to or for the benefit of an individual resident in another EU Member State or certain limited types of entities established in another EU Member State.

For a transitional period, Austria may instead apply a withholding system in relation to such payments, deducting tax at rates rising over time to 35 per cent.

A number of non-EU countries (including Switzerland) and certain dependent or associated territories of certain Member States have adopted similar measures (either provision of information or transitional withholding) in relation to payments made by a person within its jurisdiction to, or collected by such a person for, an individual resident or certain limited types of entity established in a Member State. In addition, the Member States have entered into provision of information or transitional withholding arrangements with certain of those dependent or associated territories in relation to payments made by a person in a Member State to, or collected by such a person for, an individual resident or certain limited types of entity established in one of those territories.

On 10 November 2015, the Council of the European Union adopted a Council Directive repealing the EU Savings Tax Directive from 1 January 2017 in the case of Austria and from 1 January 2016 in the case of all other EU Member States (subject to on-going requirements to fulfil administrative obligations such as the reporting and exchange of information relating to, and accounting for withholding taxes on, payments made before those dates). This is to prevent overlap between the EU Savings Tax Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation (as amended by Council Directive 2014/107/EU). The new regime under Council Directie 2011/16/EU (as amended) is in accprdance with the Global Standard released by the Organisation for Economic Co-operation and Development in July 2014. Council Directive 2011/16/EU (as amended) is generally broader in scope than the Saving Directive, although it does not impose withholding taxes. The proposal also provides that, if it proceeds, EU Member States will not be required to apply the new requirements of the Amending Directive.

Implementation in Italy of the EU Savings Tax Directive

Italy has implemented the Saving Directive through Decree No. 84 of 18 April 2005 (**Decree 84**). Under Decree 84, subject to a number of important conditions being met, in the case of interest paid to individuals which qualify as beneficial owners of the interest payment and are resident for tax purposes in another EU Member State, Italian qualified paying agents shall report to the Italian tax authorities details of the relevant payments and personal information on the individual beneficial owner and shall not apply the withholding

tax. Such information is transmitted by the Italian tax authorities to the competent foreign tax authorities of the State of residence of the beneficial owner. On 10 November 2015, the Council of the European Union adopted a Council Directive repealing the EU Savings Tax Directive in order to prevent overlap between the EU Savings Tax Directive and a new automatic exchange of information regime to be implemented under Council Directive 2011/16/EU on Administrative Cooperation in the field of Taxation.

Luxembourg Taxation

The following is a general description of certain Luxembourg withholding tax considerations relating to the Covered Bonds. It does not purport to be a complete analysis of all tax considerations relating to the Covered Bonds, whether in Luxembourg or elsewhere. Prospective purchasers of the Covered Bonds should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and/or disposing of the Covered Bonds and receiving payments of interest, principal and/or other amounts under the Covered Bonds and the consequences of such actions under the tax laws of Luxembourg. This information is based on the laws, regulations and administrative and judicial interpretations presently in force in Luxembourg and is subject to any change in law that may take effect after such date.

Please be aware that the residence concept used under the respective headings below applies for Luxembourg income tax assessment purposes only. Any reference in the present section to a withholding tax or a tax of a similar nature, or to any other concepts, refers to Luxembourg tax law and/or concepts only.

Withholding Tax

All payments of interest and principal by the Issuer in the context of the holding, disposal, redemption or repurchase of the Covered Bonds can be made free and clear of any withholding or deduction for or on account of any taxes of whatsoever nature imposed, levied, withheld, or assessed by Luxembourg or any political subdivision or taxing authority thereof or therein, in accordance with the applicable Luxembourg law, subject however to:

(i) with respect to Luxembourg non-resident investors, the application of the Luxembourg laws of 21 June 2005, as amended, (the **Savings Laws**) implementing the EU Savings Tax Directive (Council Directive 2003/48/EC) and several agreements (the **Agreements**) concluded with certain dependent or associated territories of EU Member States (the **Territories**) and providing for the application of a 35% withholding tax on payments of interest or similar income made or ascribed a paying agent established in Luxembourg to or for the immediate benefit of an individual beneficial owner or a residual entity (within the meaning of the Savings Laws) resident in, or established in, an EU Member State (other than Luxembourg) or one of the Territories unless the relevant recipient has adequately instructed the relevant paying agent to provide details of the relevant payments of interest or similar income to the competent Luxembourg fiscal authority in order for such information to be communicated to the competent tax authorities of the beneficiary's country of residence or establishment, or, in the case of an individual beneficial owner, has provided a tax certificate issued by the fiscal authorities of his/her country of residence in the required format to the relevant paying agent. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the the Covered Bonds coming within the scope of the Savings Laws will be subject to a withholding tax at a rate of 35%.

Luxembourg has abolished the withholding system with effect from 1 January 2015, in favour of automatic information exchange under the EU Savings Tax Directive;

(ii) with respect to Luxembourg resident investors, to the application of the Luxembourg law of 23 December 2005, as amended, (the **Relibi Law**) which has introduced a 10% withholding tax on certain payments of interest made to certain Luxembourg resident individuals.

Under the Relibi Law, payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to an individual beneficial owner who is a resident of Luxembourg or to a residual entity (within the meaning of the Savings Laws) established in an EU Member State (other than Luxembourg) or one of the Territories and securing such payments for the benefit of such individual beneficial owner will be subject to a withholding tax of 10%. Such withholding tax will be in full discharge of income tax if the beneficial owner is an individual acting in the course of the management of his/her private wealth. Responsibility for the withholding of the tax will be assumed by the Luxembourg paying agent. Payments of interest under the the Covered Bonds coming within the scope of the Relibi Law will be subject to a withholding tax at a rate of 10 %.

Responsibility for the withholding of tax in application of the above-mentioned Luxembourg Savings Laws and Relibi Law is assumed by the Luxembourg paying agent within the meaning of these laws and not by the Issuer.

Foreign Account Tax Compliance Act

Sections 1471 through 1474 of the U.S. Internal Revenue Code of 1986 (**FATCA**) impose a new reporting regime and potentially a 30% withholding tax with respect to certain payments to (i) any non-U.S. financial institution (a "foreign financial institution", or **FFI** (as defined by FATCA)) that does not become a **Participating FFI** by entering into an agreement with the U.S. Internal Revenue Service (**IRS**) to provide the IRS with certain information in respect of its account holders and investors or is not otherwise exempt from or in deemed compliance with FATCA and (ii) any investor (unless otherwise exempt from FATCA) that does not provide information sufficient to determine whether the investor is a U.S. person or should otherwise be treated as holding a "United States account" of the Issuer (a "Recalcitrant Holder"). The Issuer is classified as an FFI and the Guarantor may be classified as FFT.

The new withholding regime is now in effect for payments from sources within the United States and may apply to "**foreign passthru payments**" (a term not yet defined) no earlier than 1 January 2017. This withholding would potentially apply to payments in respect of (i) any Covered Bonds characterised as debt (or which are not otherwise characterized as equity and have a fixed term) for U.S. federal tax purposes that are issued on or after the "**grandfathering date**", which is the date that is six months after the date on which final U.S. Treasury regulations defining the term foreign passthru payment are filed with the Federal Register, or which are materially modified after the grandfathering date and (ii) any Covered Bonds characterised as equity or which do not have a fixed term for U.S. federal tax purposes, whenever issued. If Covered Bonds are issued on or before the grandfathering date, and additional Covered Bonds of the same series are issued after that date, the additional Covered Bonds may not be treated as grandfathered, which may have negative consequences for the existing Covered Bonds, including a negative impact on market price.

The United States and a number of other jurisdictions have negotiated intergovernmental agreements to facilitate the implementation of FATCA (each, an **IGA**). Pursuant to FATCA and the "Model 1" and "Model 2" IGAs released by the United States, an FFI in an IGA signatory country could be treated as a "**Reporting FI**" not subject to withholding under FATCA on any payments it receives. Further, an FFI in an IGA jurisdiction would generally not be required to withhold under FATCA or an IGA (or any law implementing an IGA) (any such withholding being **FATCA Withholding**) from payments it makes. Under each Model IGA, a Reporting FI would still be required to report certain information in respect of its account holders and investors to its home government or to the IRS. The United States and Italy have entered into an agreement (the **U.S.-Italy IGA**) based largely on the Model 1 IGA.

If the Issuer and Guarantor are treated as Reporting FIs pursuant to the U.S.-Italy IGA they do not anticipate that they will be obliged to deduct any FATCA Withholding on payments they make. There can be no assurance, however, that the Issuer and Guarantor will be treated as Reporting FIs, or that they would in the future not be required to deduct FATCA Withholding from payments they make. Accordingly,, the Issuer, the Guarantor and financial institutions through which payments on the Covered Bonds are made may be required to withhold FATCA Withholding if (i) any FFI through or to which payment on such Covered Bonds is made is not a Participating FFI, a Reporting FI, or otherwise exempt from or in deemed compliance with FATCA or (ii) an investor is a Recalcitrant Holder.

It is expected that FATCA will not affect the amount of any payments made under, or in respect of, the Covered Bonds by the Issuer, the Guarantor, any paying agent and the depositary, given that each of the entities in the payment chain between the Issuer and with the partecipants in the clearing systems is a major financial institution whose business is dependent on compliance with FATCA and that any alternative approach introduced under an IGA will be unlikely to affect the Covered Bonds.

FATCA is particularly complex and its application is uncertain at this time. The above description is based in part on regulations, official guidance and model IGAs, all of which are subject to change or may be implemented in a materially different form. Prospective investors should consult their tax advisers on how these rules may apply to the Issuer and to payments they may receive in connection with the Covered Bonds.

*The proposed financial transactions tax (**FTT**)*

On 14 February 2013, the European Commission published a proposal (the **Commission's Proposal**) for a Directive for a common FTT in Belgium, Germany, Estonia, Greece, Spain, France, Italy, Austria, Portugal, Slovenia and Slovakia (the **participating Member States**).

The Commission's Proposed has very broad scope and could, if introduced in its current form, apply to certain dealings in Covered Bonds (including secondary market transactions) in certain circumstances. The issuance and subscription of Covered Bonds should, however, be exempt.

Under the Commission's Proposal the FTT could apply in certain circumstances to persons both within and outside of the participating Member States. Generally, it would apply to certain dealings in Covered Bonds where at least one party is a financial institution, and at least one party is established in a participating Member State. A financial institution may be, or be deemed to be, "established" in a participating Member State in a broad range of circumstances, including (a) by transacting with a person established in a participating Member State or (b) where the financial instrument which is subject to the dealings is issued in a participating Member State.

Joint statements issued by participating Member States indicate an intention to implement the FTT by 1 January 2016.

However, the FTT proposal remains subject to negotiation between the participating Member States. It may therefore be altered prior to any implementation, the time of which remains unclear.

Additional EU Member States may decide to participate. Prospective holders of the Shares are advised to seek their own professional advice in relation to the FTT.

SUBSCRIPTION AND SALE

Covered Bonds may be sold from time to time by the Issuer to the Dealers. The arrangements under which Covered Bonds may from time to time be agreed to be sold by the Issuer to, and purchased by, the Dealers are set out in the Dealer Agreement. The Dealer Agreement provides for, *inter alia*, an indemnity to the Dealer against certain liabilities in connection with the offer and sale of the Covered Bonds. The Dealer Agreement also provides for the resignation or termination of appointment of existing Dealers and for the appointment of additional or other dealers either generally in respect of the Programme or in relation to a particular Series. The Dealer Agreement contains, *inter alia*, stabilising provisions.

Subscription Agreements

Any Subscription Agreement between the Issuer and the Dealer and/or any additional or other dealers, from time to time, for the sale and purchase of Covered Bonds (each a **Relevant Dealer**) will, *inter alia,* provide for the price at which the relevant Covered Bonds will be subscribed for by the Relevant Dealers and the commissions or other agreed deductibles (if any) payable or allowable by the Issuer in respect of such purchase.

Each Subscription Agreement will also provide for the confirmation of the appointment of the Representative of the Covered Bondholders by the Relevant Dealer as initial holder of the Covered Bonds then being issued.

Selling restrictions

Public Offer Selling Restriction under the Prospectus Directive

(c) at any time in any other circumstances falling within Article 3(2) of the Prospectus Directive,

provided that no such offer of Covered Bonds referred to in (a) to (c) above shall require the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive.

For the purposes of this provision, (i) the expression an "**offer of Covered Bonds to the public**" in relation to any Covered Bonds in any Relevant Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the Covered Bonds to be offered so as to enable an investor to decide to purchase or subscribe the Covered Bonds, as the same may be varied in that Member State by any measure implementing the Prospectus Directive in that Member State, (ii) the expression **Prospectus Directive** means Directive 2003/71/EC (and the amendments thereto, including the 2010 Amending Directive), and includes any relevant implementing measure in the Relevant Member State, and (iii) the expression **2010 Amending Directive** means Directive 2010/73/EU.

Dealers transacting with the Issuer

Certain of the Dealers and their affiliates have engaged, and may in the future engage, in investment banking and/or commercial banking transactions with, and may perform services for, the Issuer and their affiliates in the ordinary course of business. In addition, in the ordinary course of their business activities, the Dealers and their affiliates may make or hold a broad array of investments and actively trade debt and equity securities (or related derivative securities) and financial instruments (including bank loans) for their own account and for the accounts of their customers. Such investments and securities activities may involve securities and/or instruments of the Issuer or Issuer's affiliates. Certain of the Dealers or their affiliates that have a lending relationship with the Issuer routinely hedge their credit exposure to the Issuer consistent with their customary risk management policies. Typically, such Dealers and their affiliates would hedge such exposure by entering into transactions which consist of either the purchase of credit default swaps or the creation of short positions in securities, including potentially the Covered Bonds issued under the Programme. Any such short positions could adversely affect future trading prices of Covered Bonds issued under the Programme. The Dealers and their affiliates may also make investment recommendations and/or publish or express independent research views in respect of such securities or financial instruments and may hold, or recommend to clients that they acquire, long and/or short positions in such securities and instruments. For avoidance of doubts the term "affiliates" in this paragraph includes also parent companies.
